Depth profiles — Dirty dose-to-water

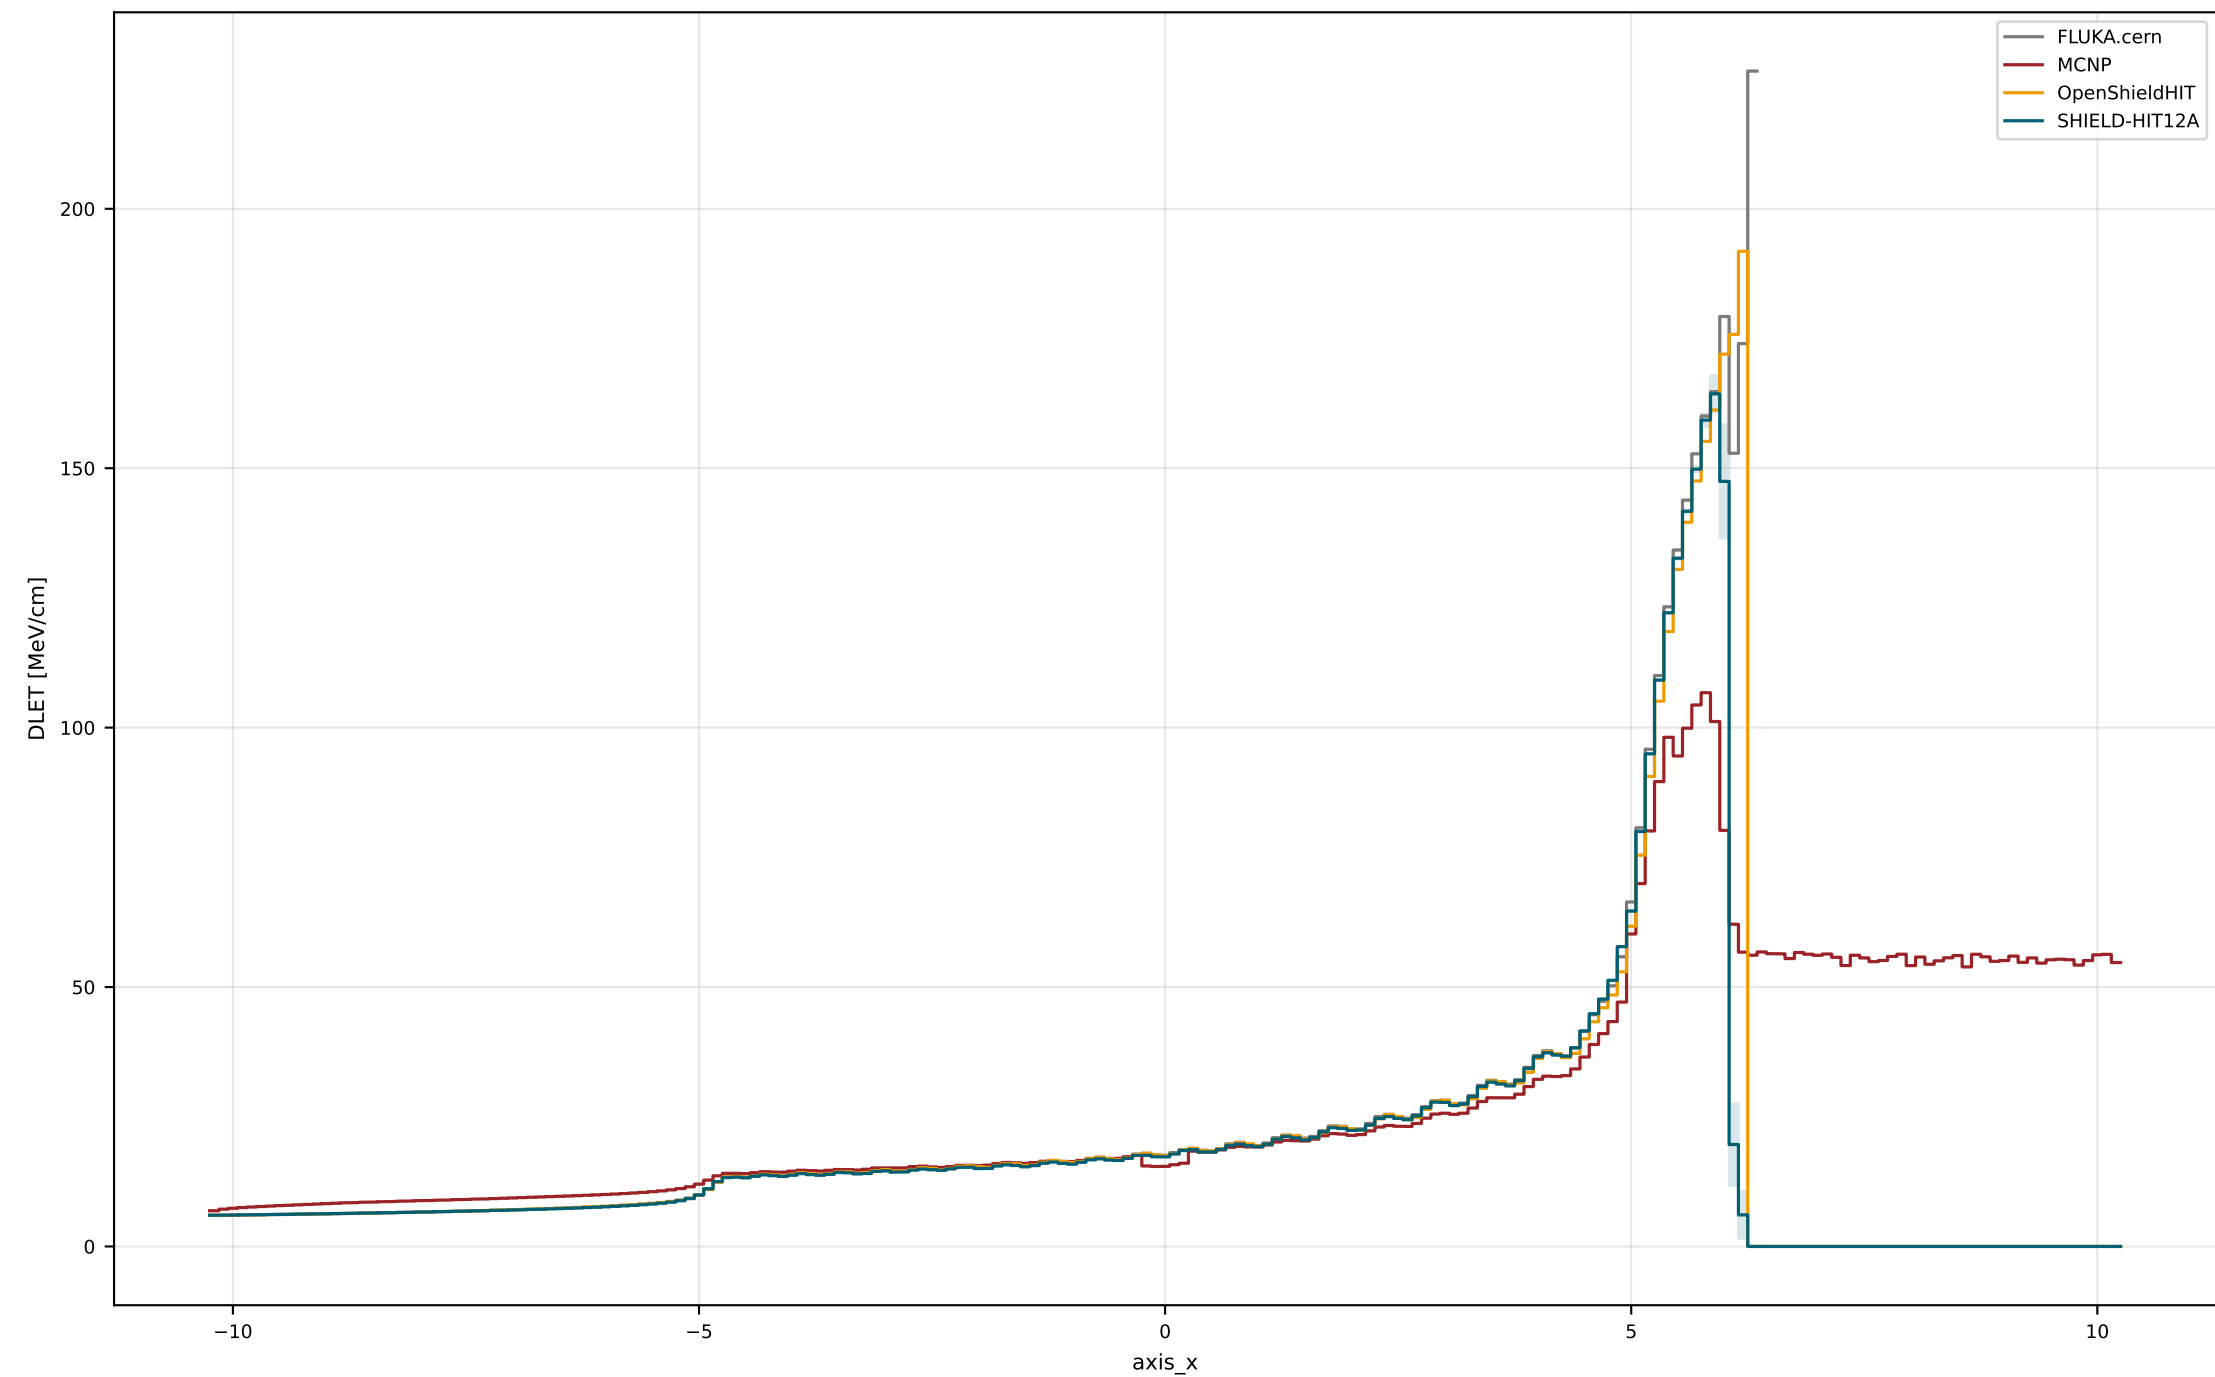

Depth profiles — D-LET water

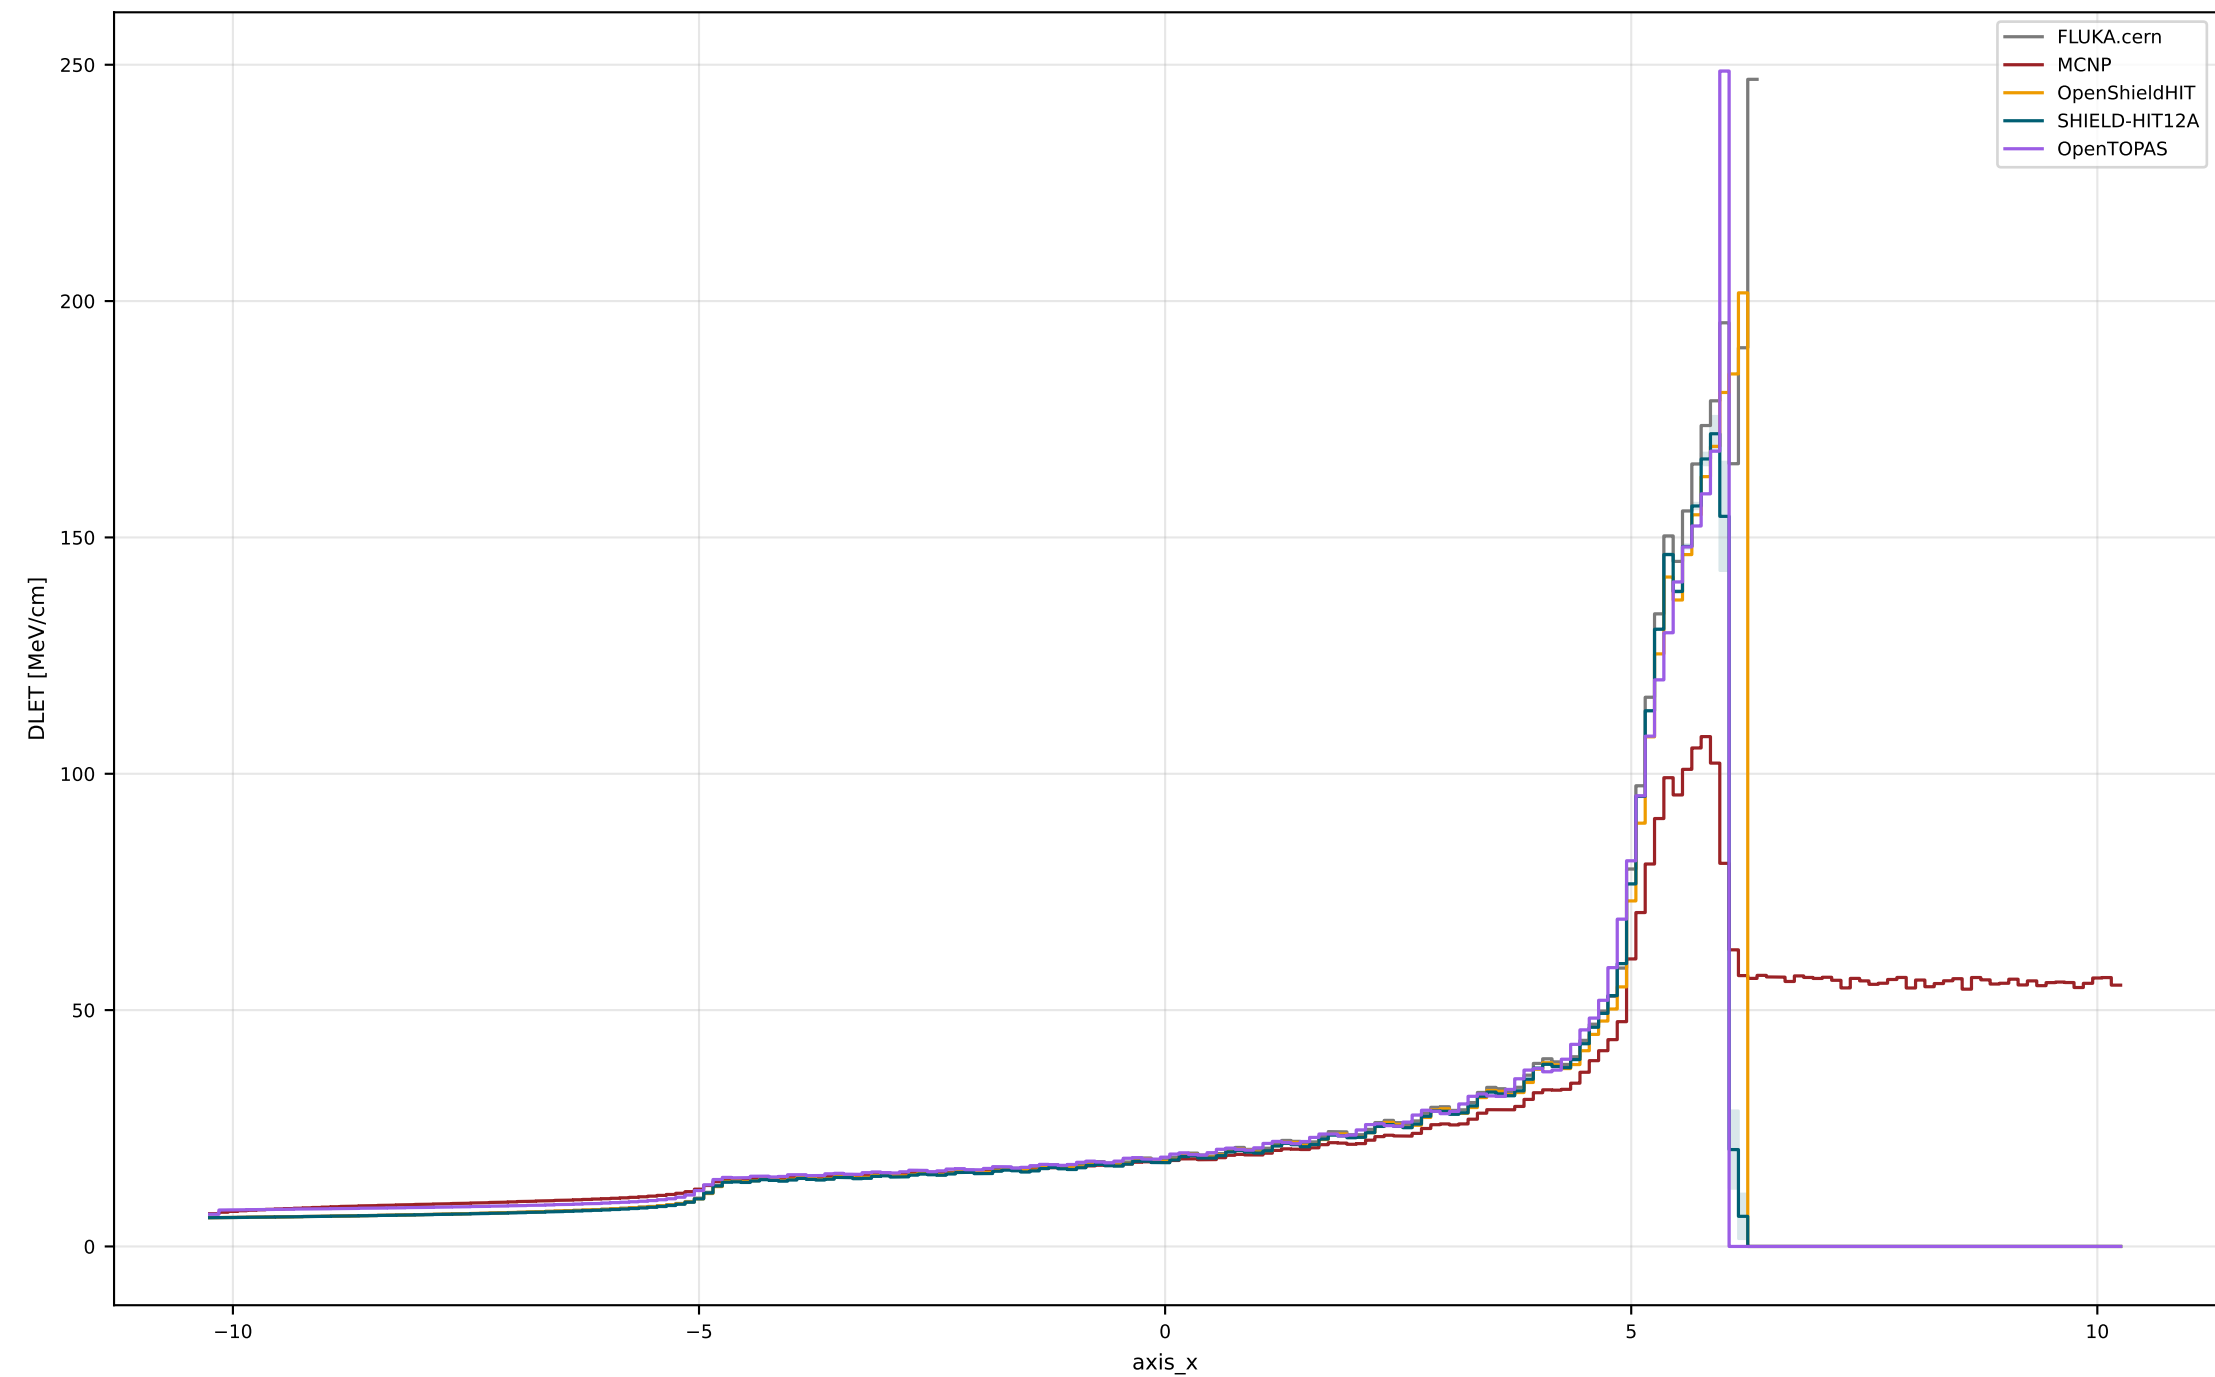

# Depth profiles — D-LET

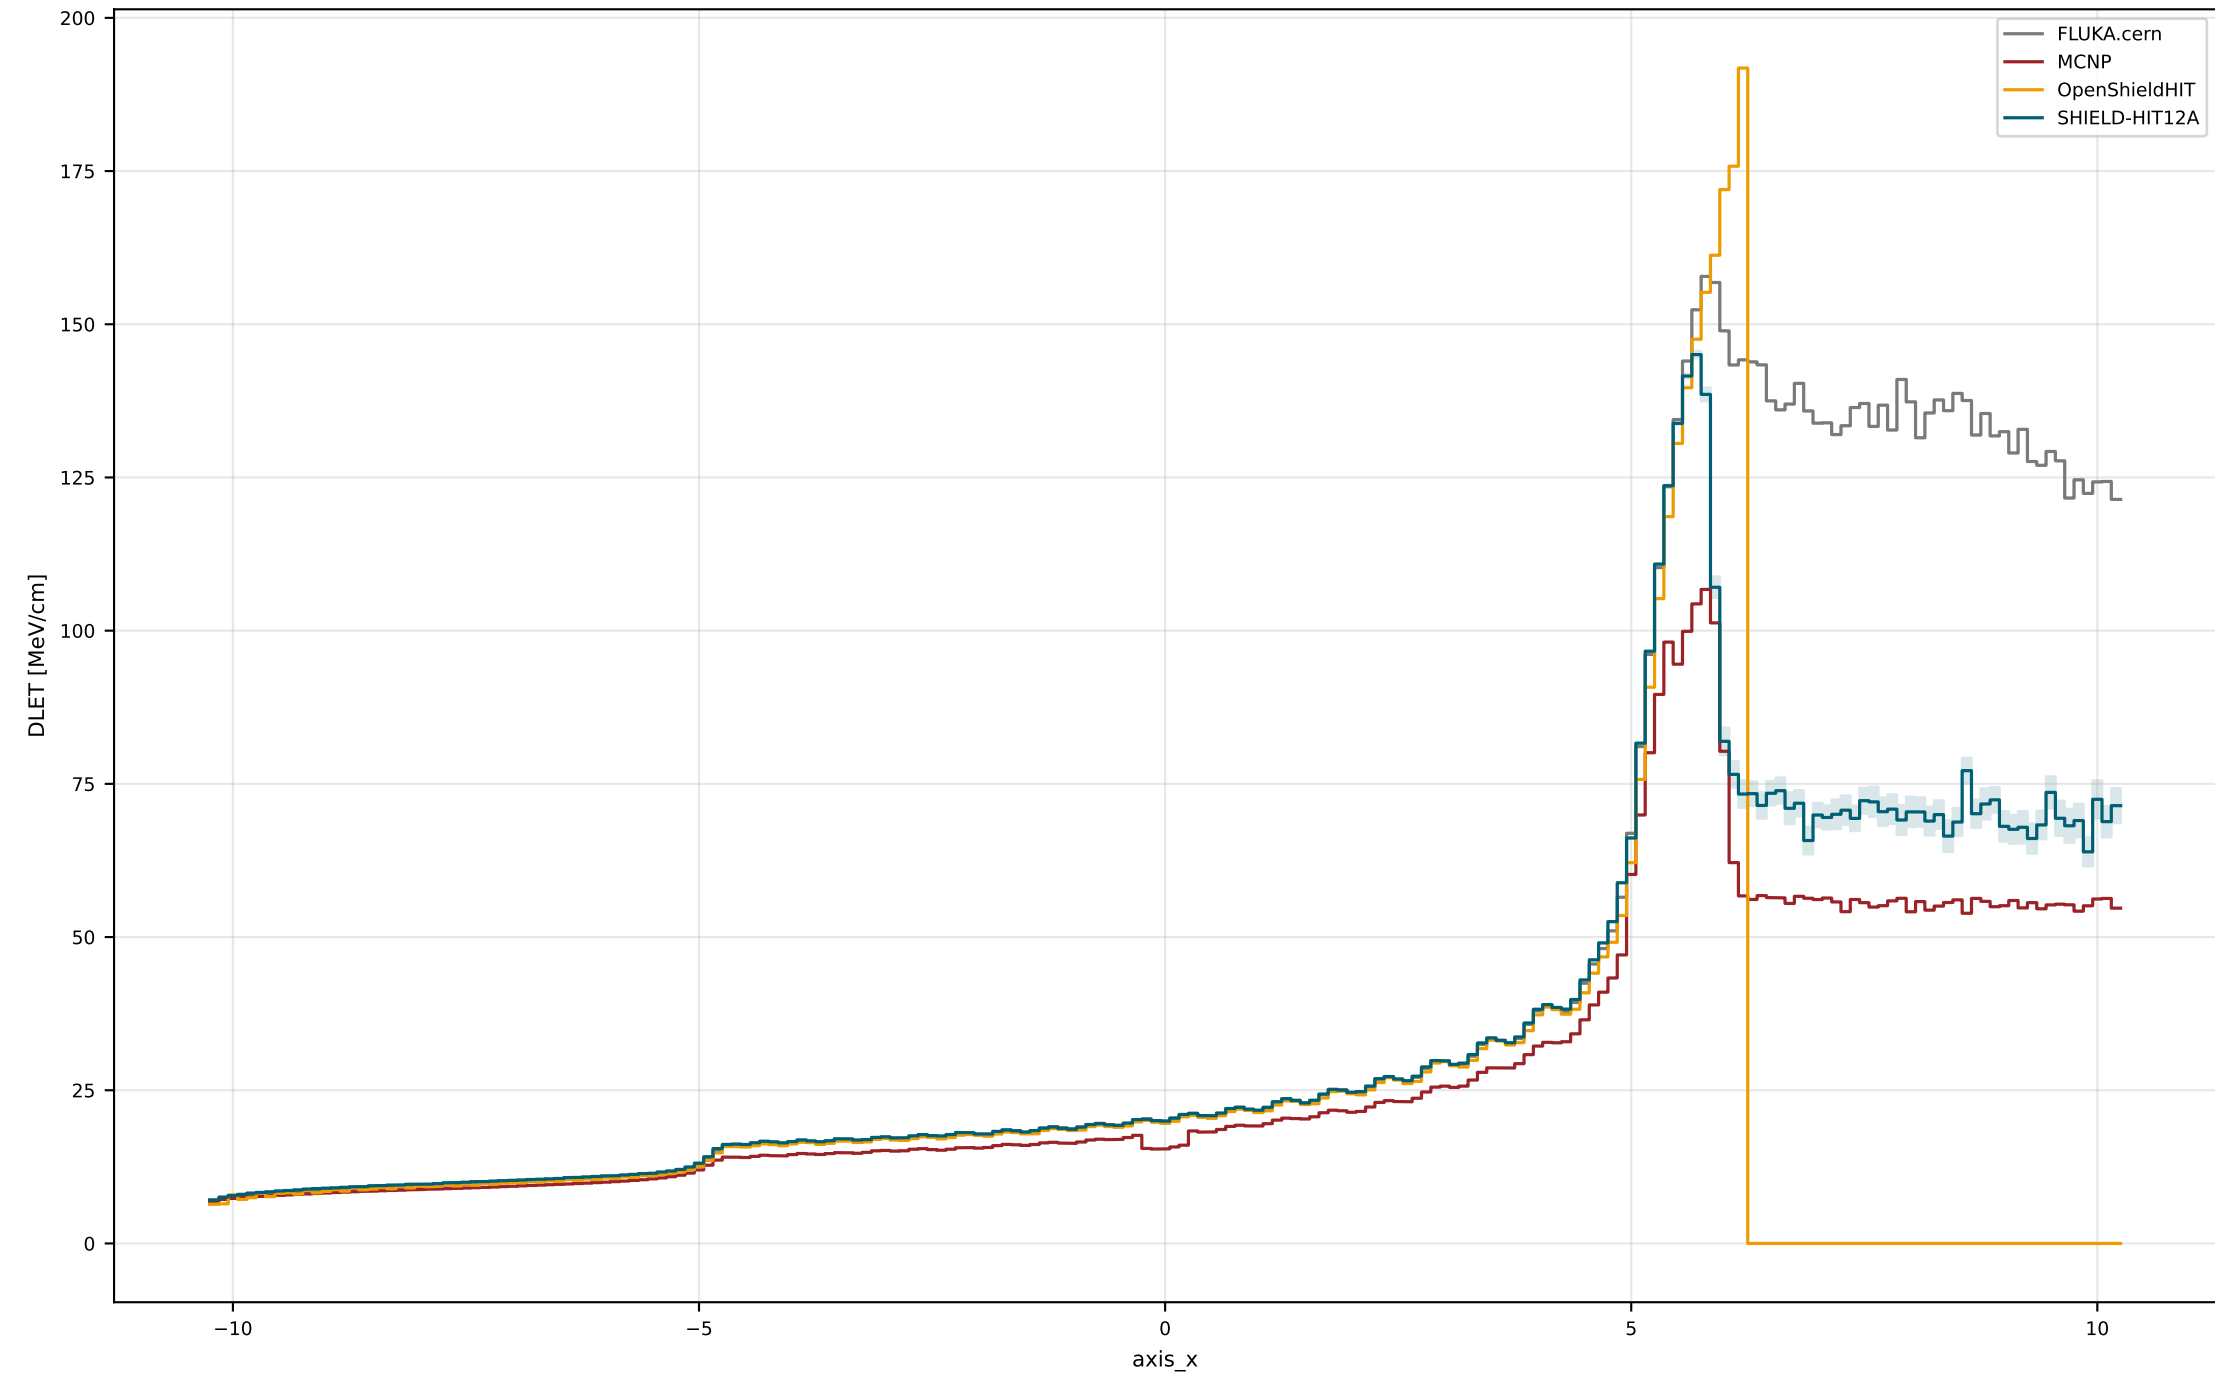

Depth profiles — D-LET water (primary protons)

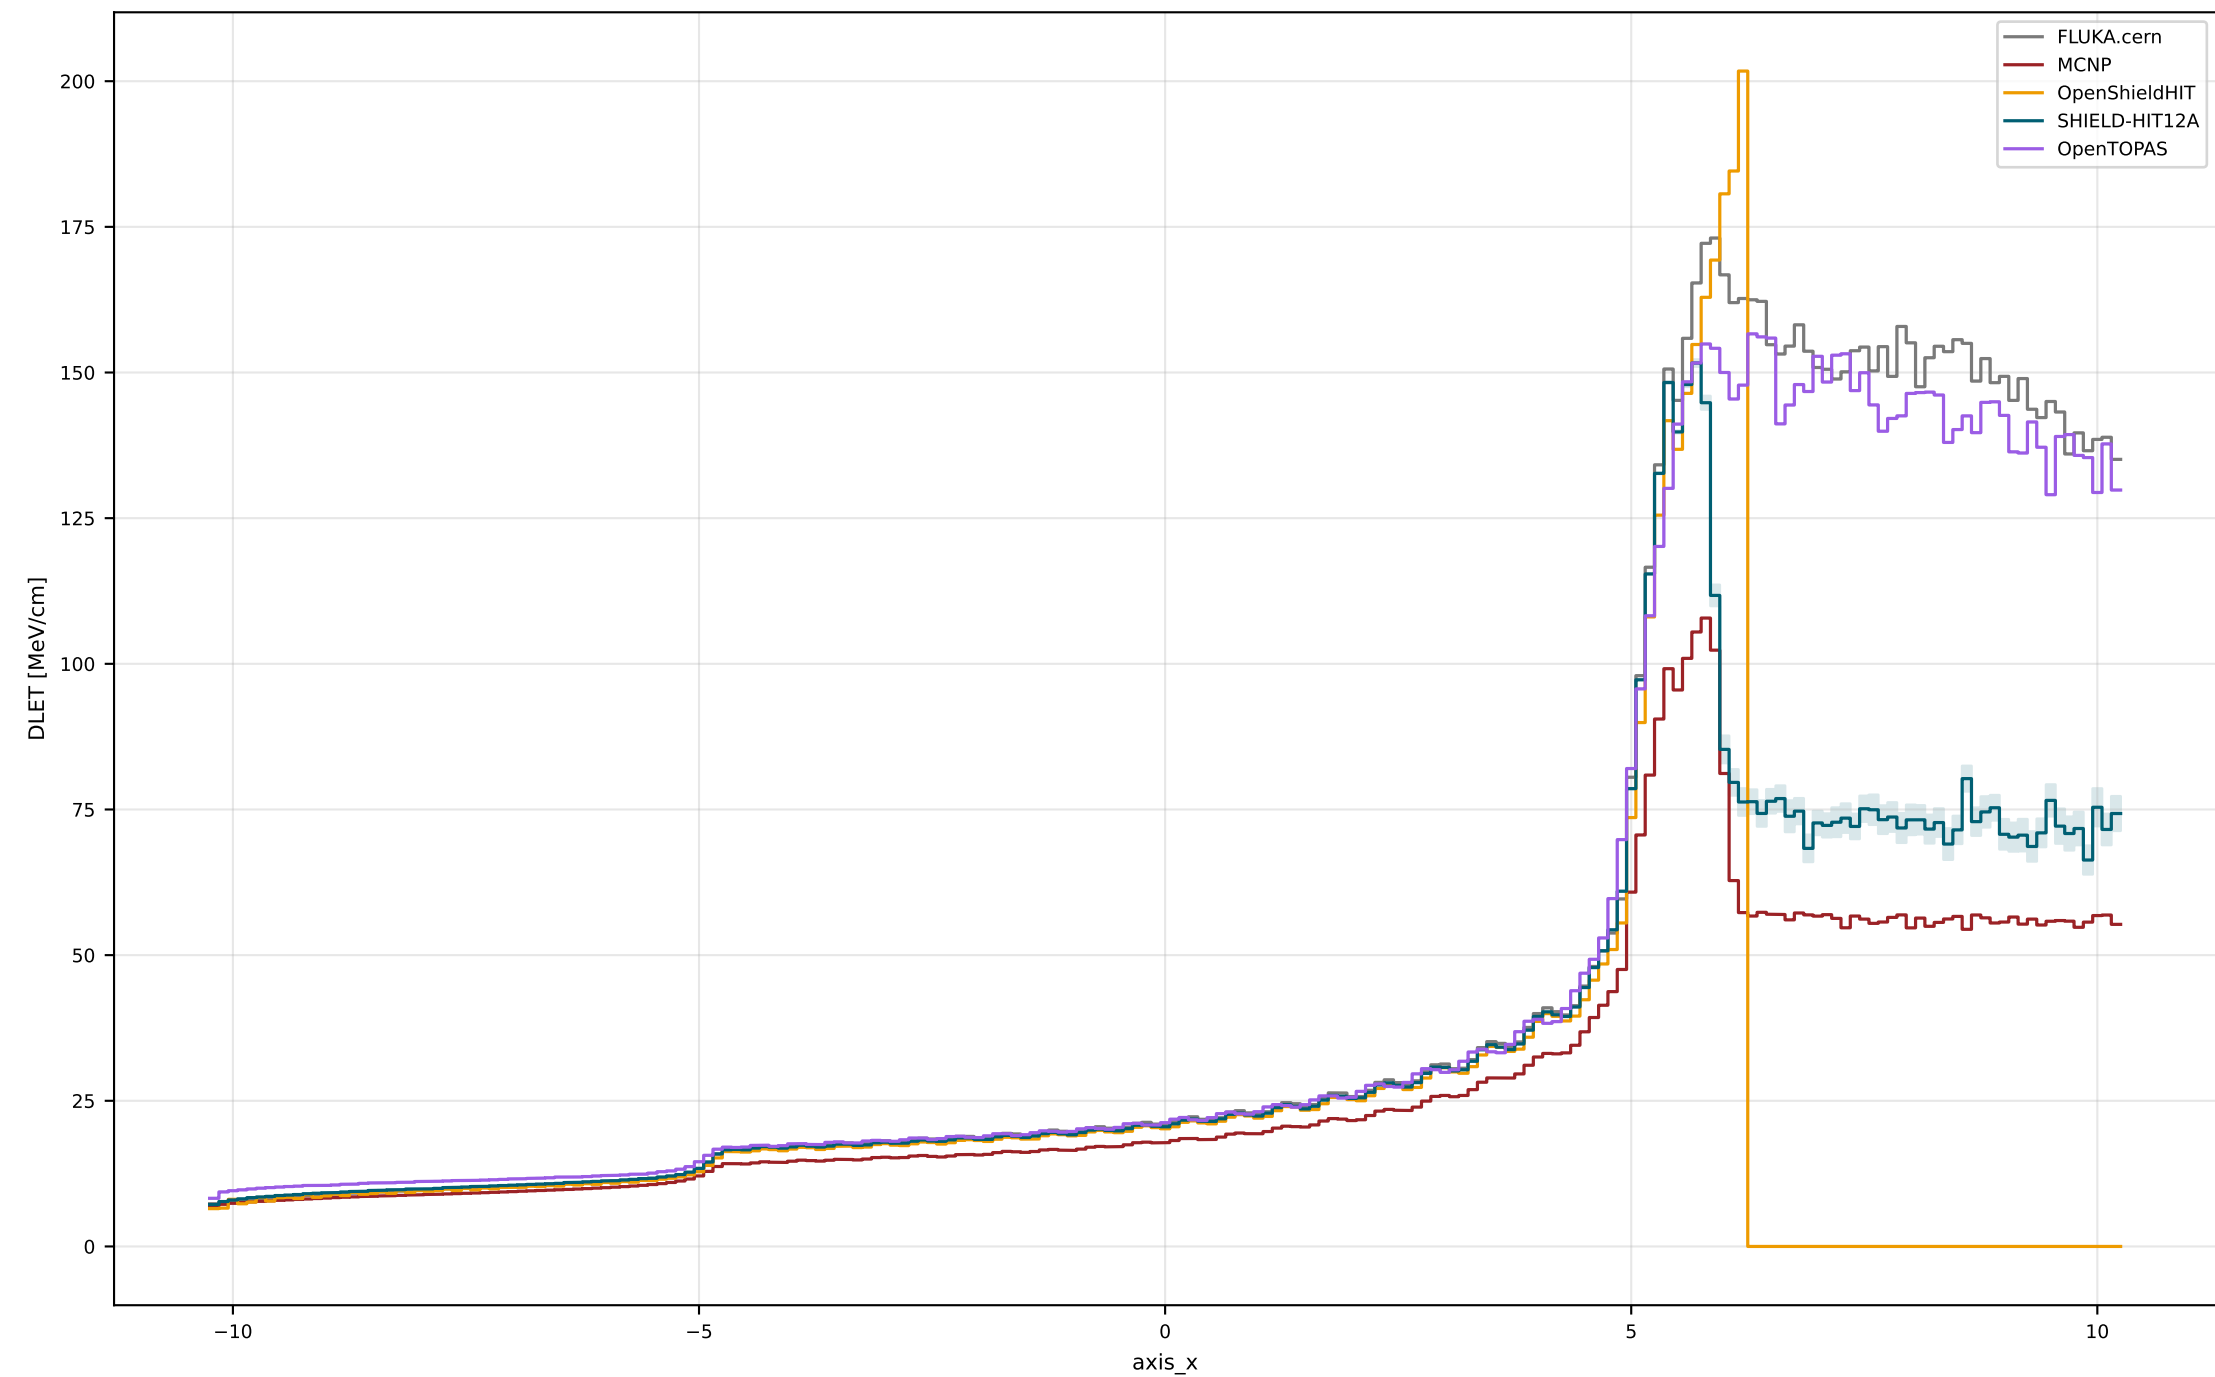

Depth profiles — D-LET (primary protons)

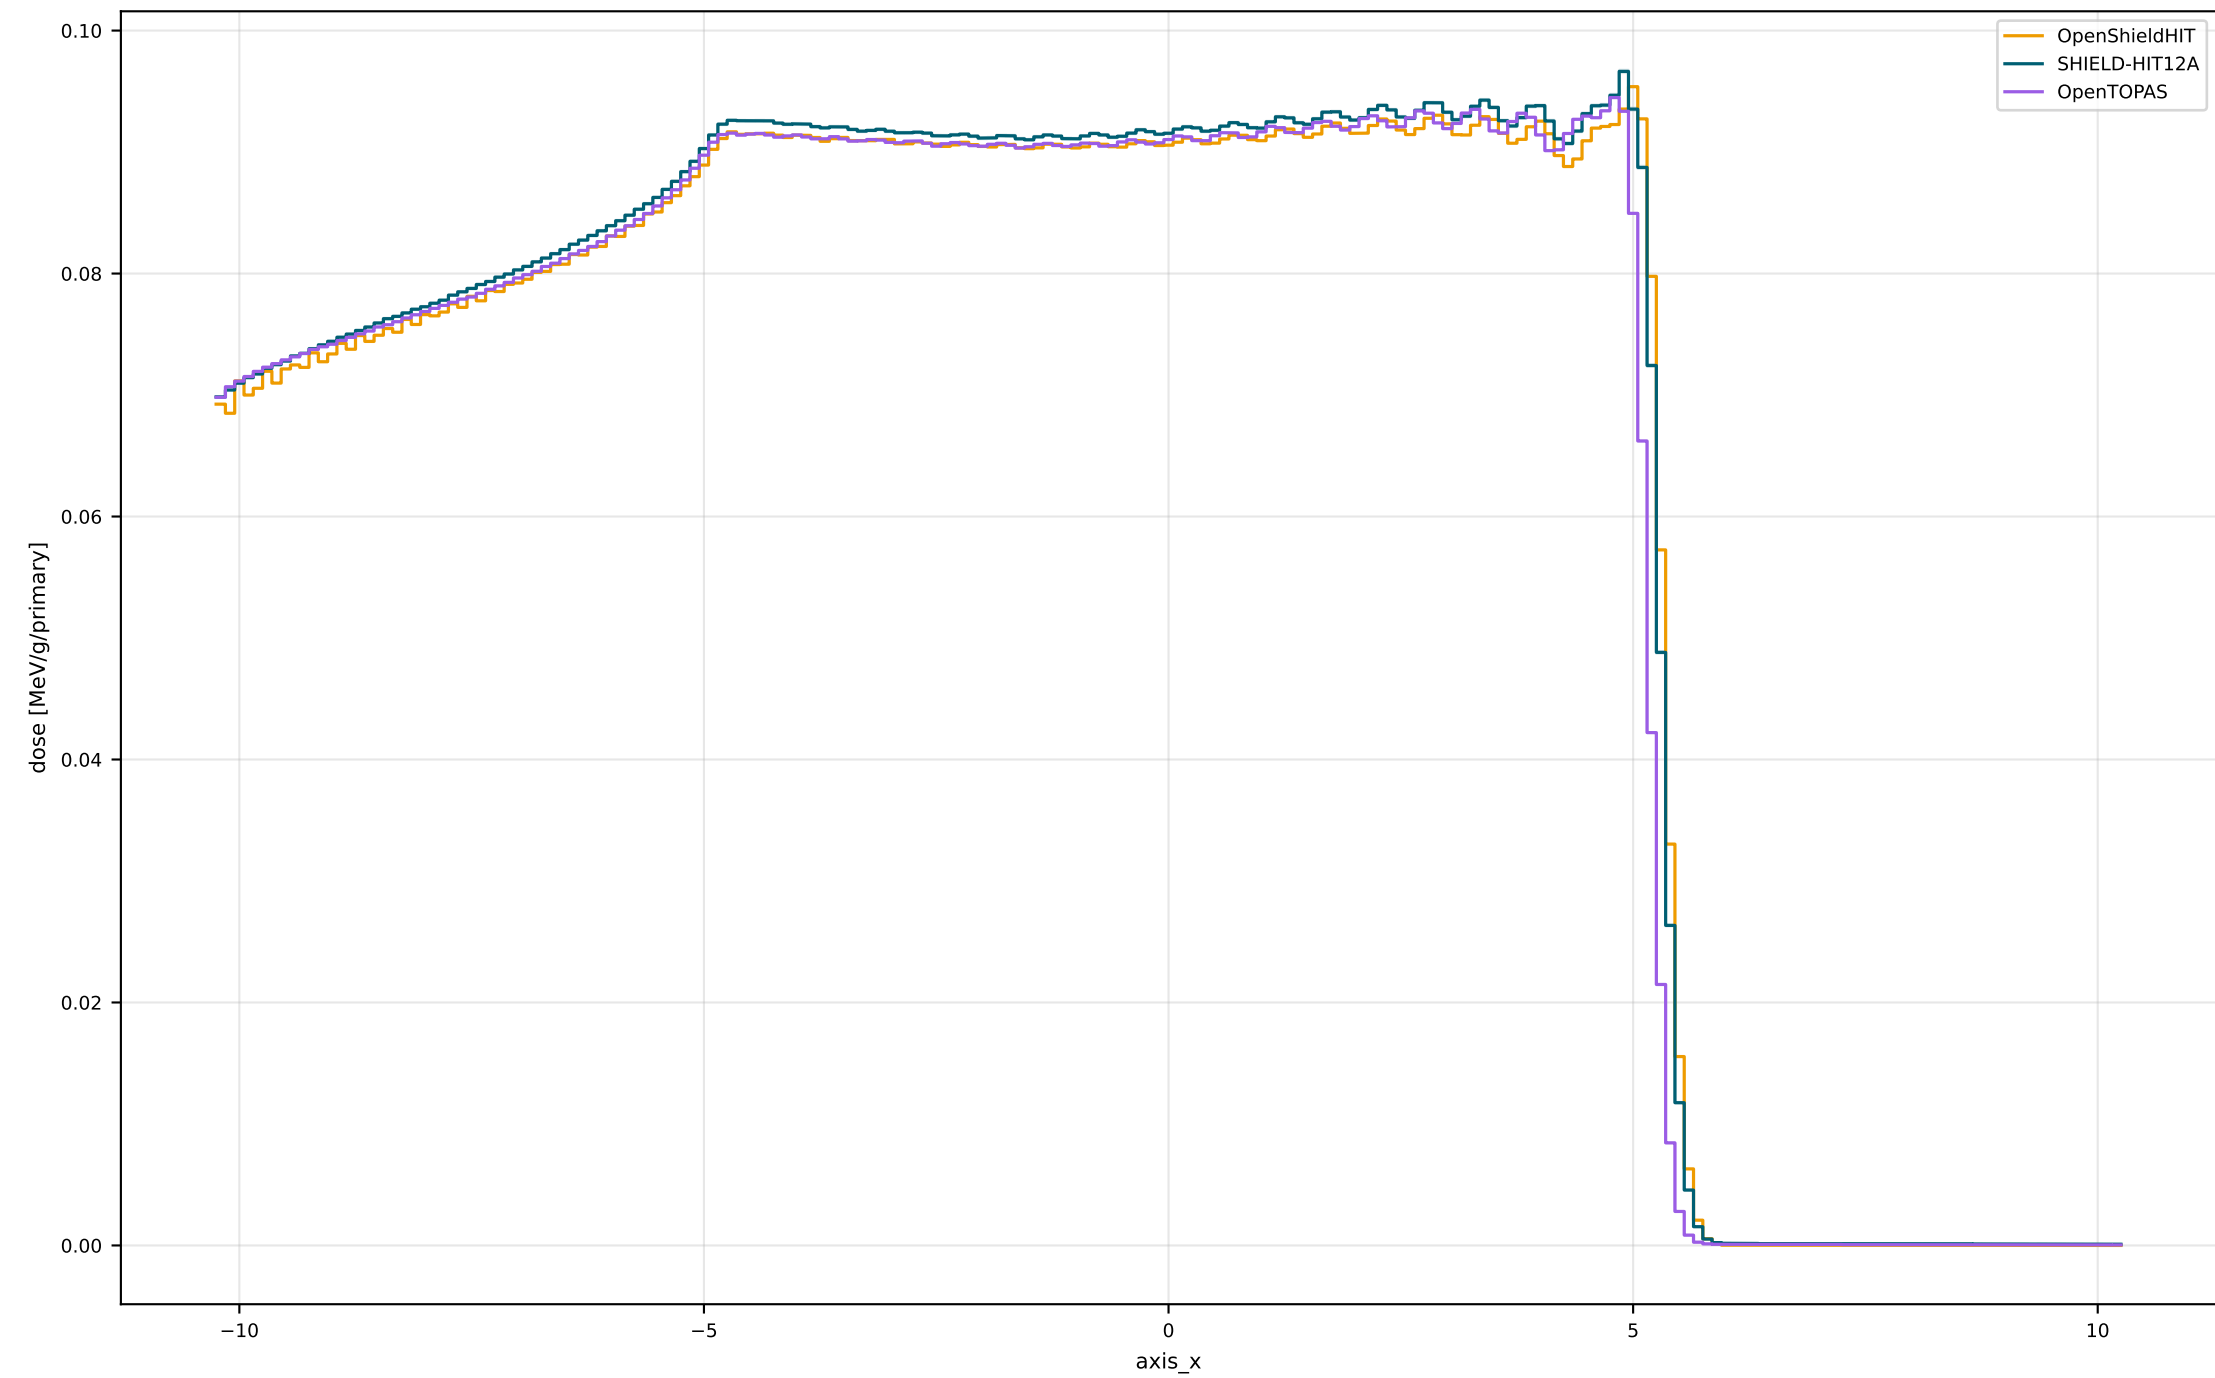

Depth profiles — D-LET water (protons)

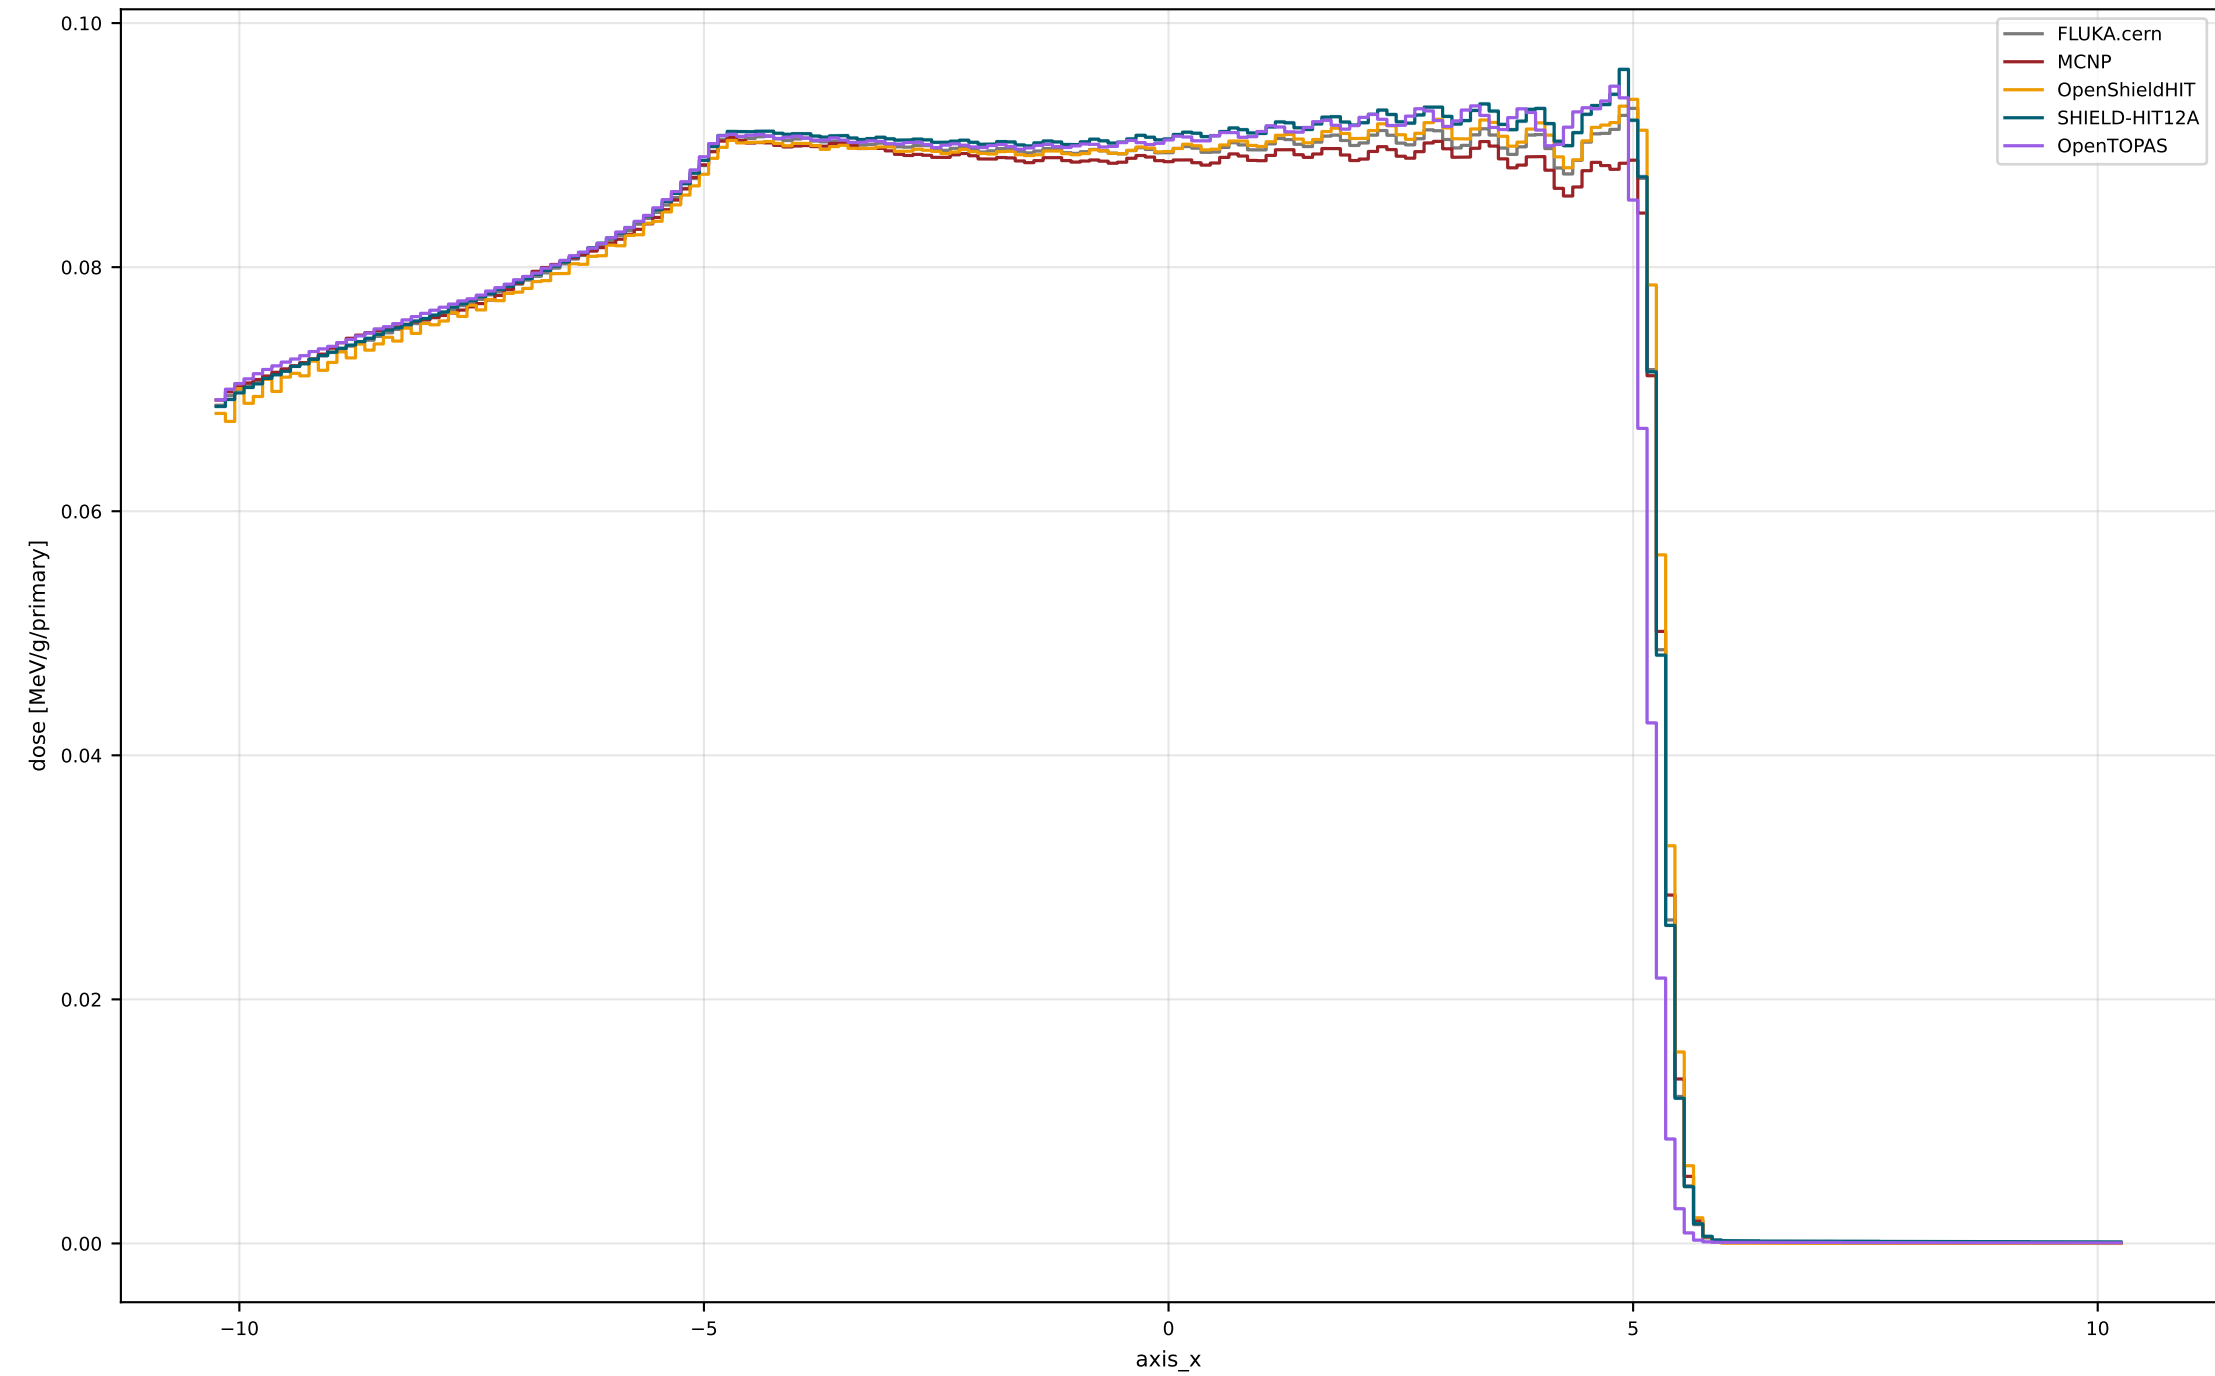

Depth profiles — D-LET (protons)

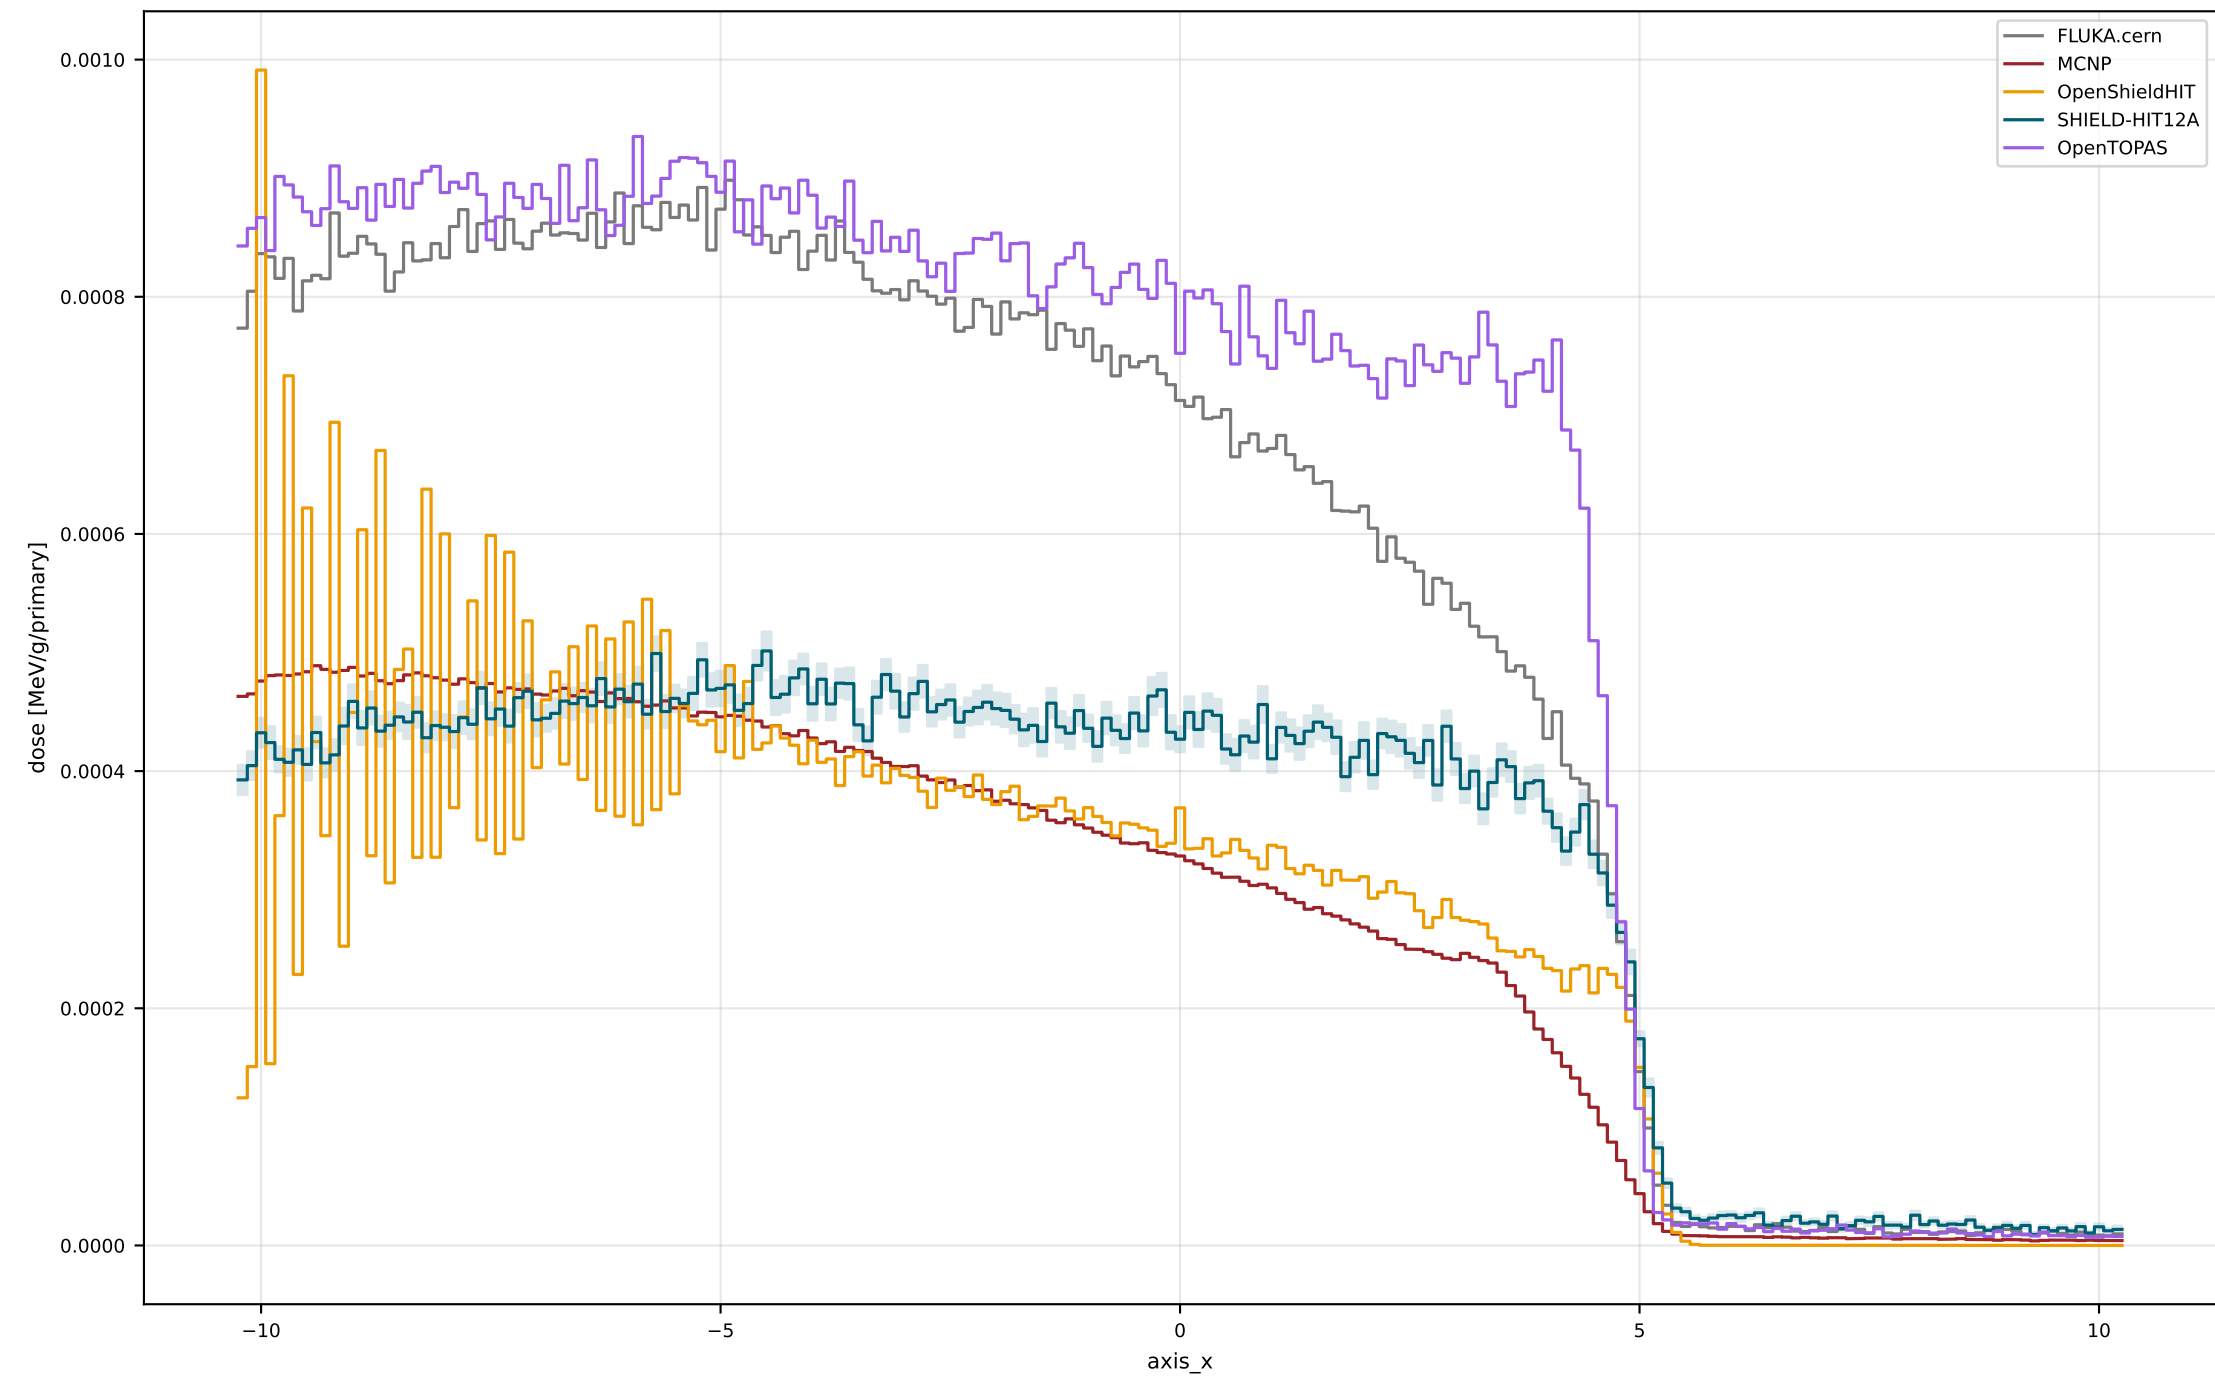

Depth profiles — Dose-to-water

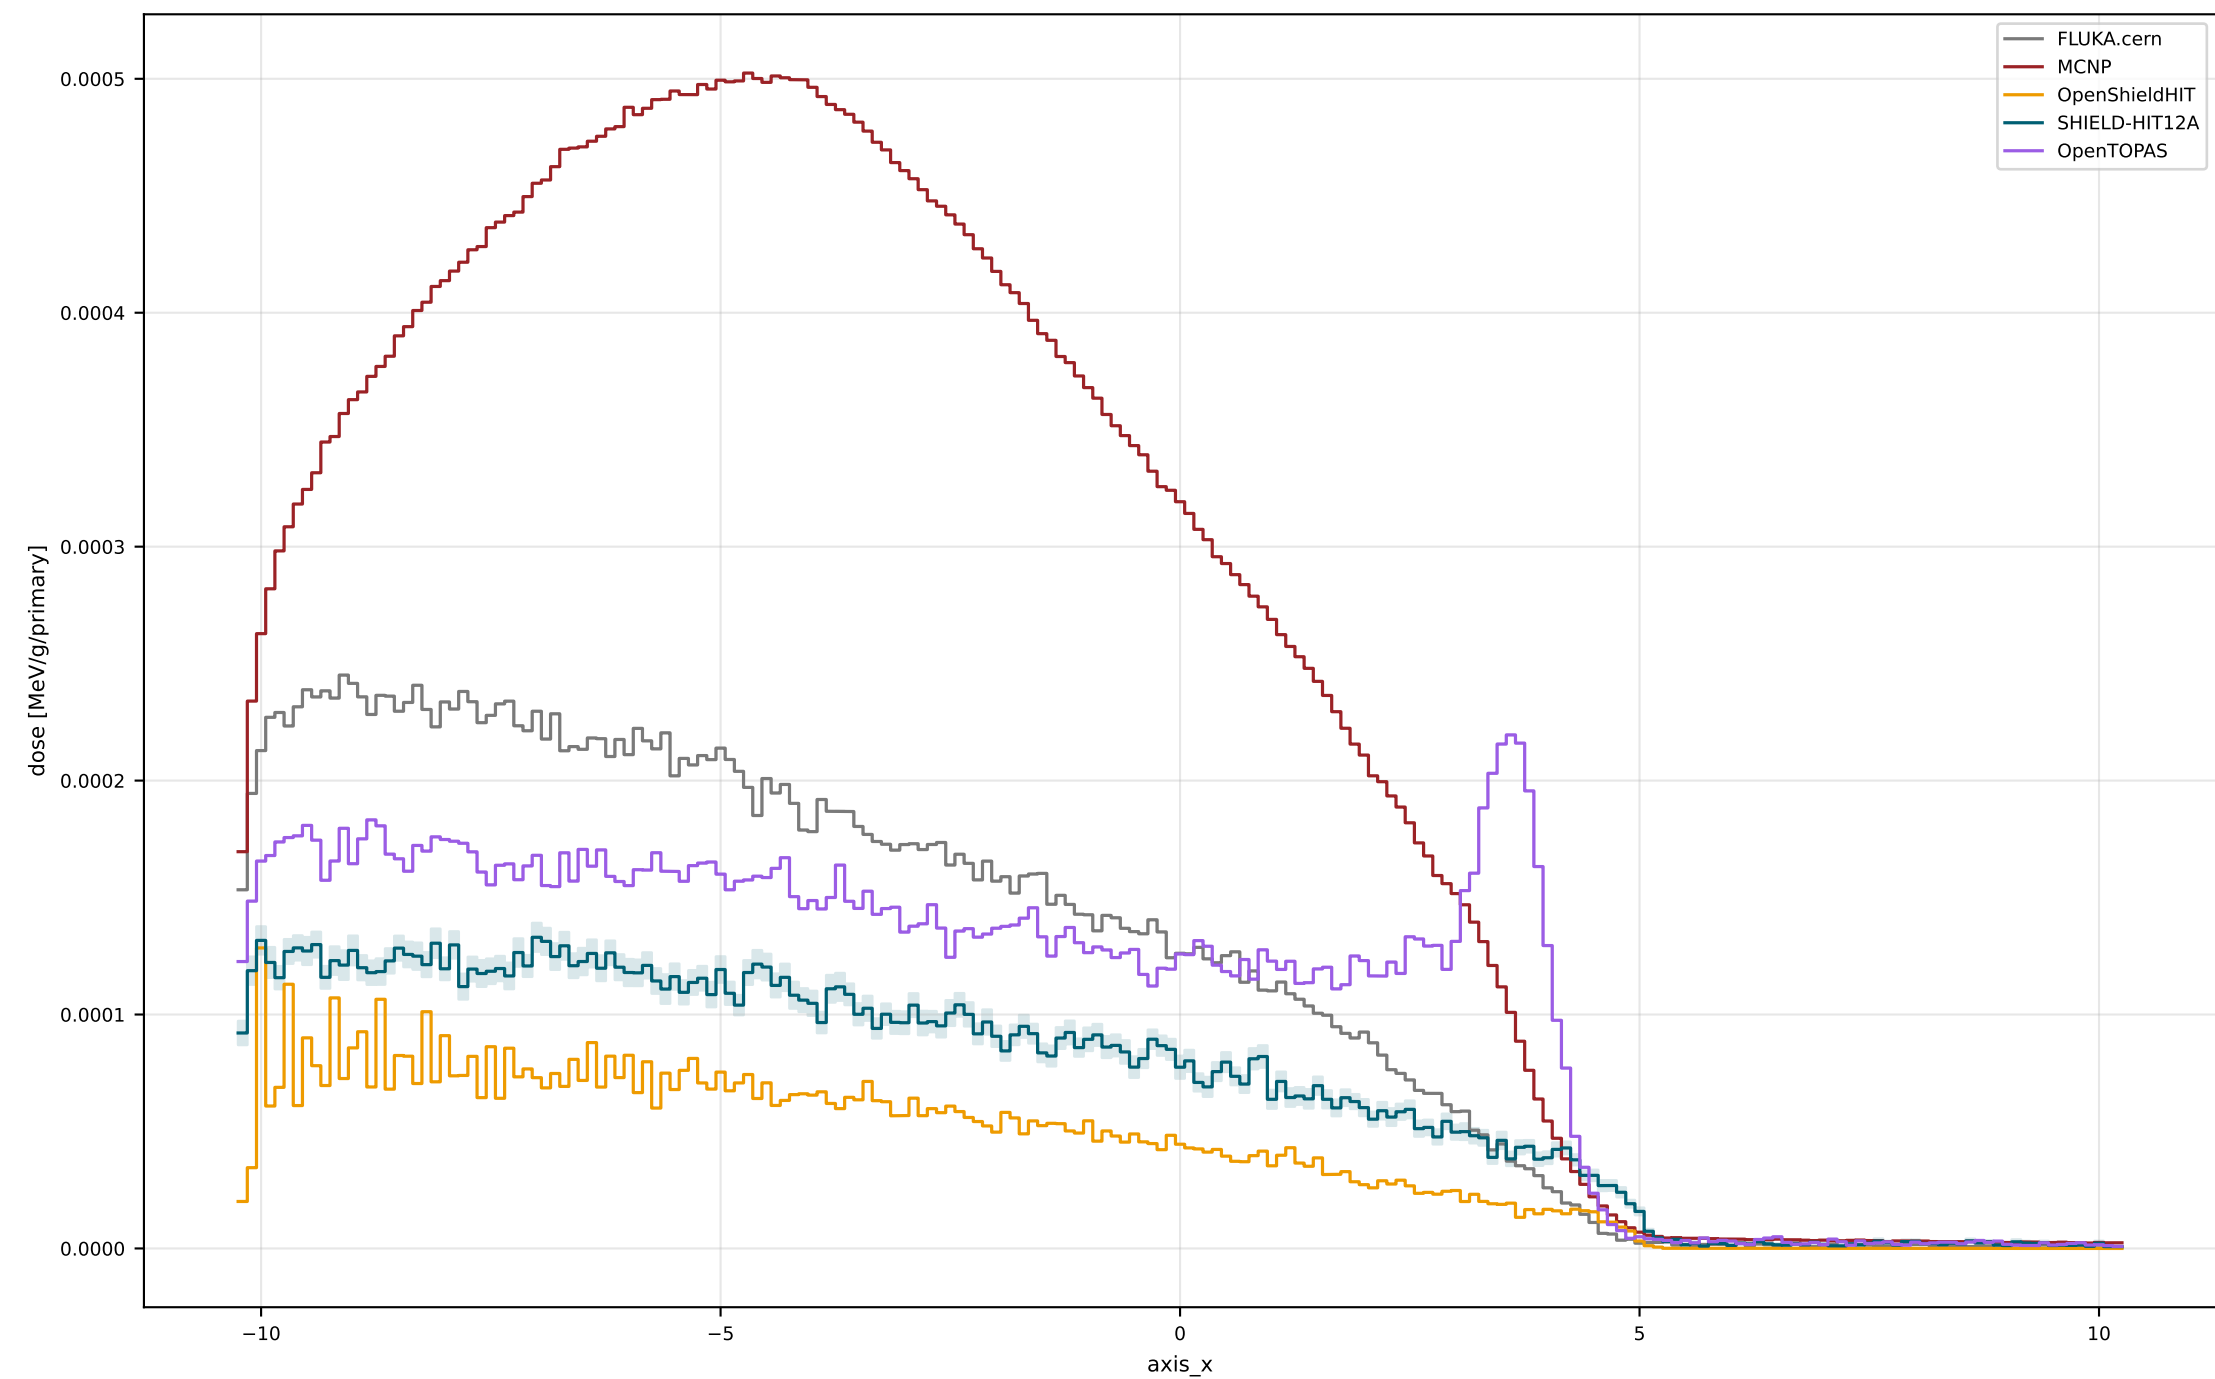

Depth profiles — Dose

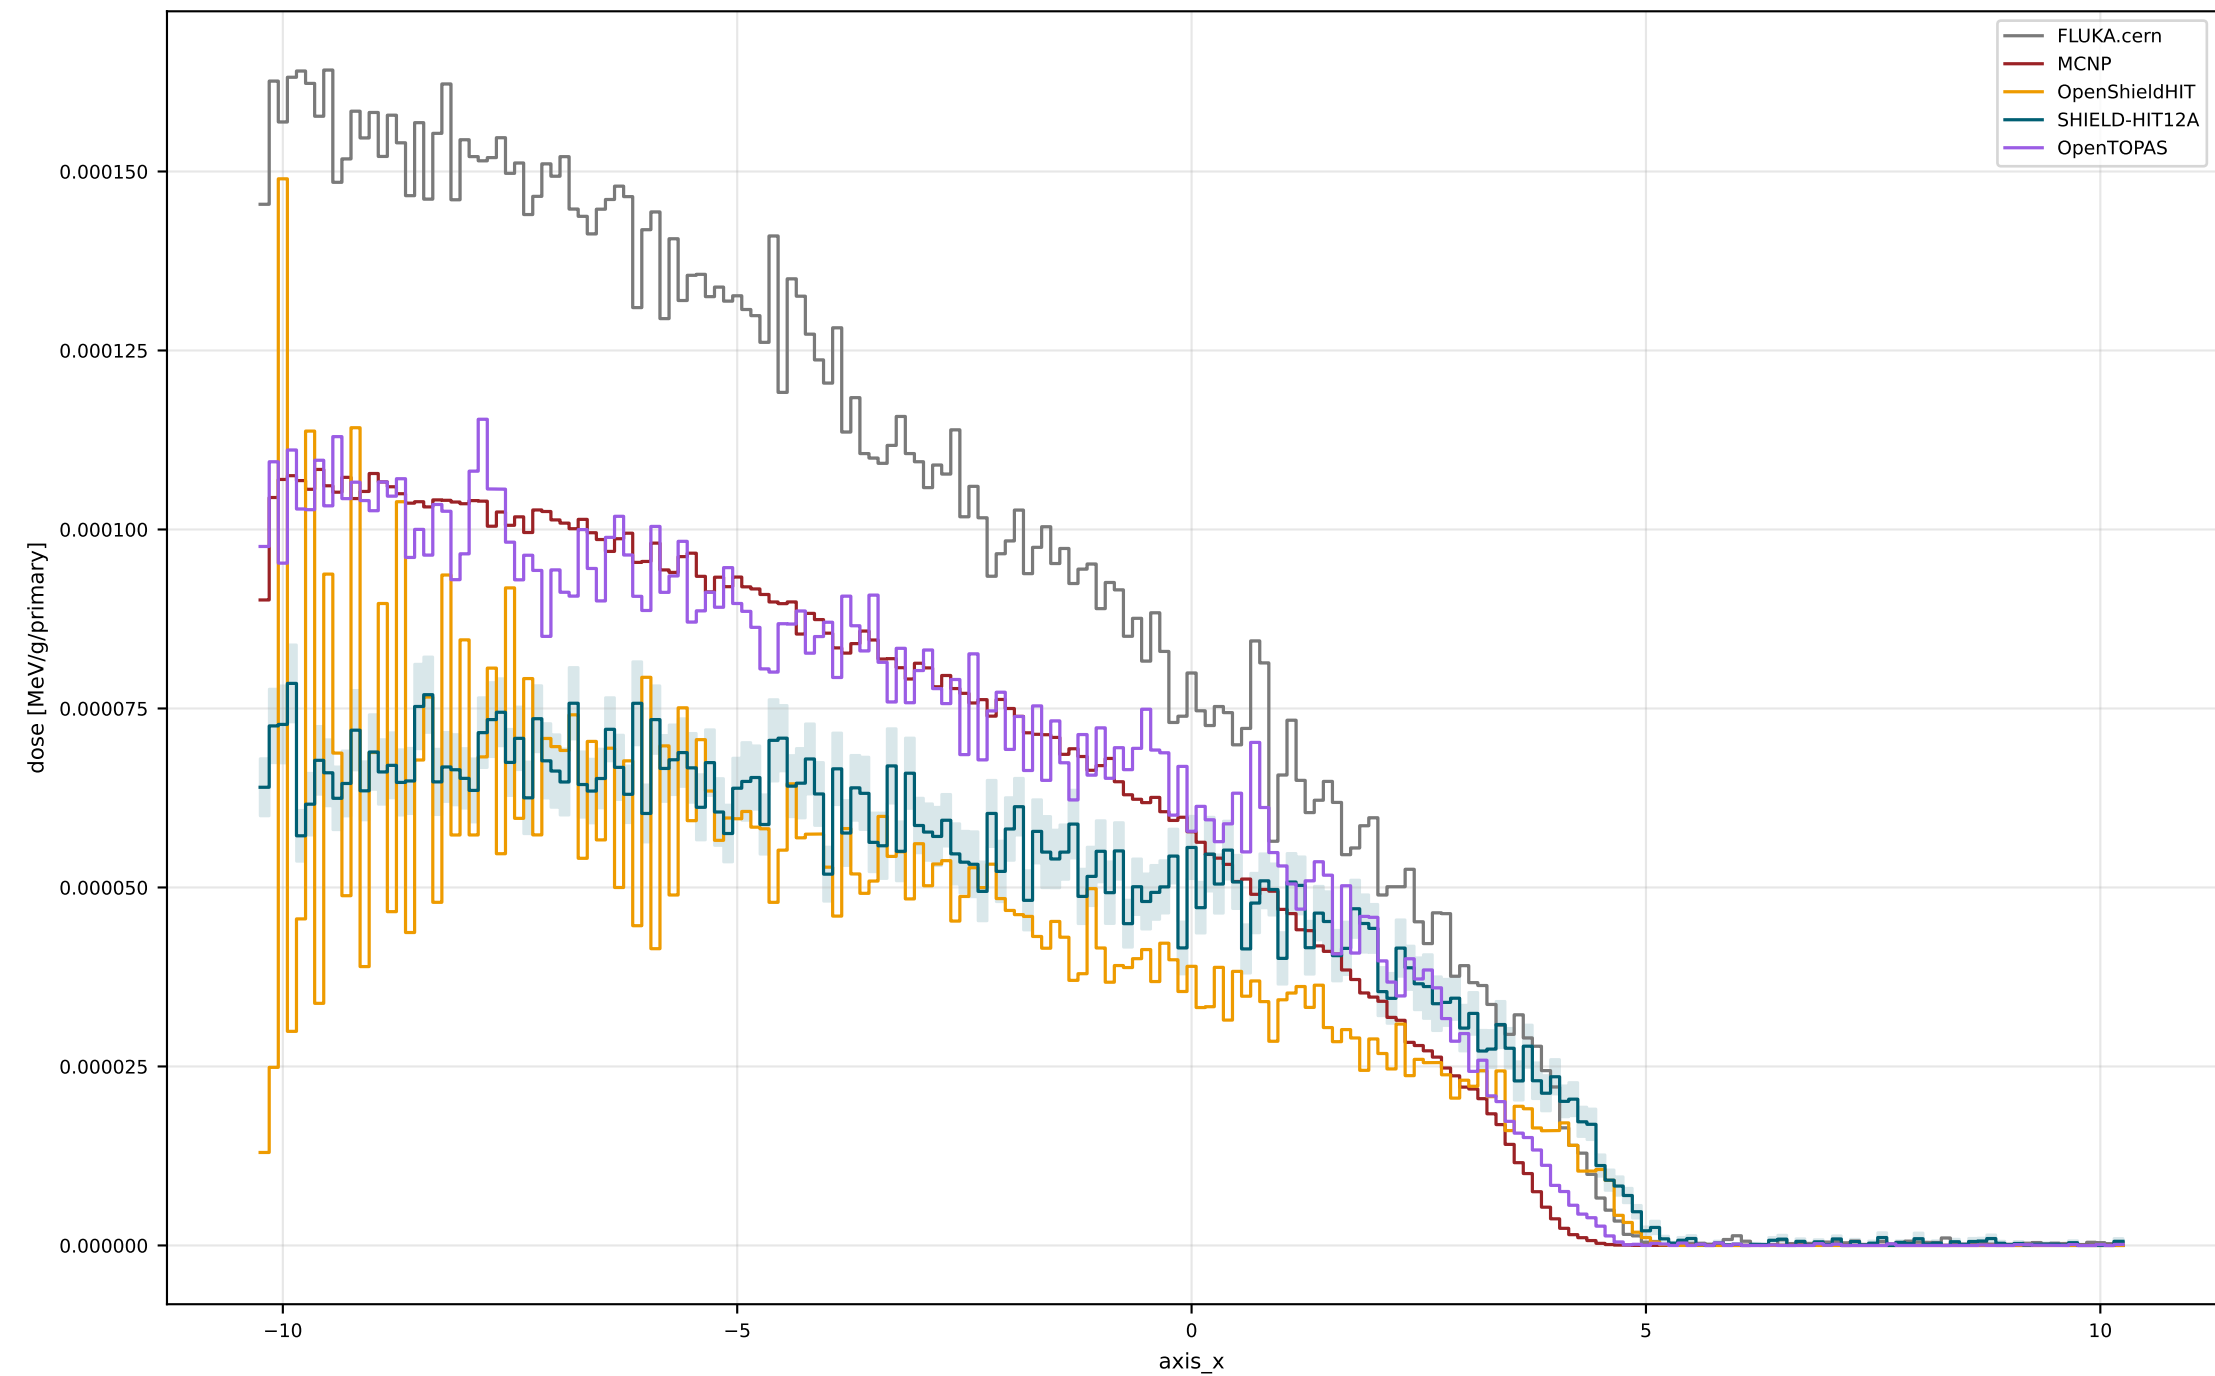

Depth profiles — Dose (alpha particles)

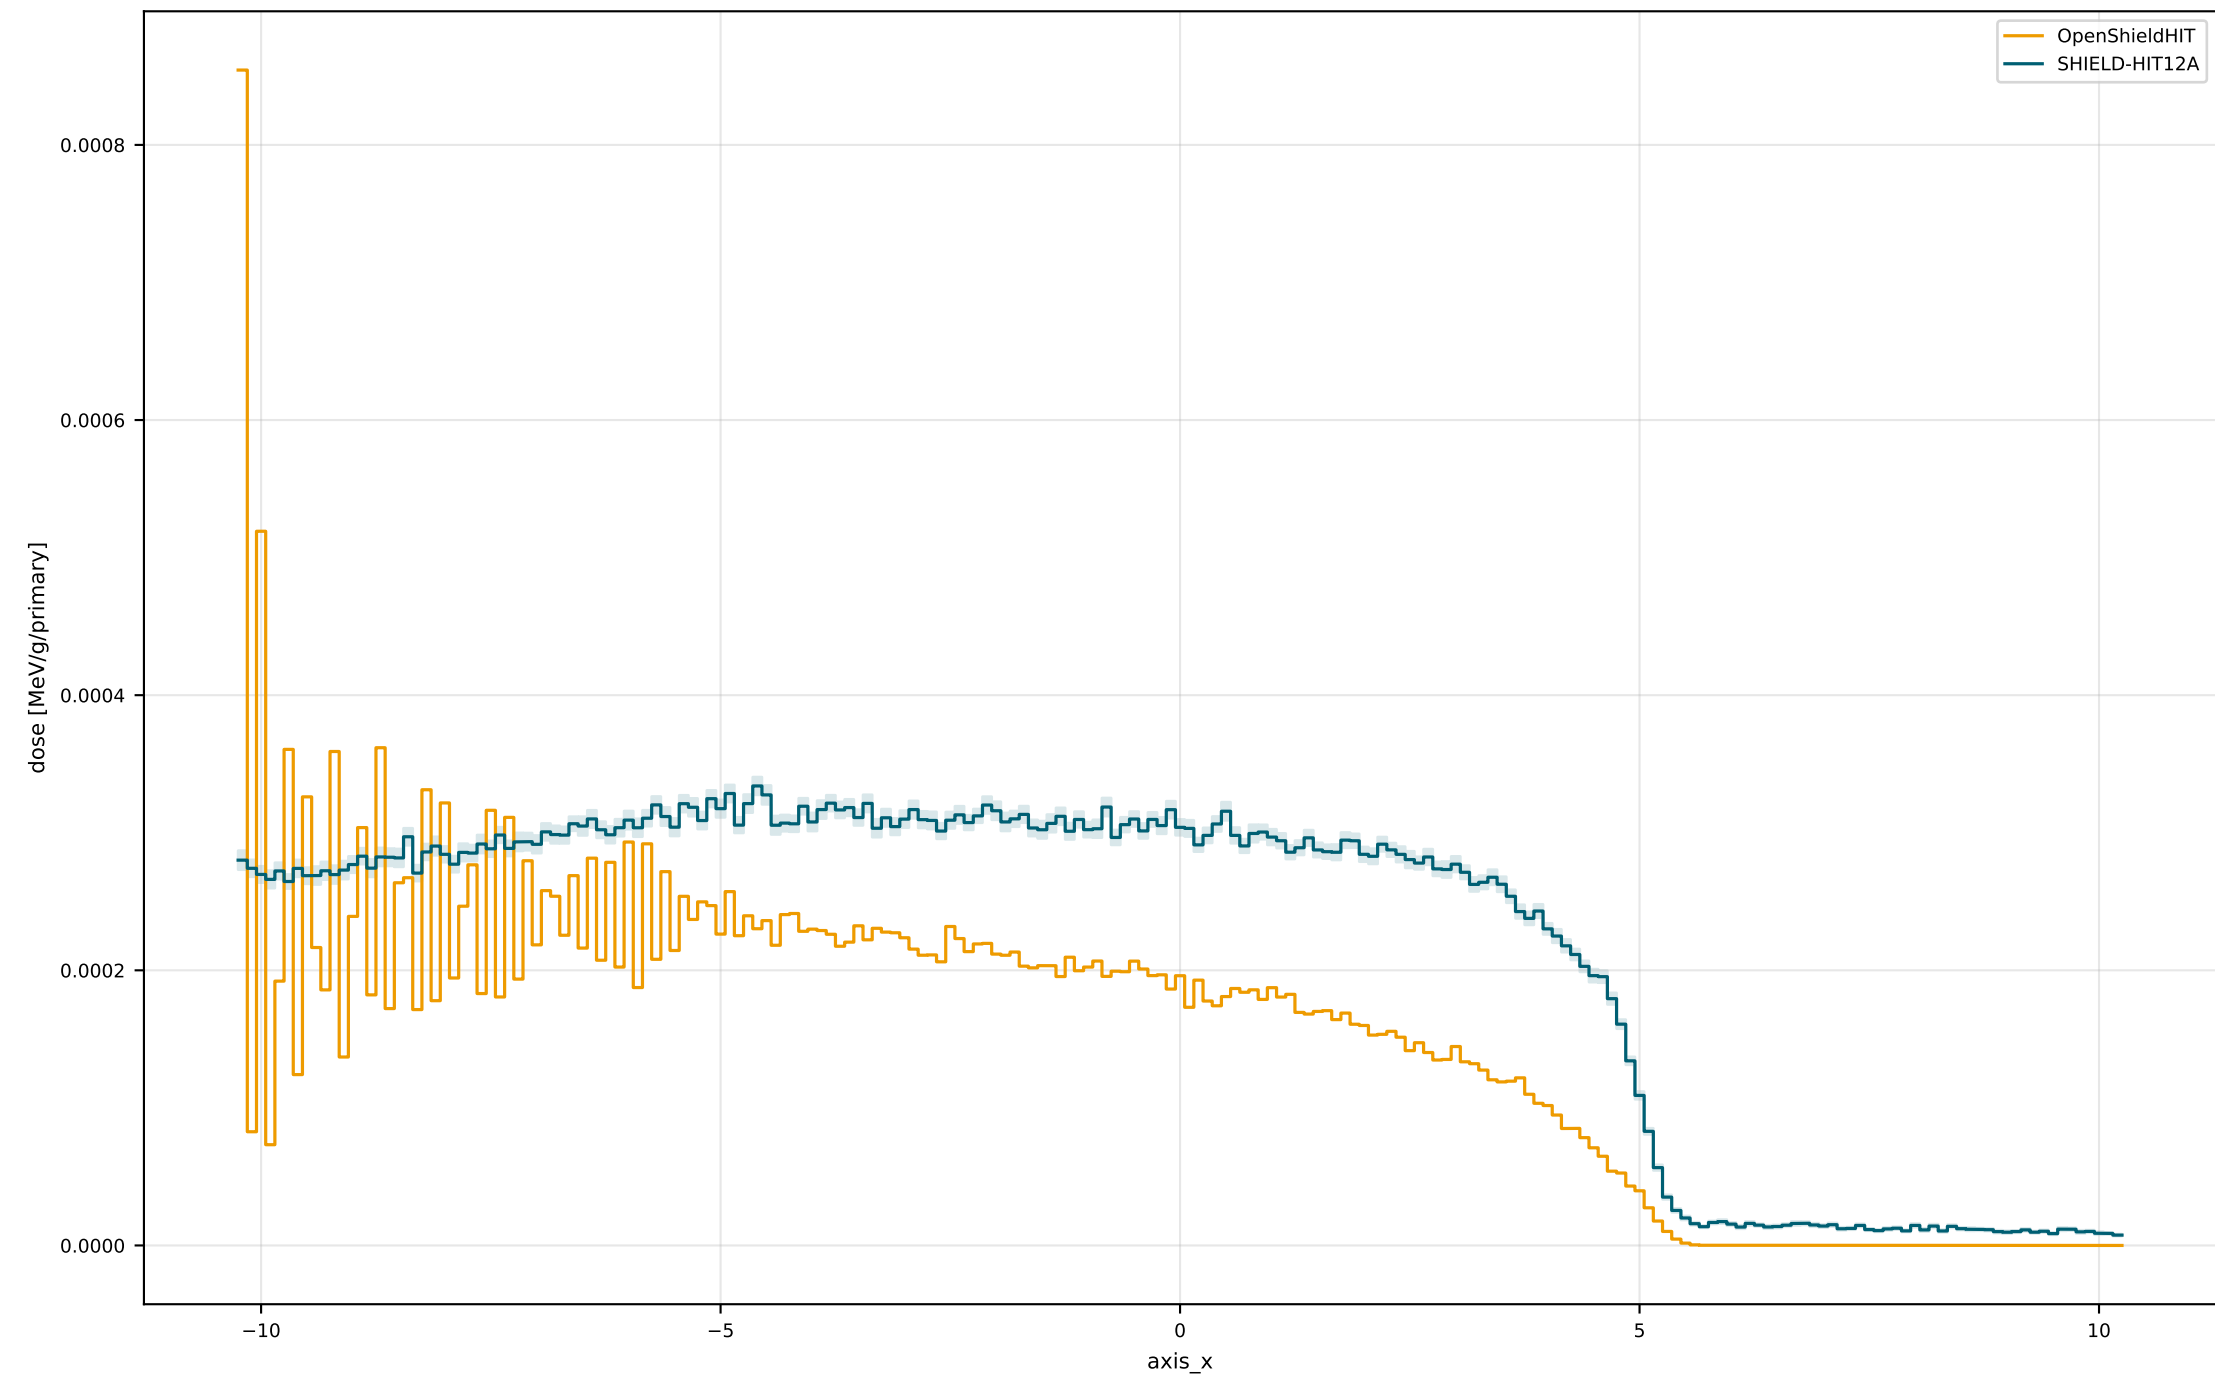

Depth profiles — Dose (deuterons)

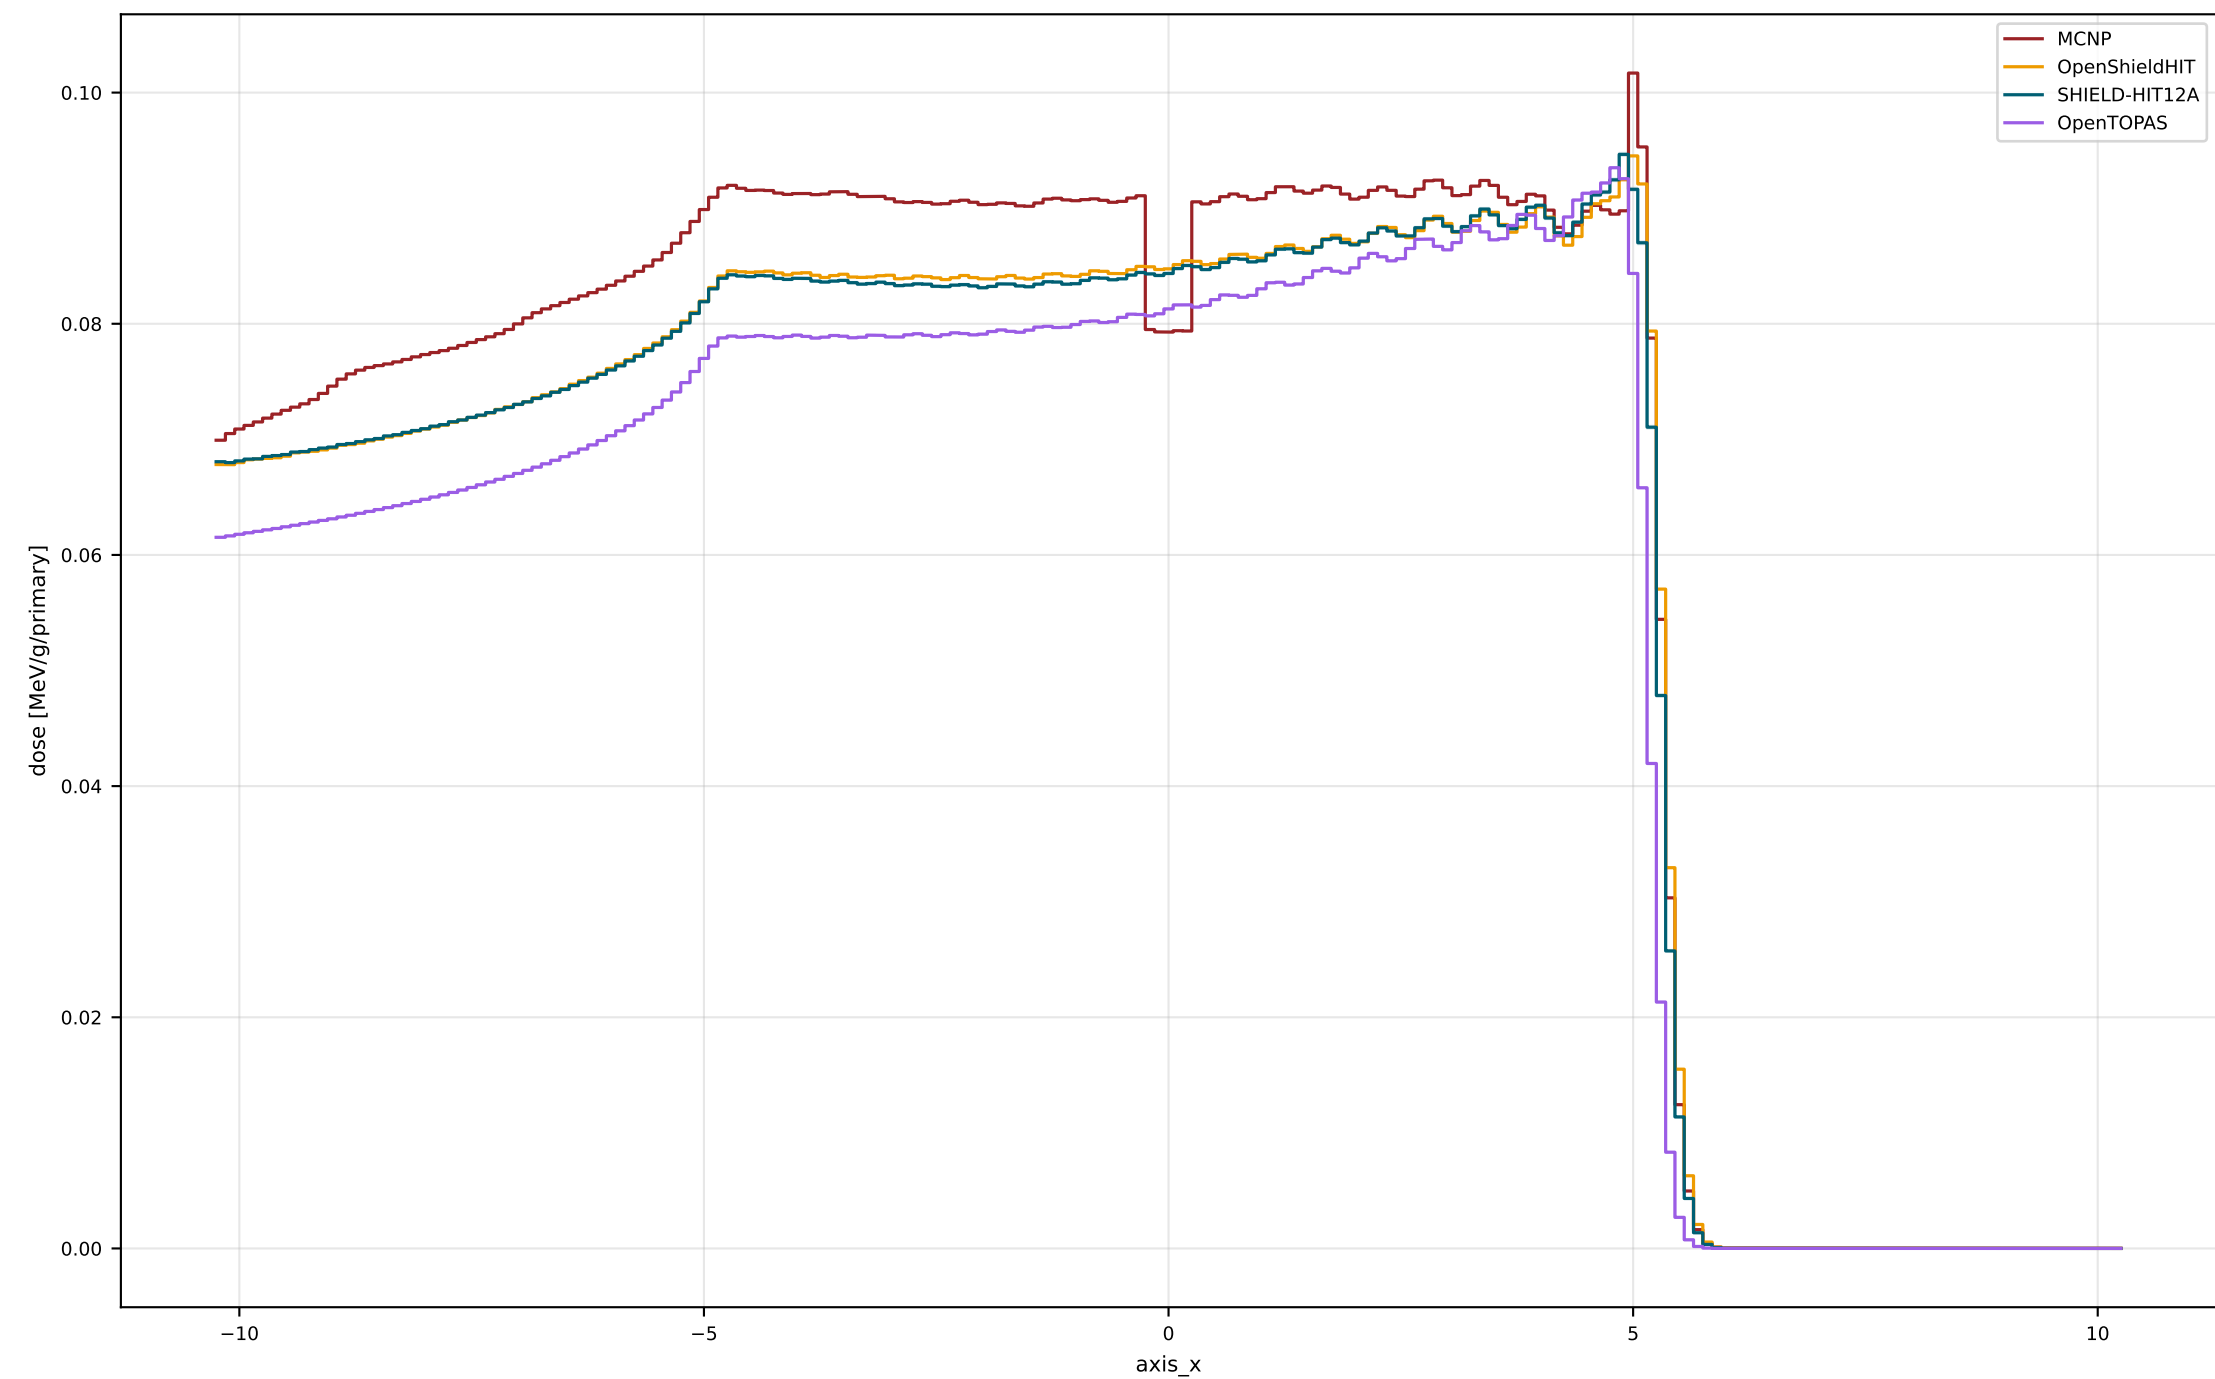

Depth profiles — Dose (helium-3)

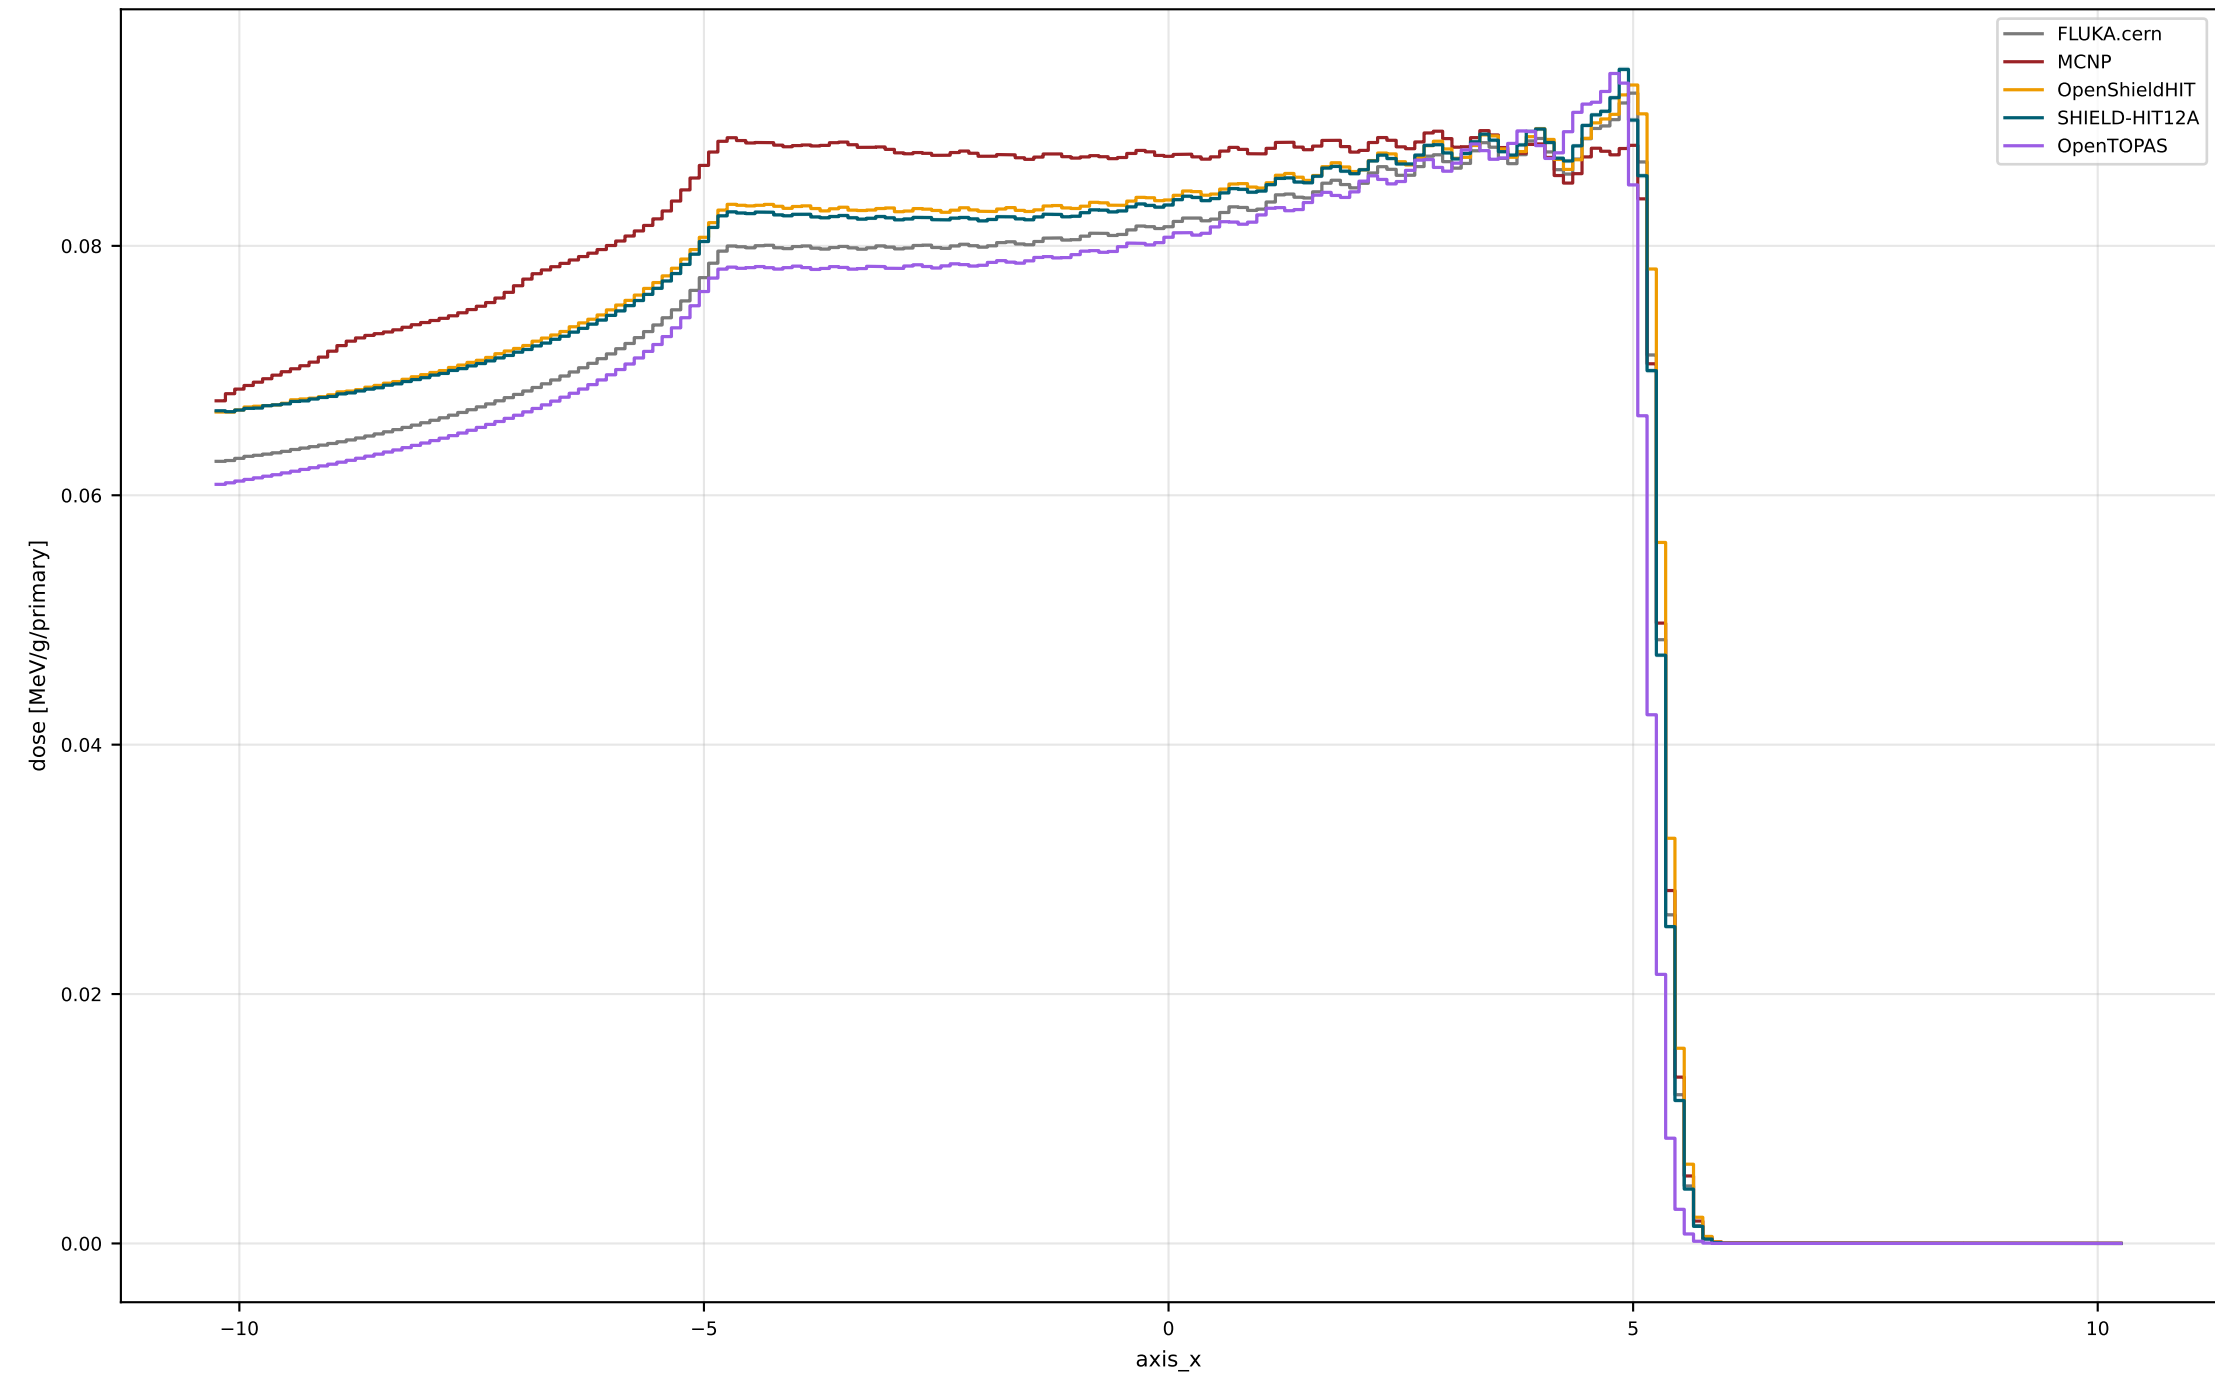

Depth profiles — Dose (heavy recoils/fragments)

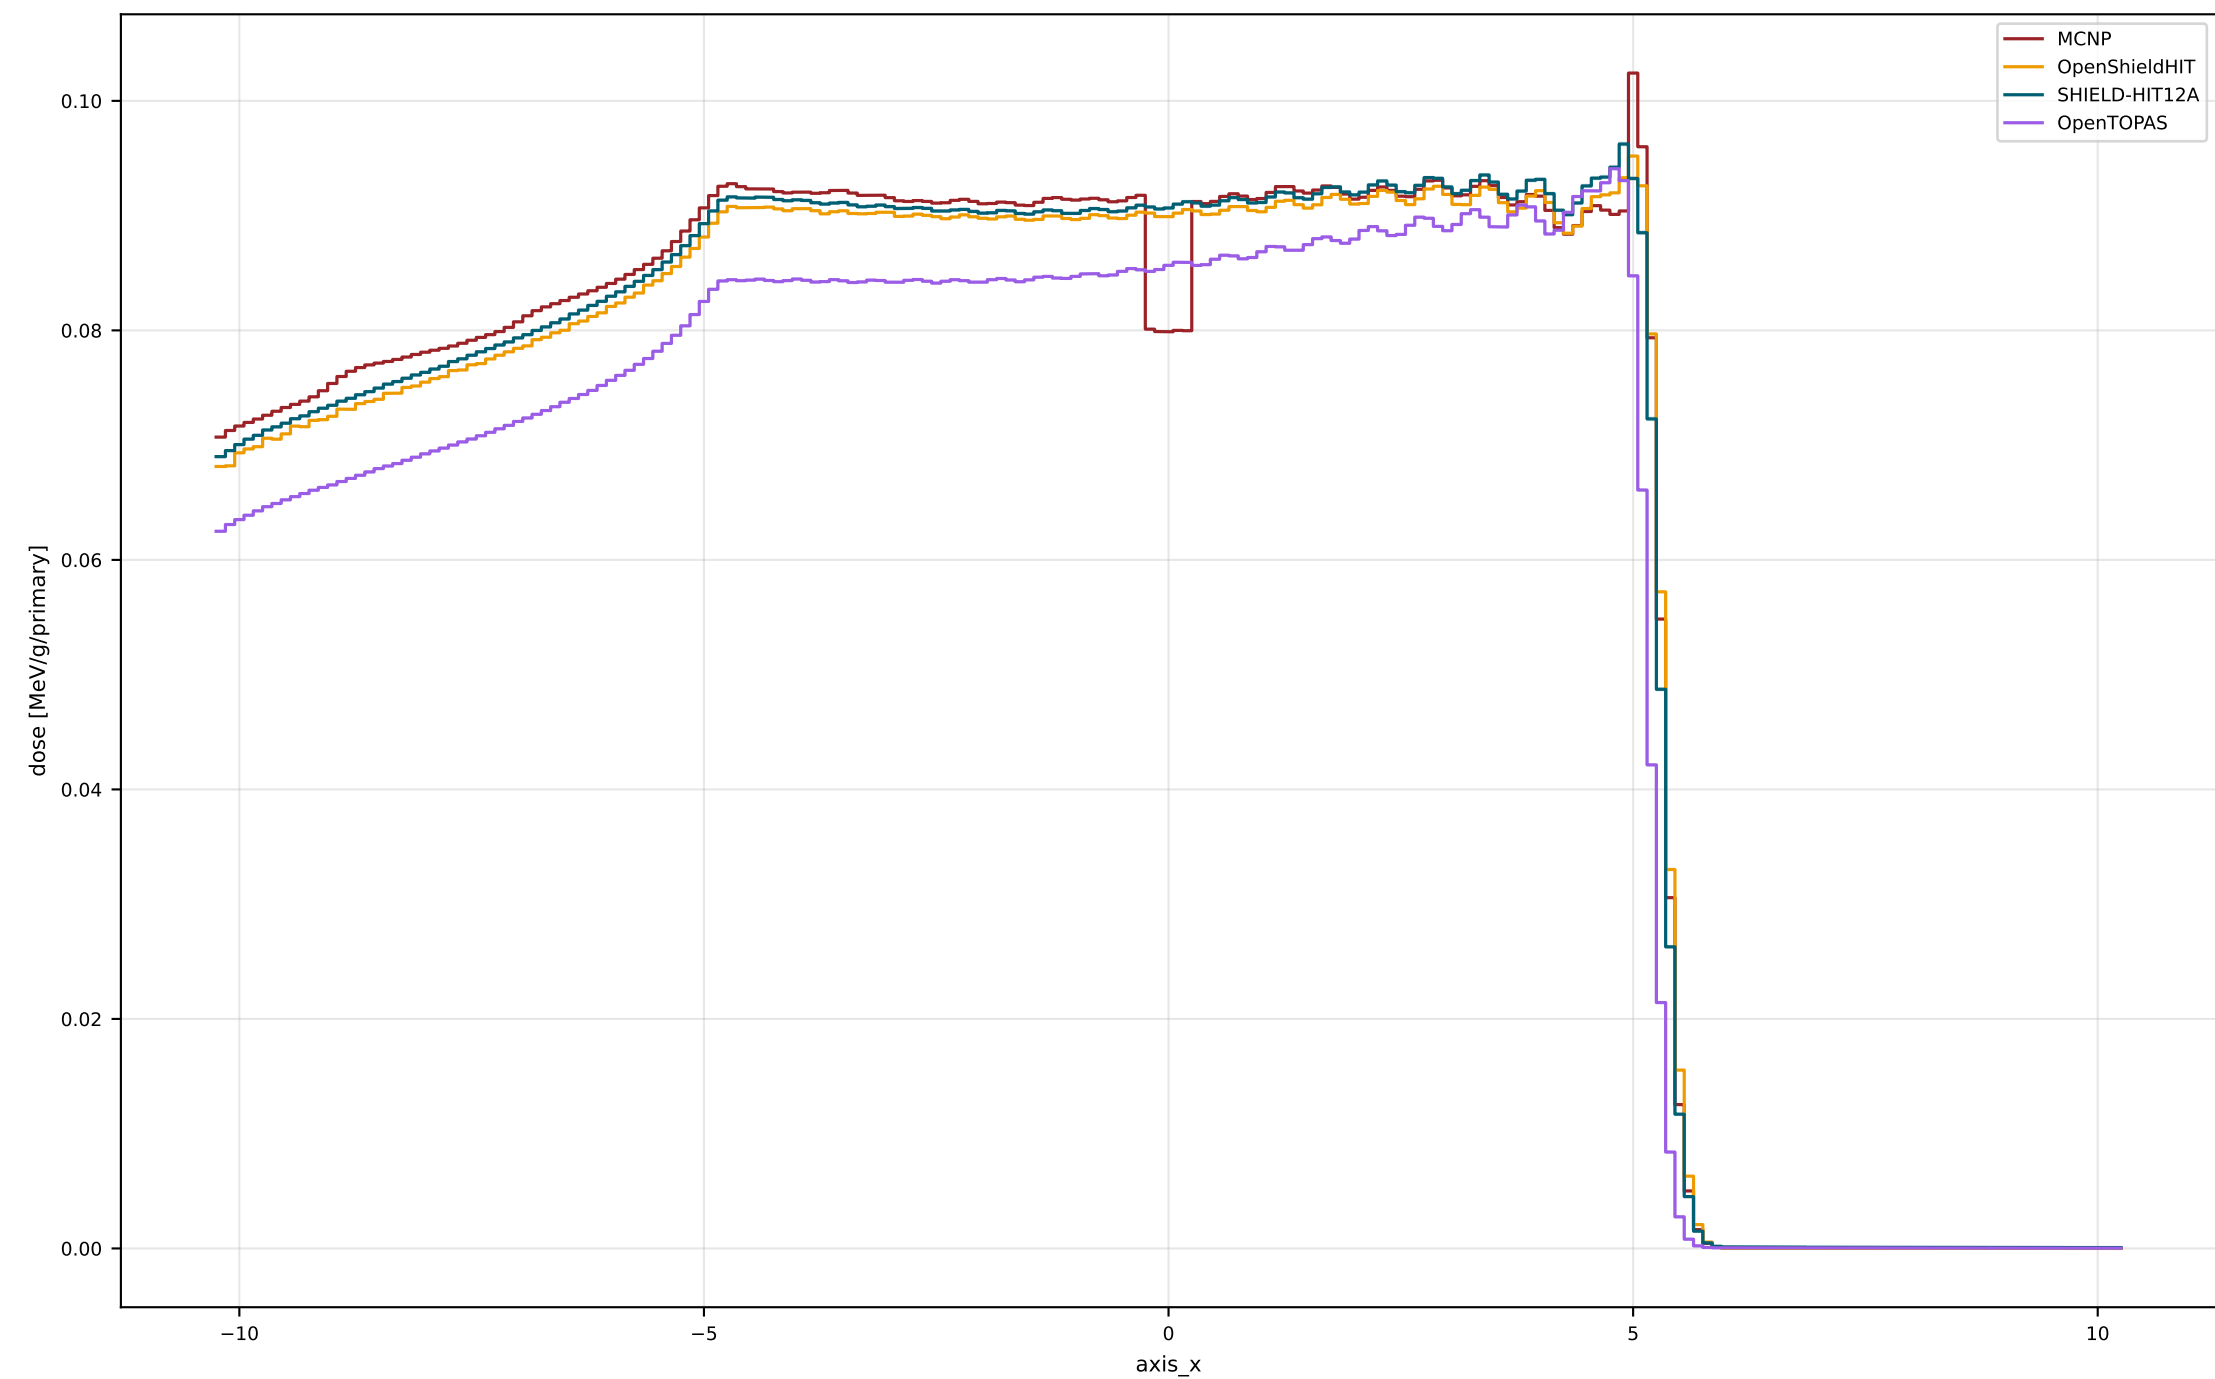

Depth profiles — Dose-to-water (primary protons)

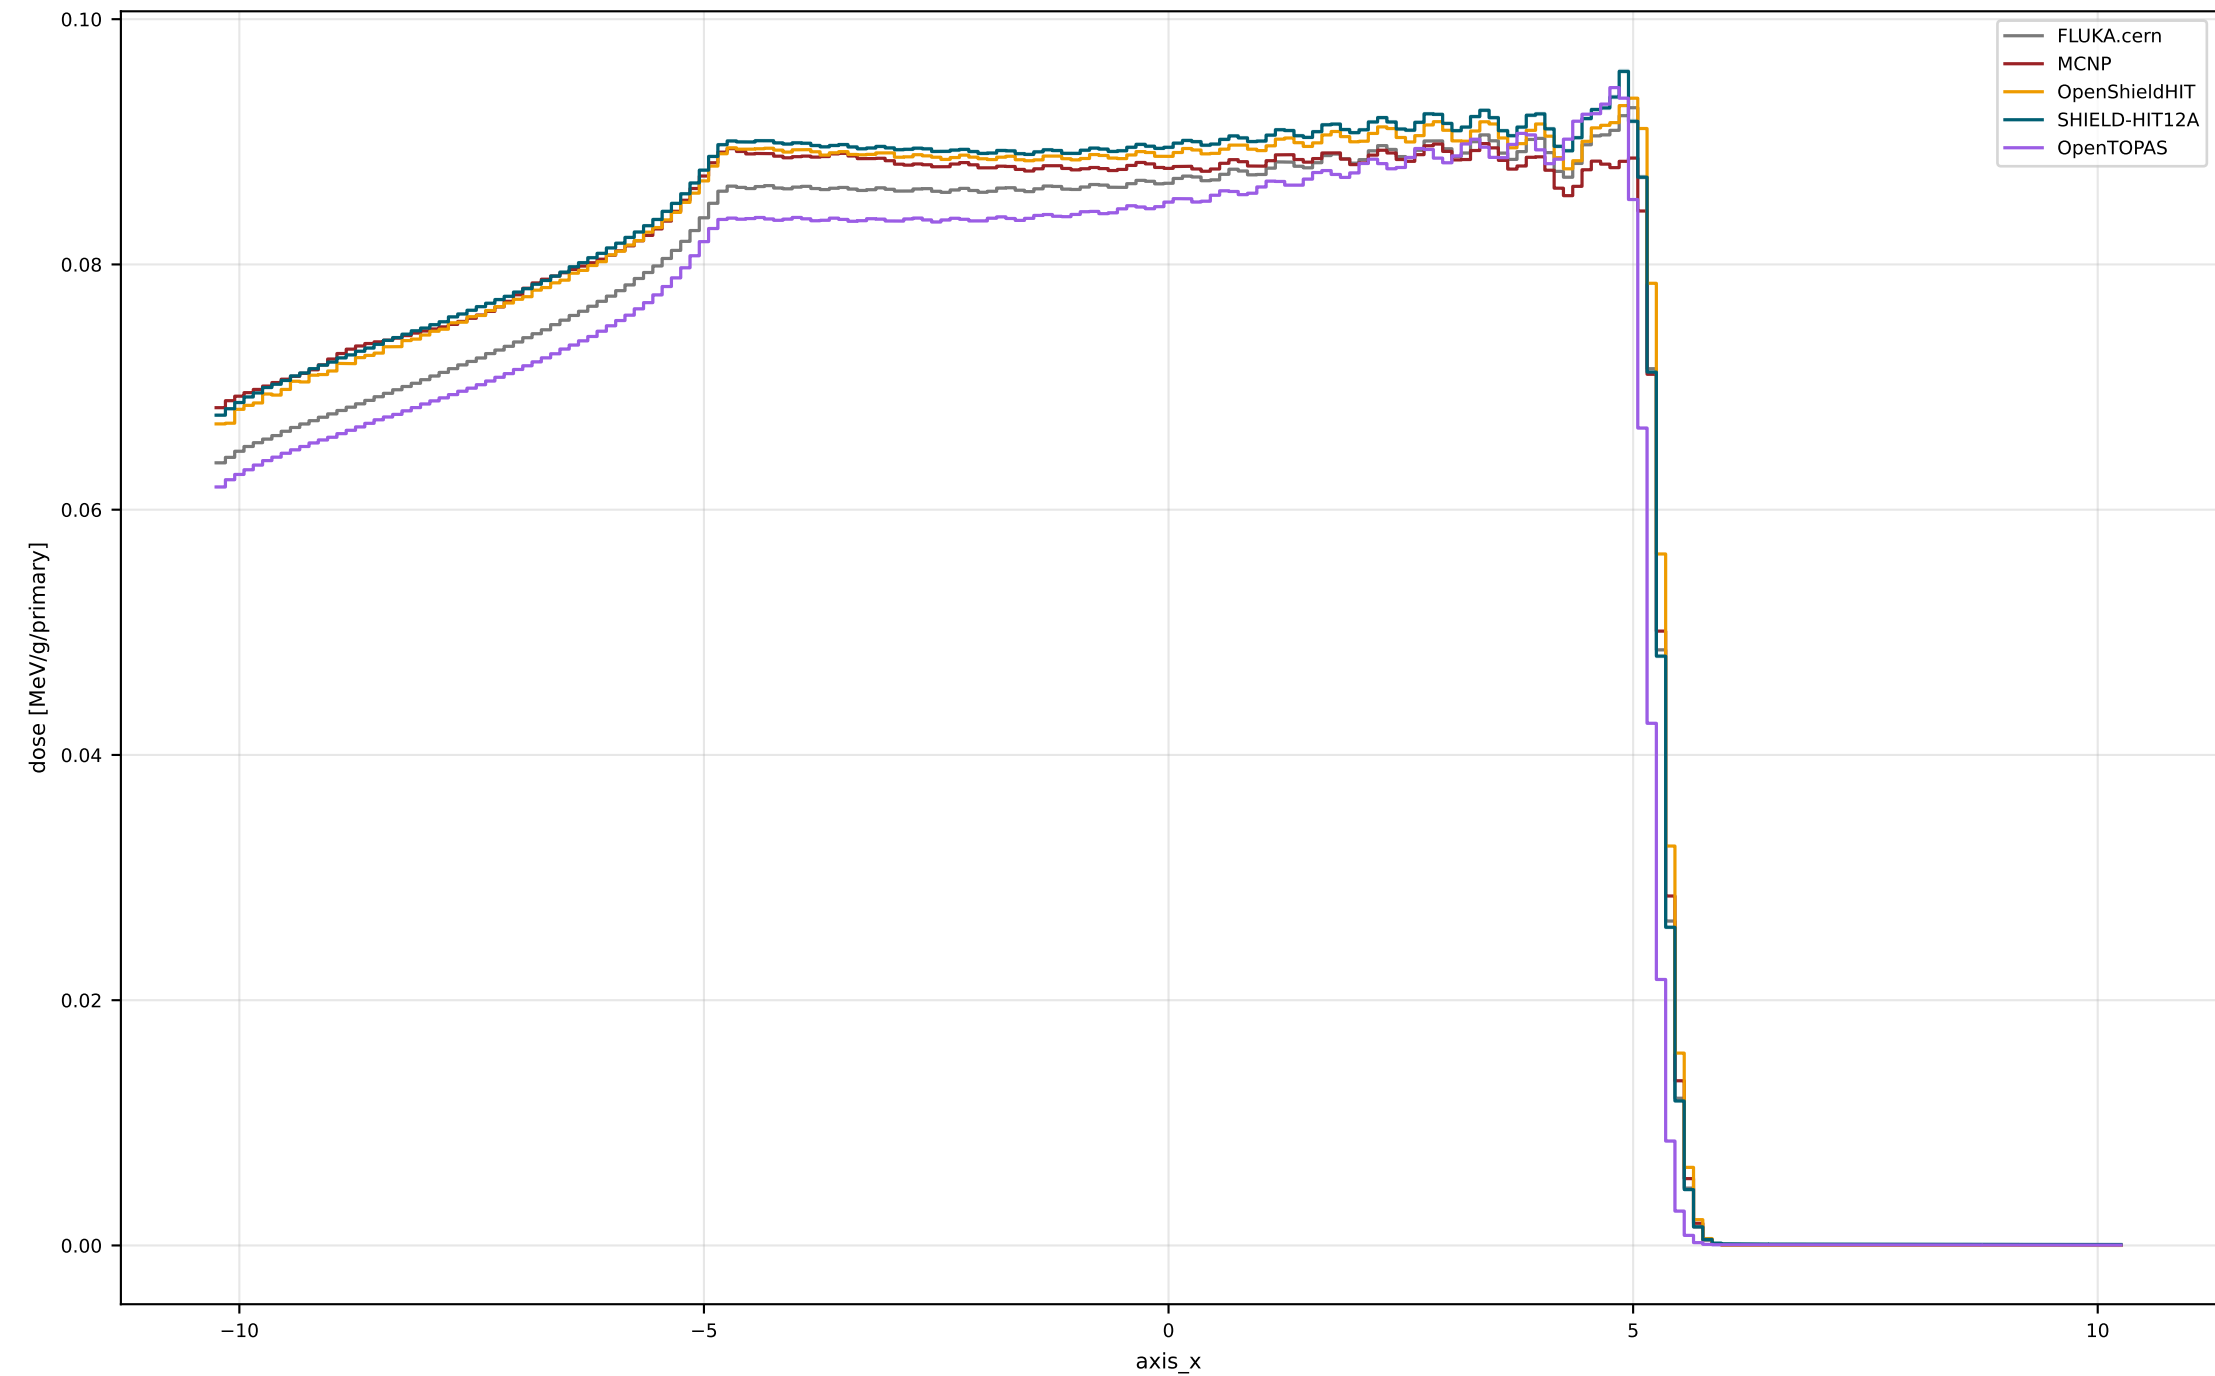

Depth profiles — Dose (primary protons)

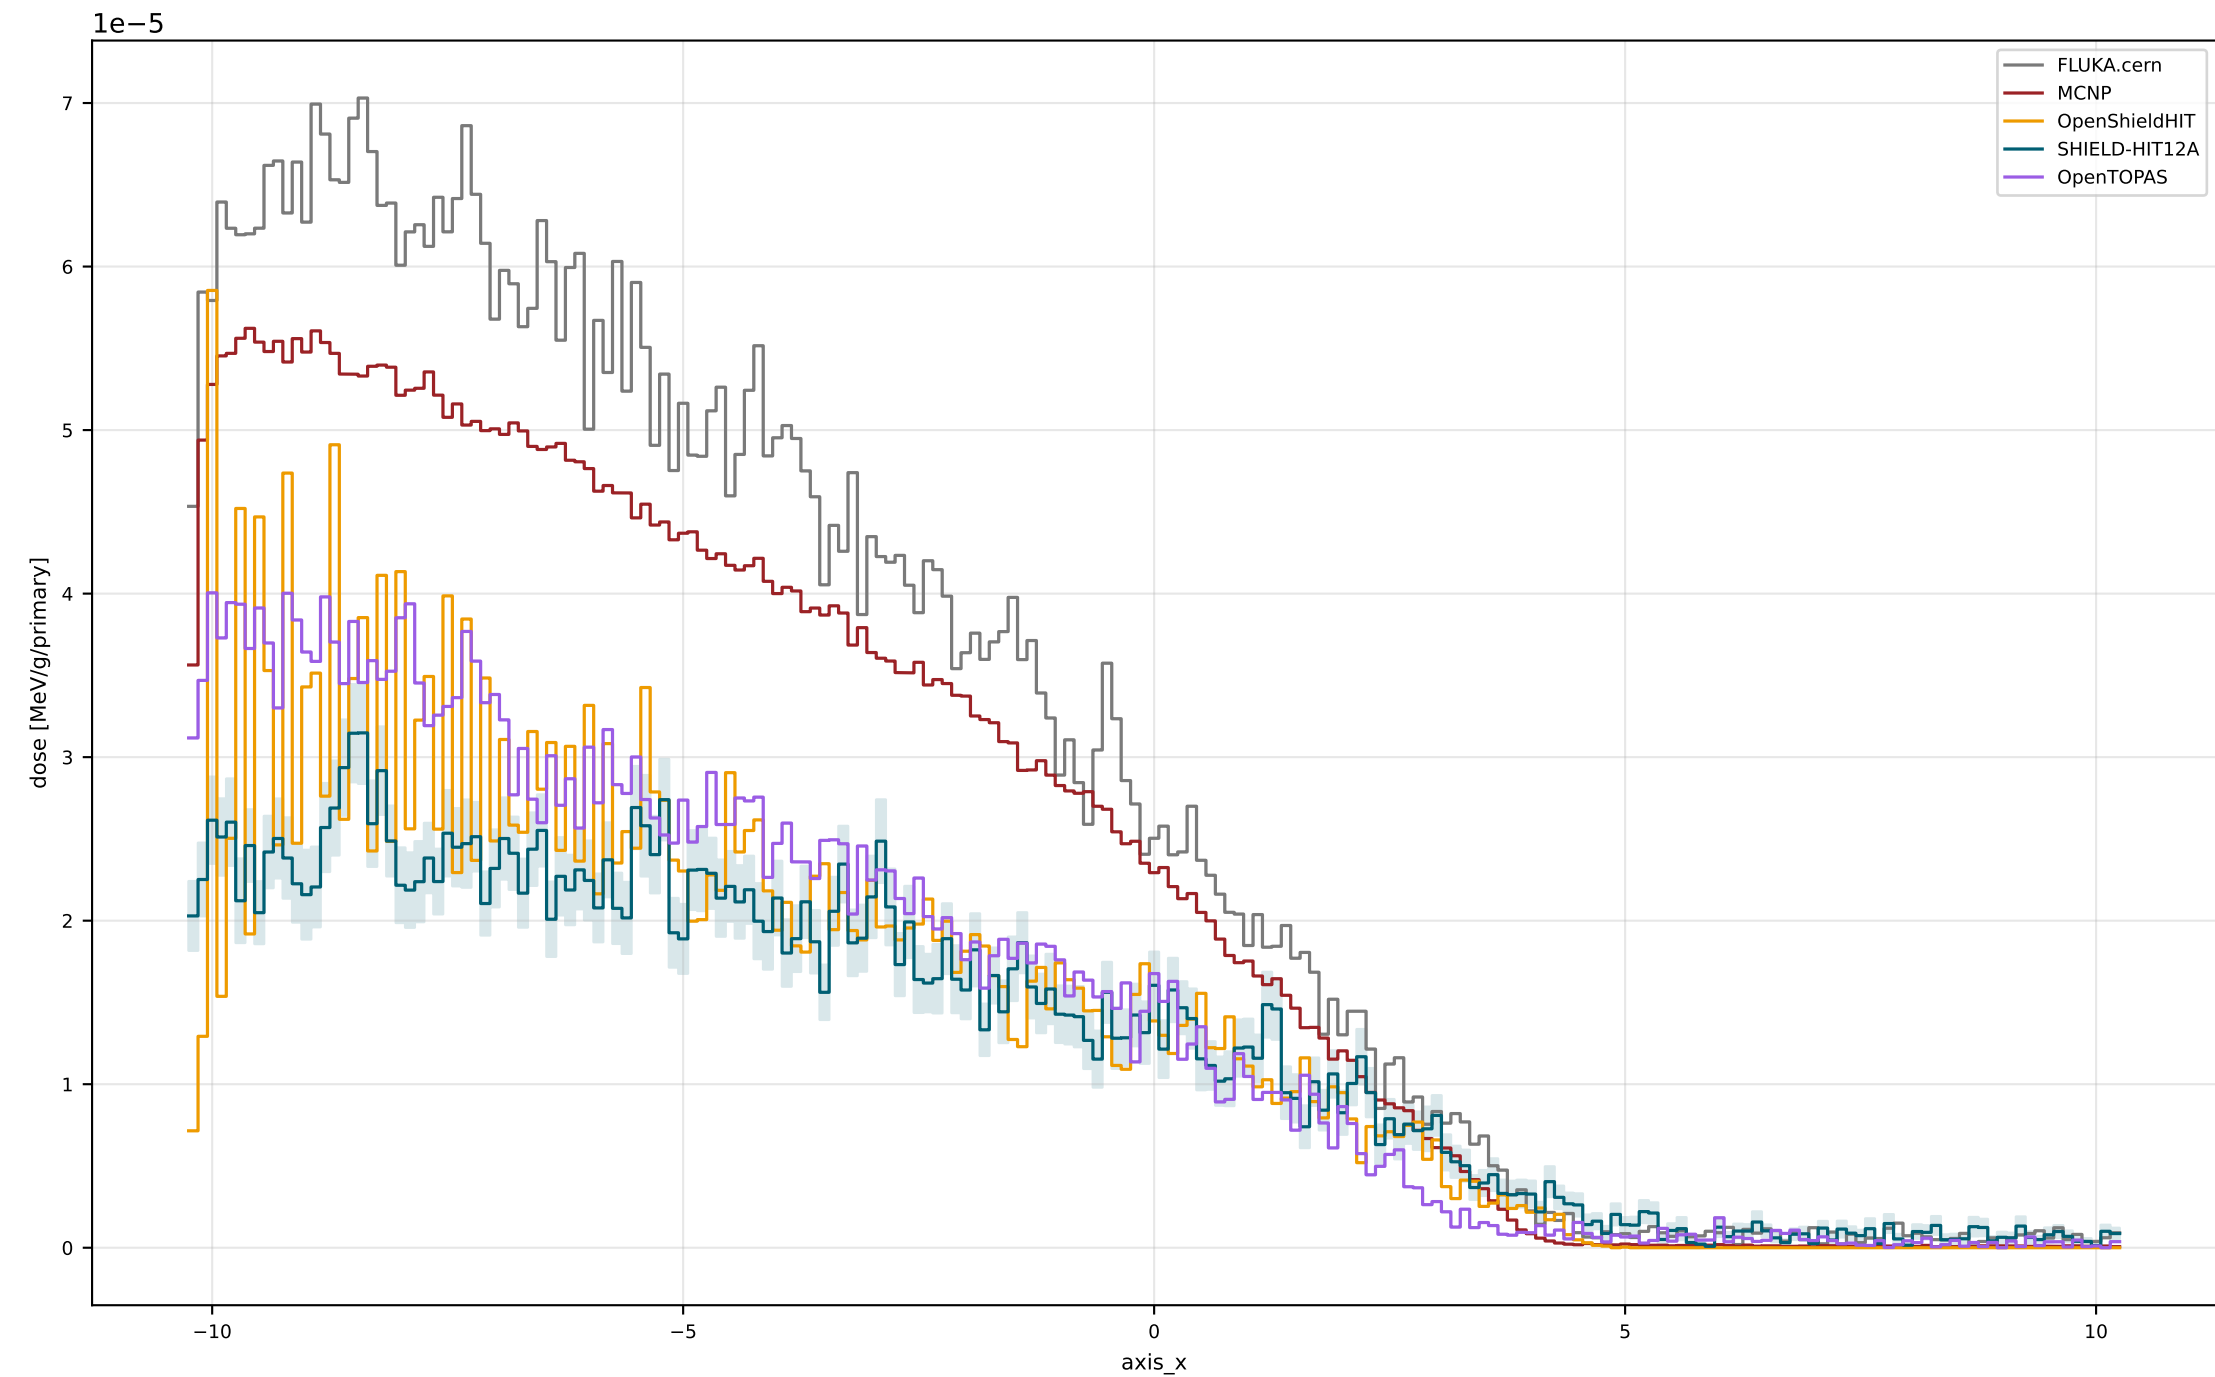

Depth profiles — Dose-to-water (protons)

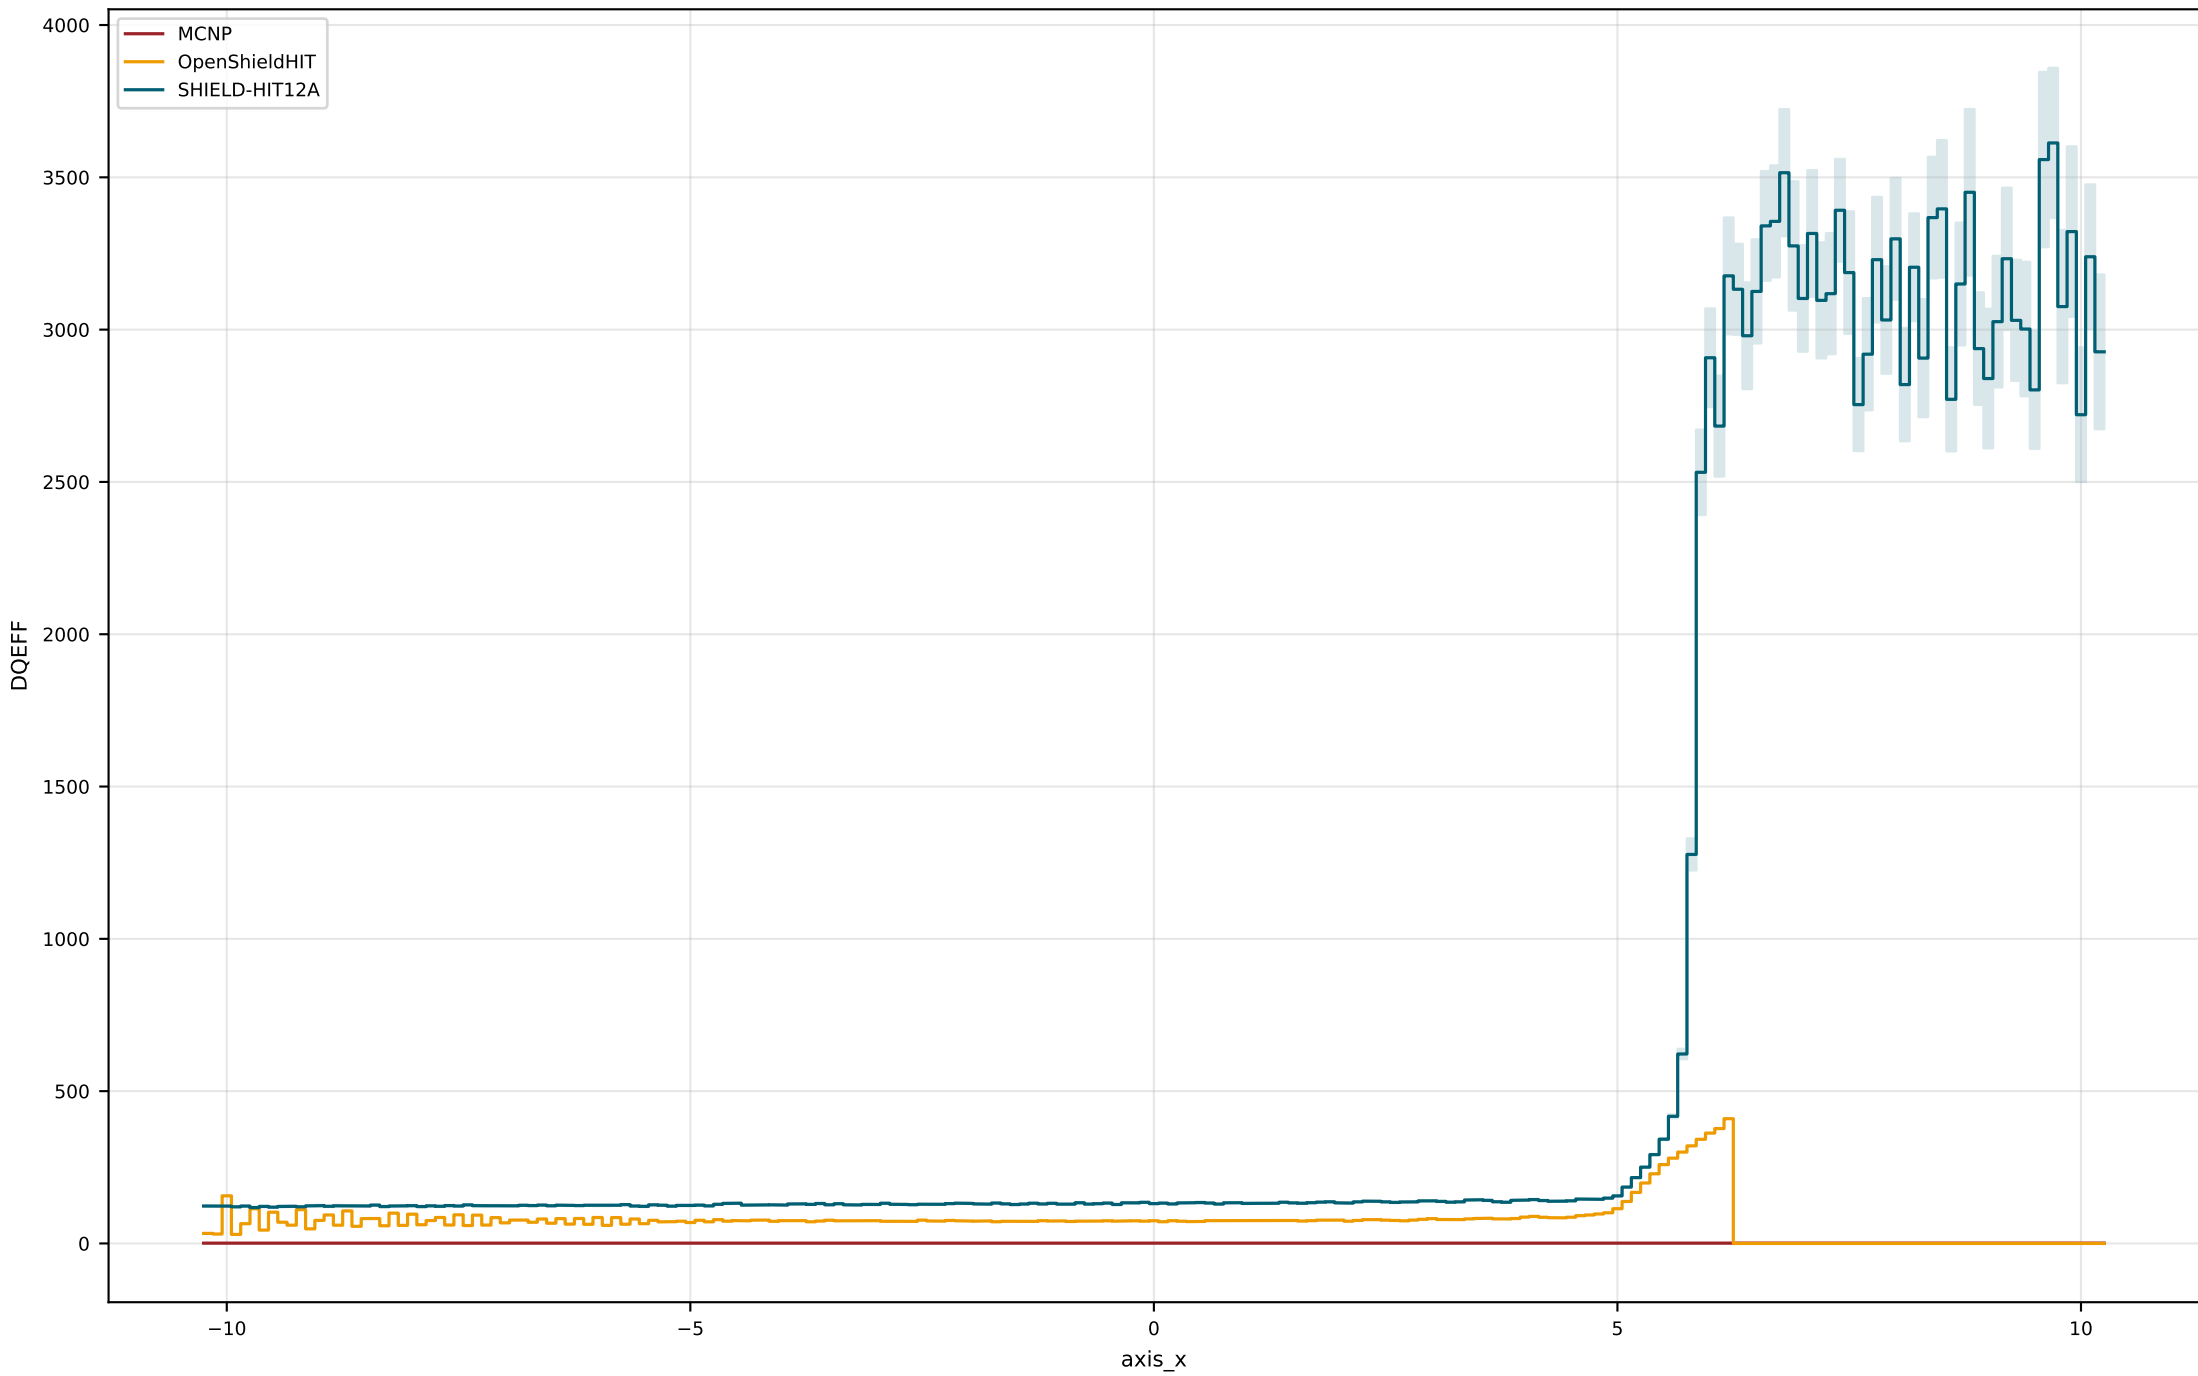

Depth profiles — Dose (protons)

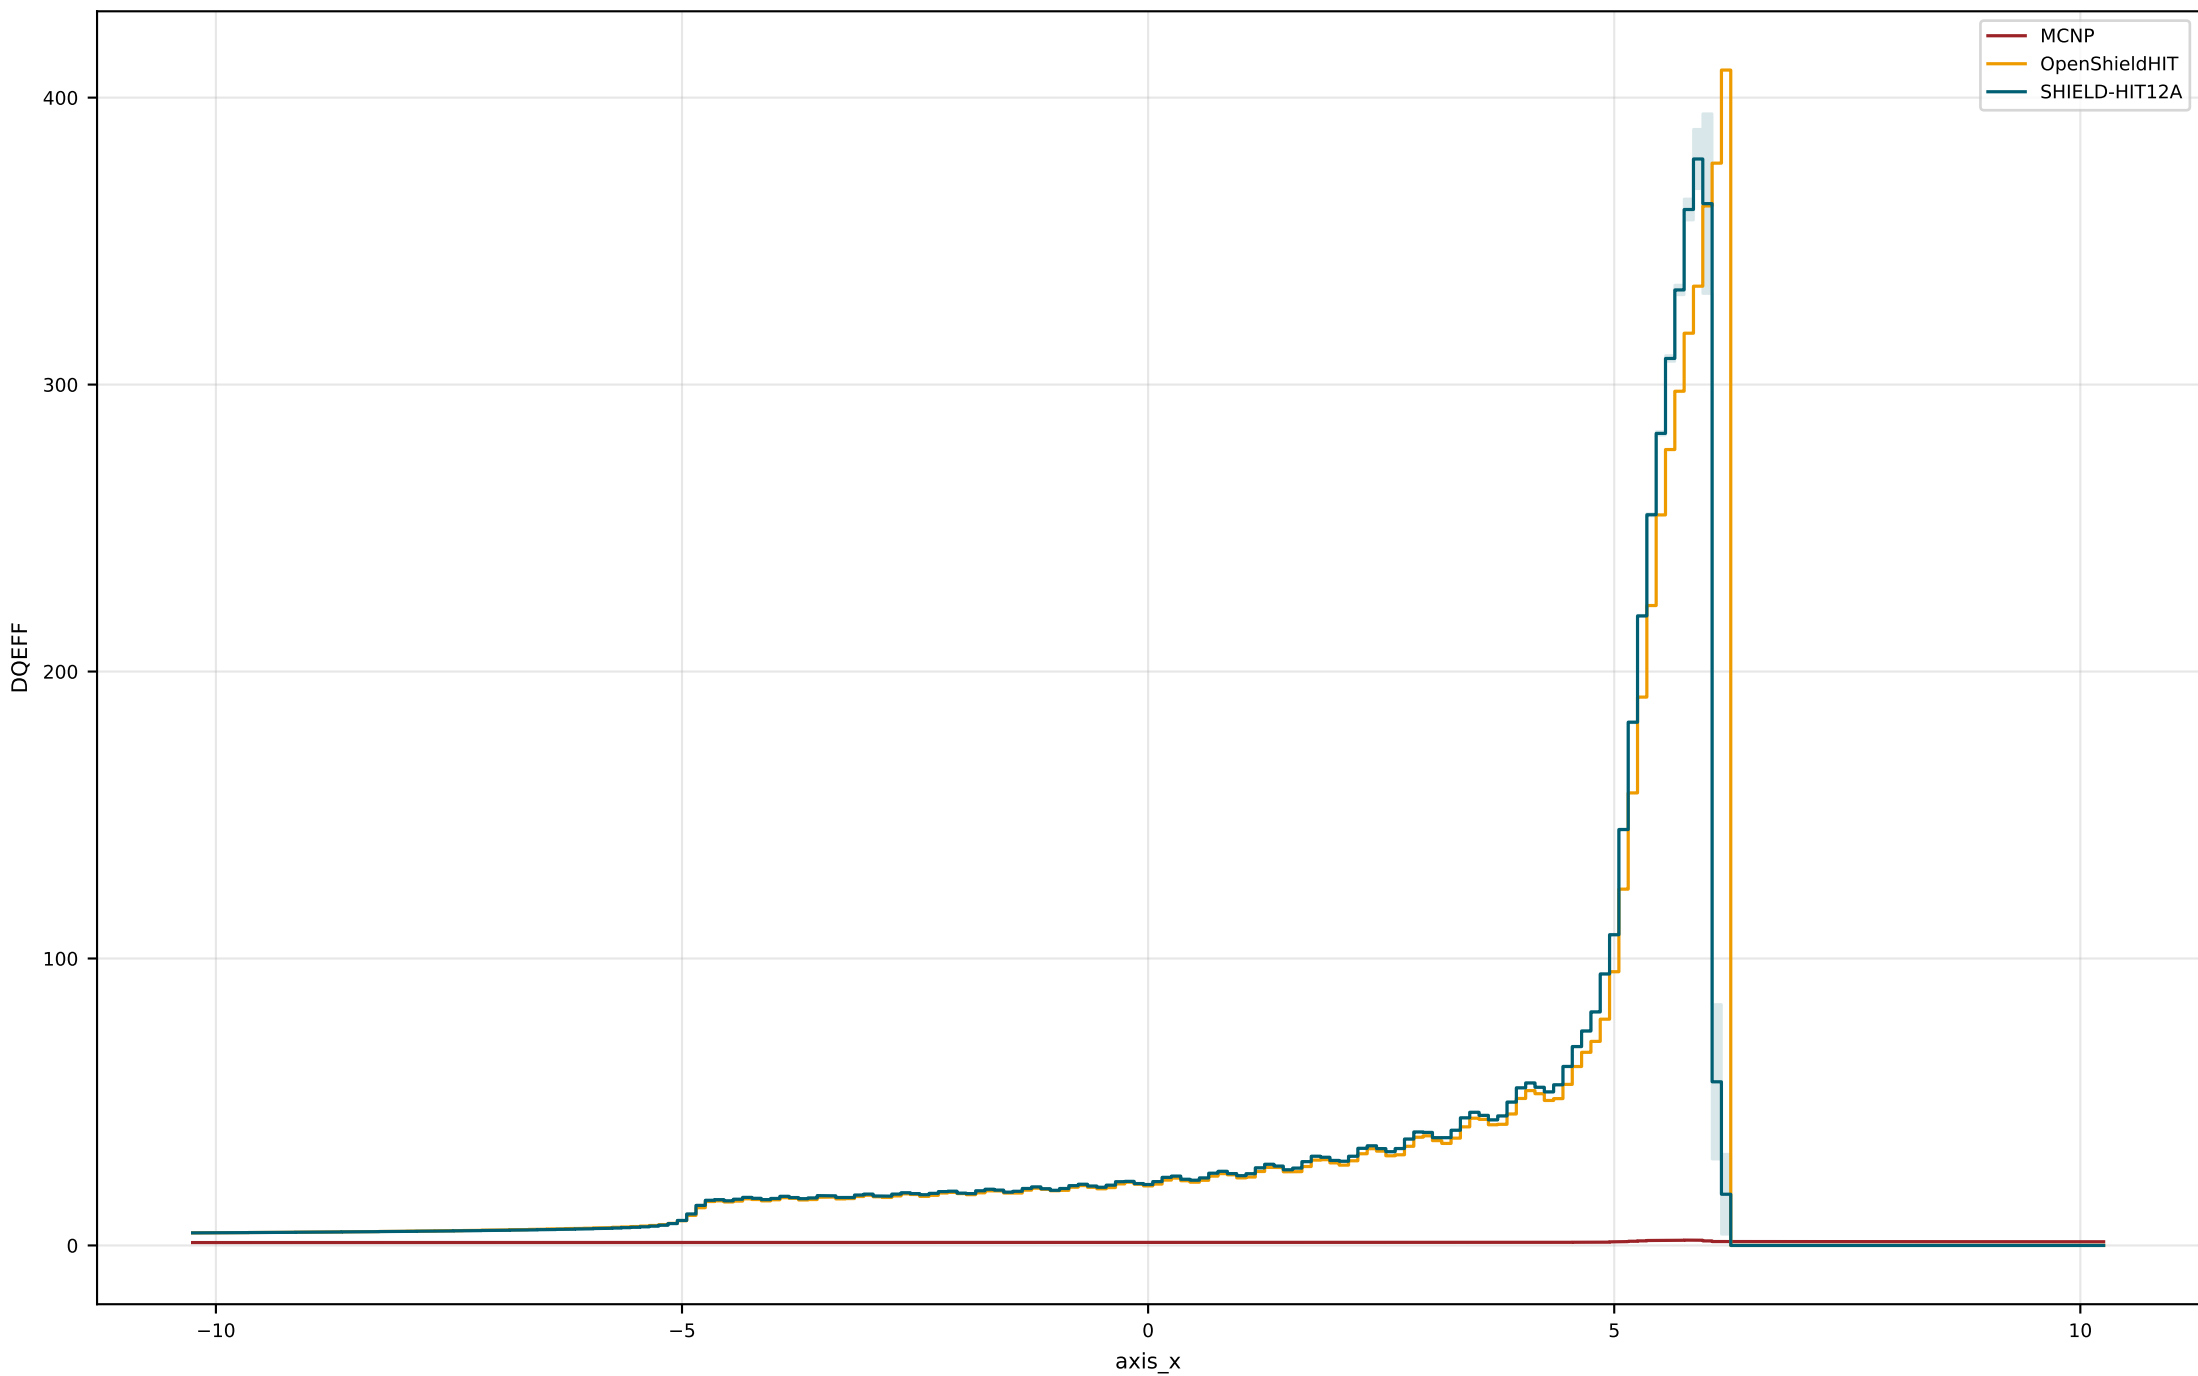

Depth profiles — Dose (tritons)

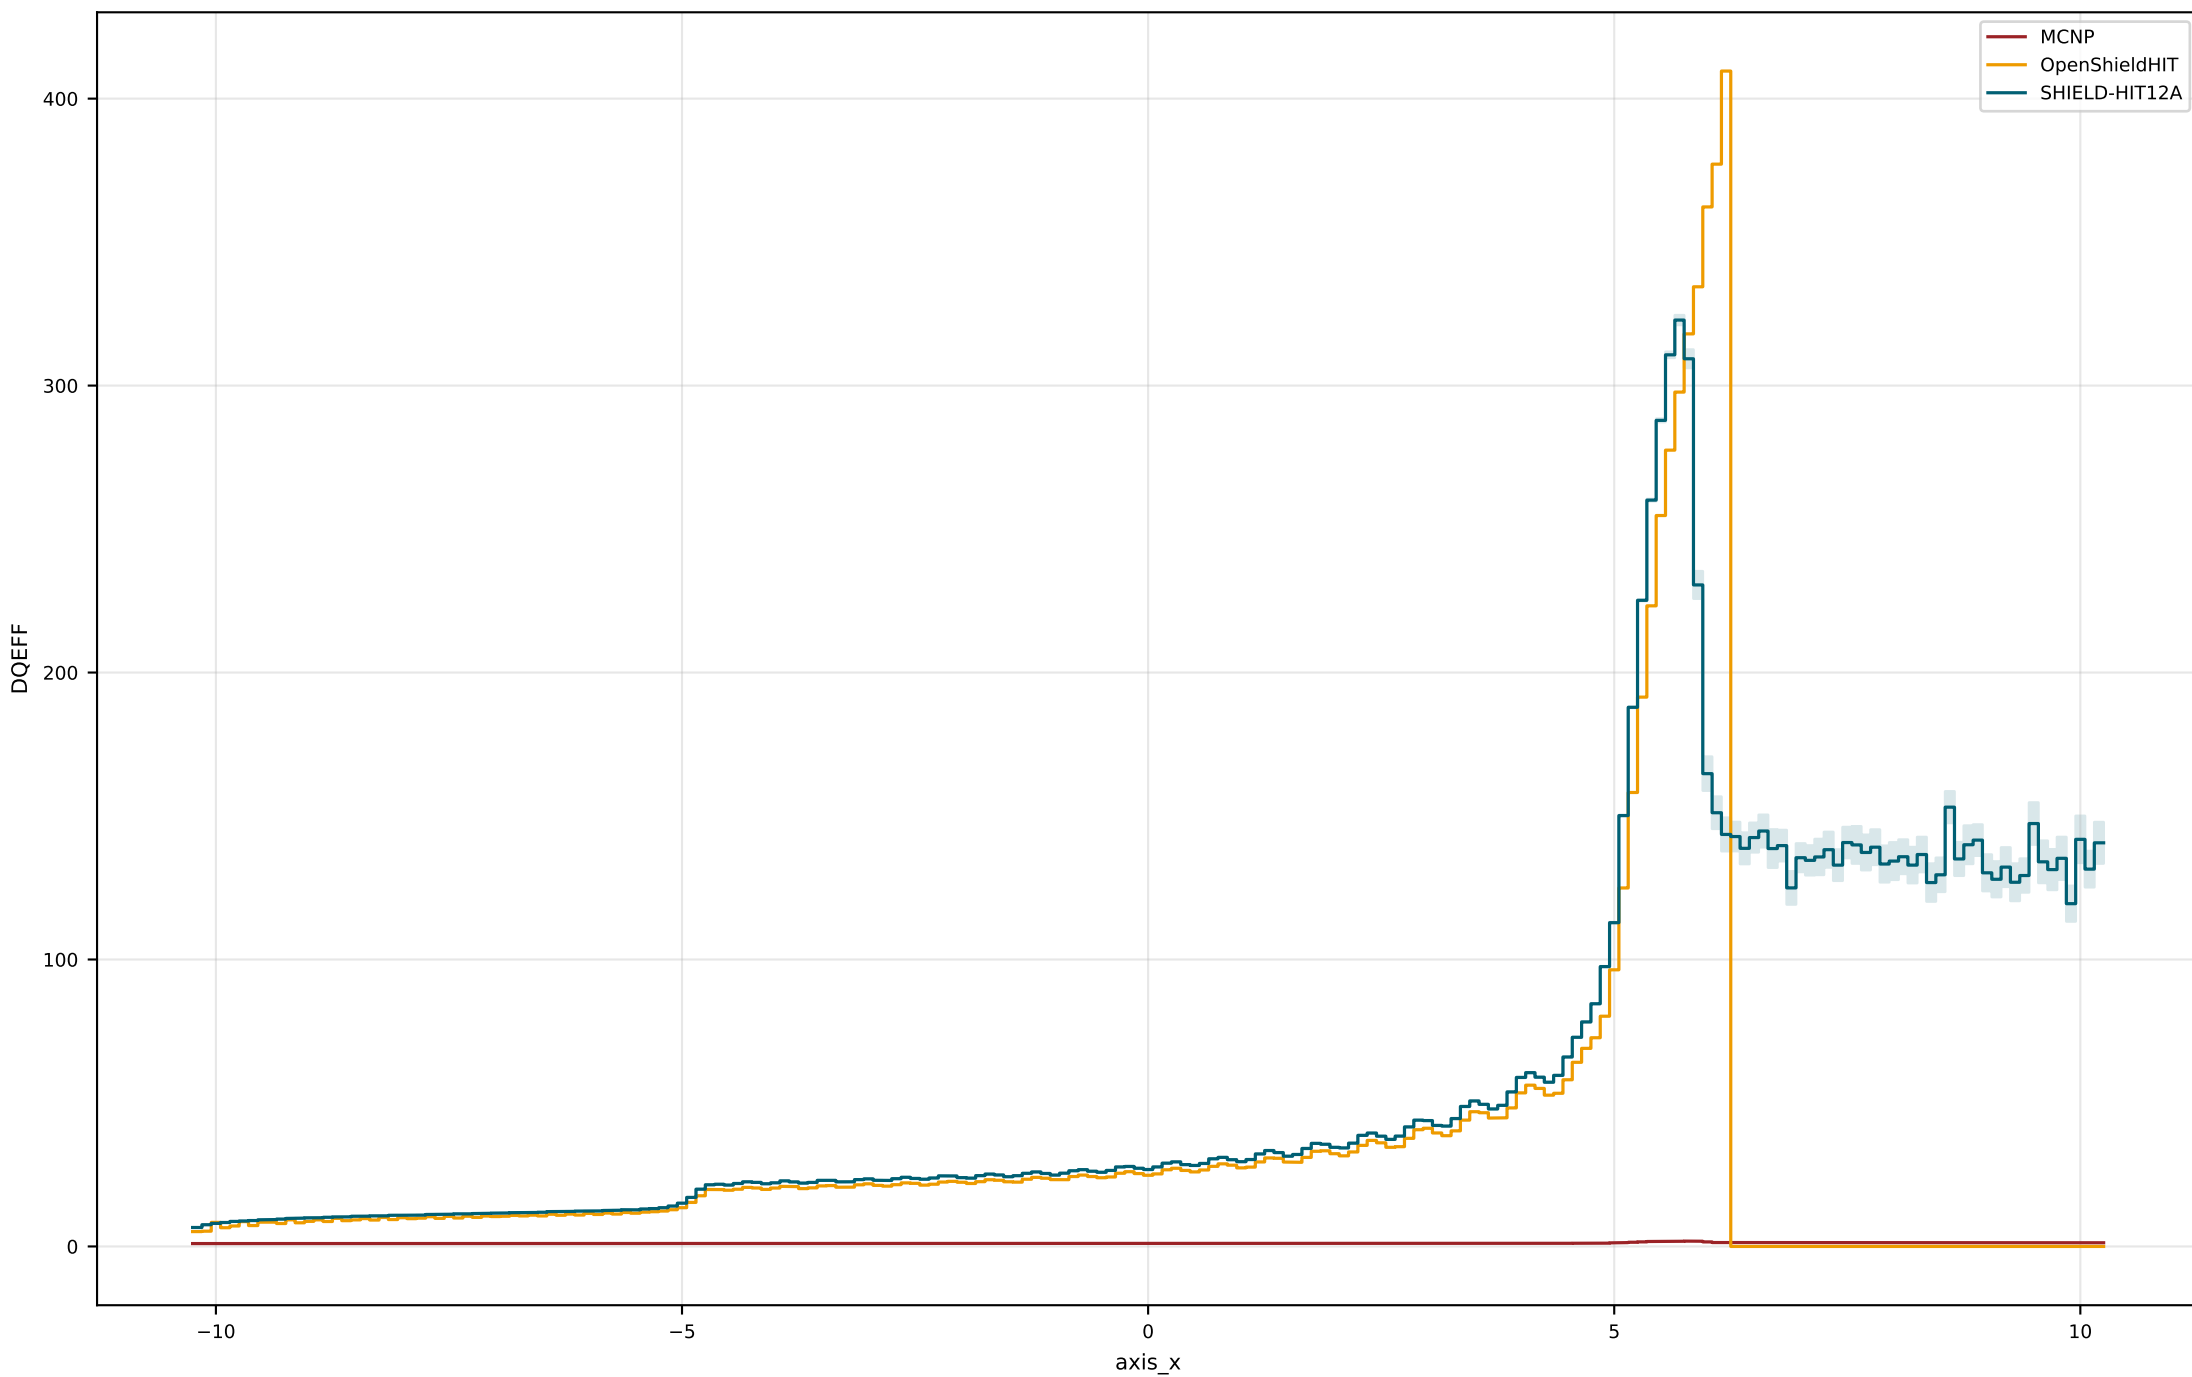

Depth profiles — D-Qeff

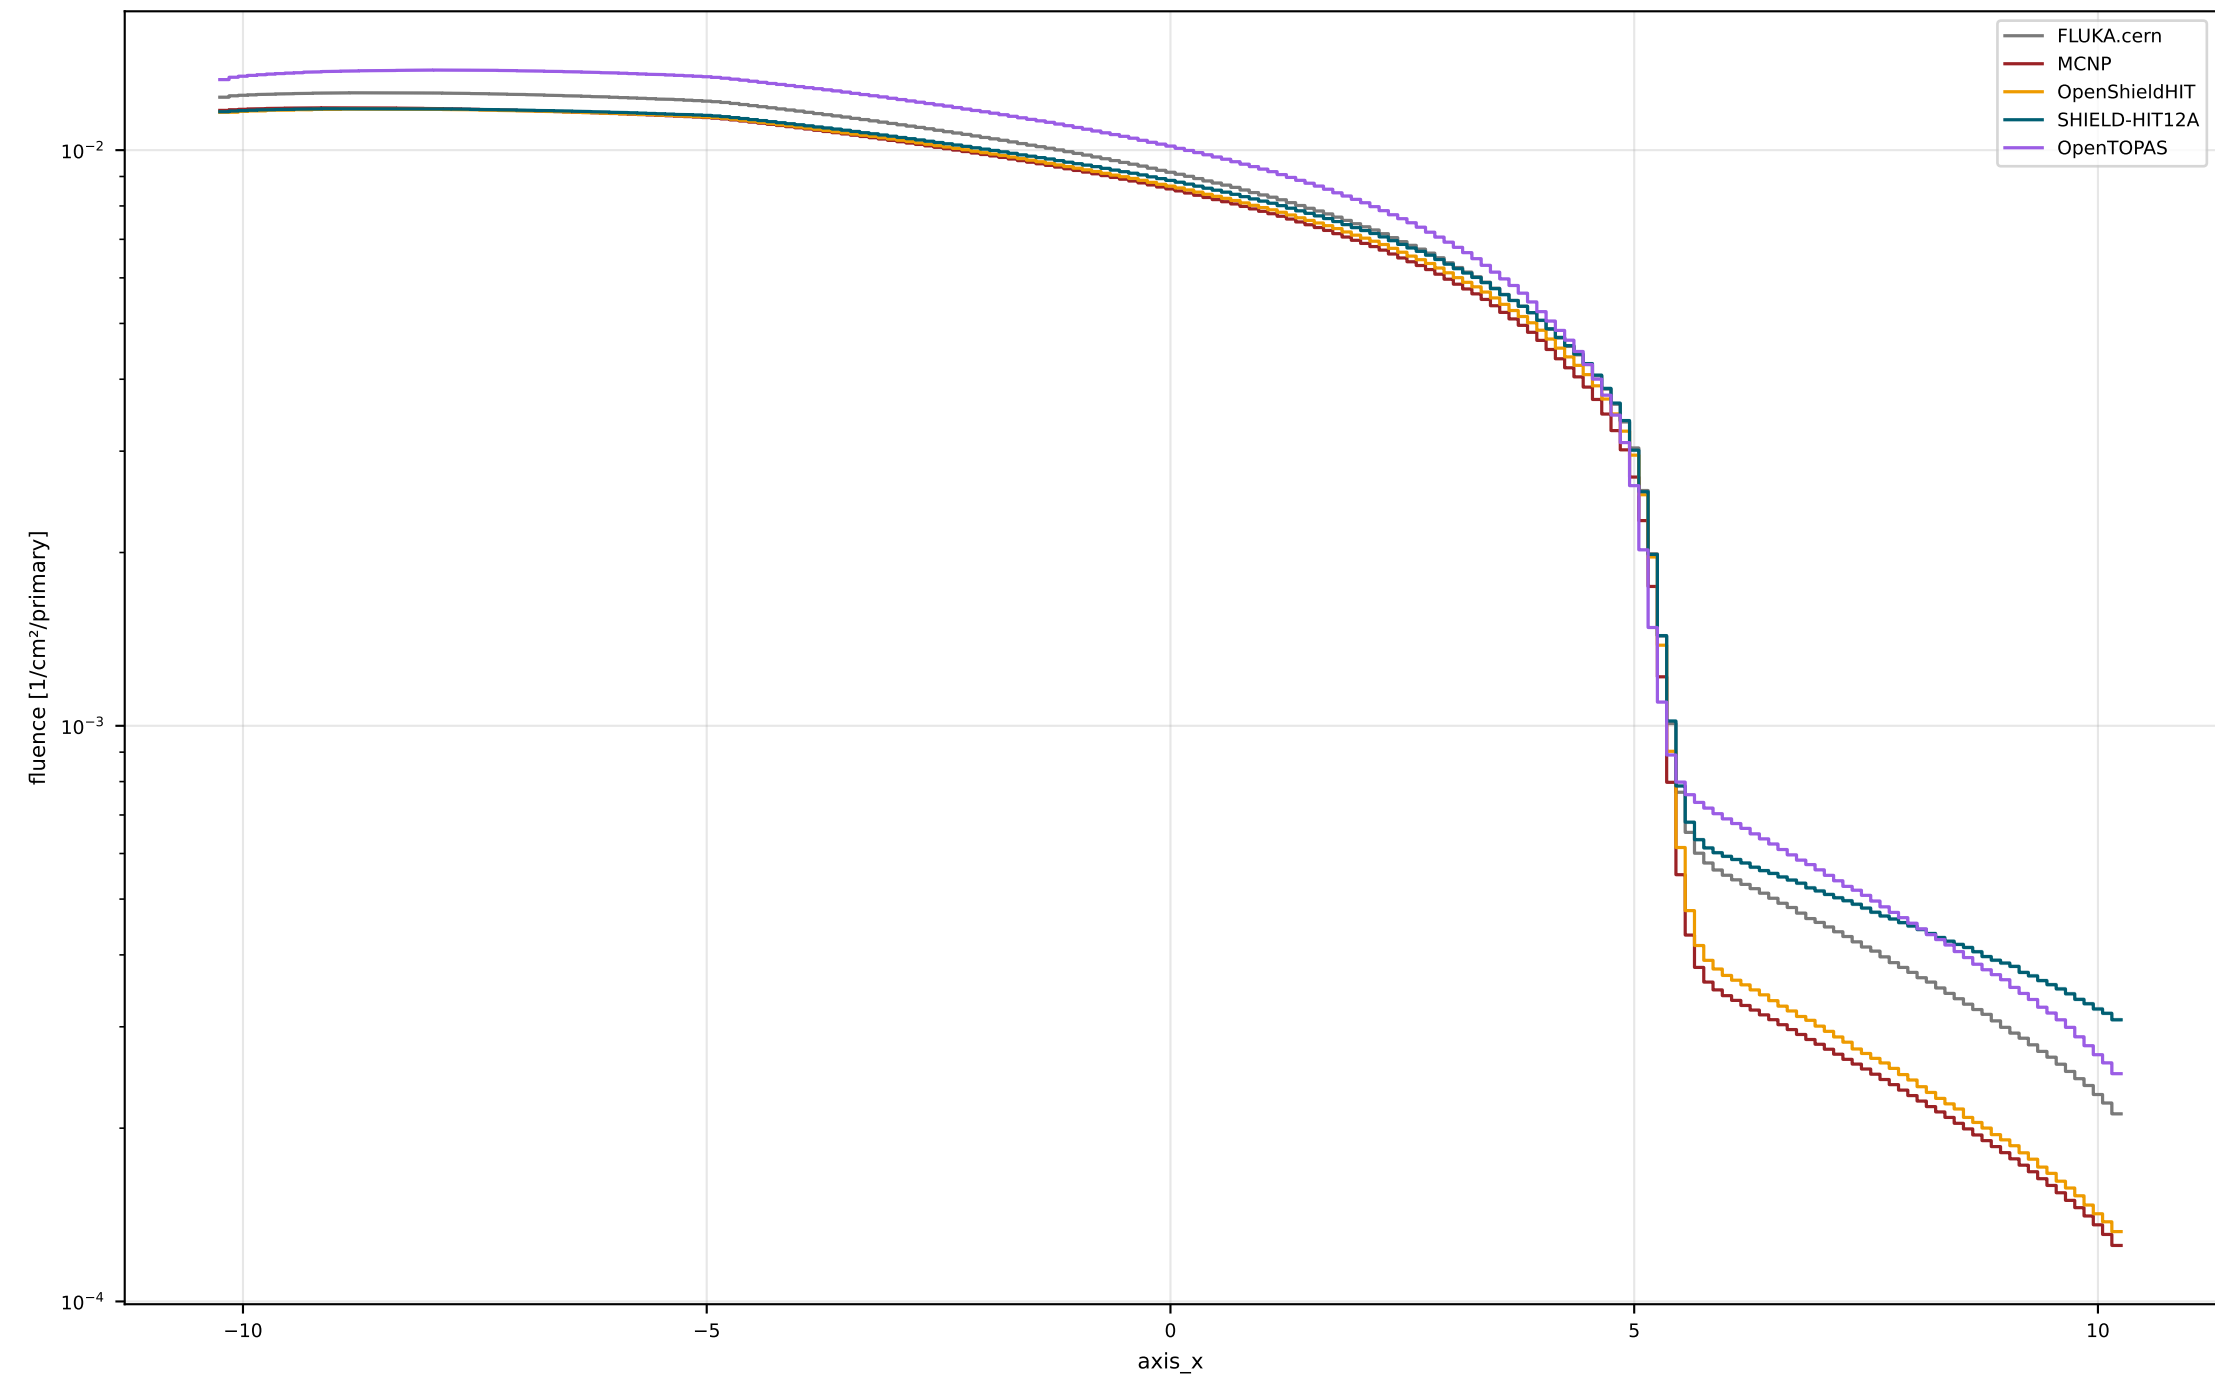

Depth profiles — D-Qeff (primary protons)

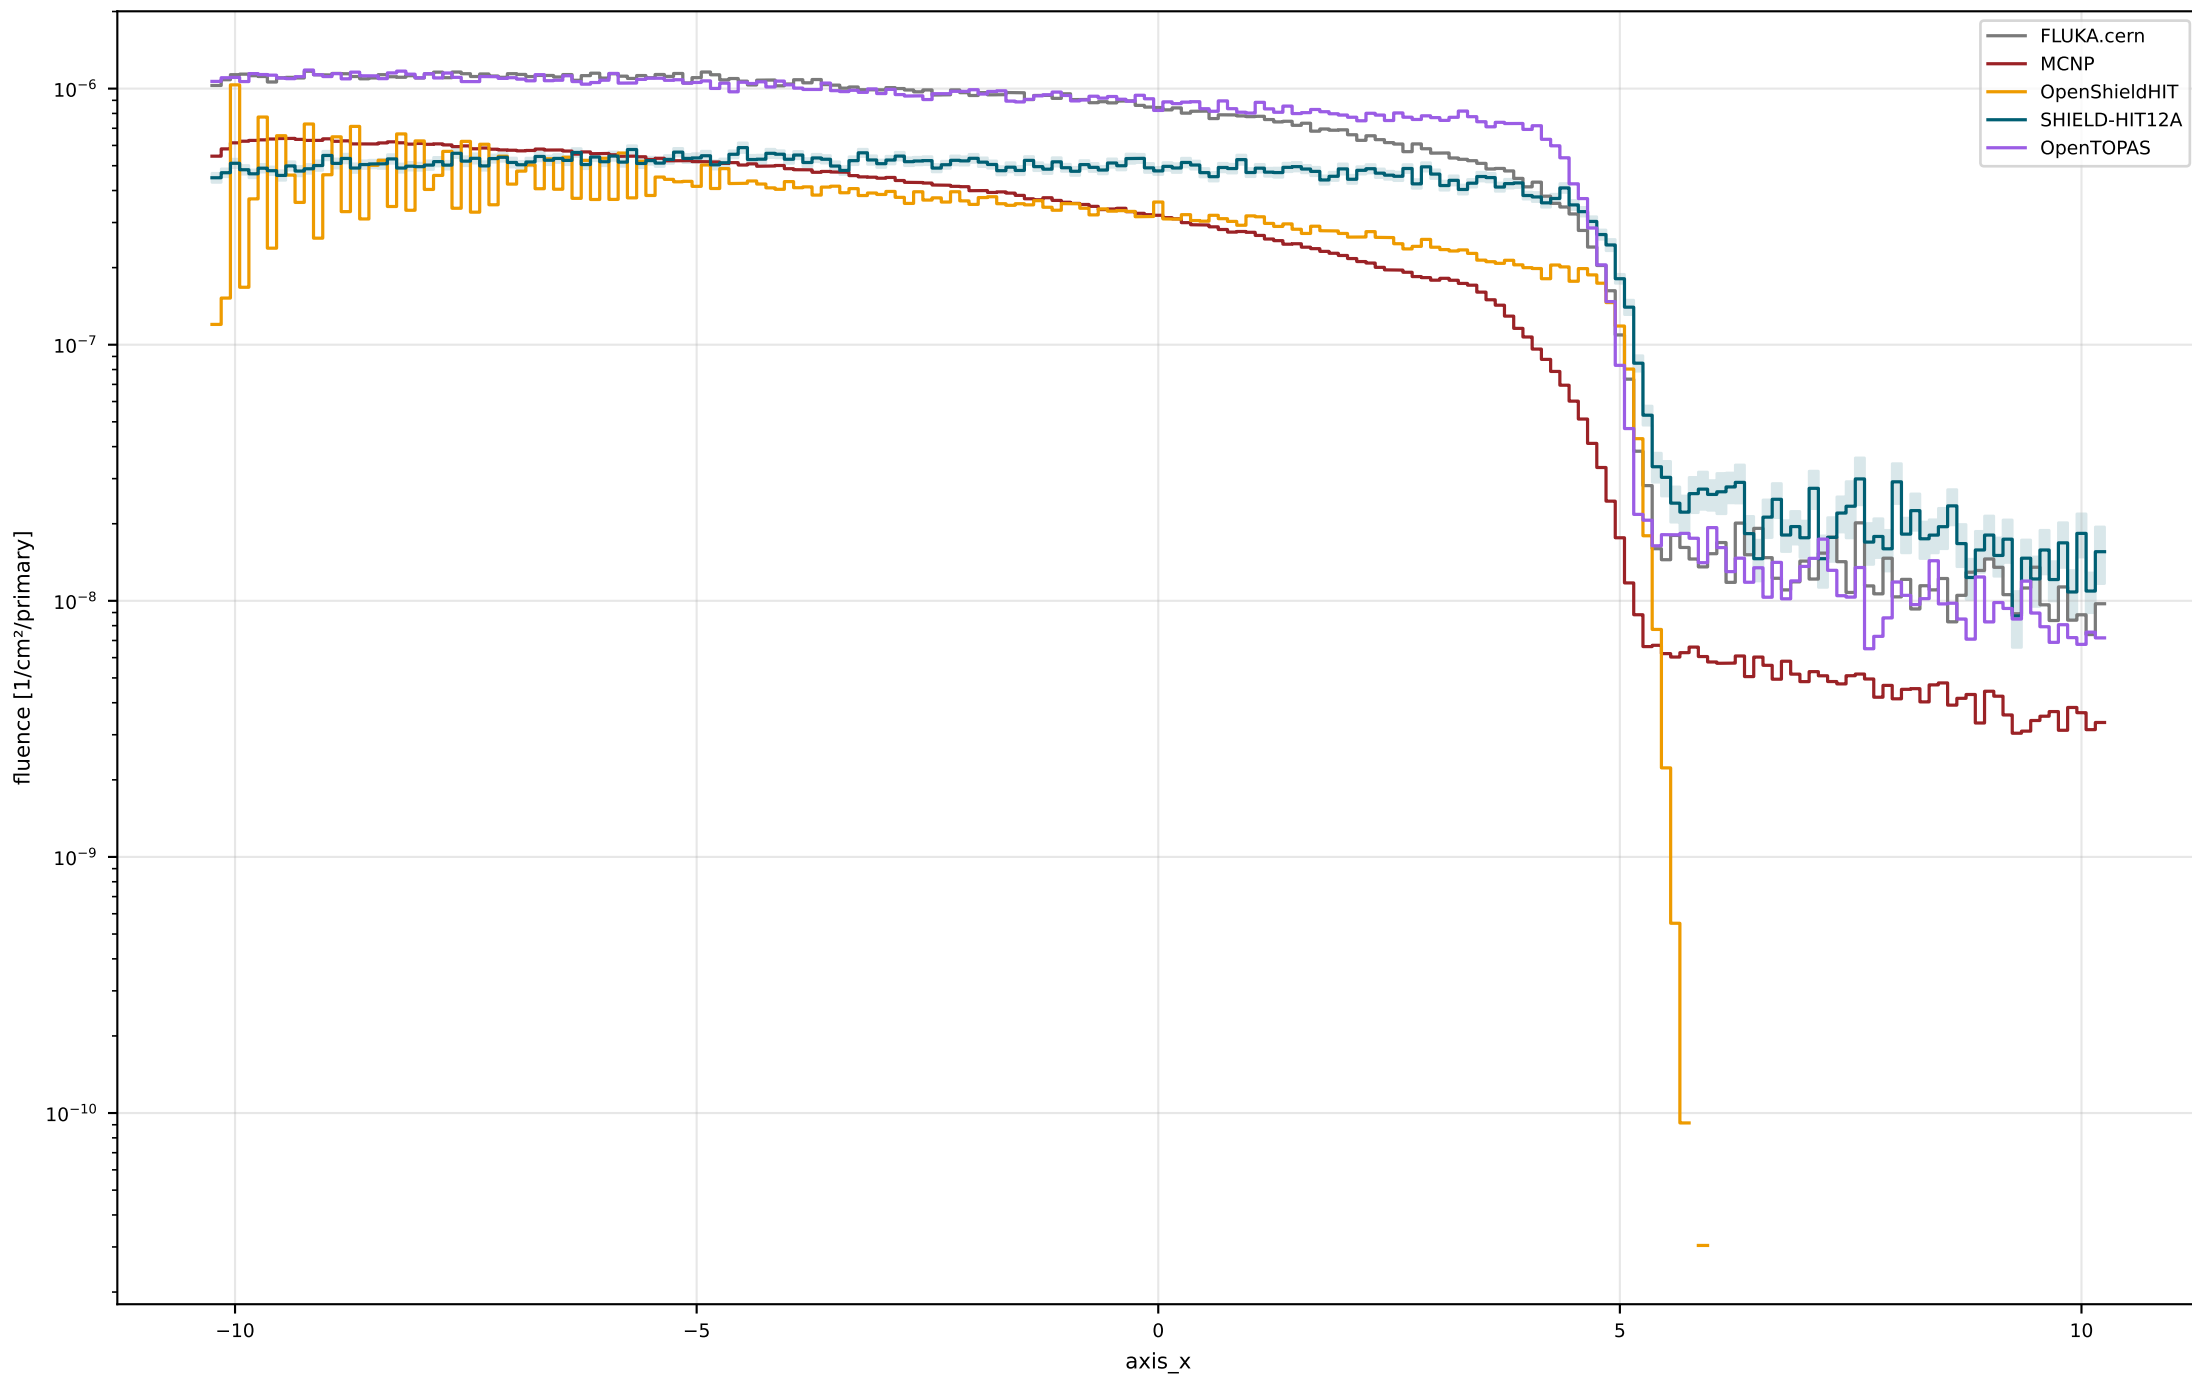

Depth profiles — D-Qeff (protons)

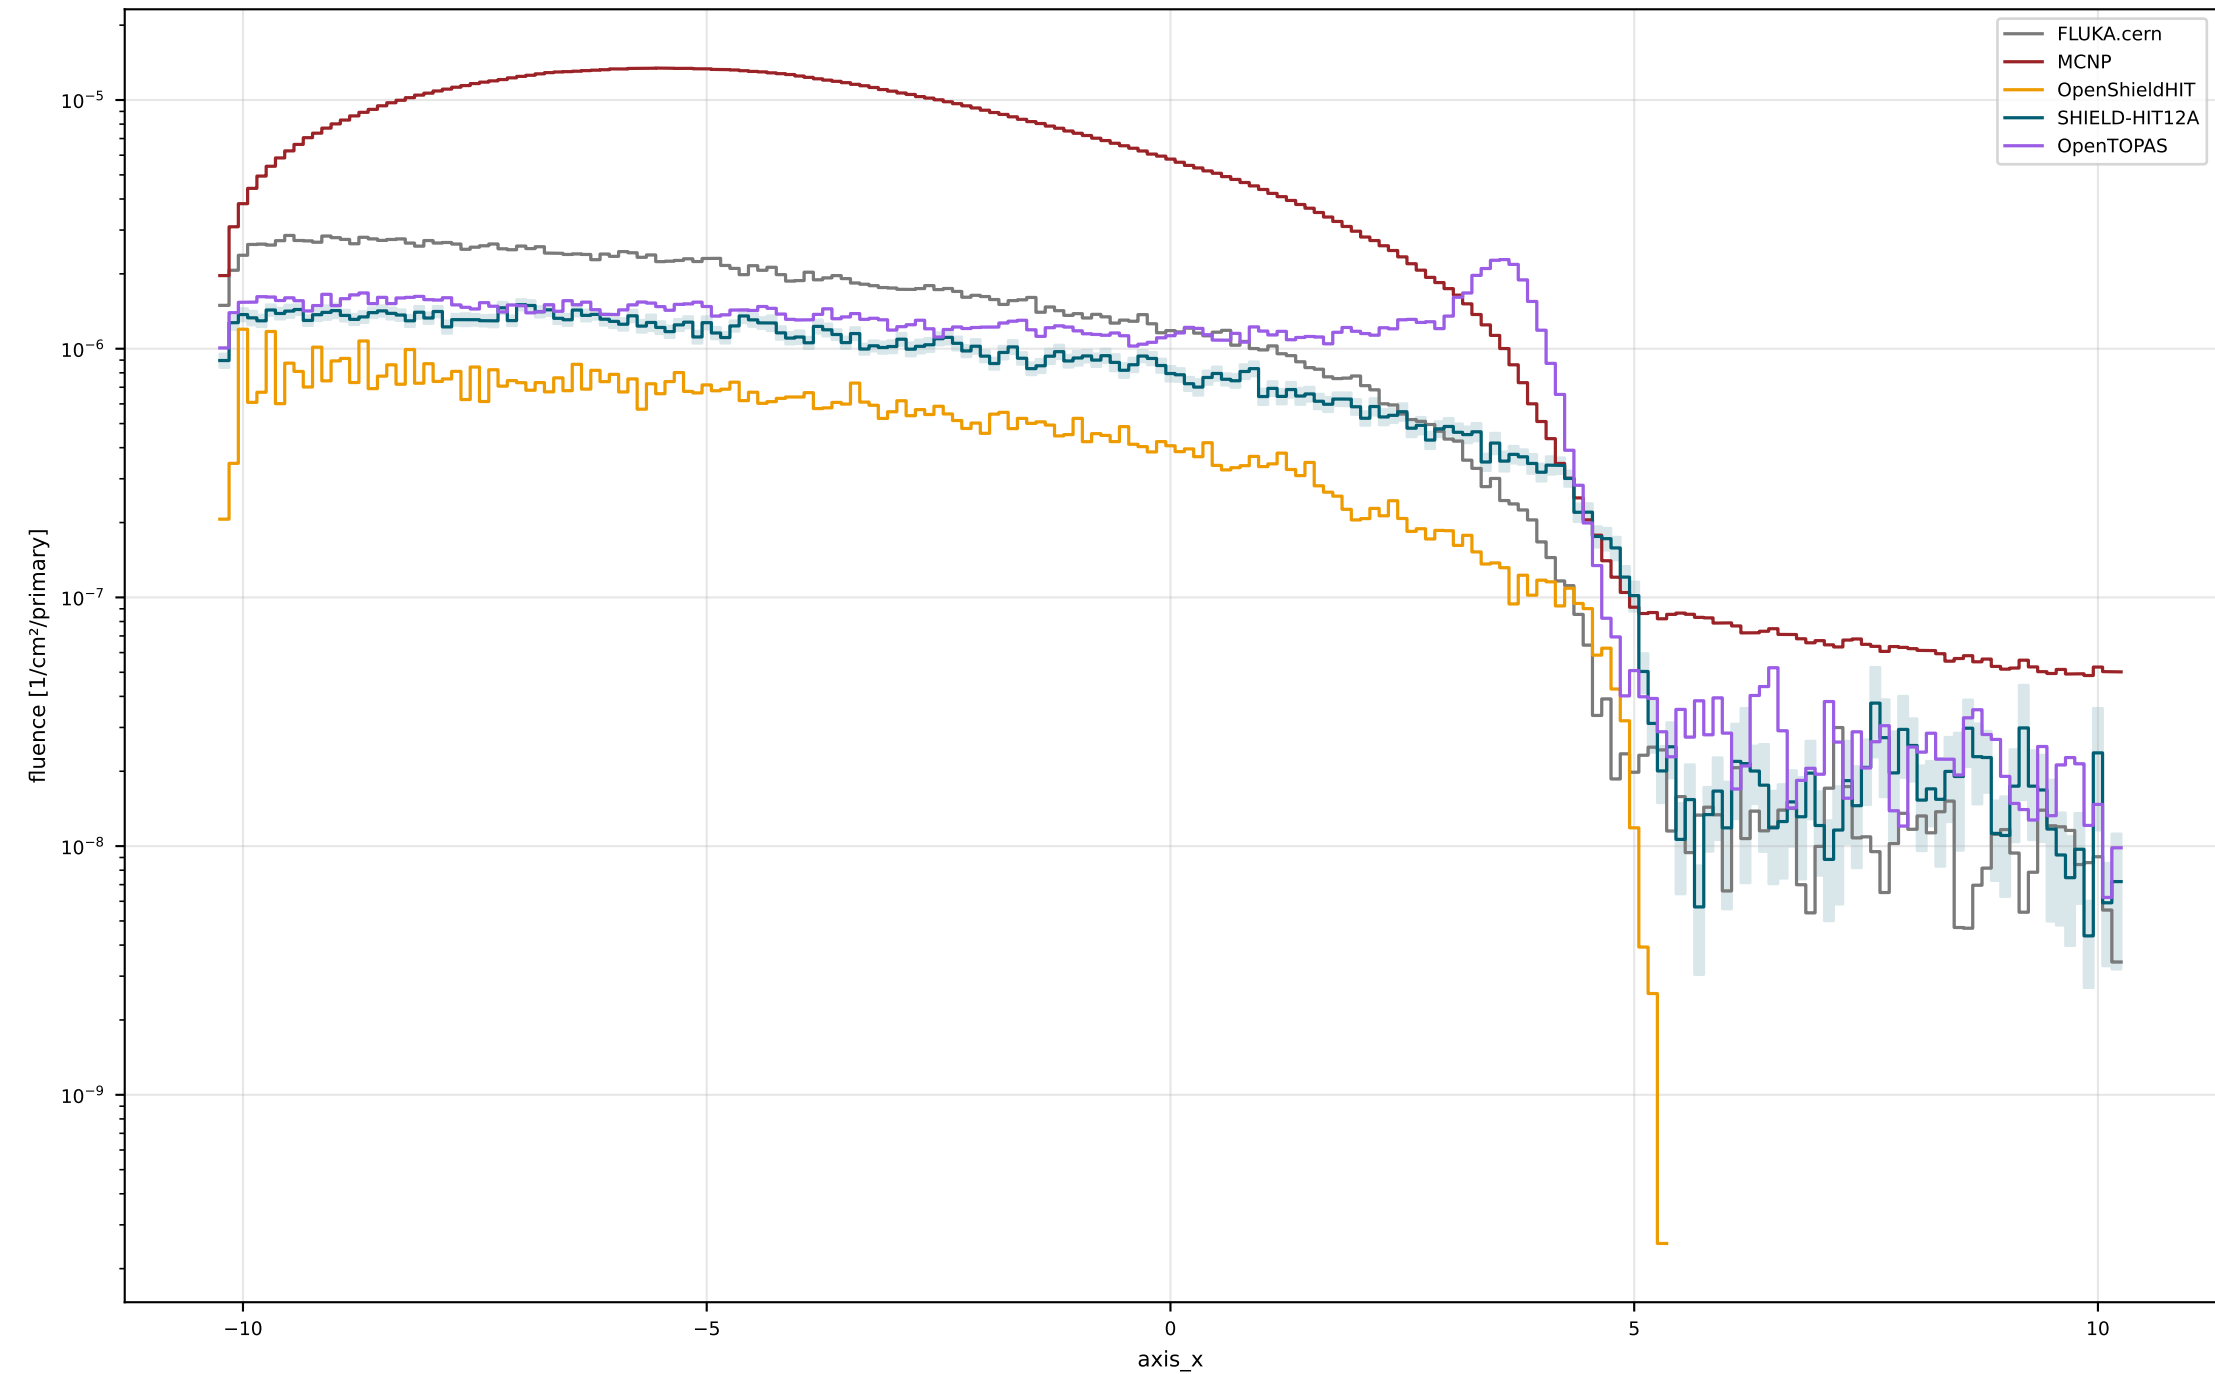

Depth profiles — Fluence

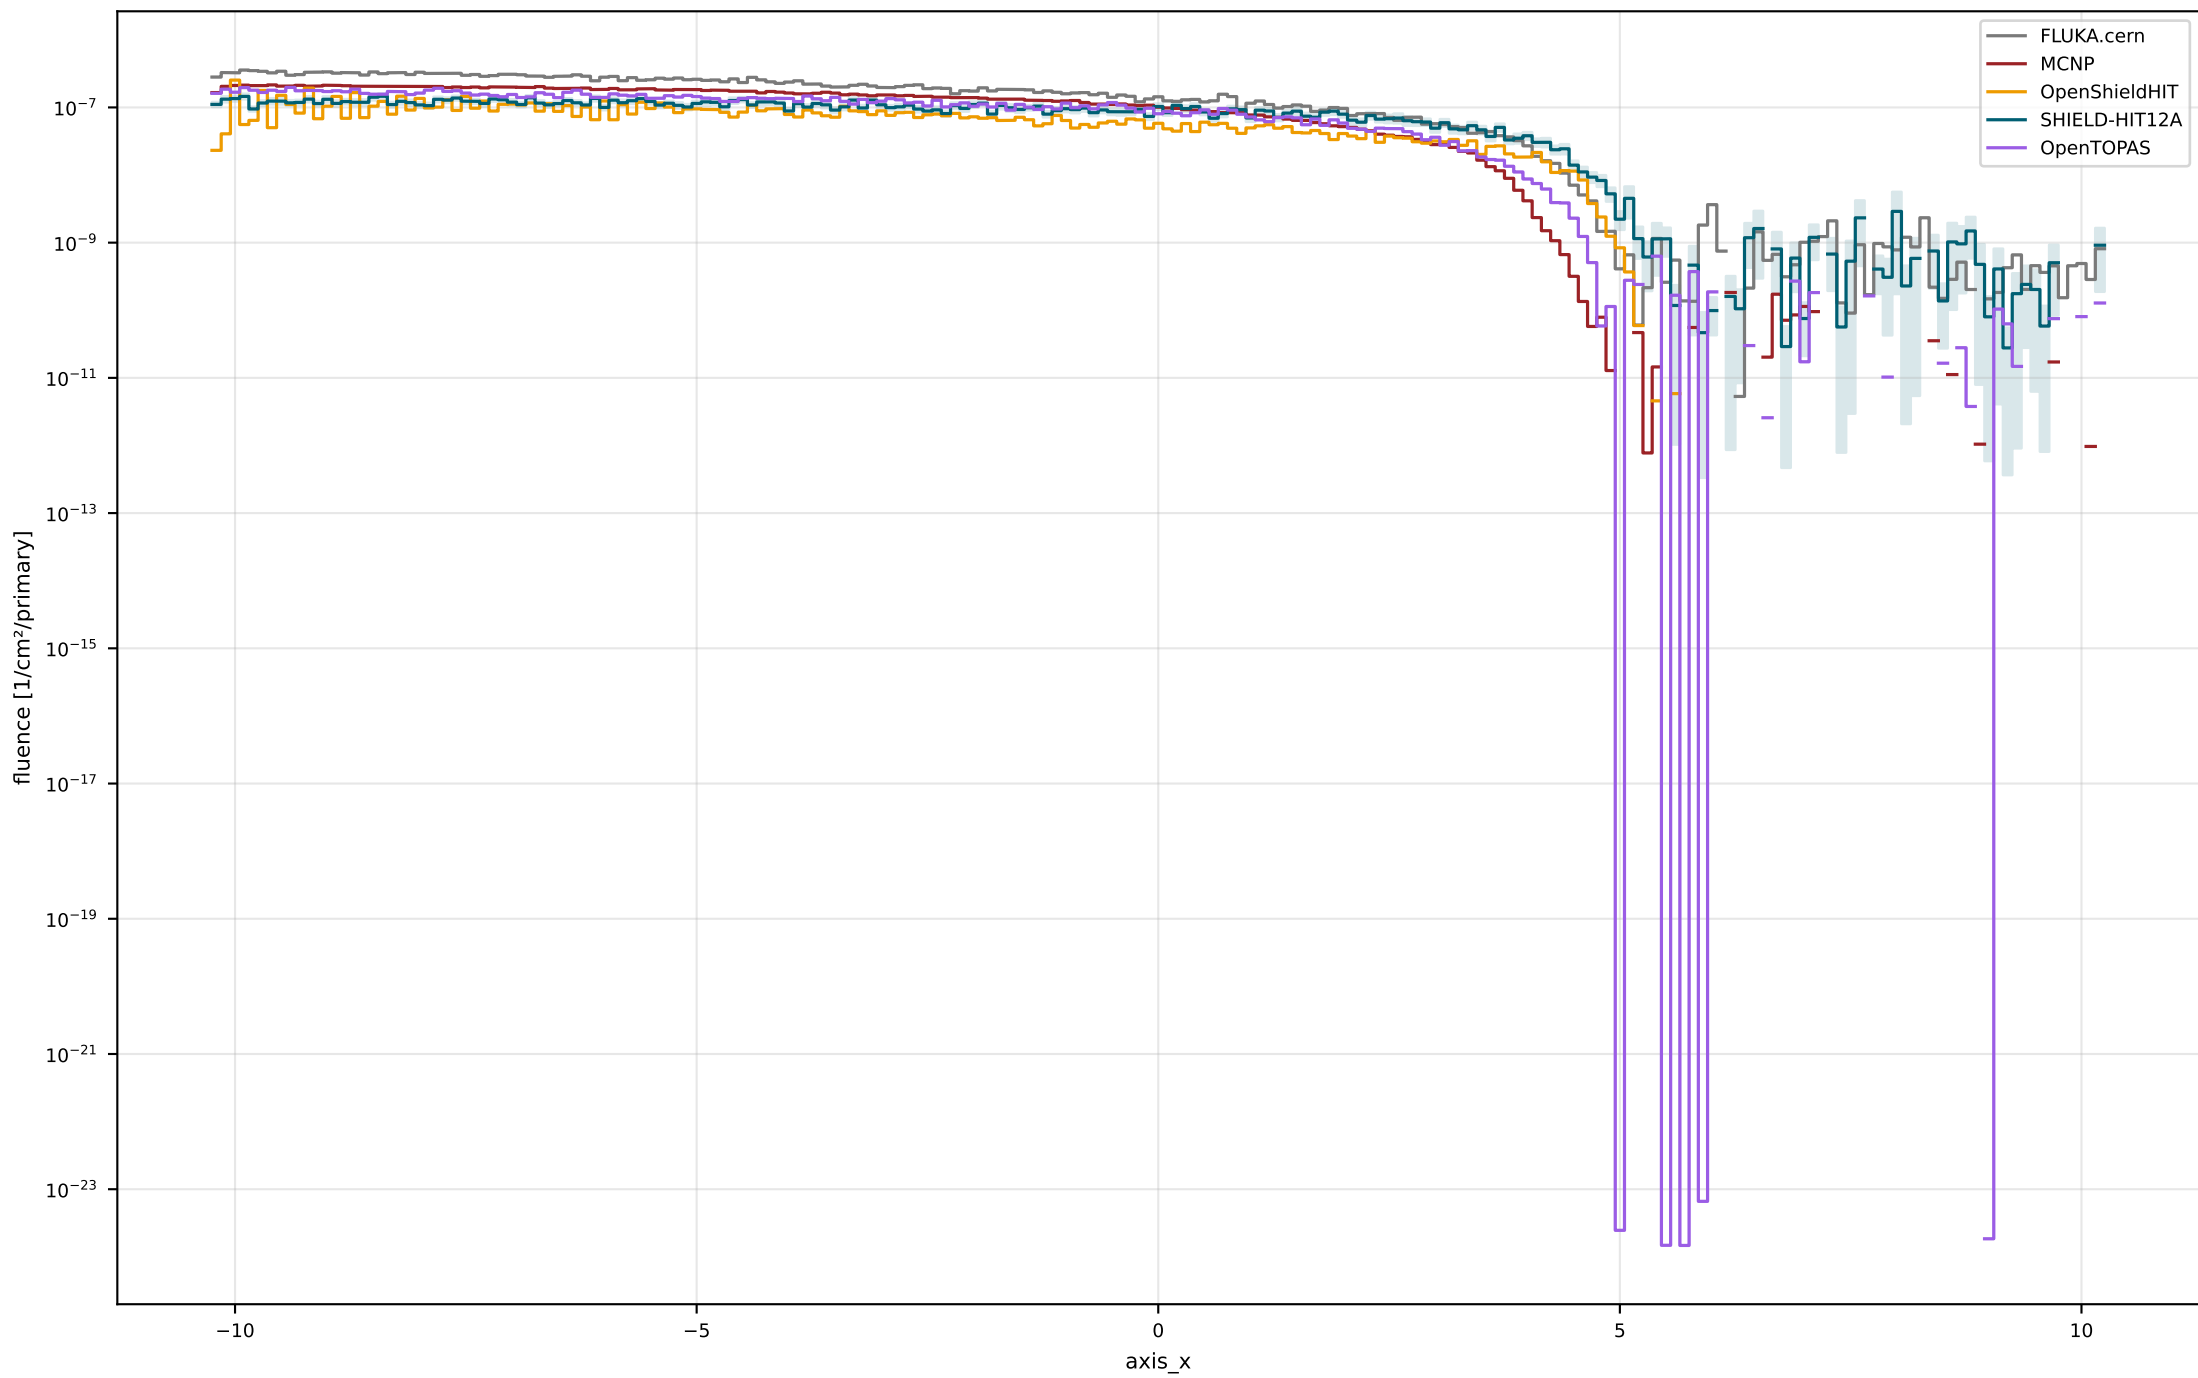

Depth profiles — Fluence (alpha particles)

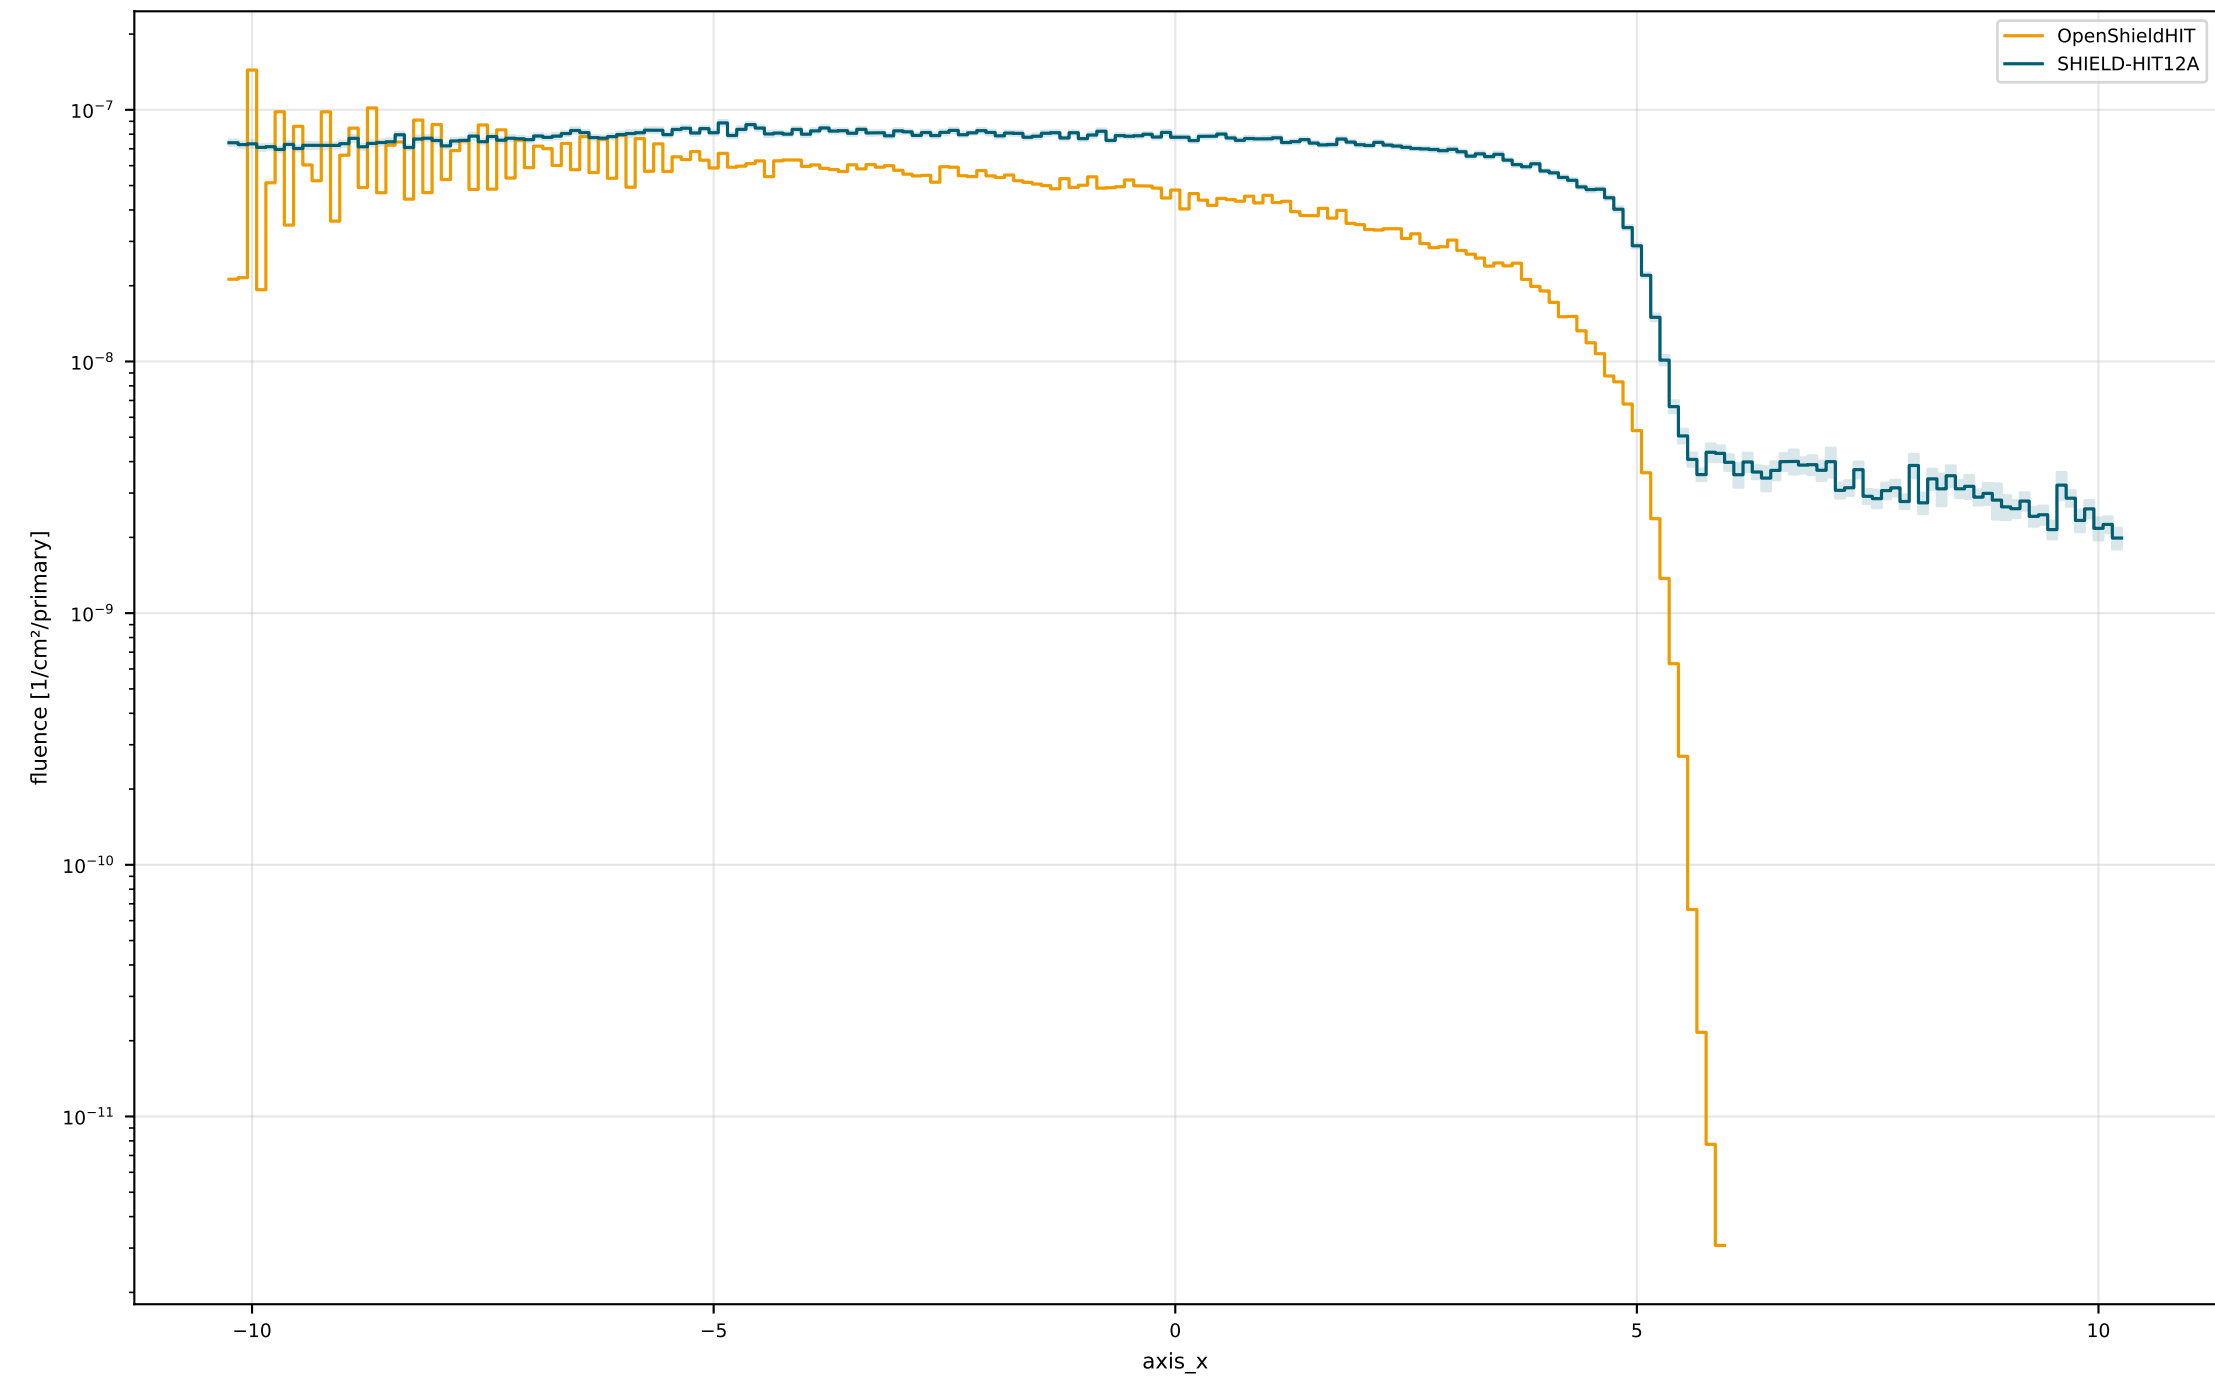

Depth profiles — Fluence (deuterons)

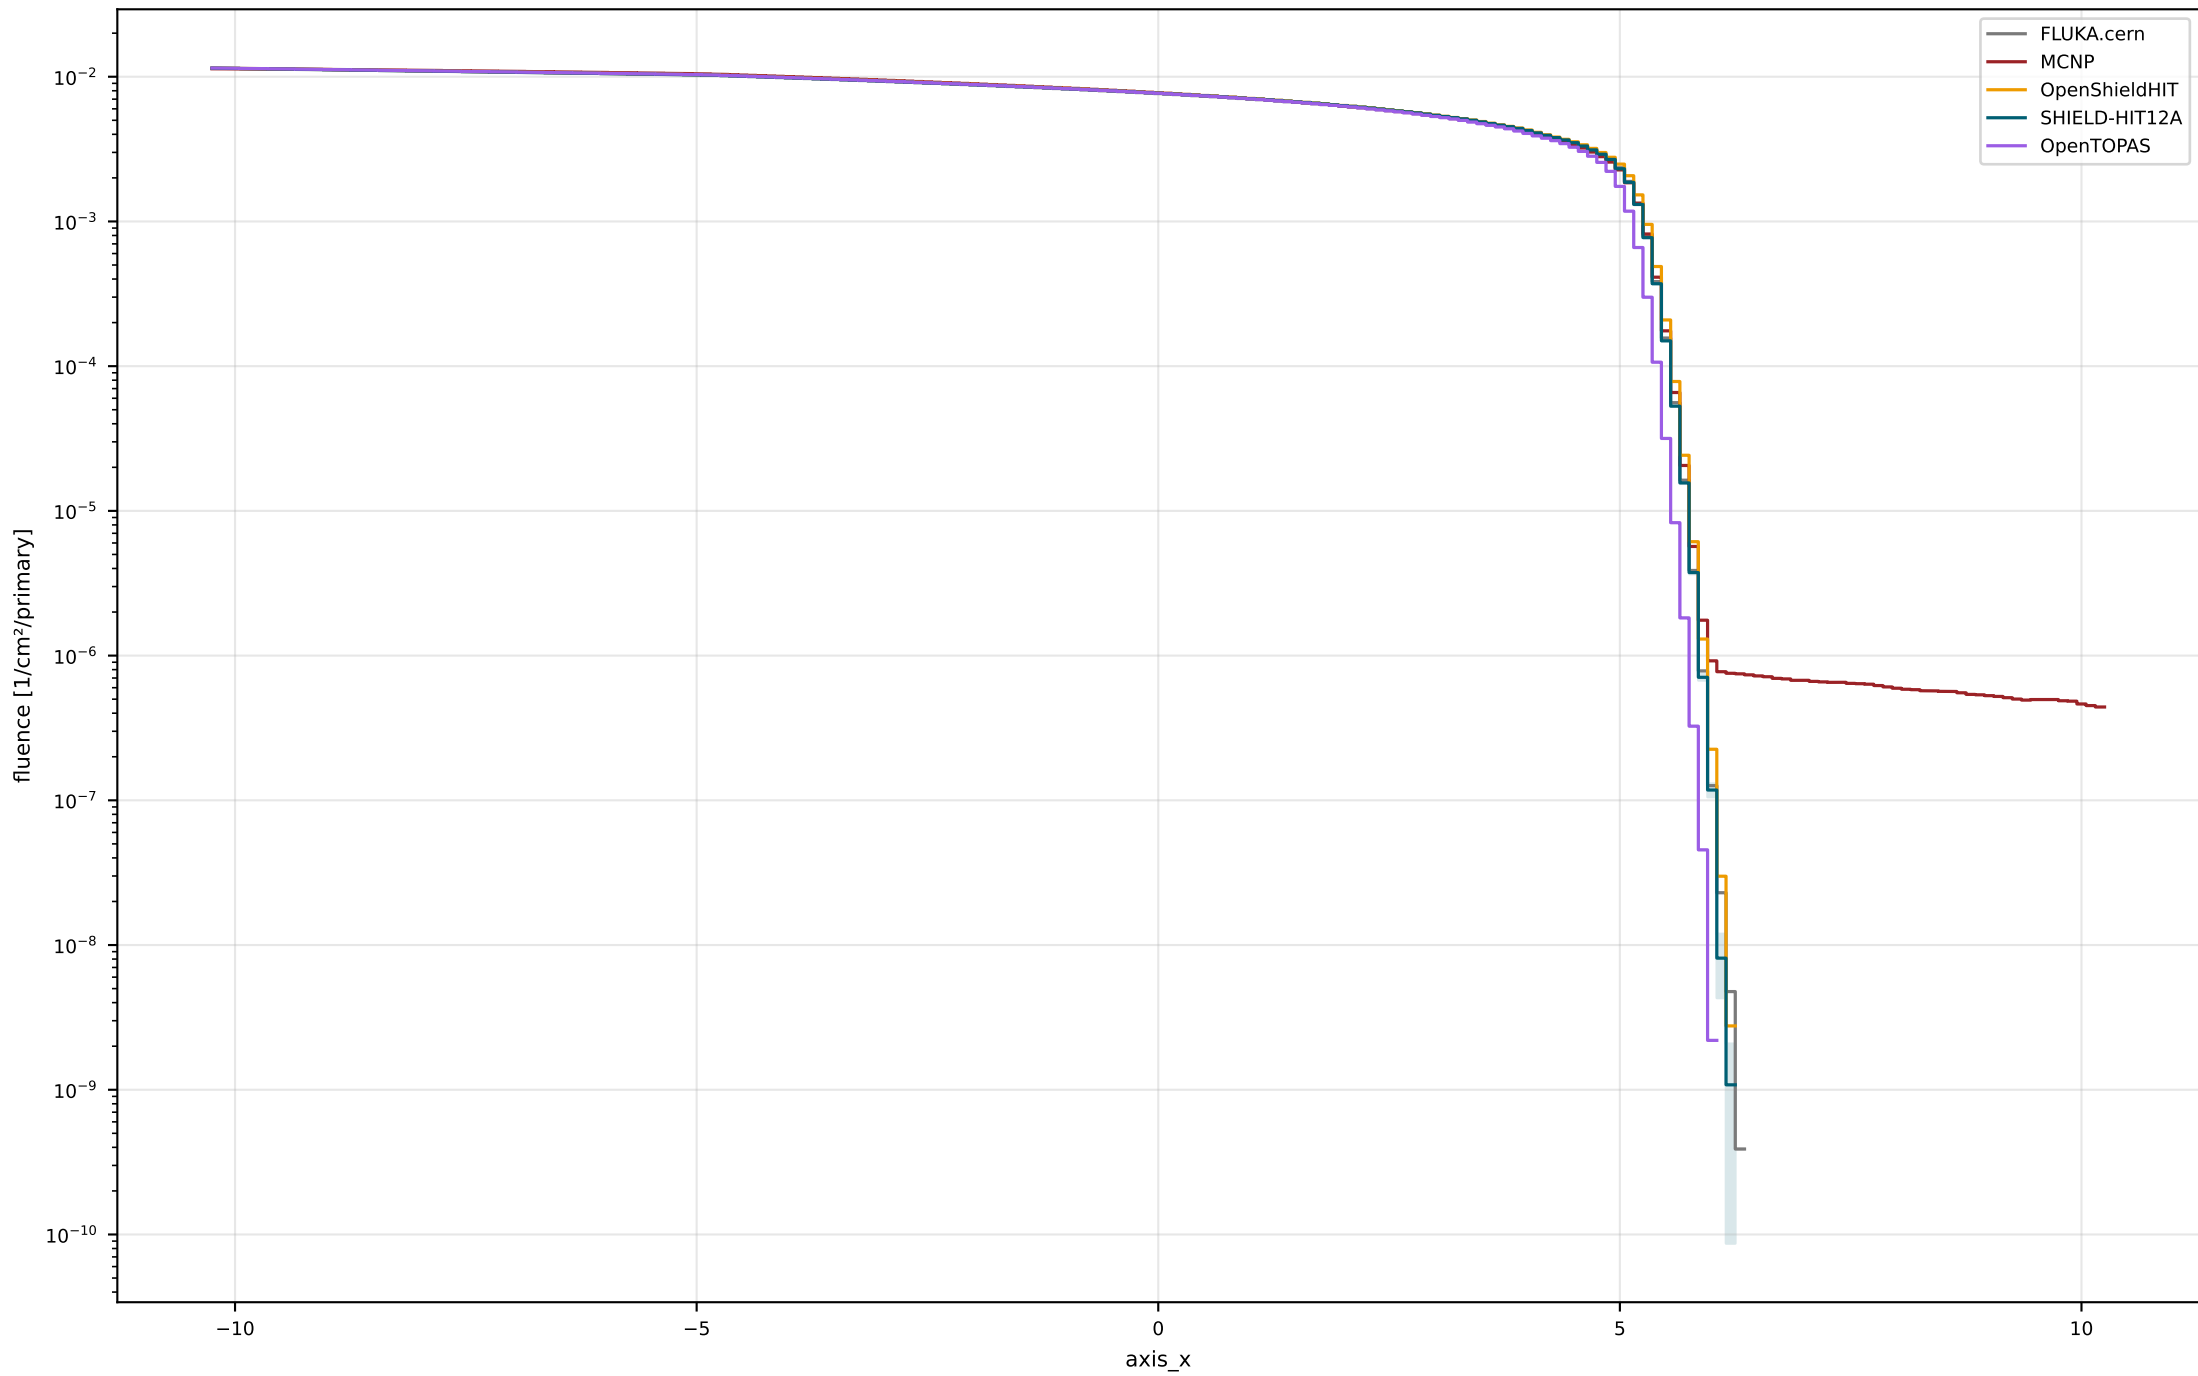

Depth profiles — Fluence (helium-3)

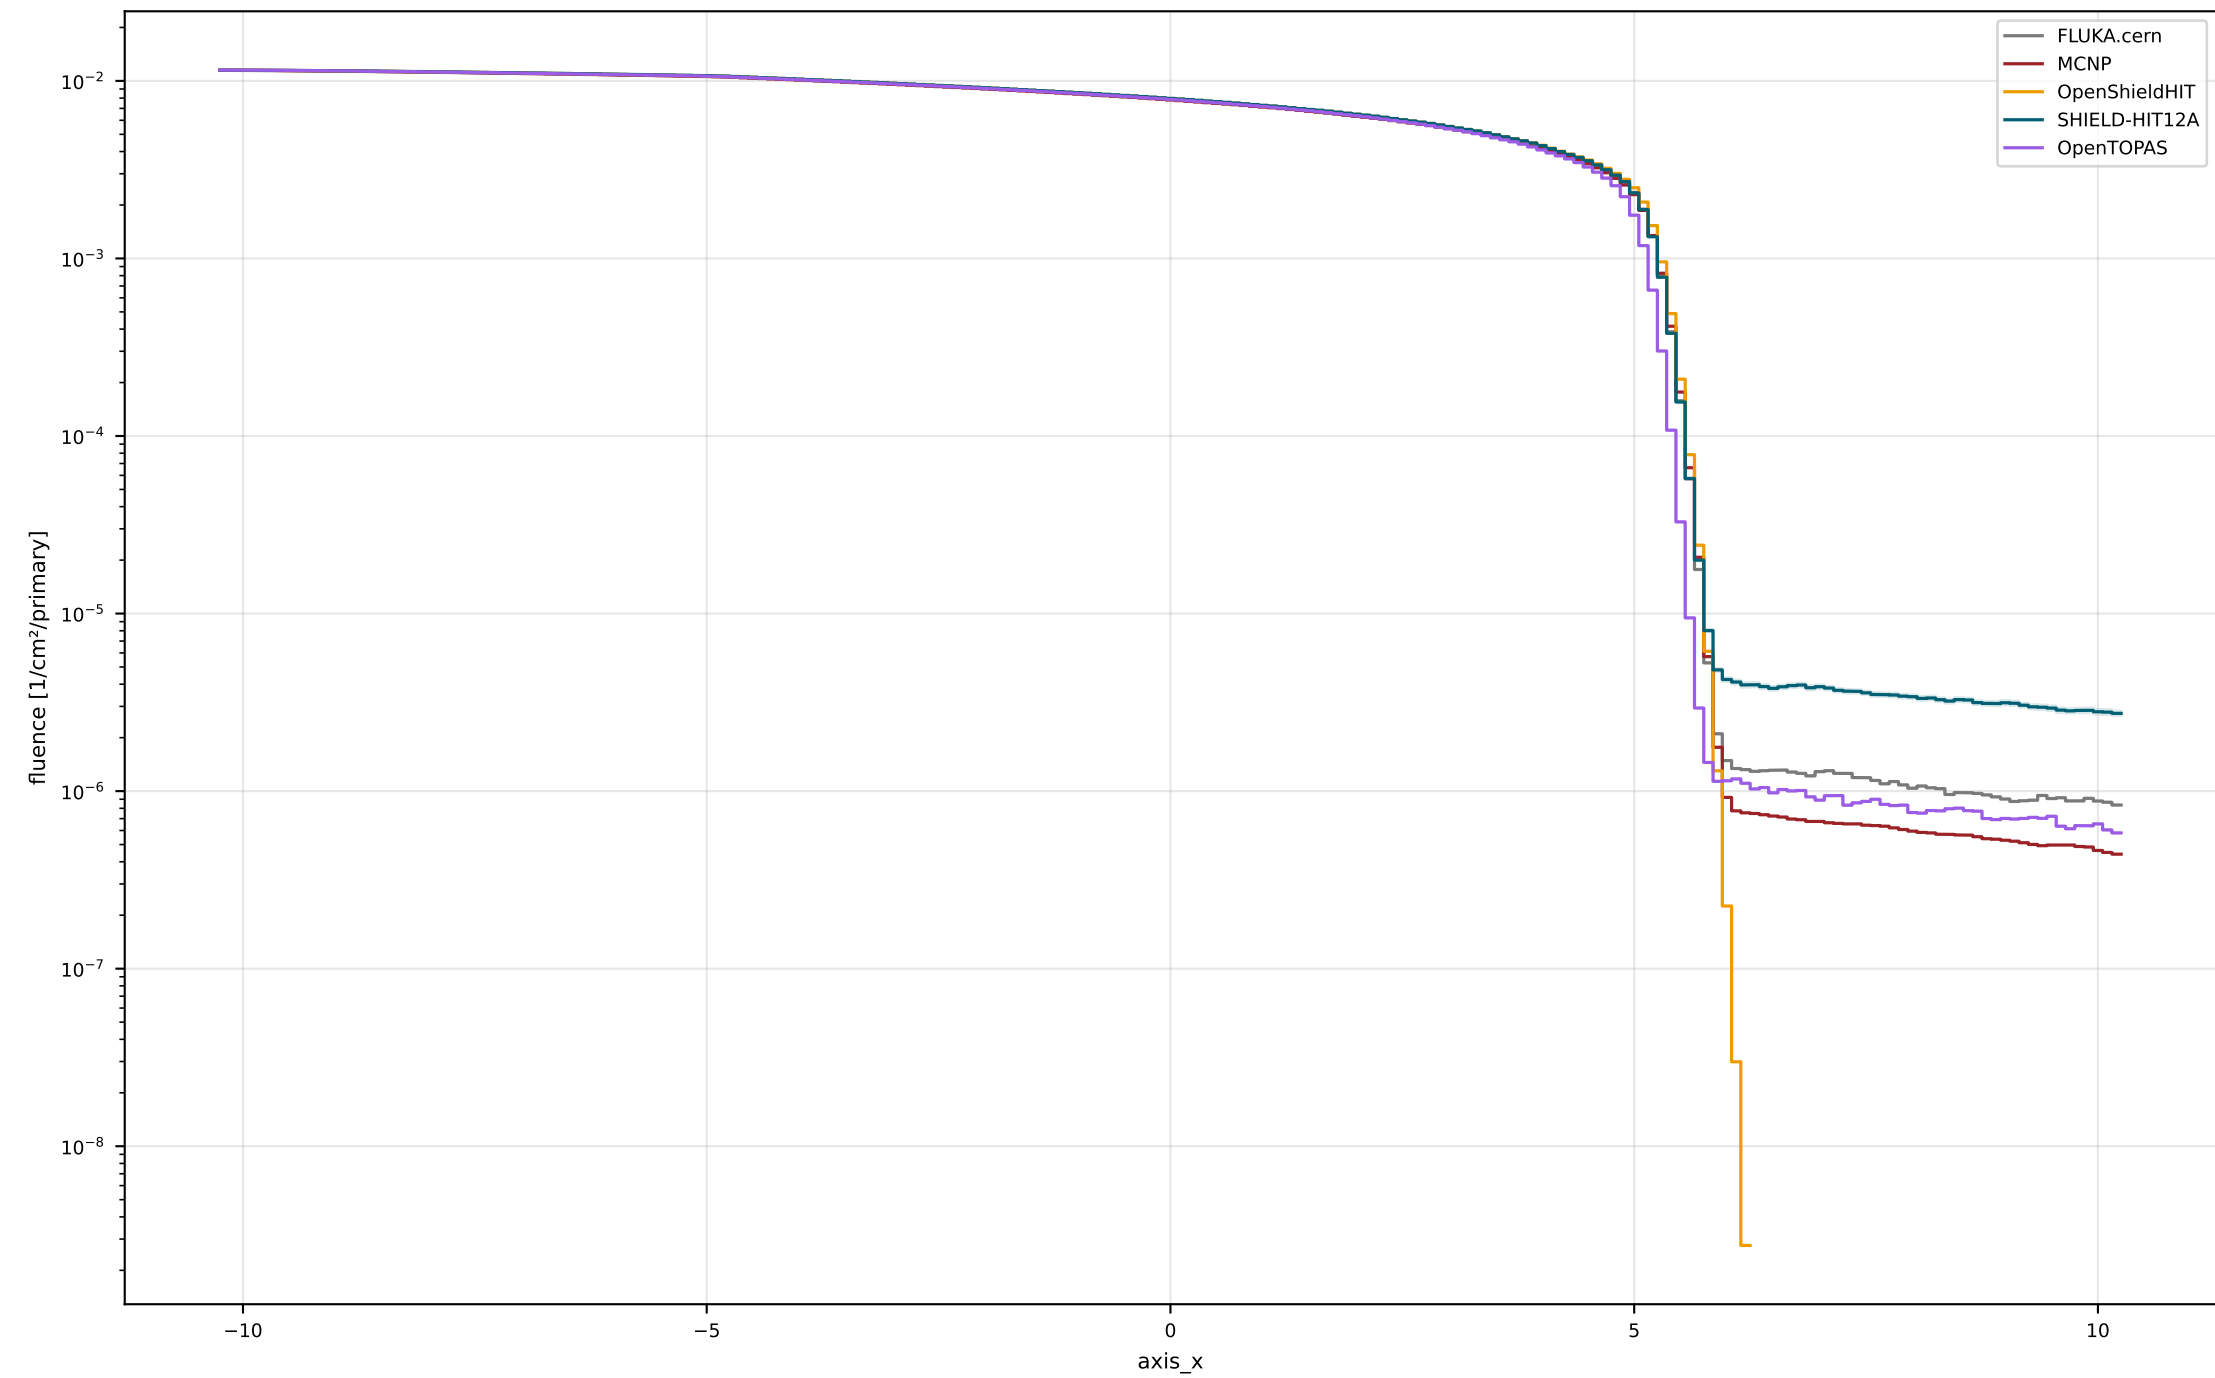

Depth profiles — Fluence (heavy recoils/fragments)

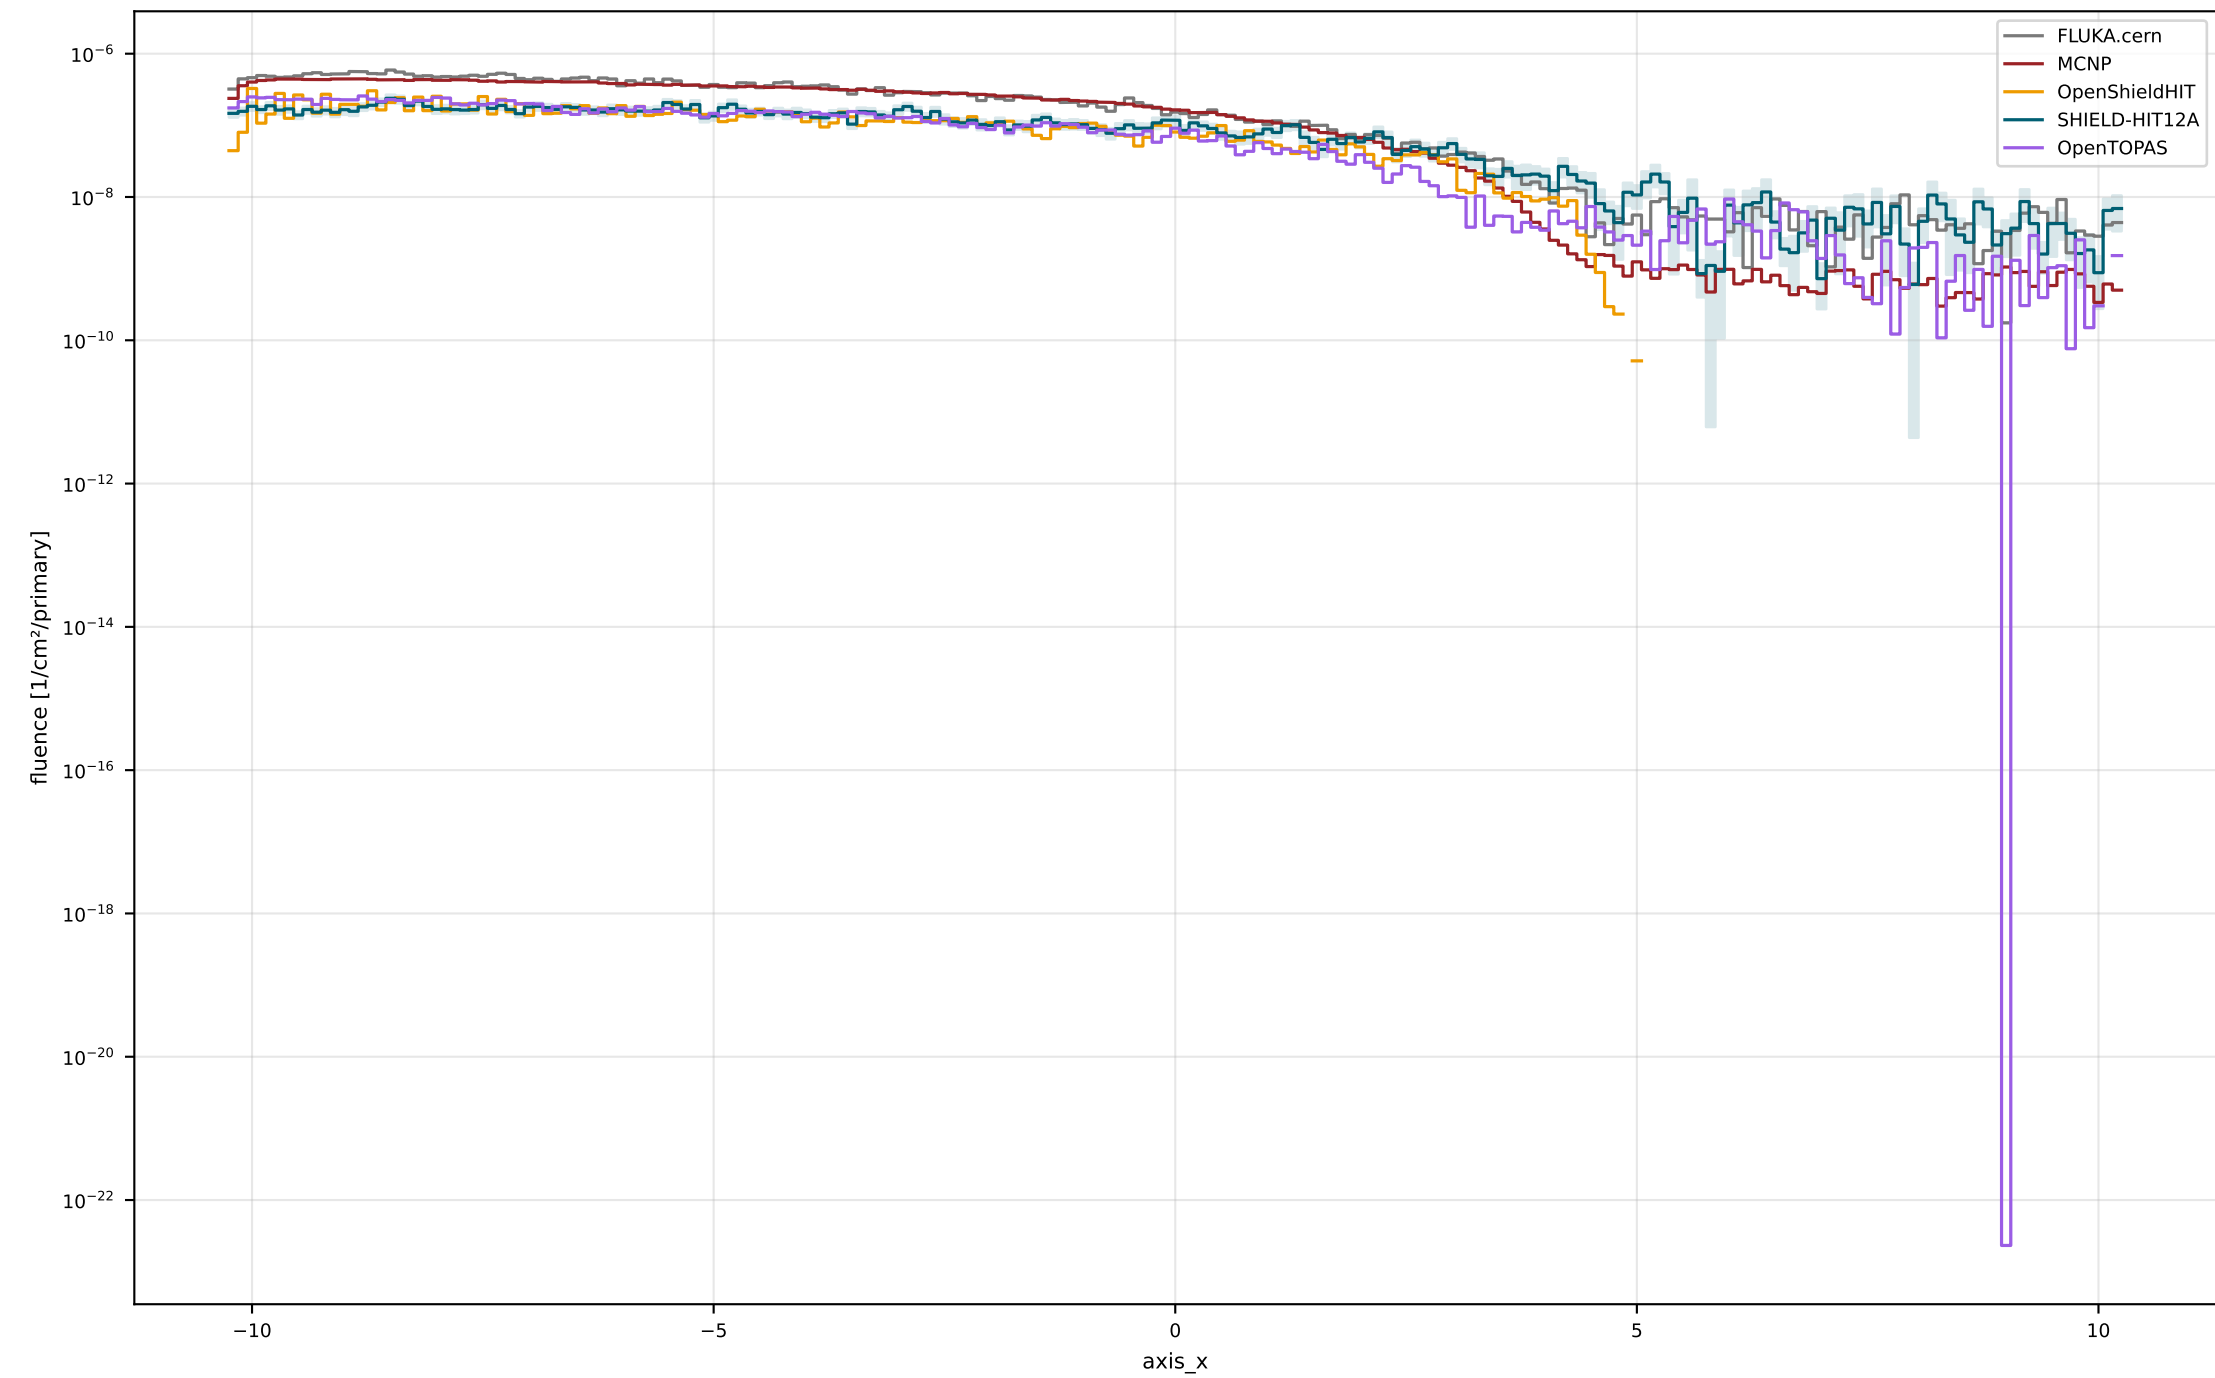

# Depth profiles — Fluence (primary protons)

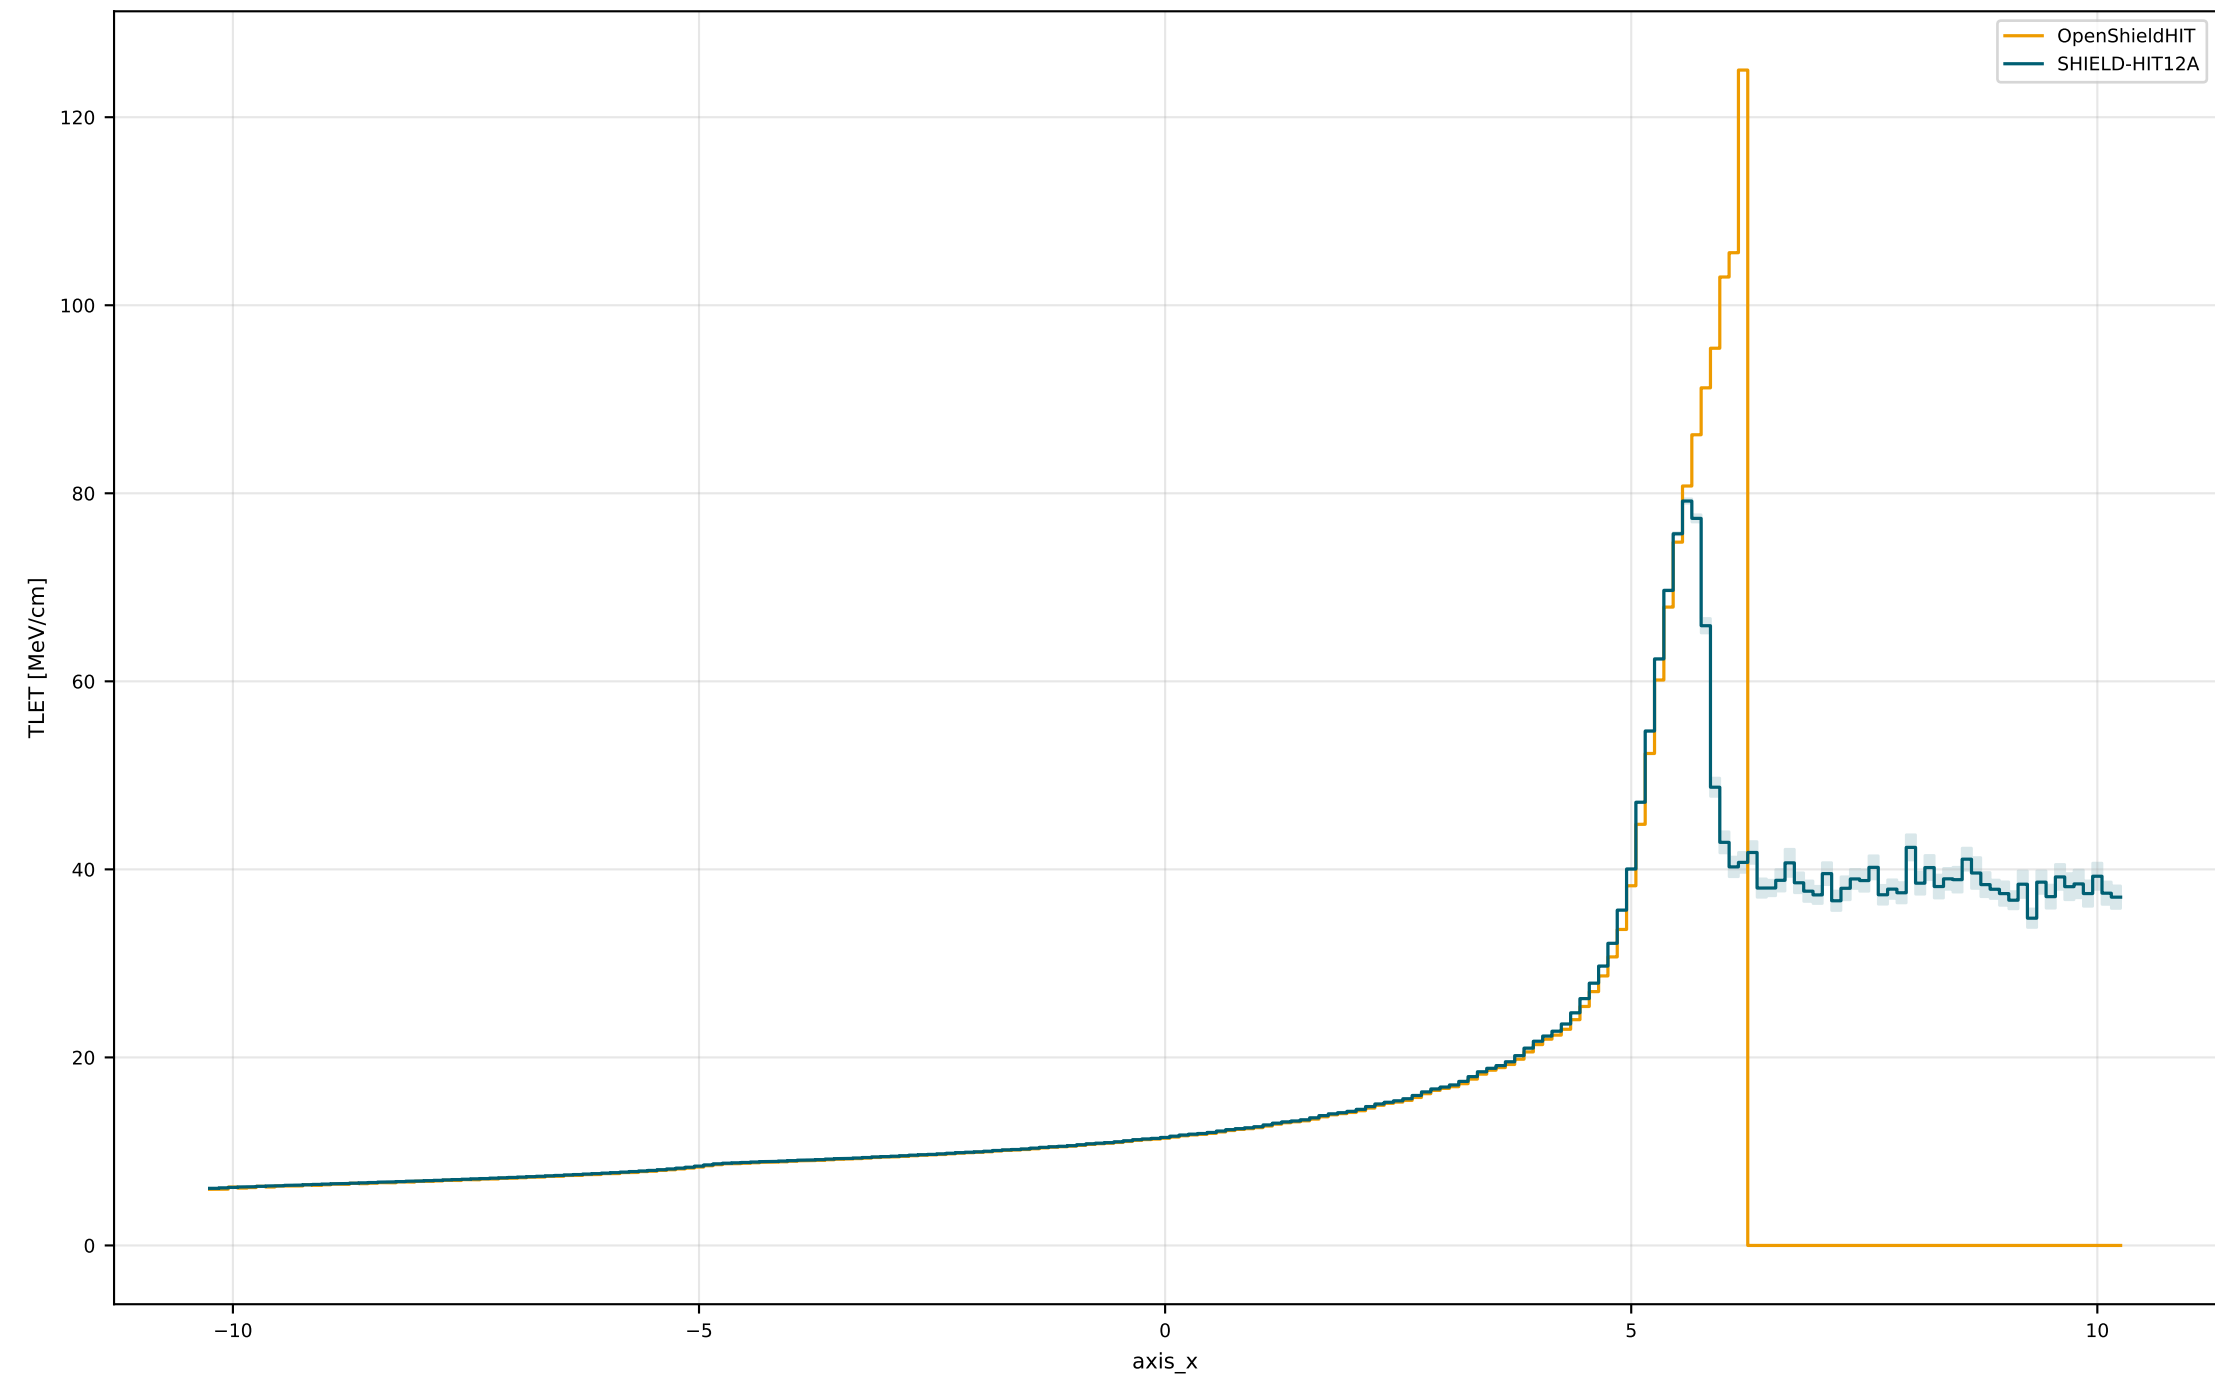

Depth profiles — Fluence (all protons)

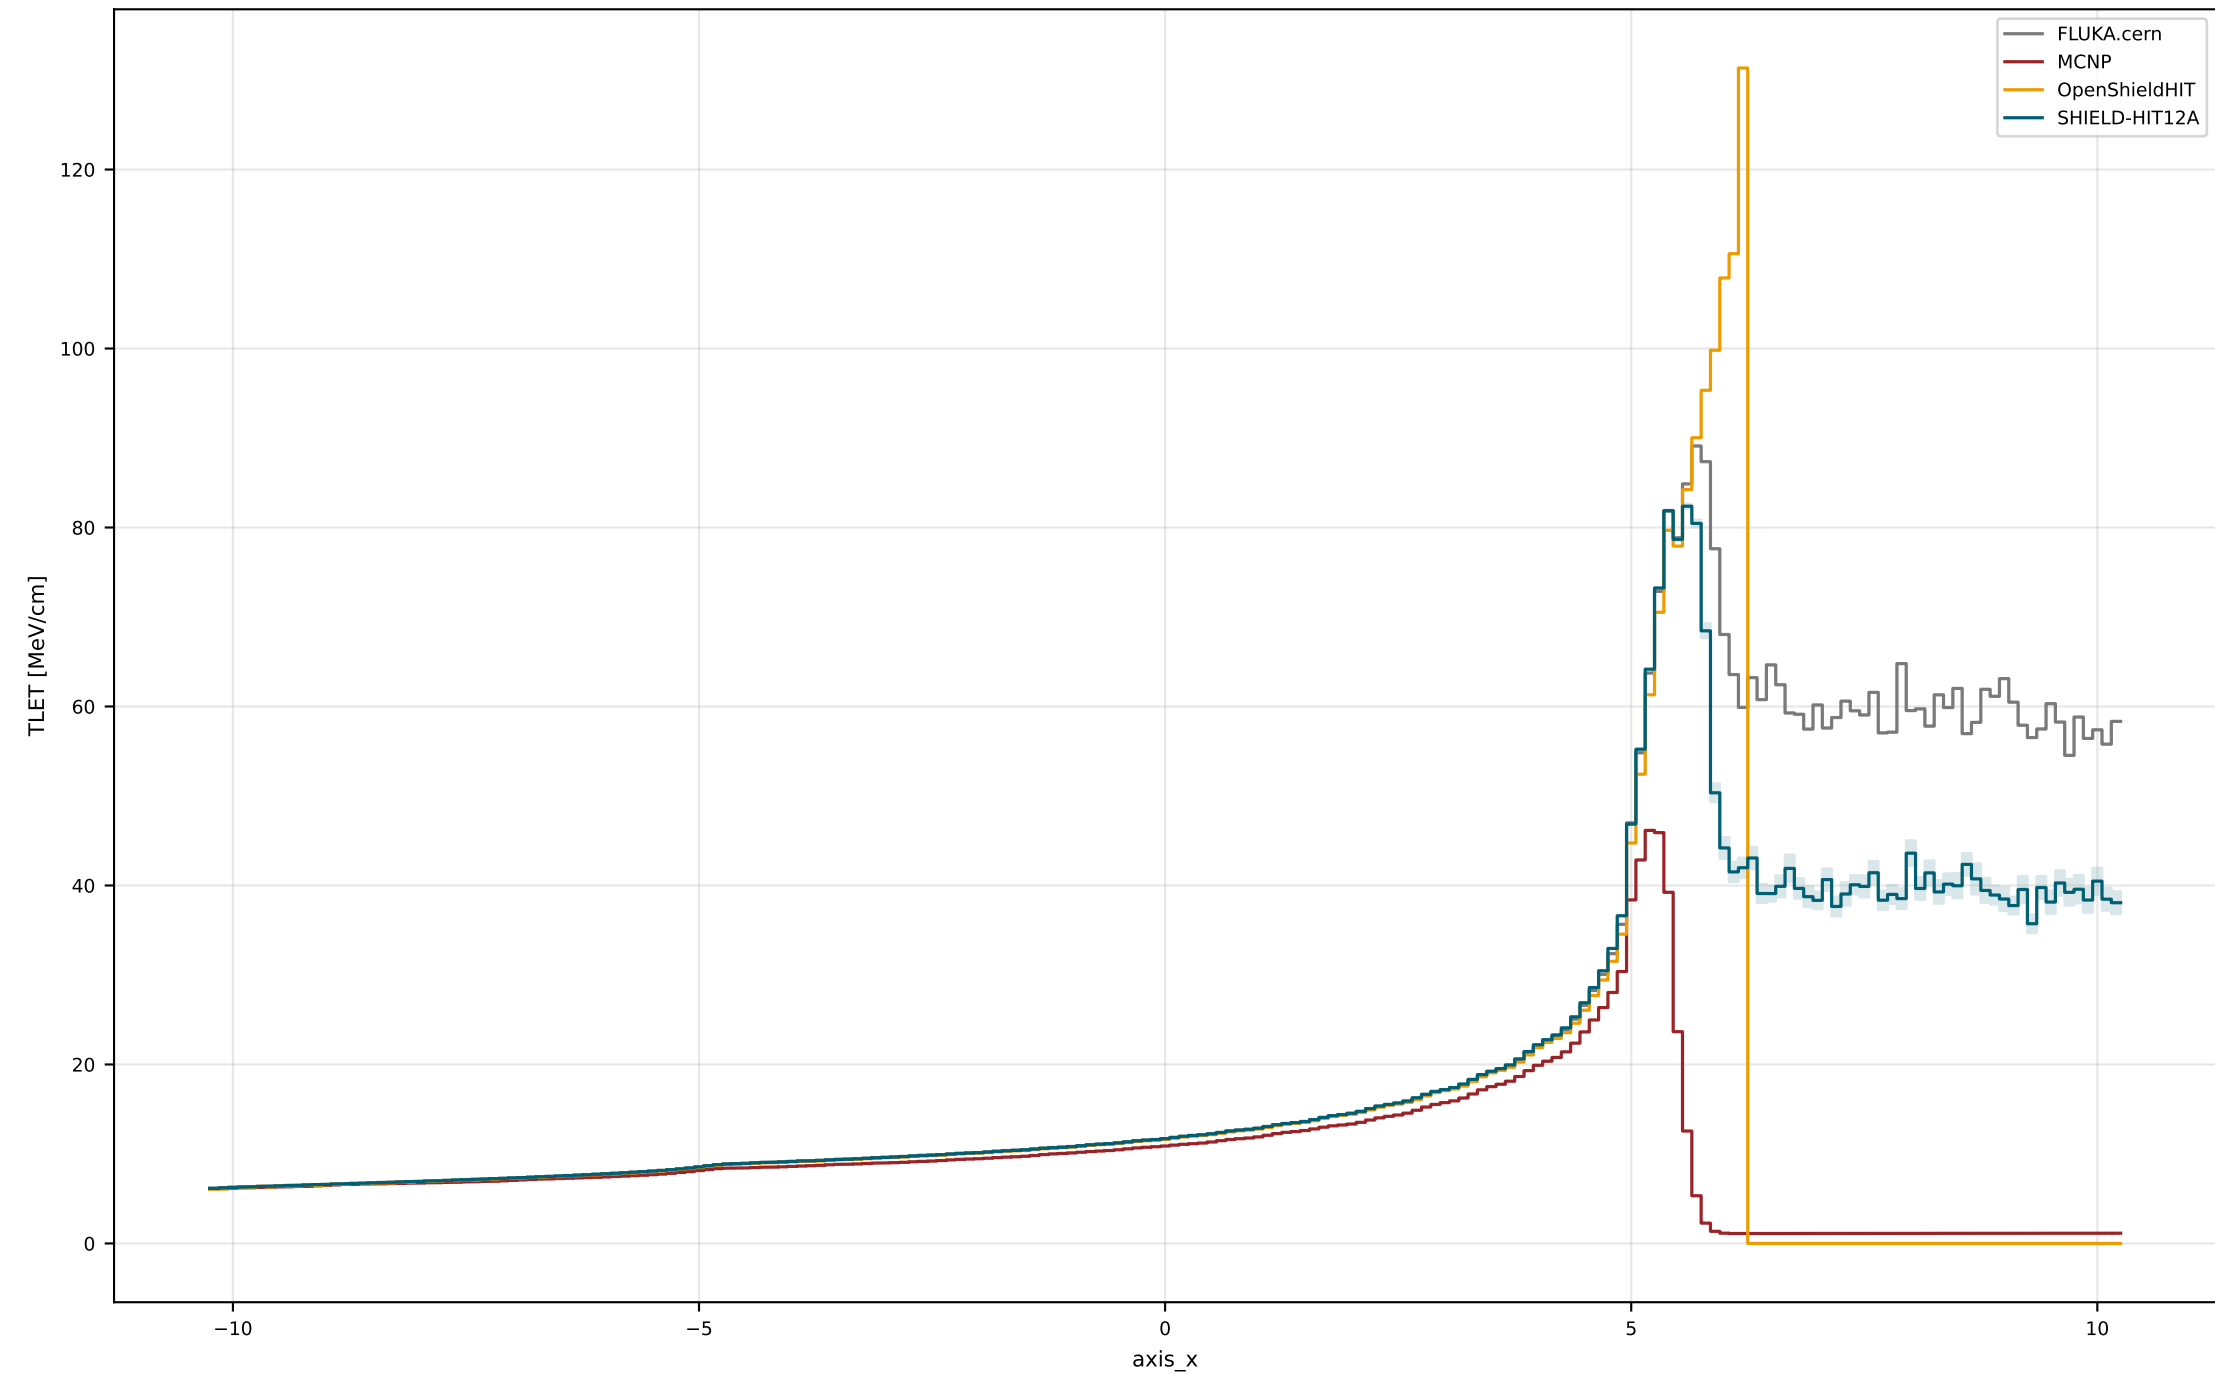

Depth profiles — Fluence (tritons)

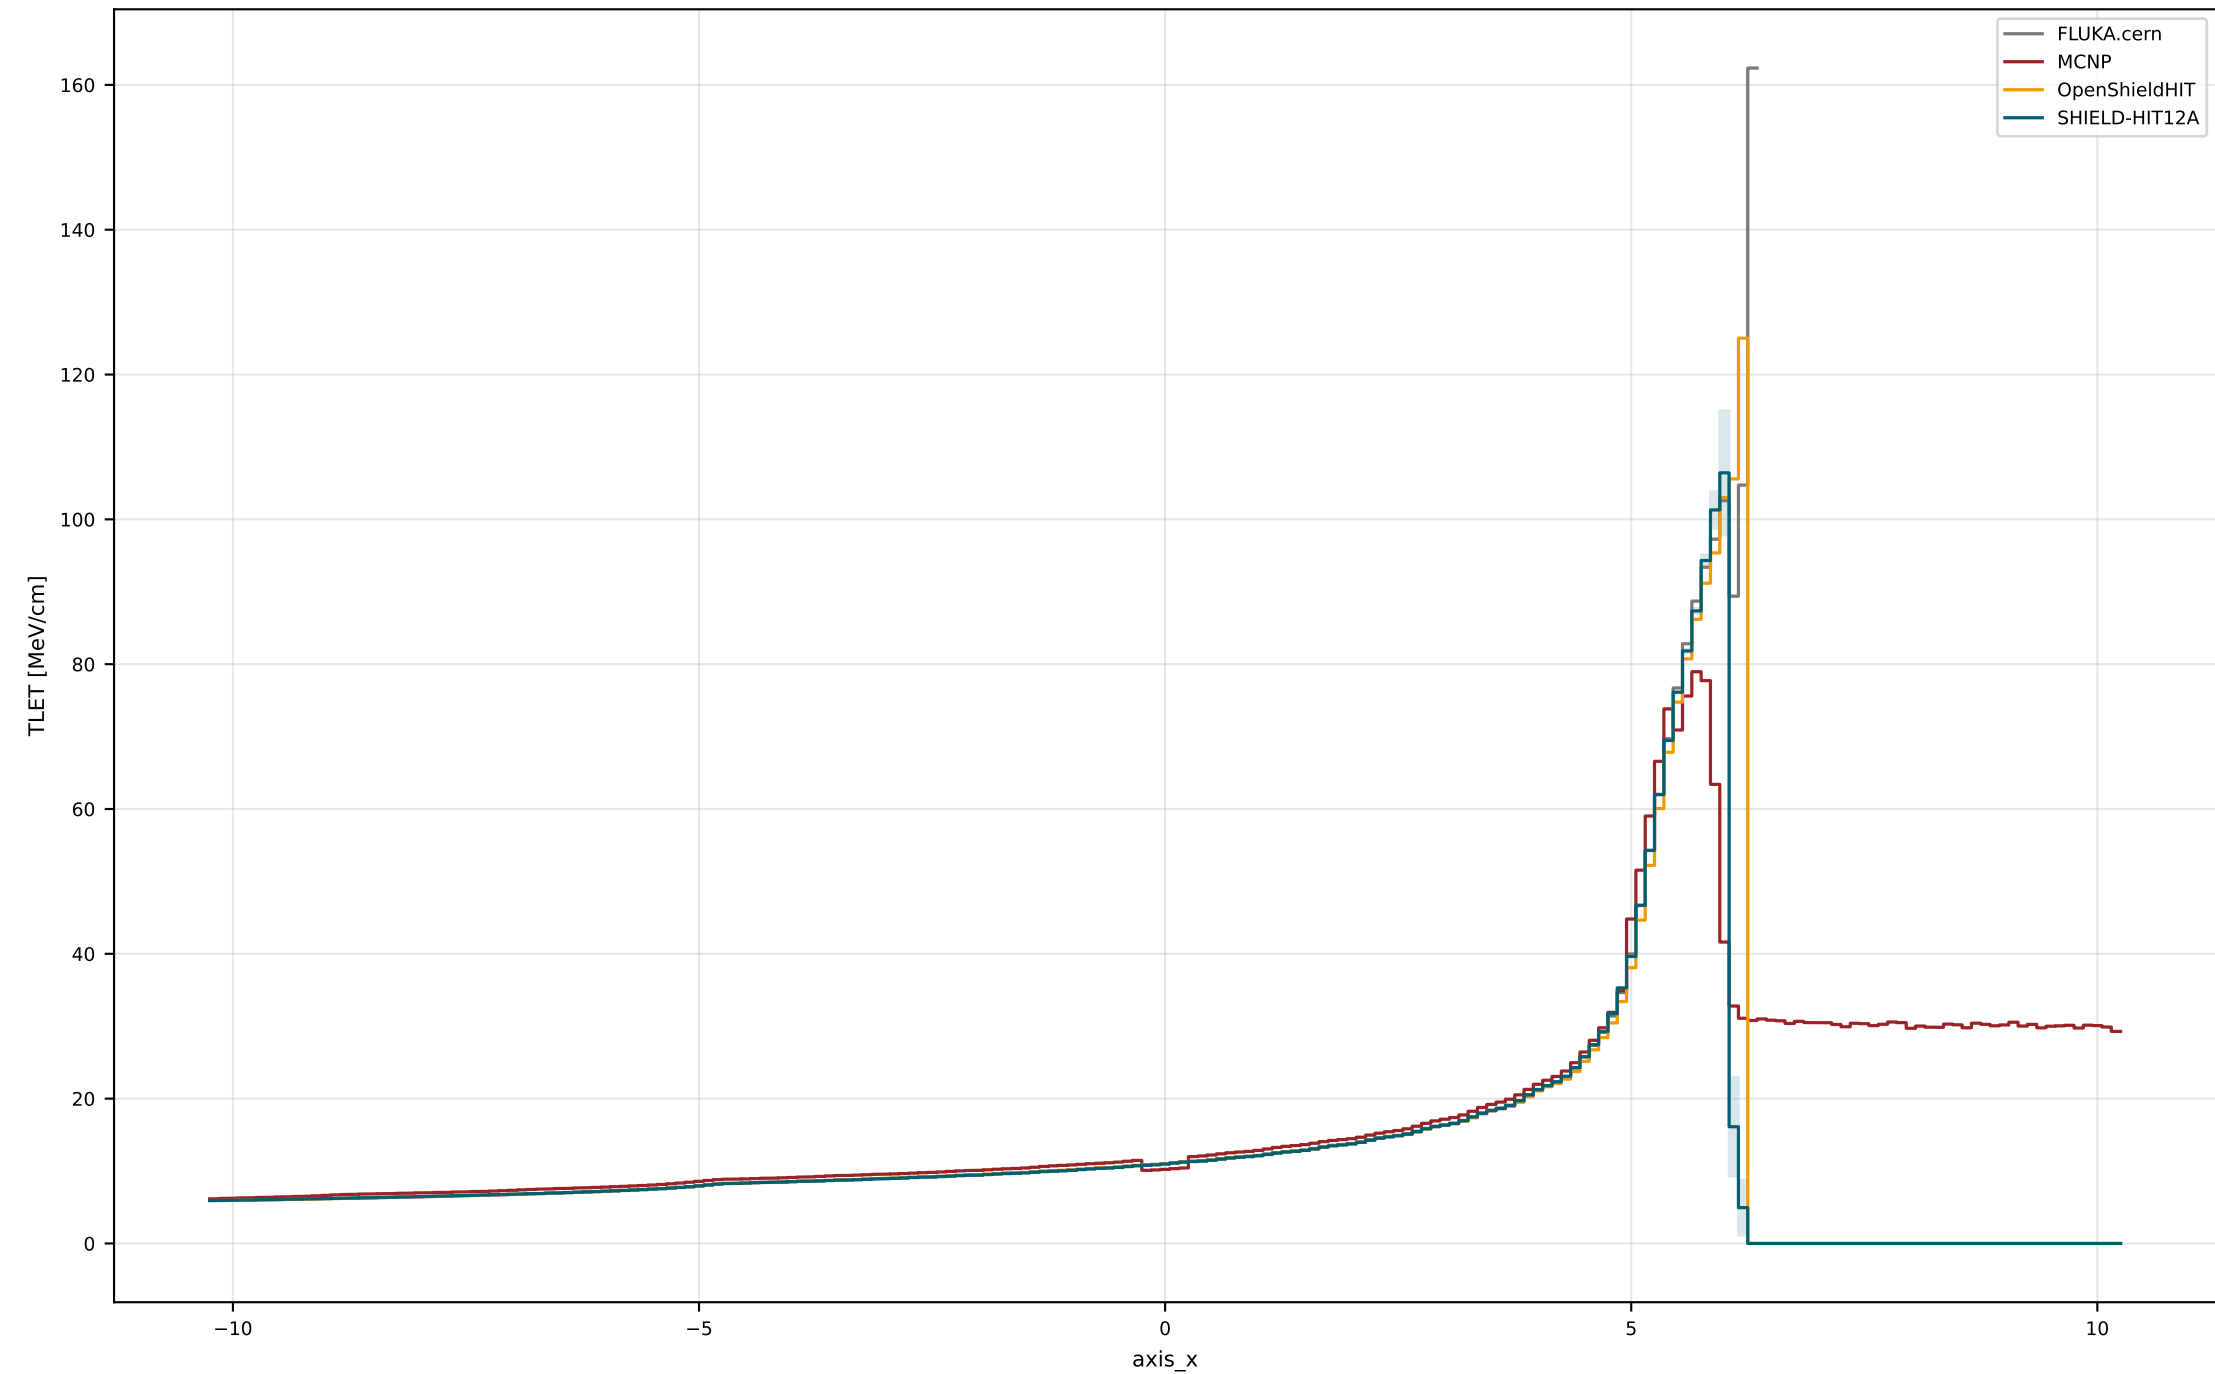

Depth profiles — T-LET water

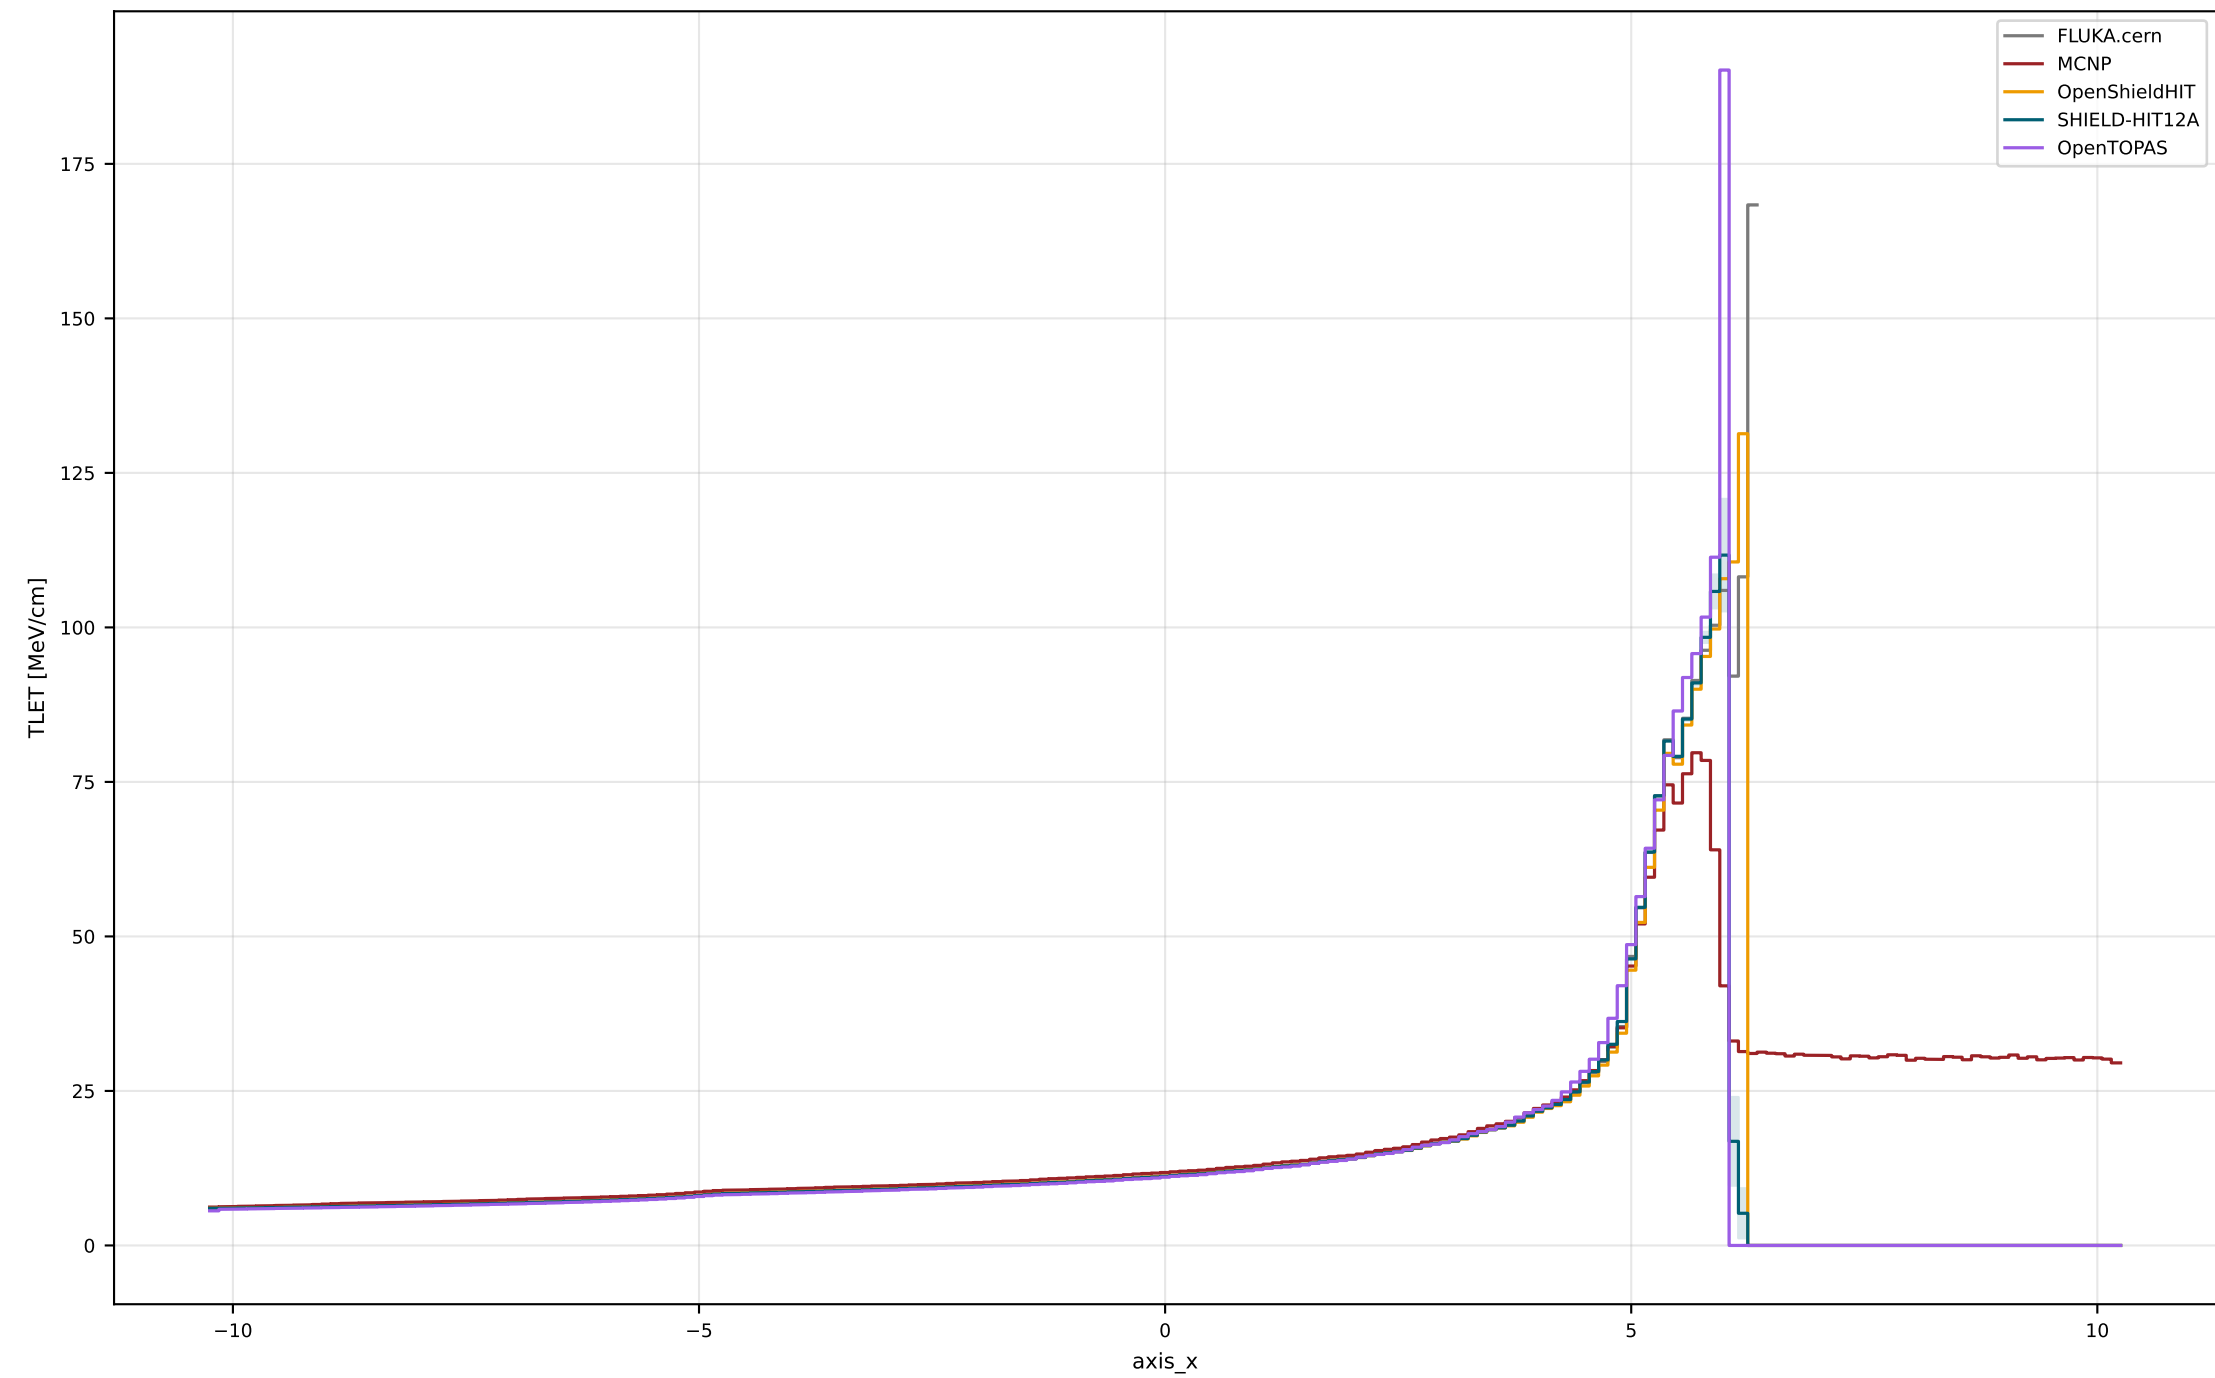

Depth profiles — T-LET

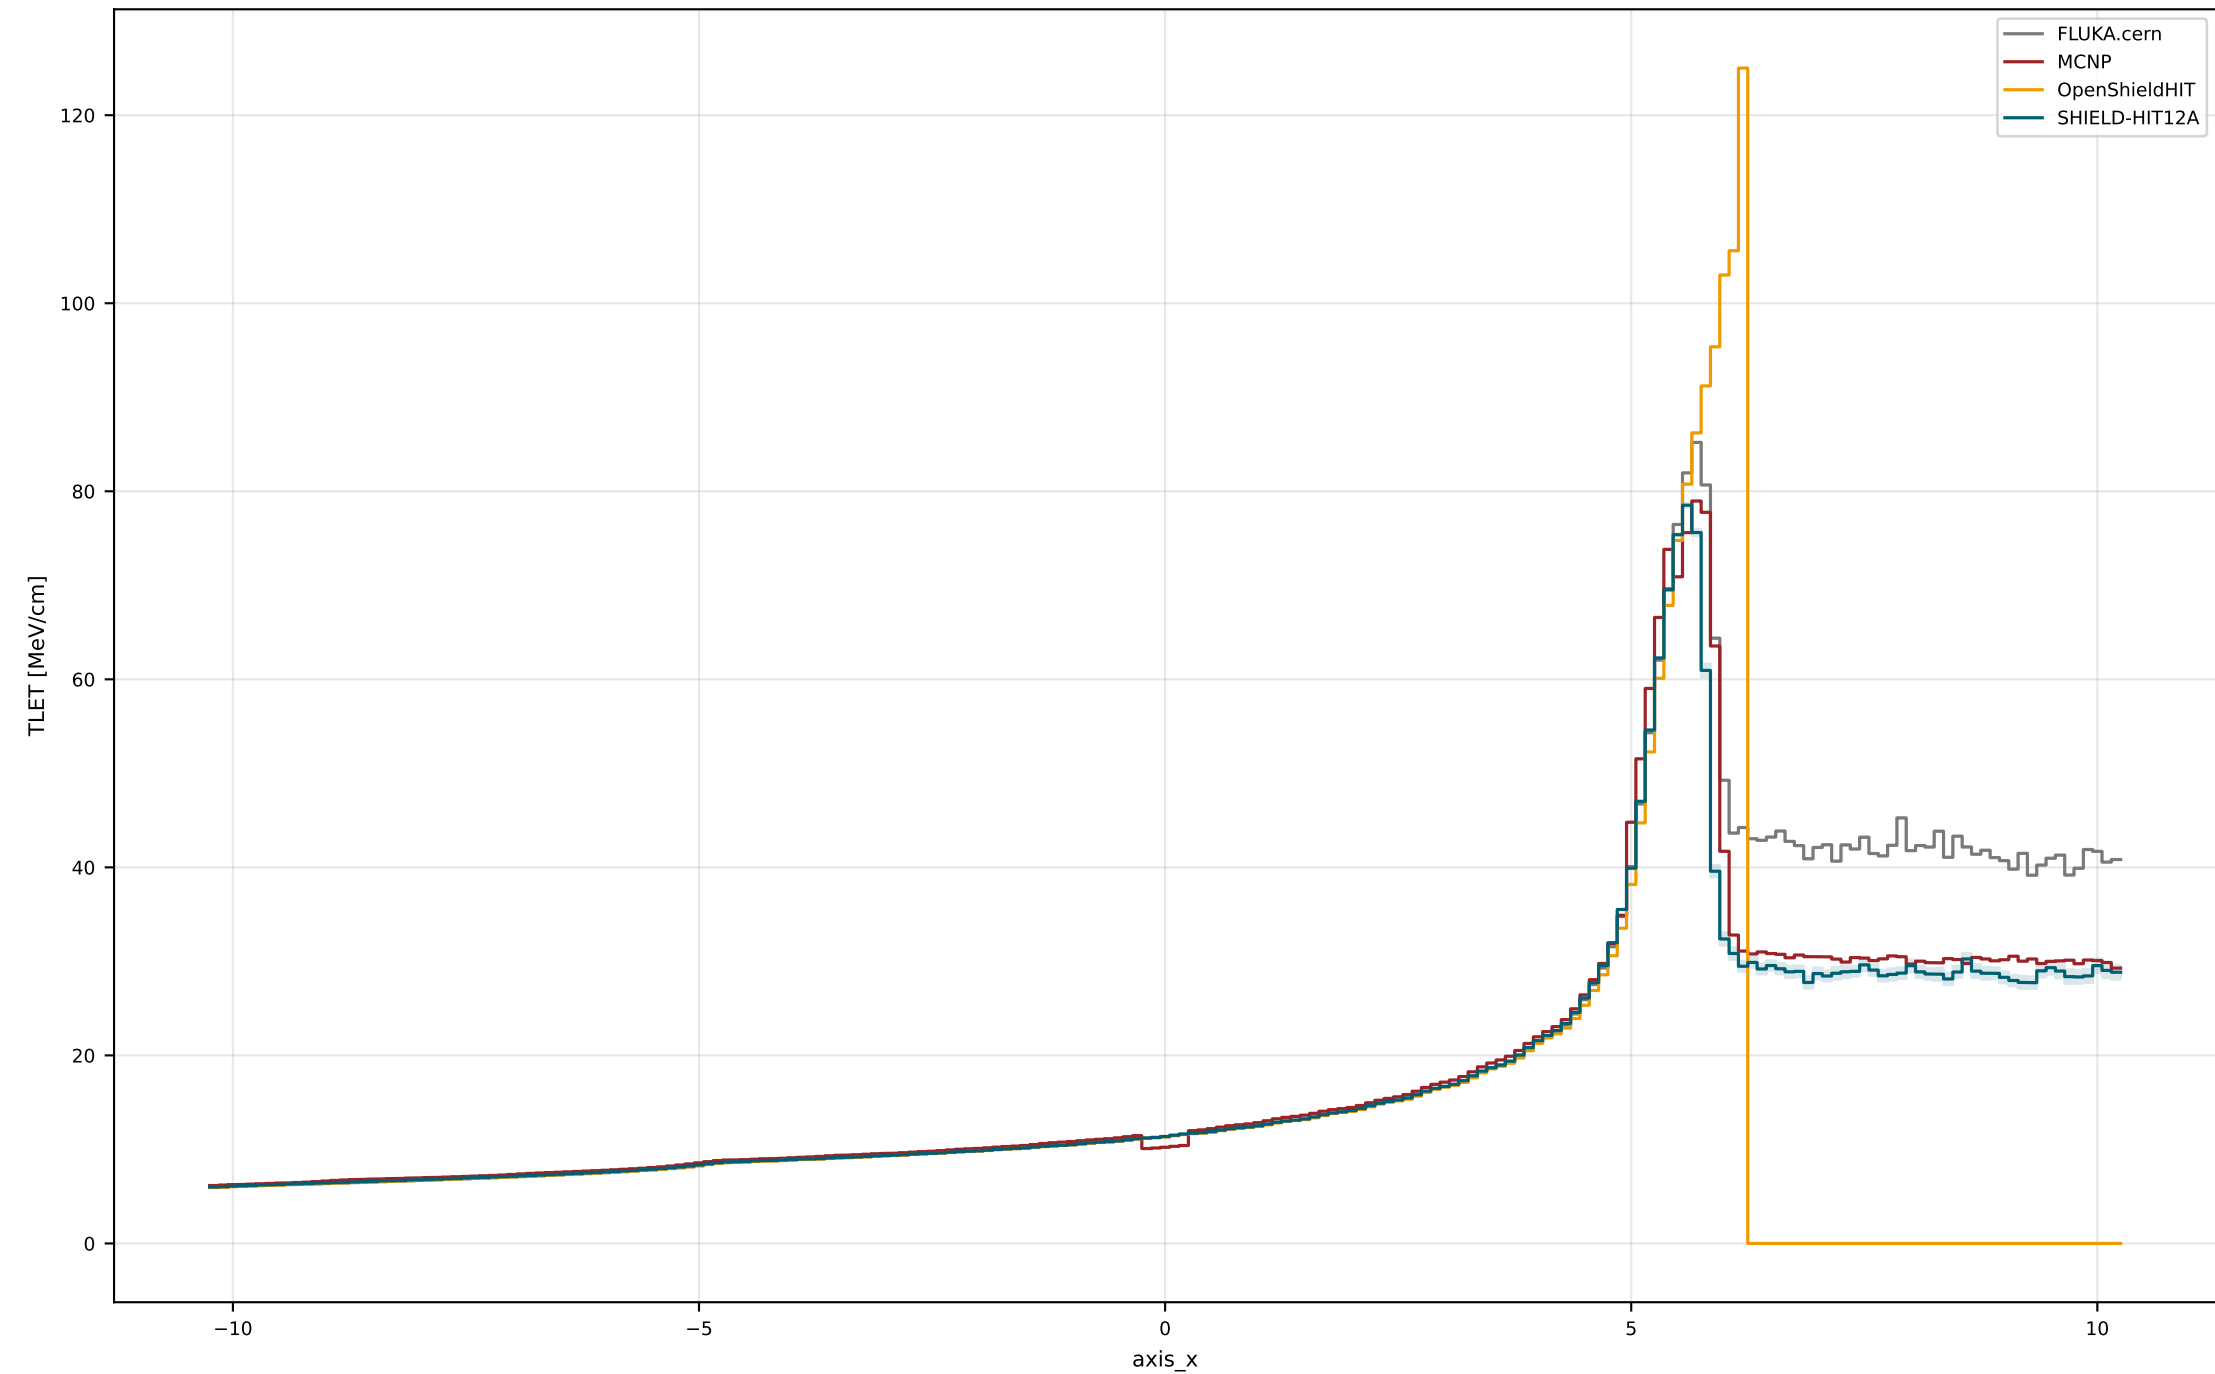

Depth profiles — T-LET water (primary protons)

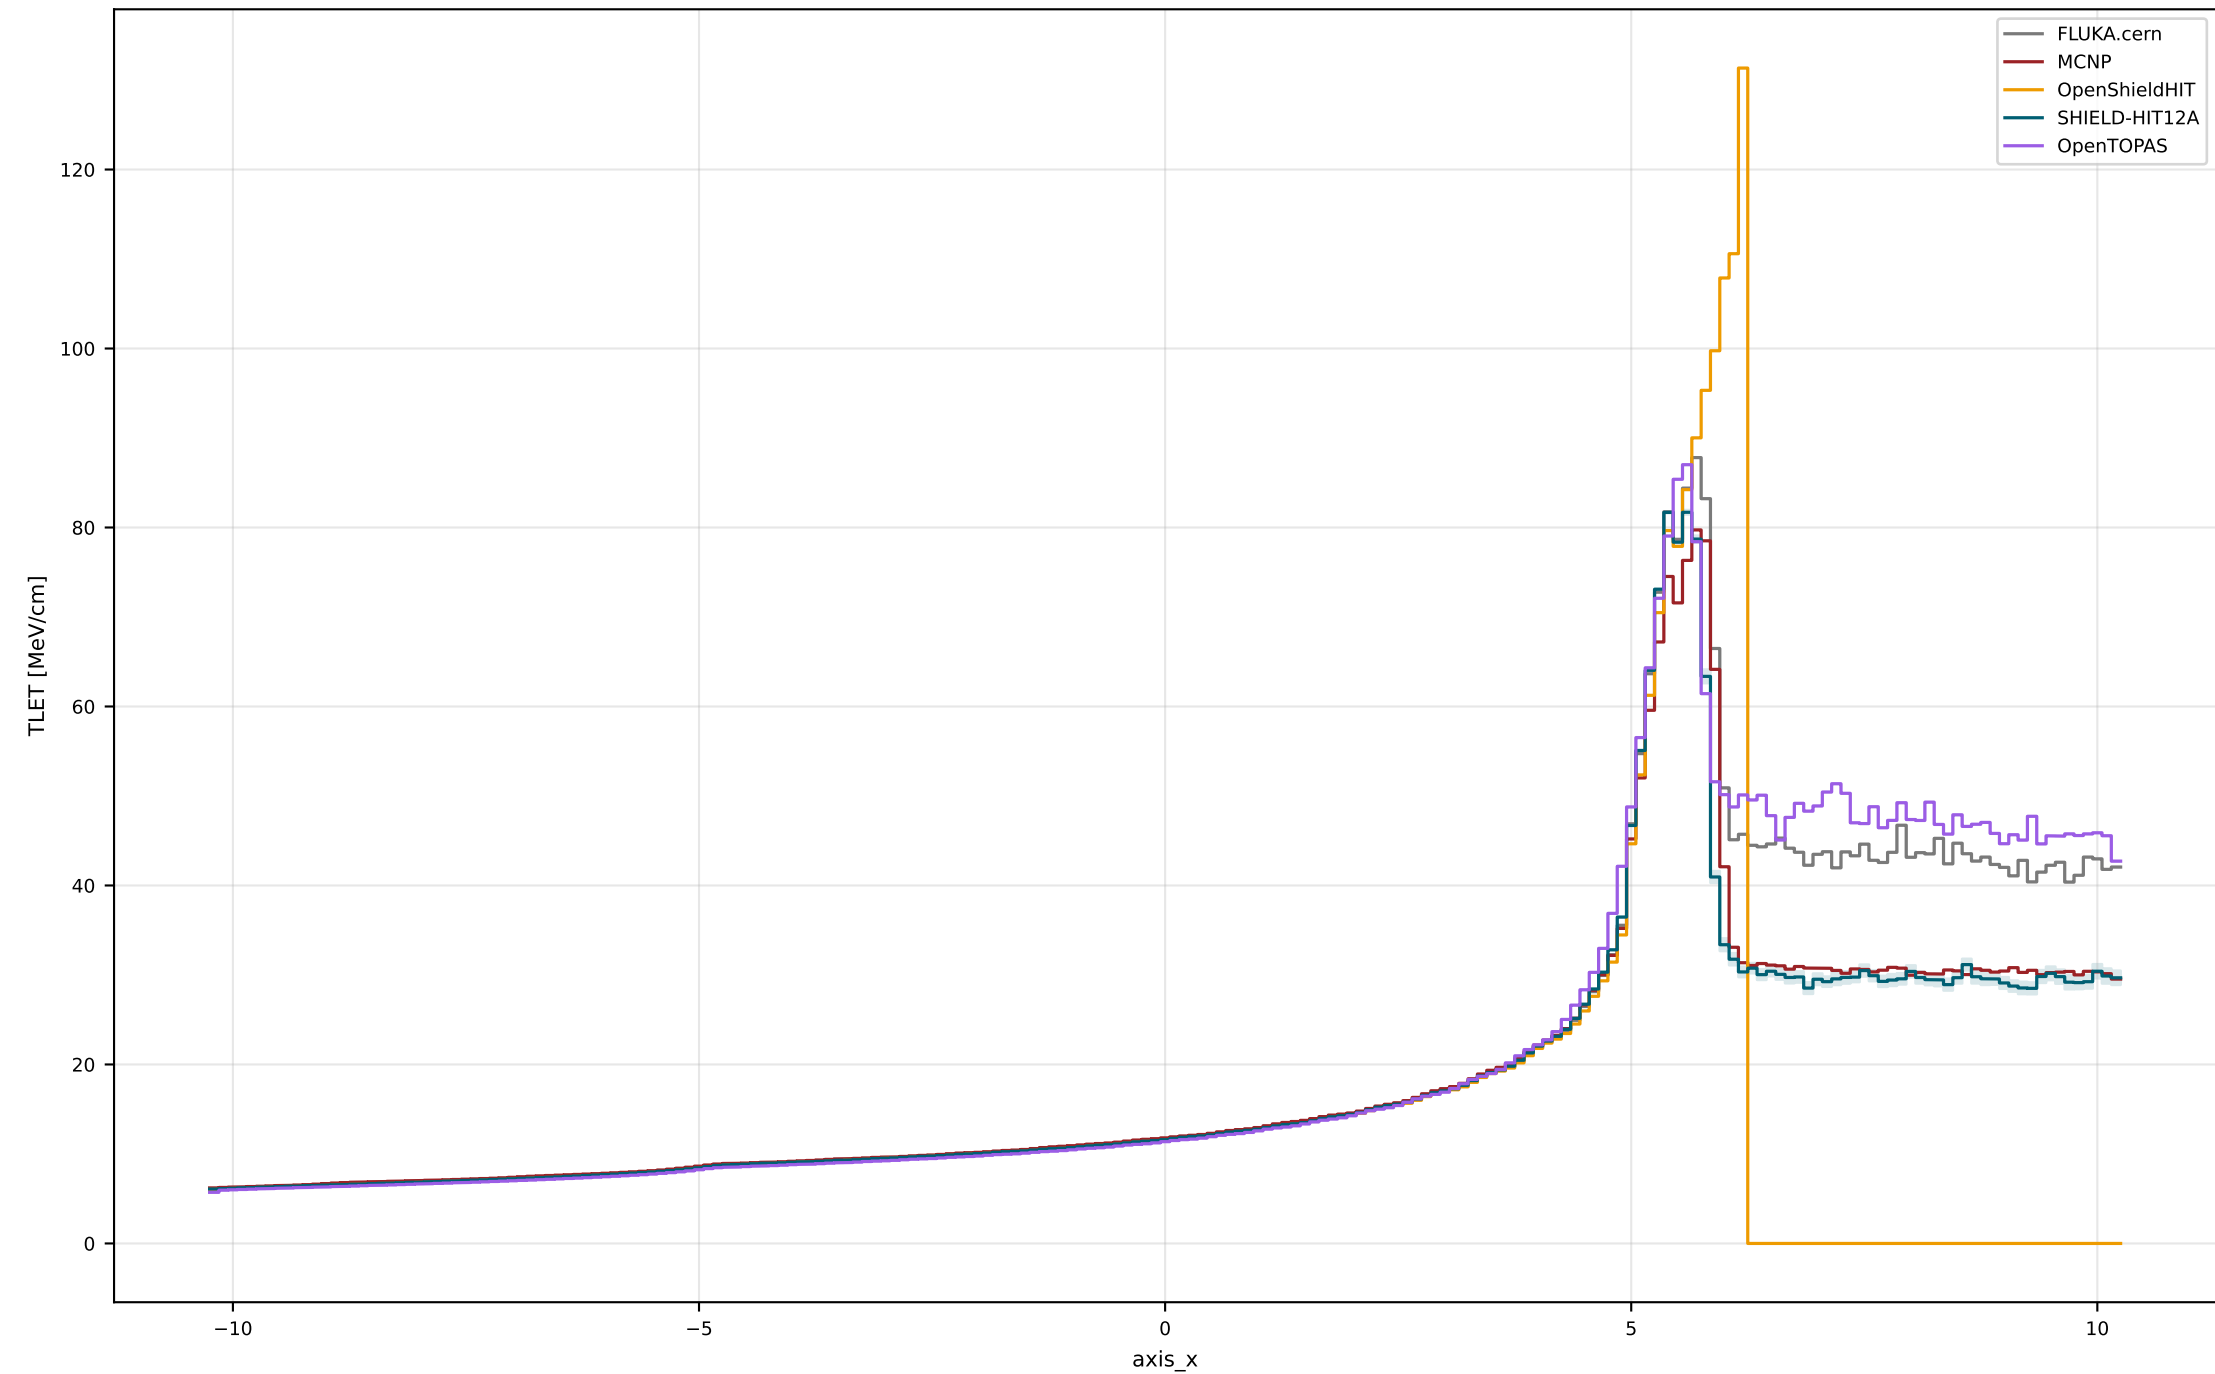

Depth profiles — T-LET (primary protons)

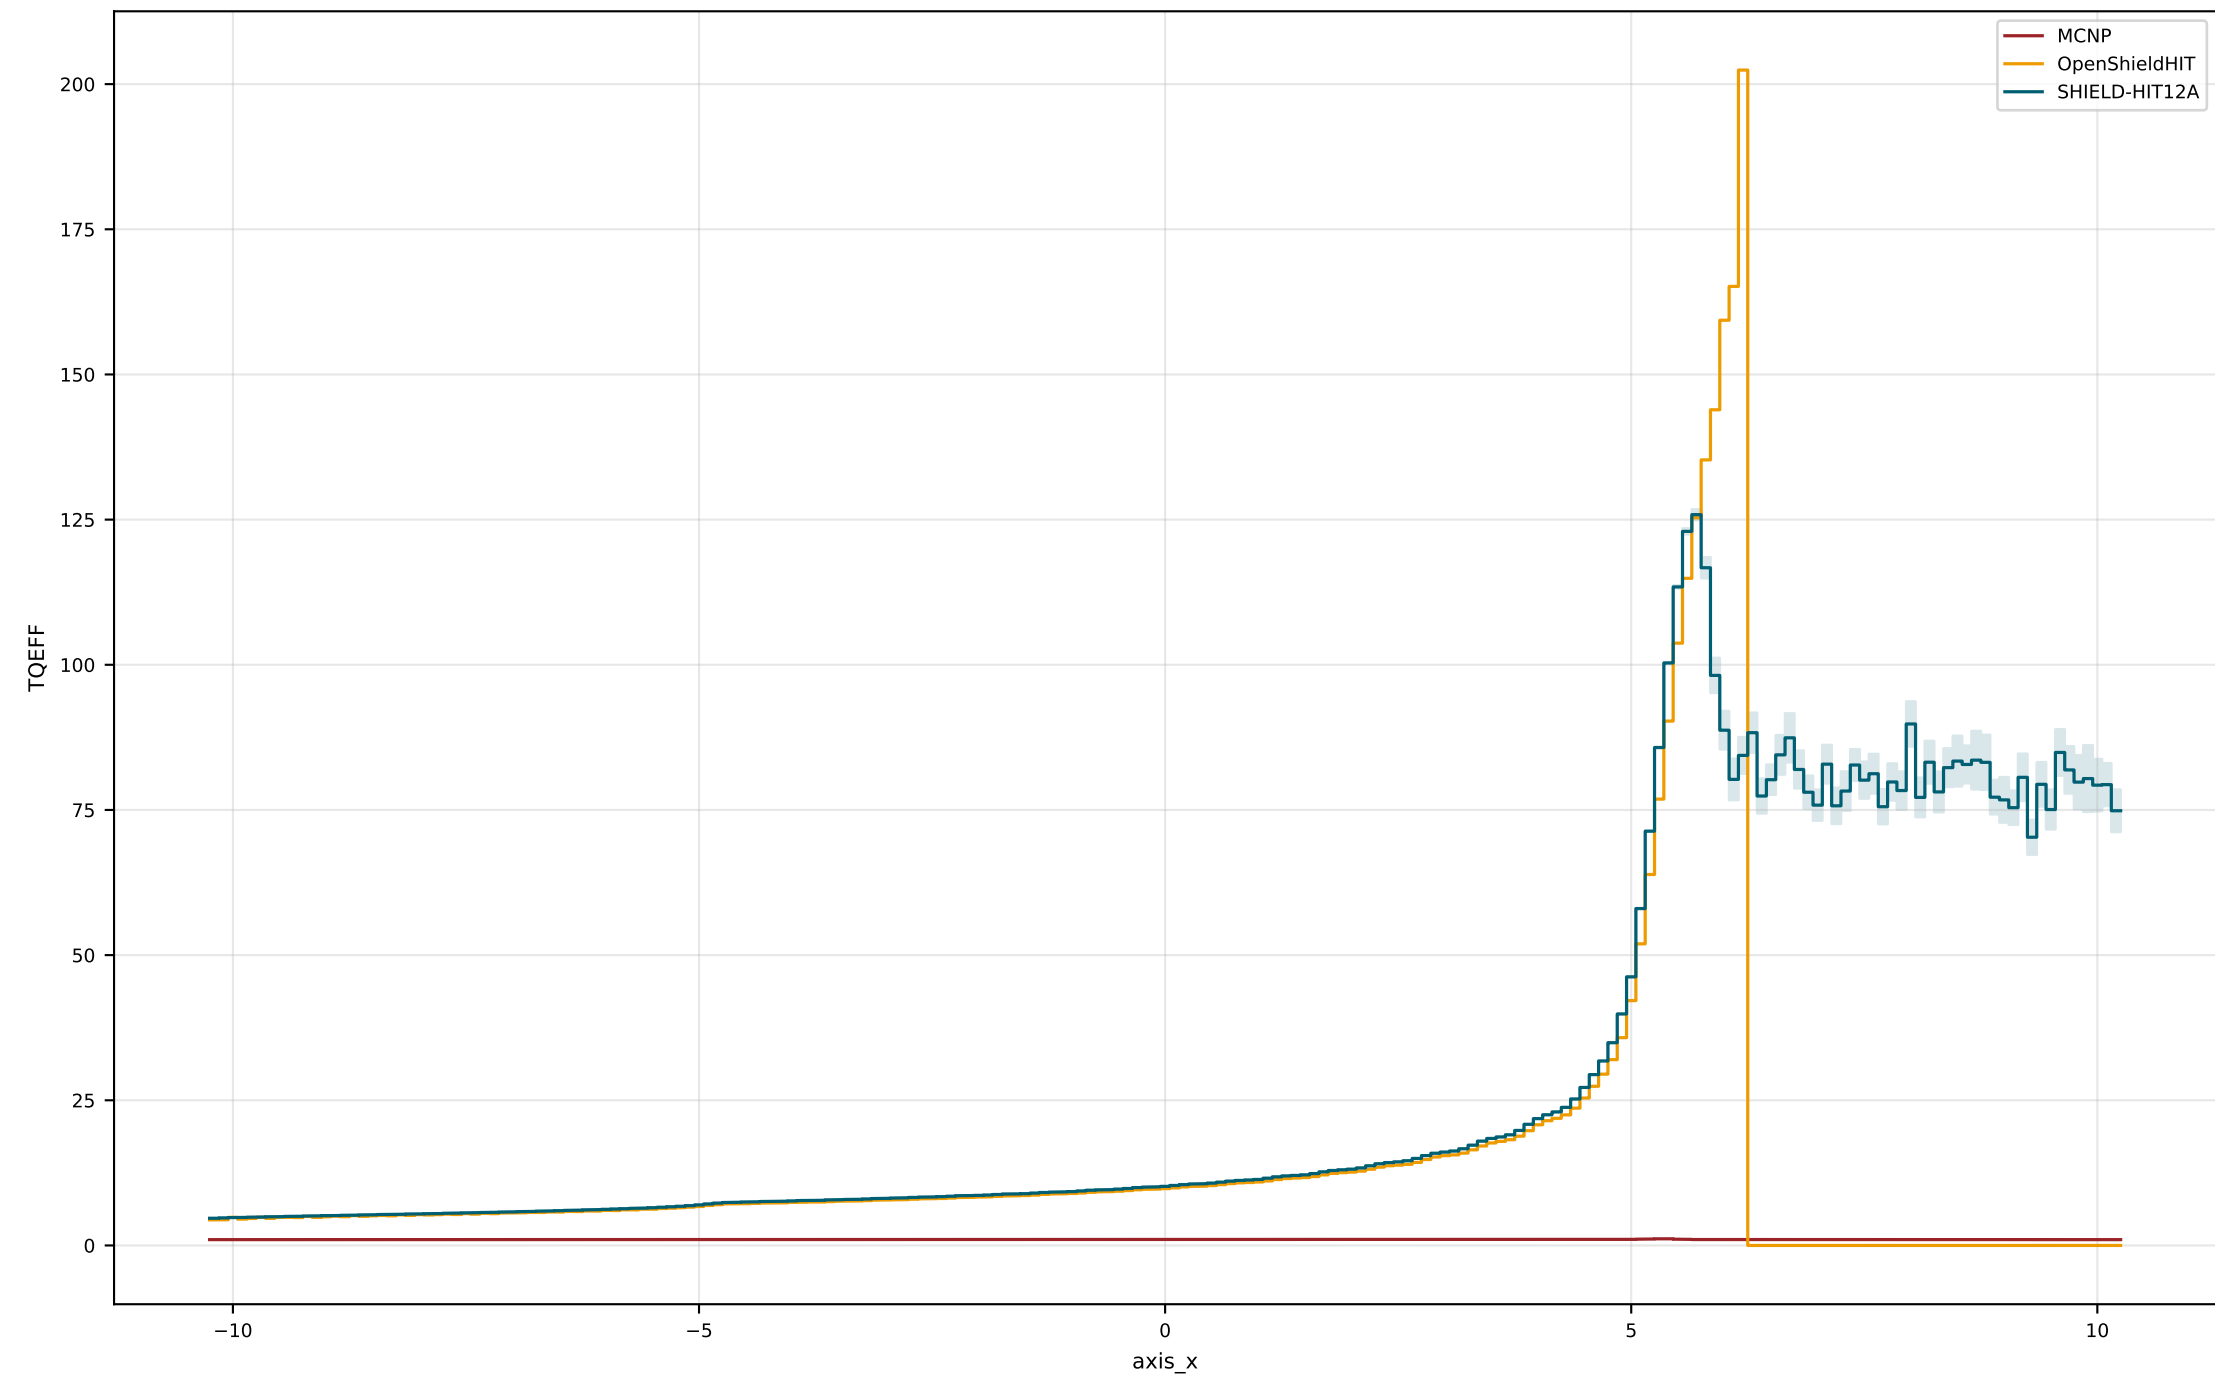

Depth profiles — T-LET water (protons)

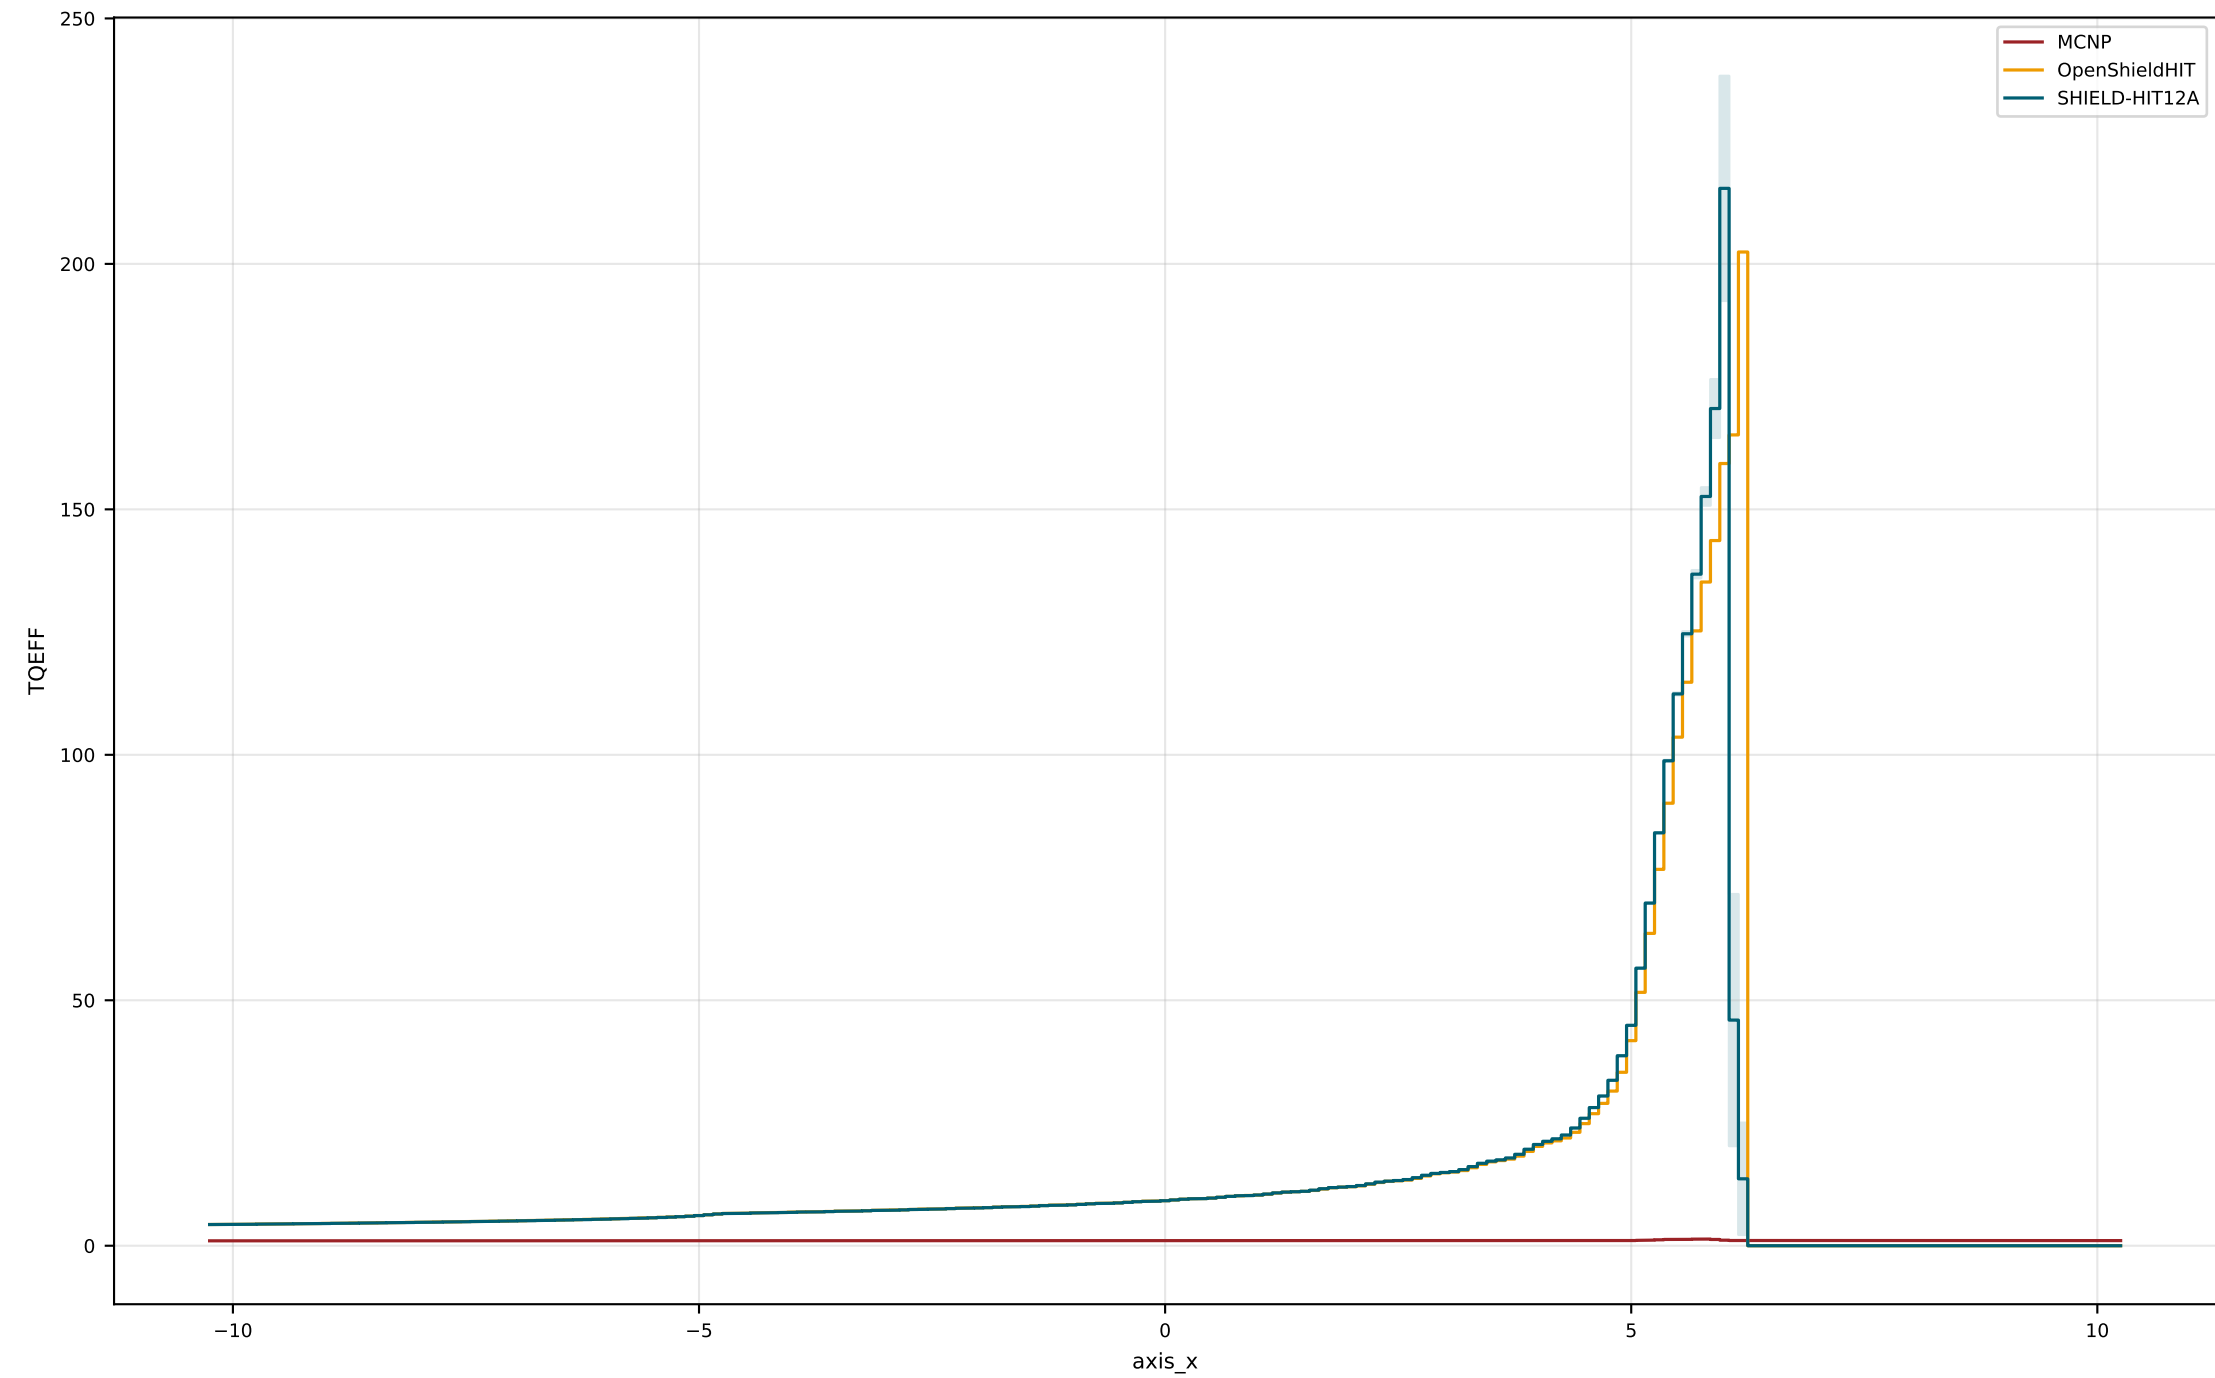

Depth profiles — T-LET (protons)

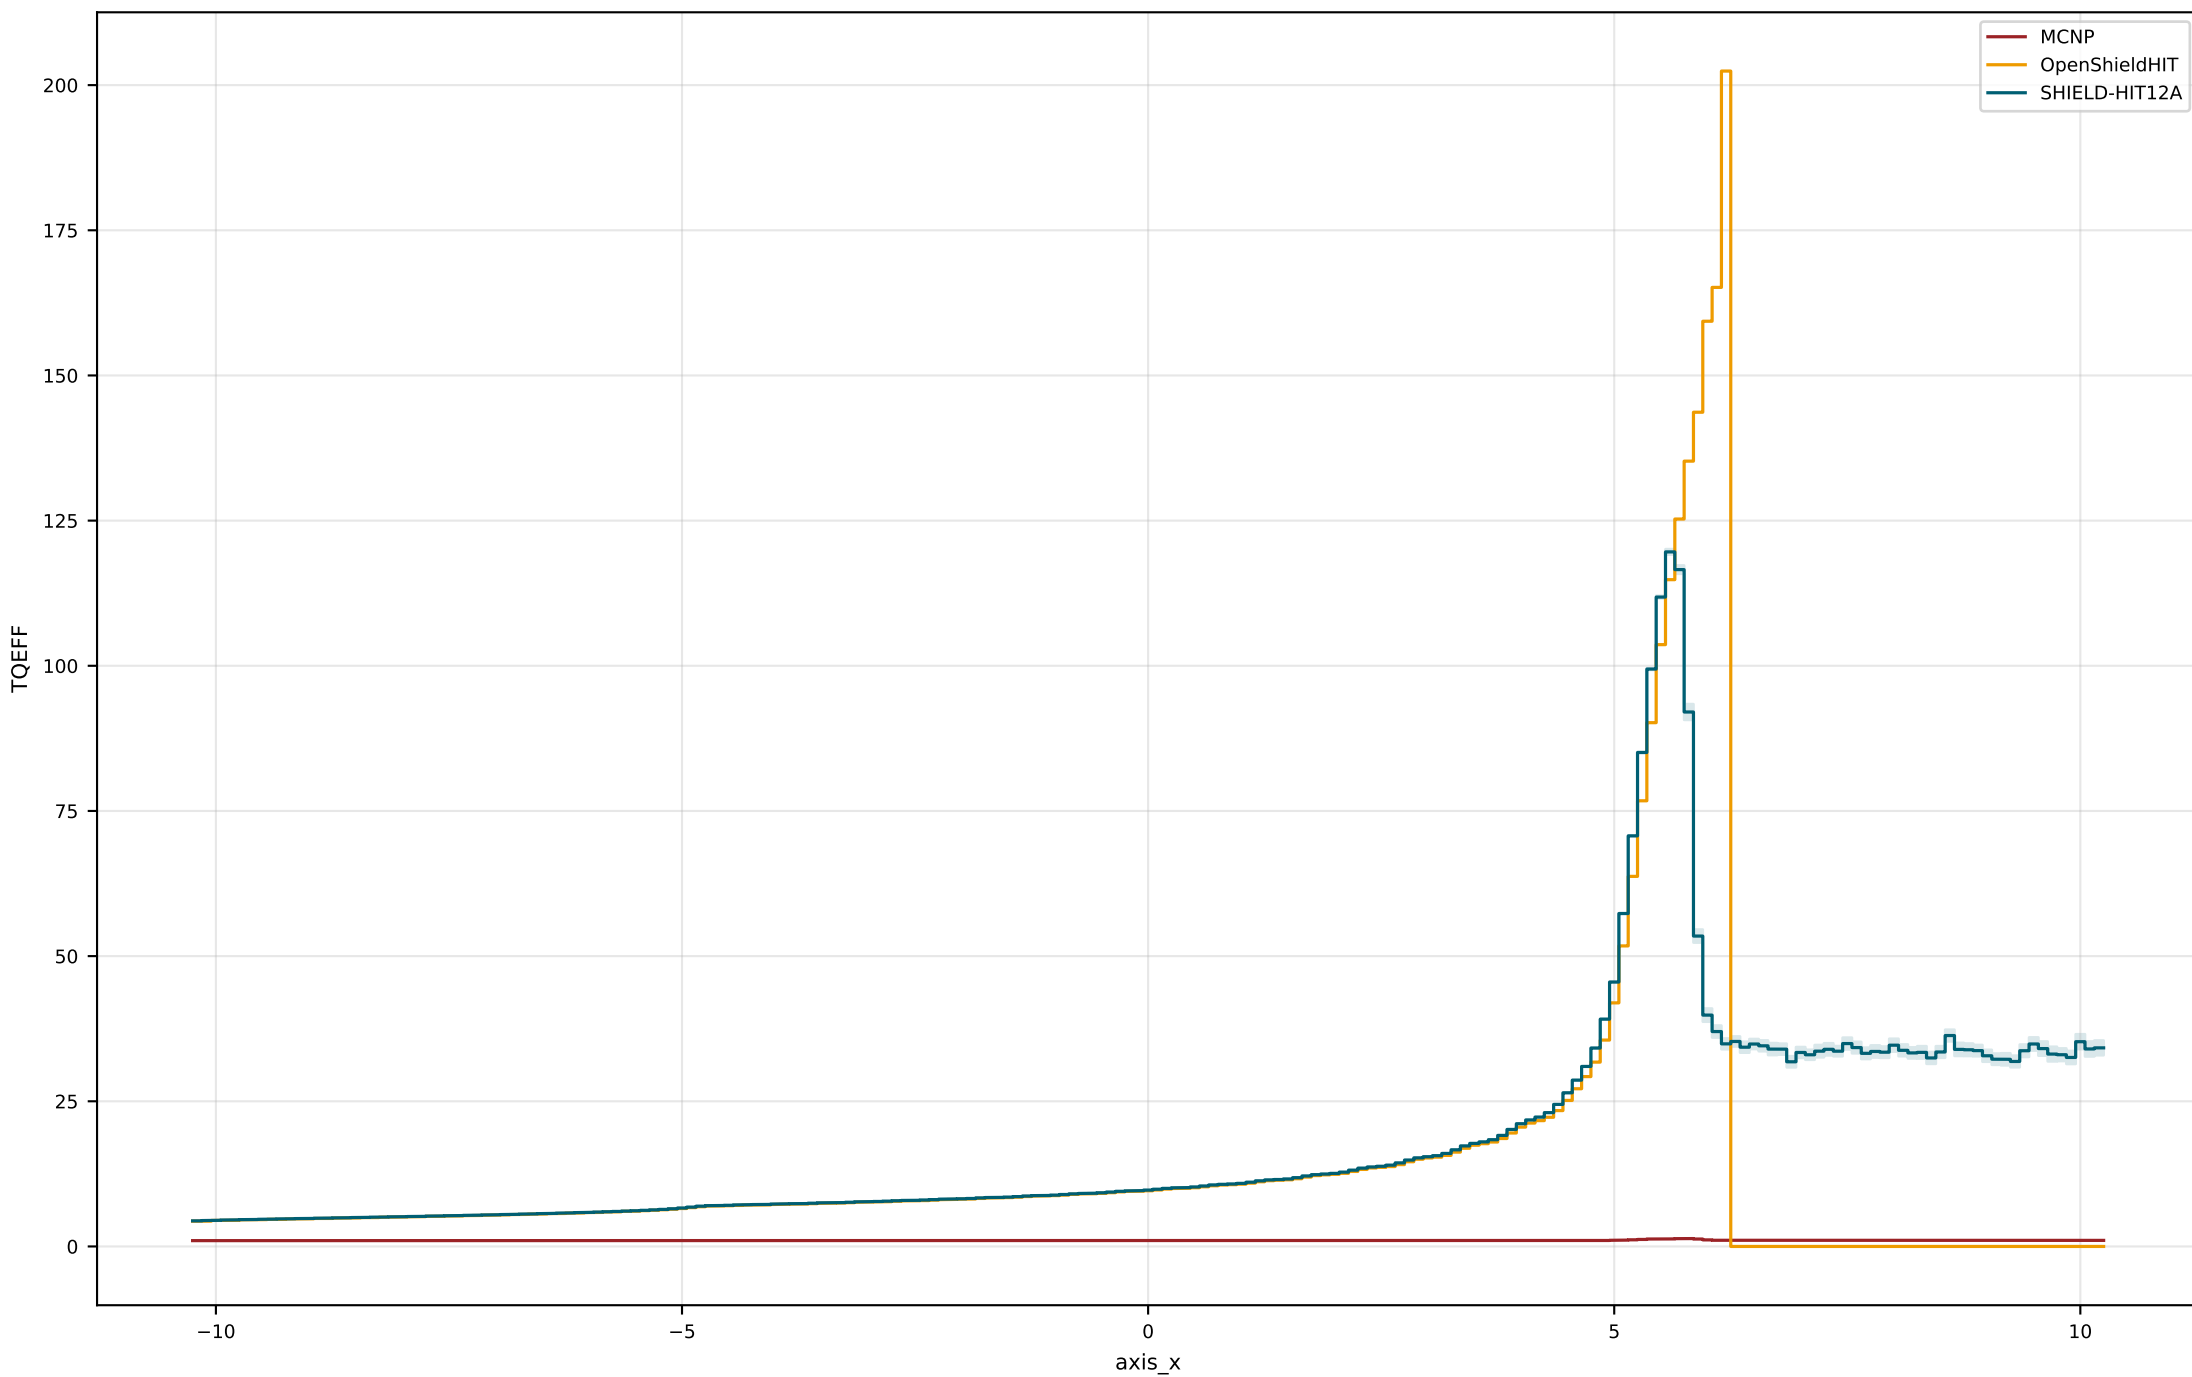

Depth profiles — T-Qeff

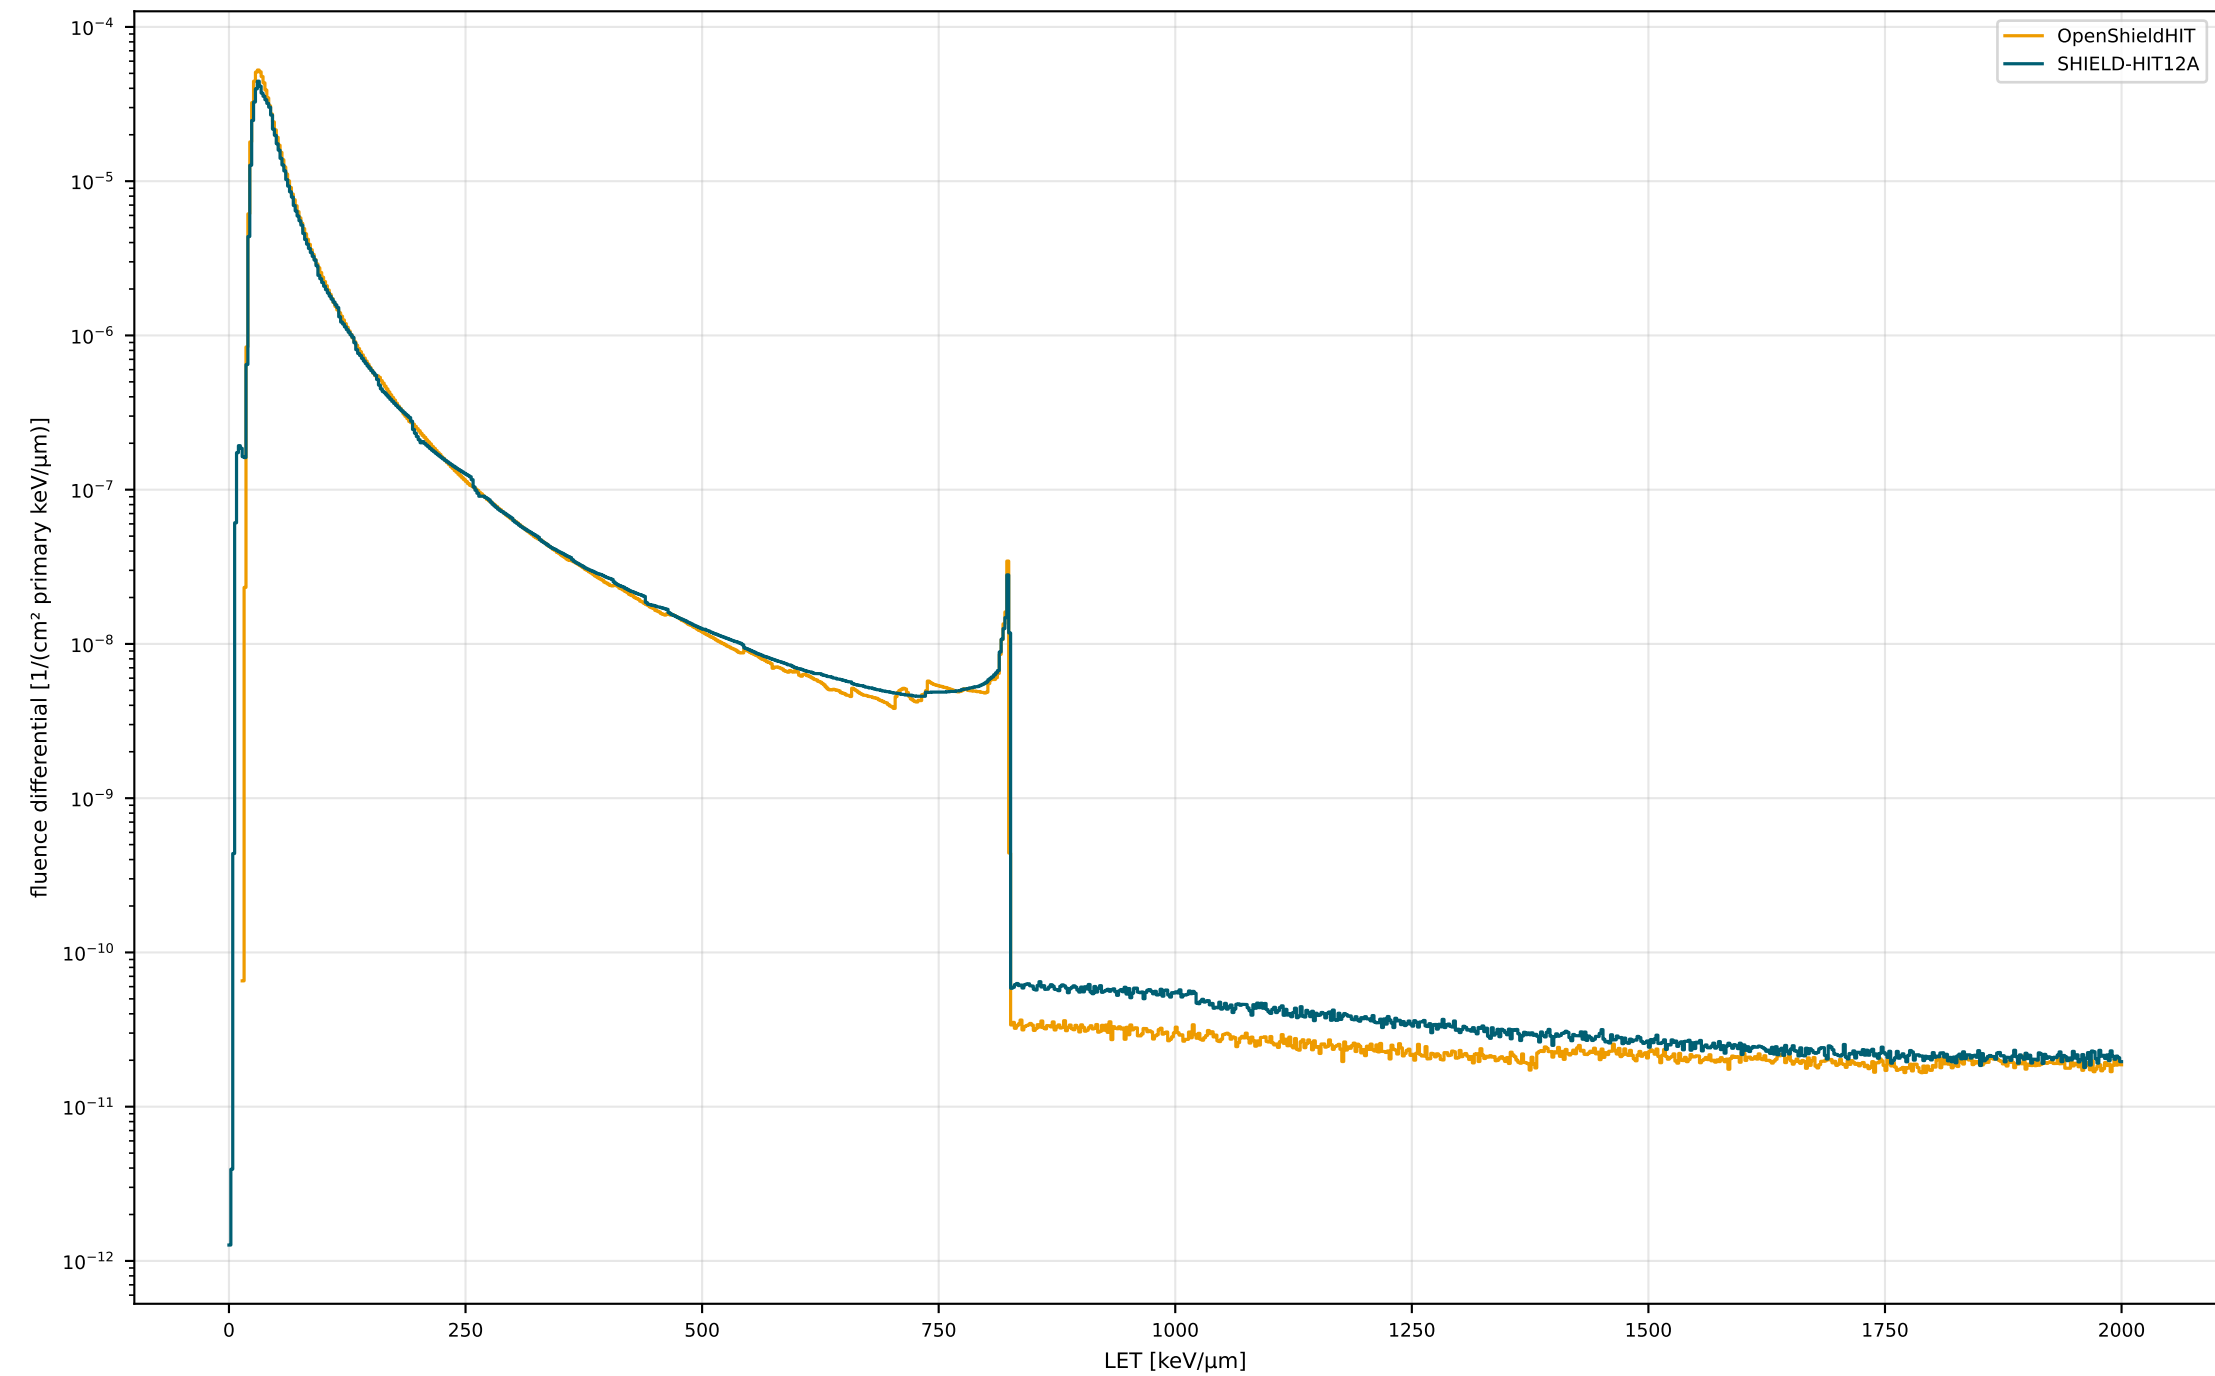

Depth profiles — T-Qeff (primary protons)

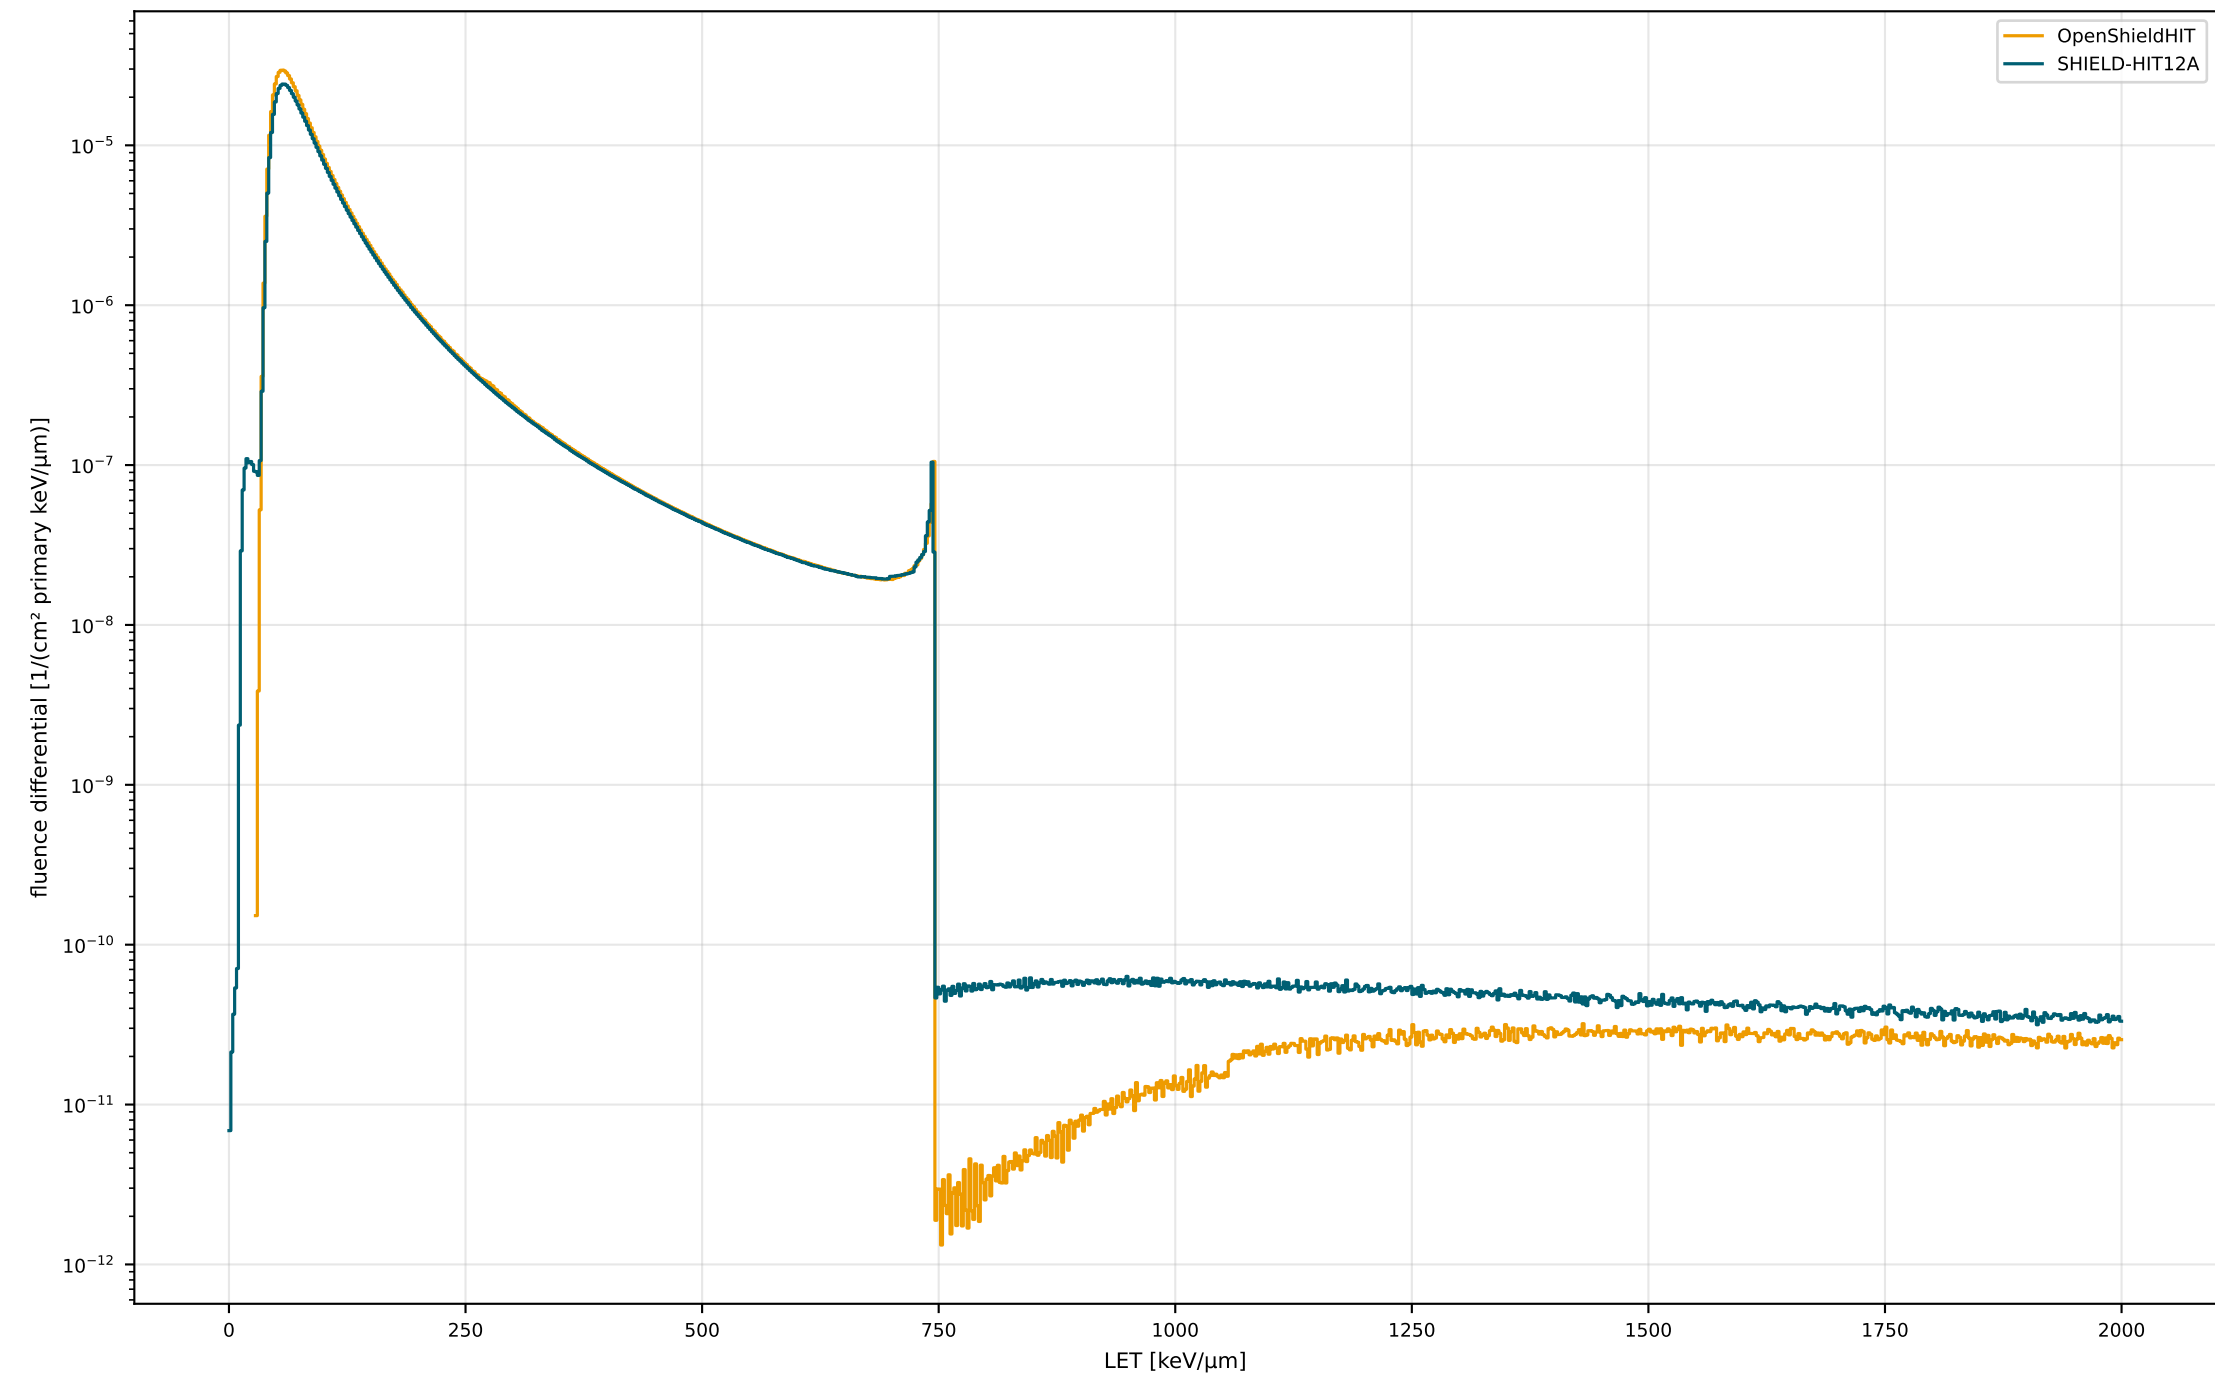

Depth profiles — T-Qeff (protons)

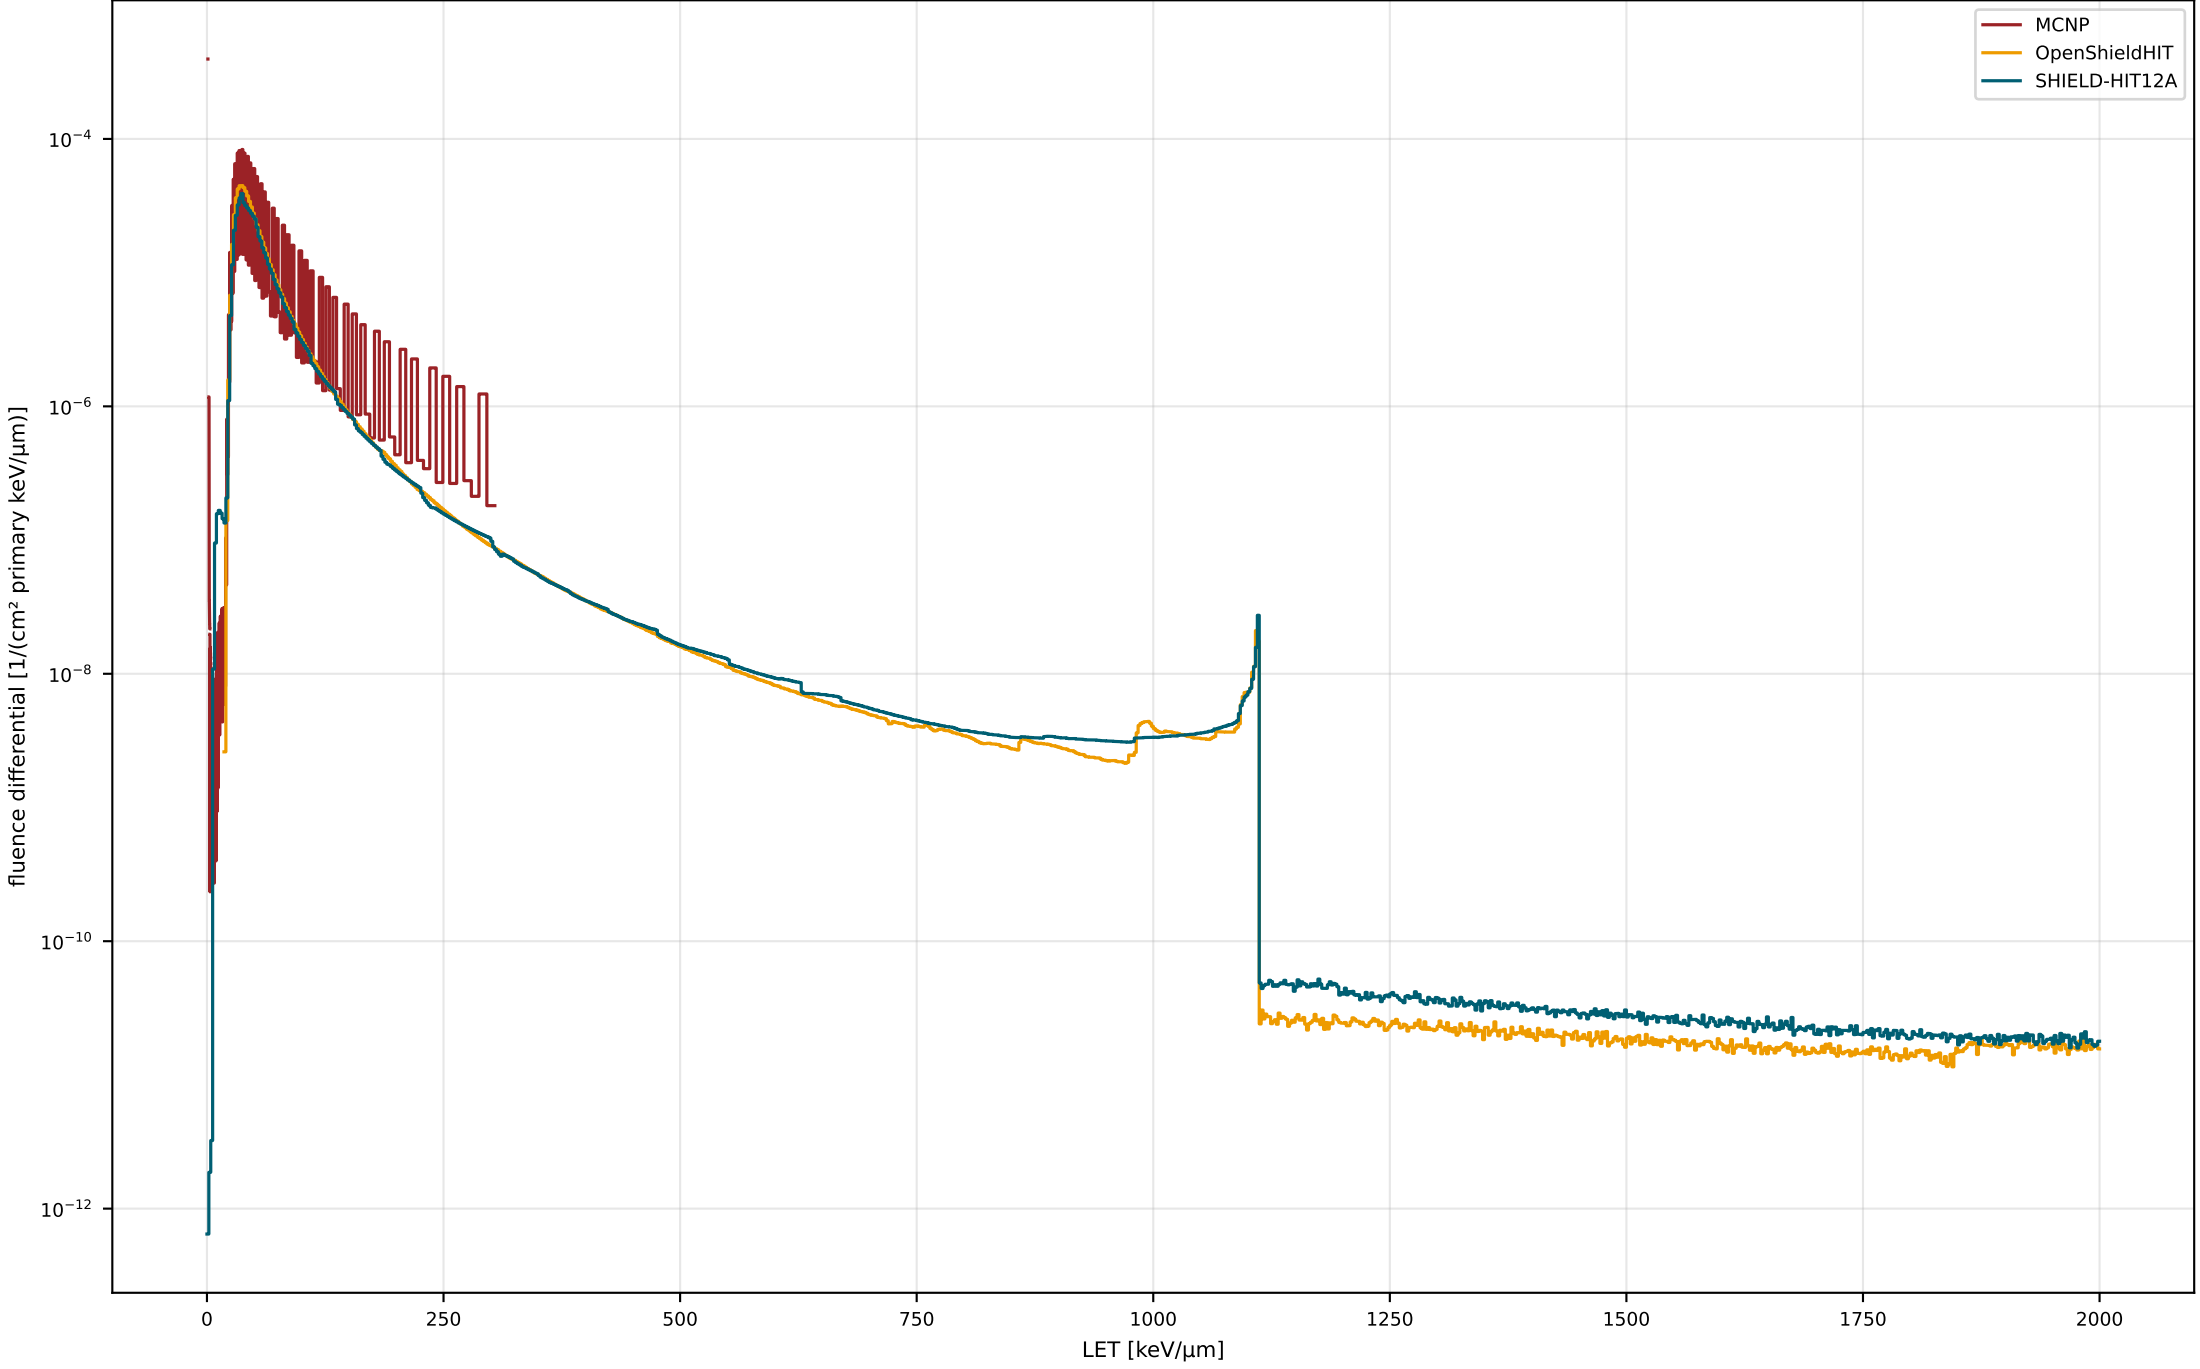

Target spectra — Fluence spectrum vs LET (water stop. pow.)

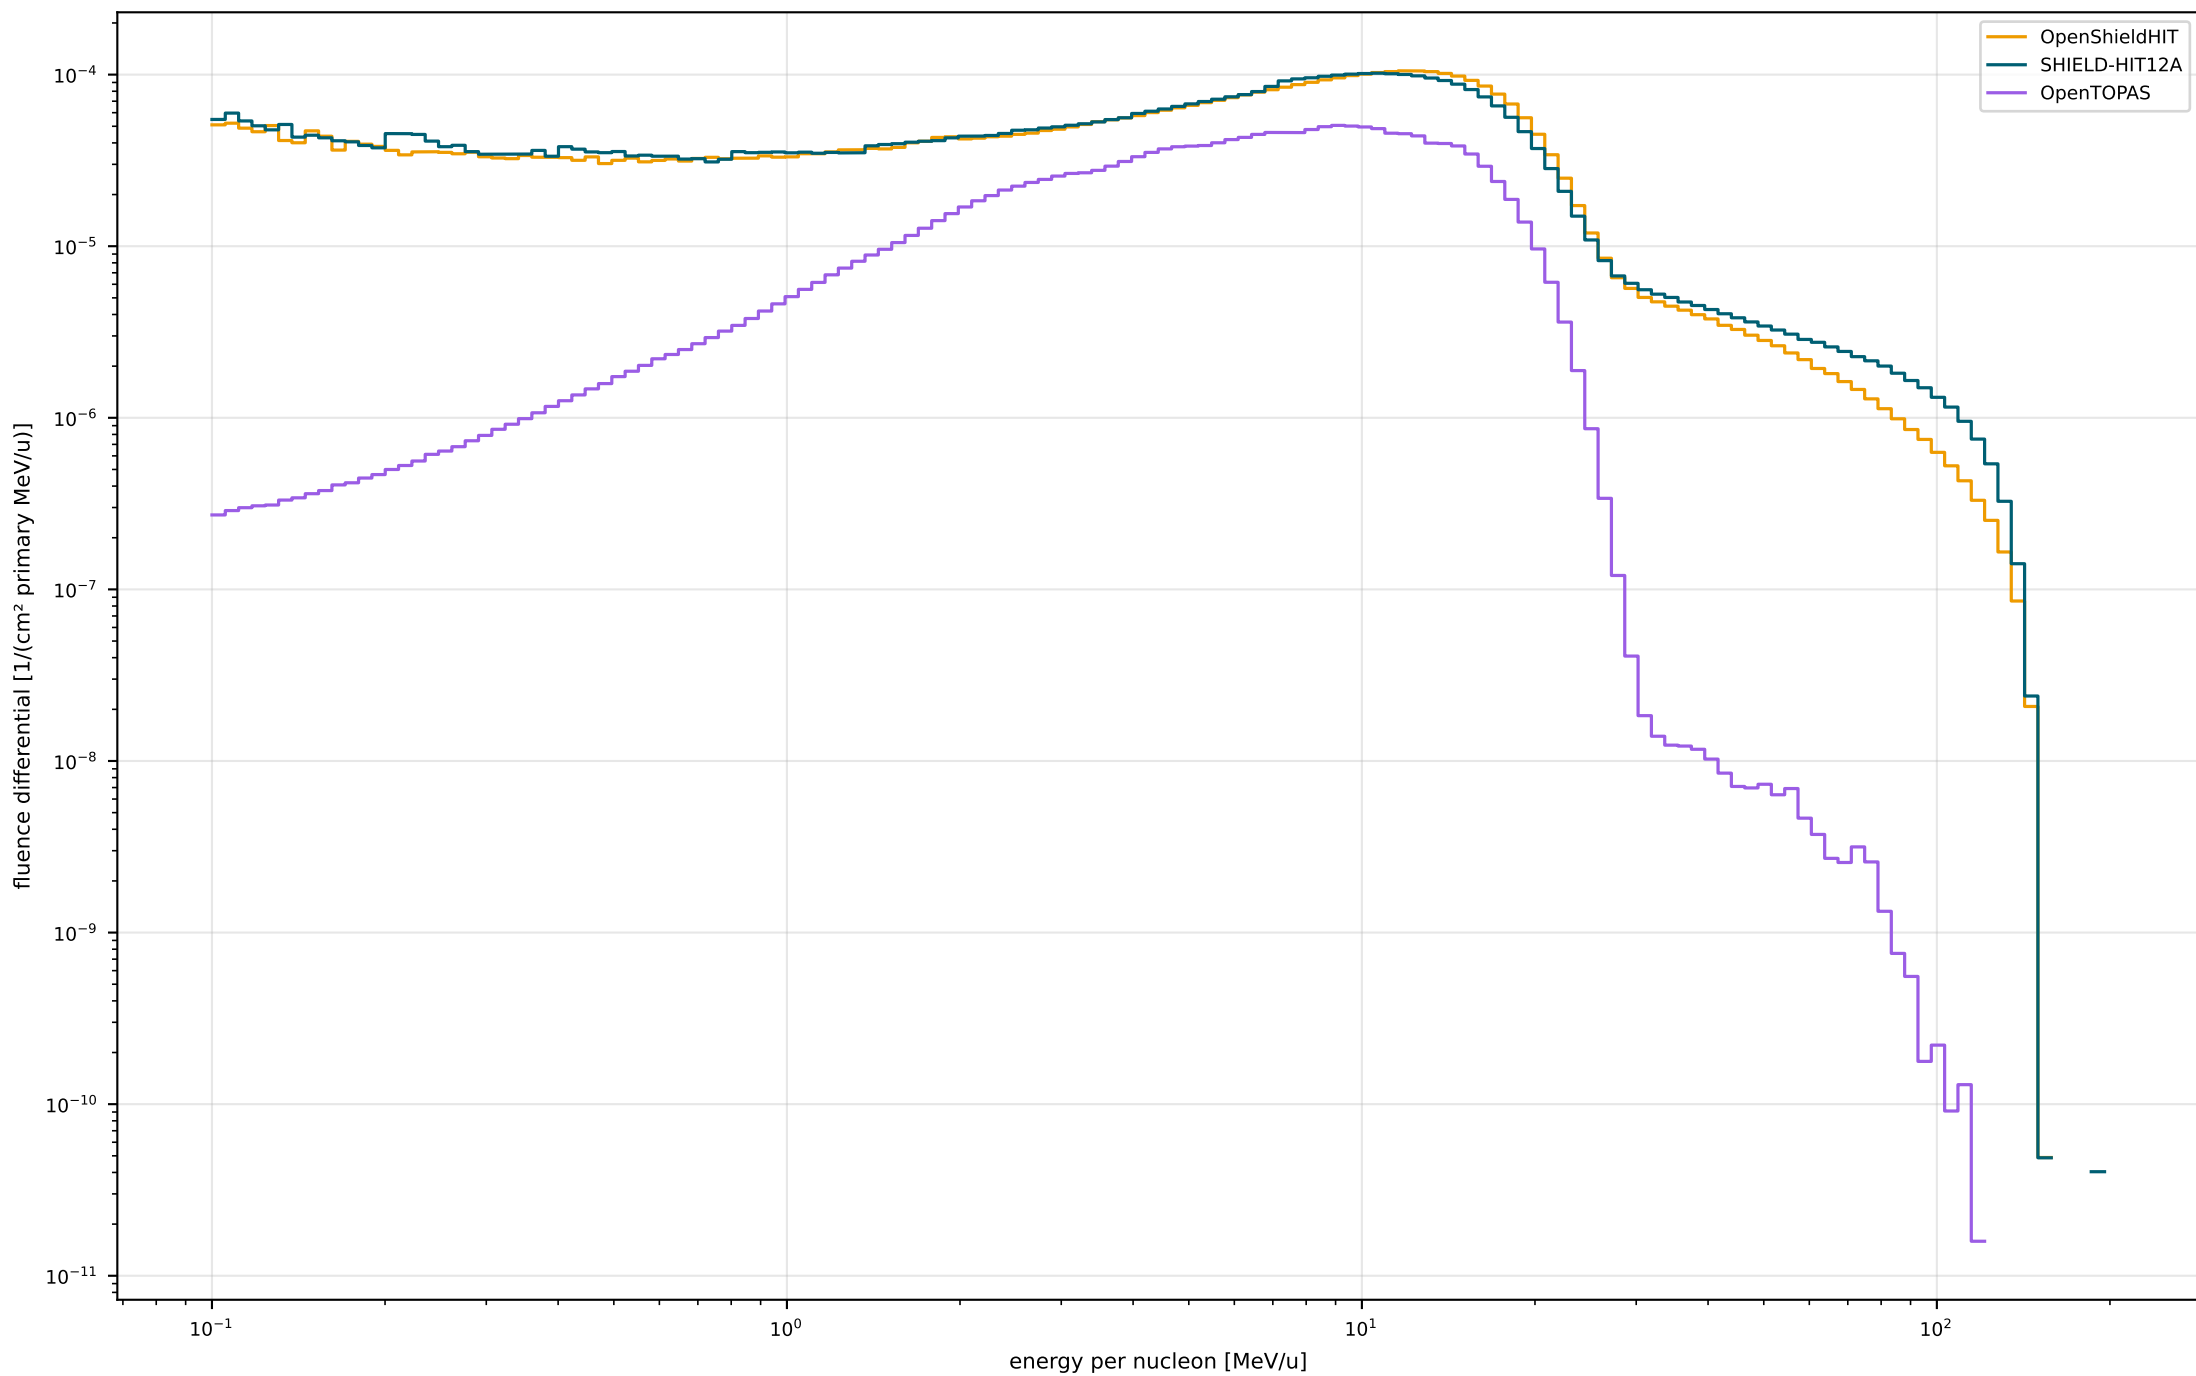

Target spectra — Fluence spectrum vs LET (Si stop. pow.)

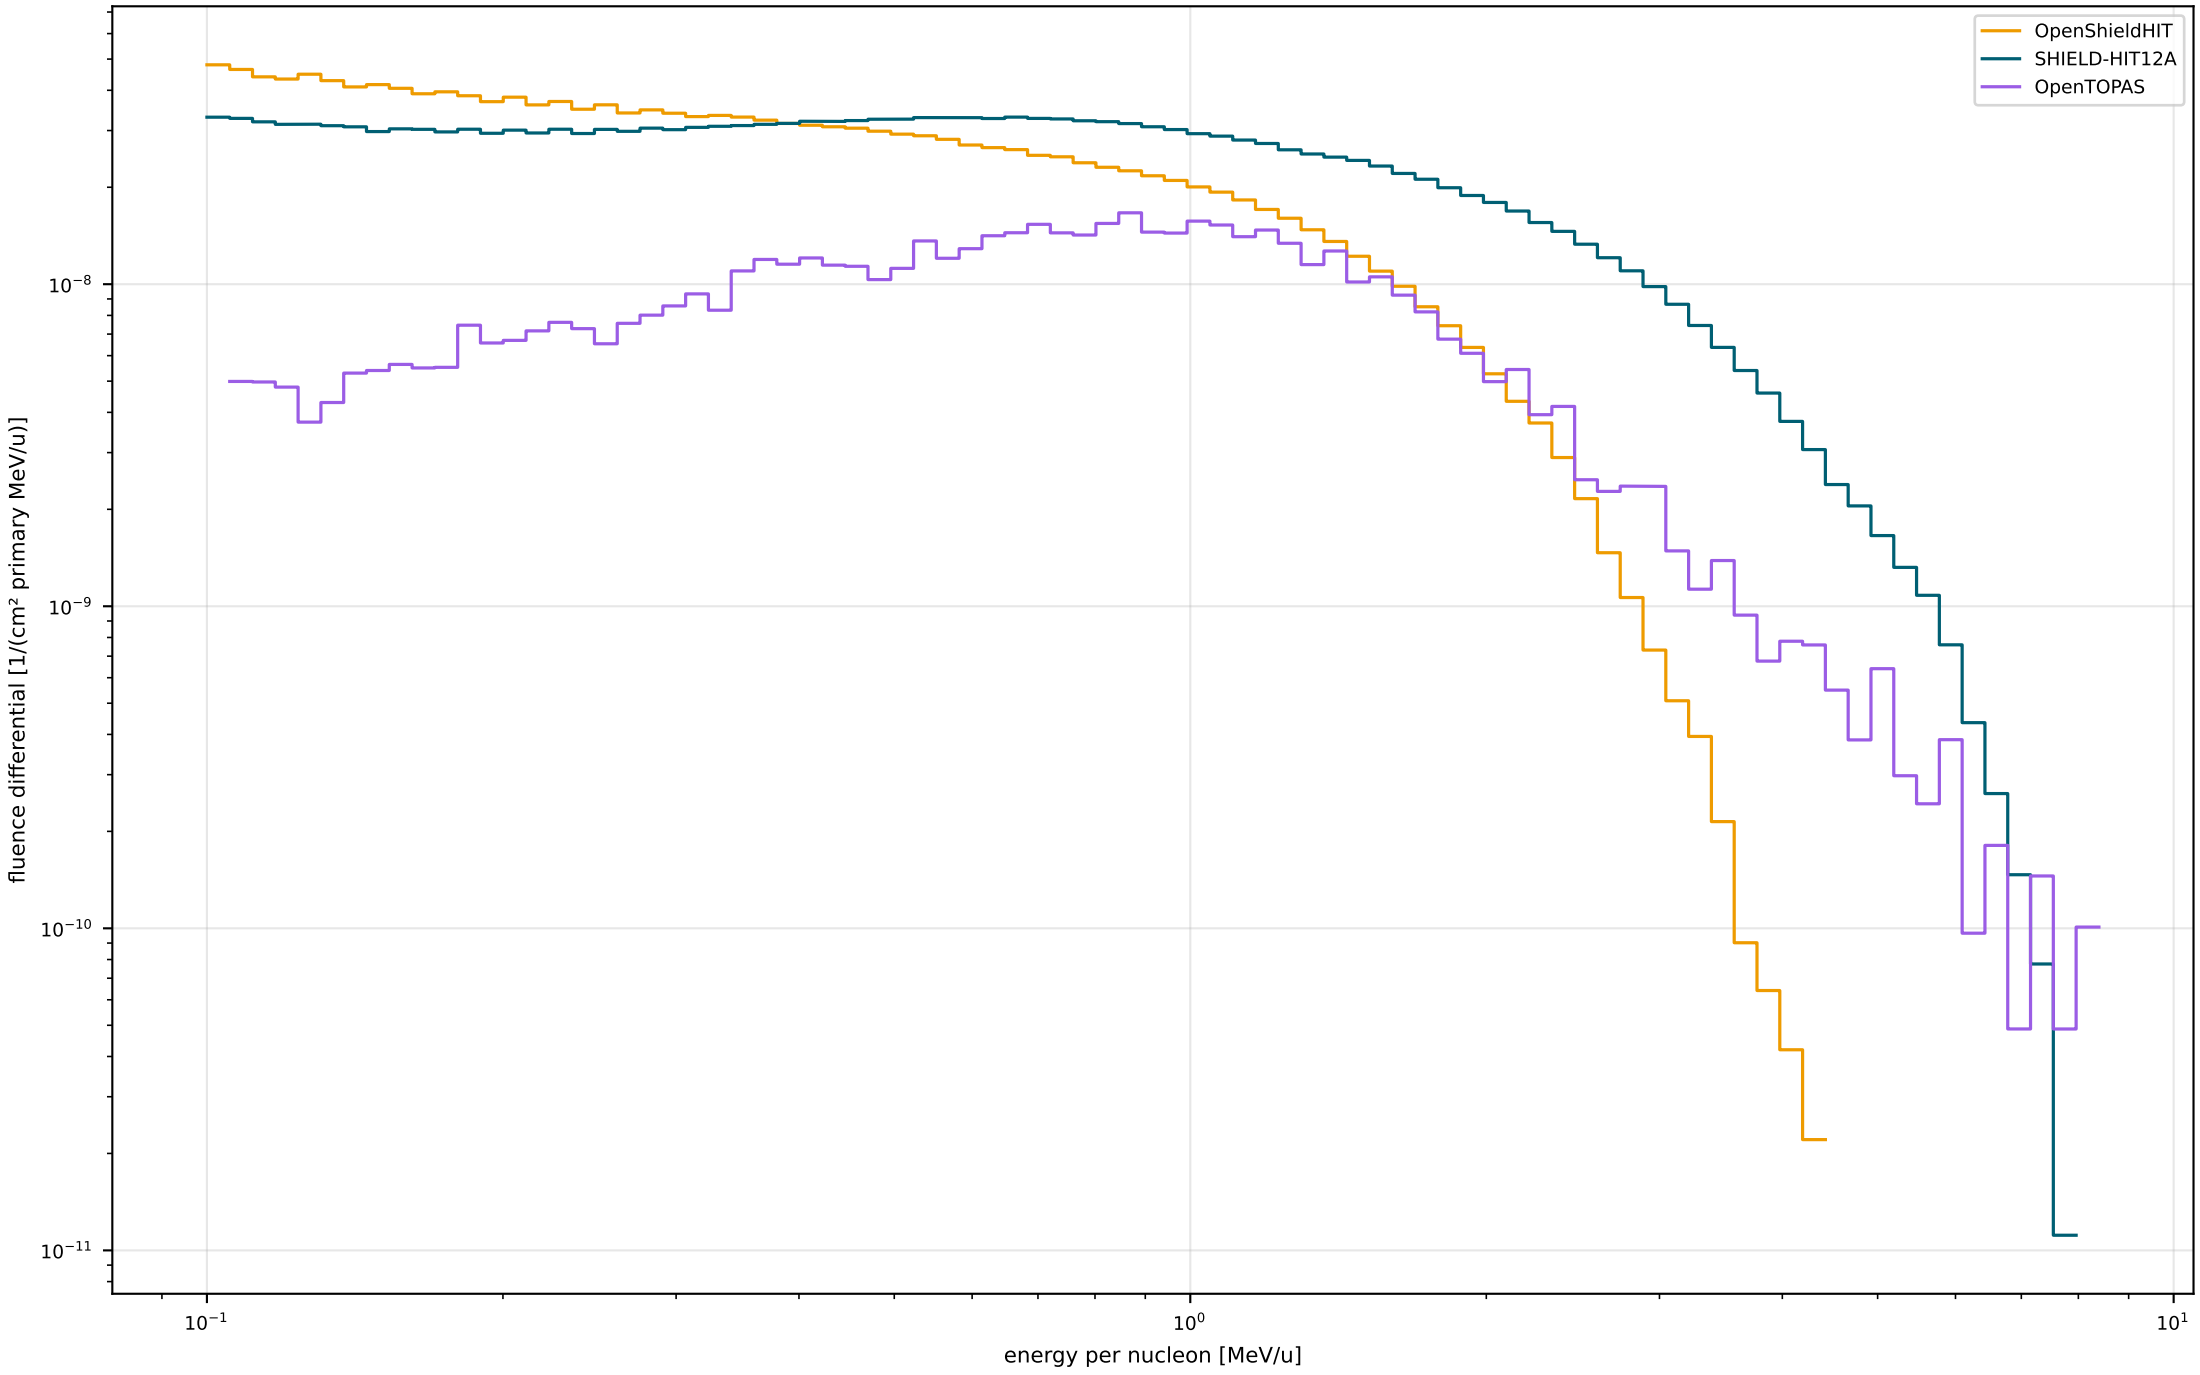

Target spectra — Fluence spectrum vs LET

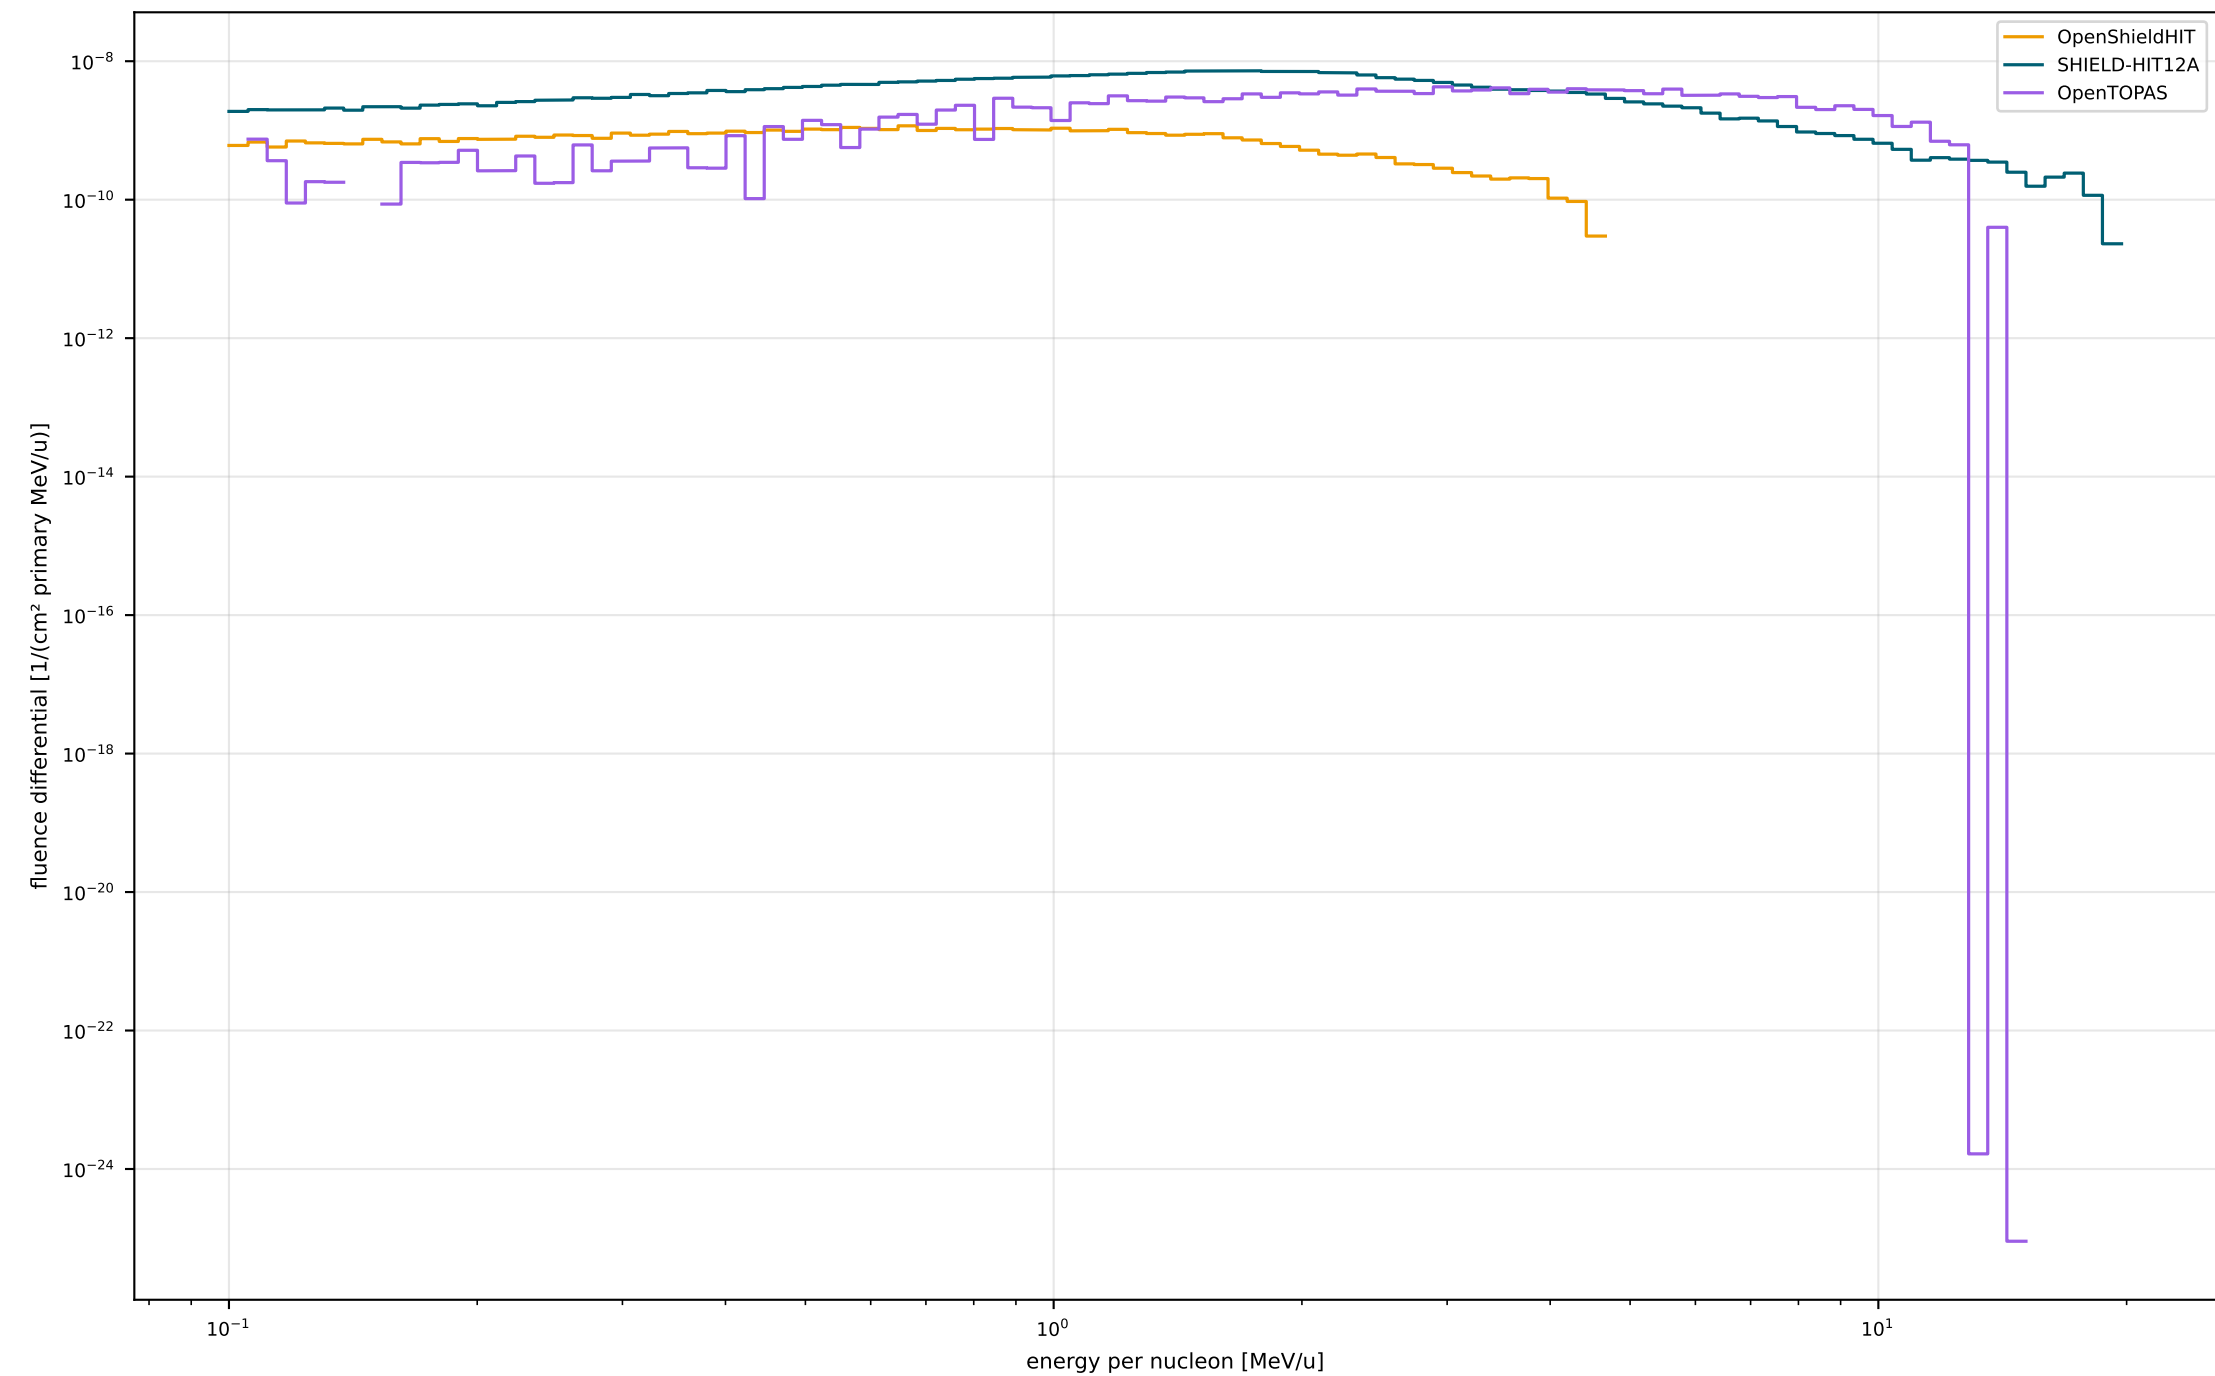

Target spectra — Energy-per-nucleon fluence spectrum (all particles)

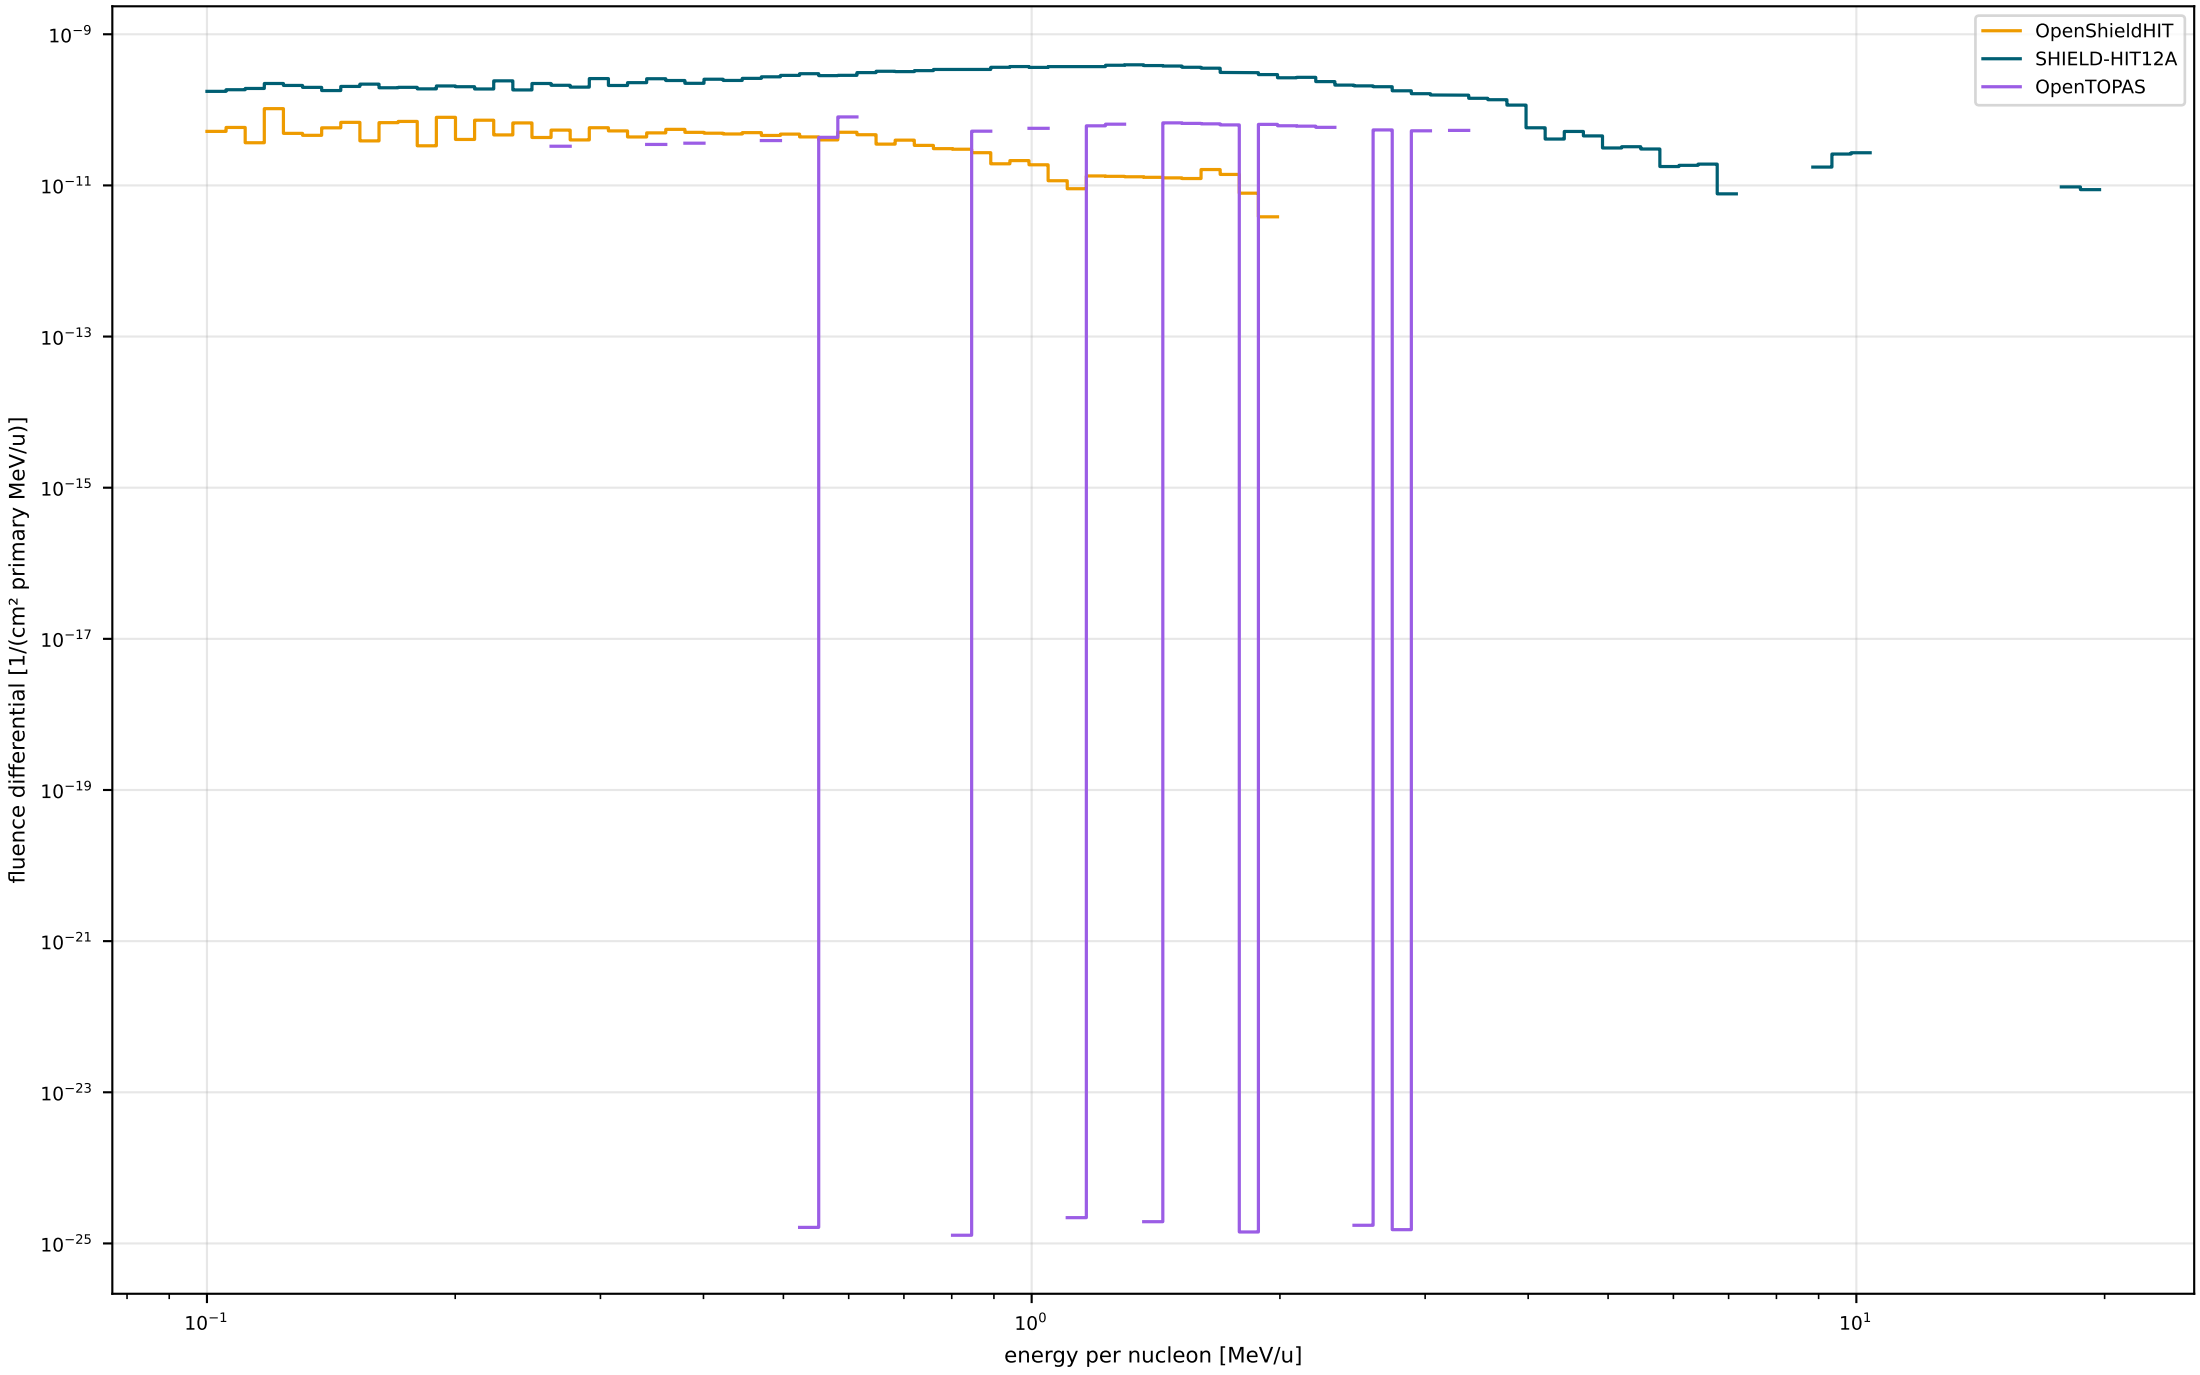

Target spectra — Energy-per-nucleon fluence spectrum (alpha particles)

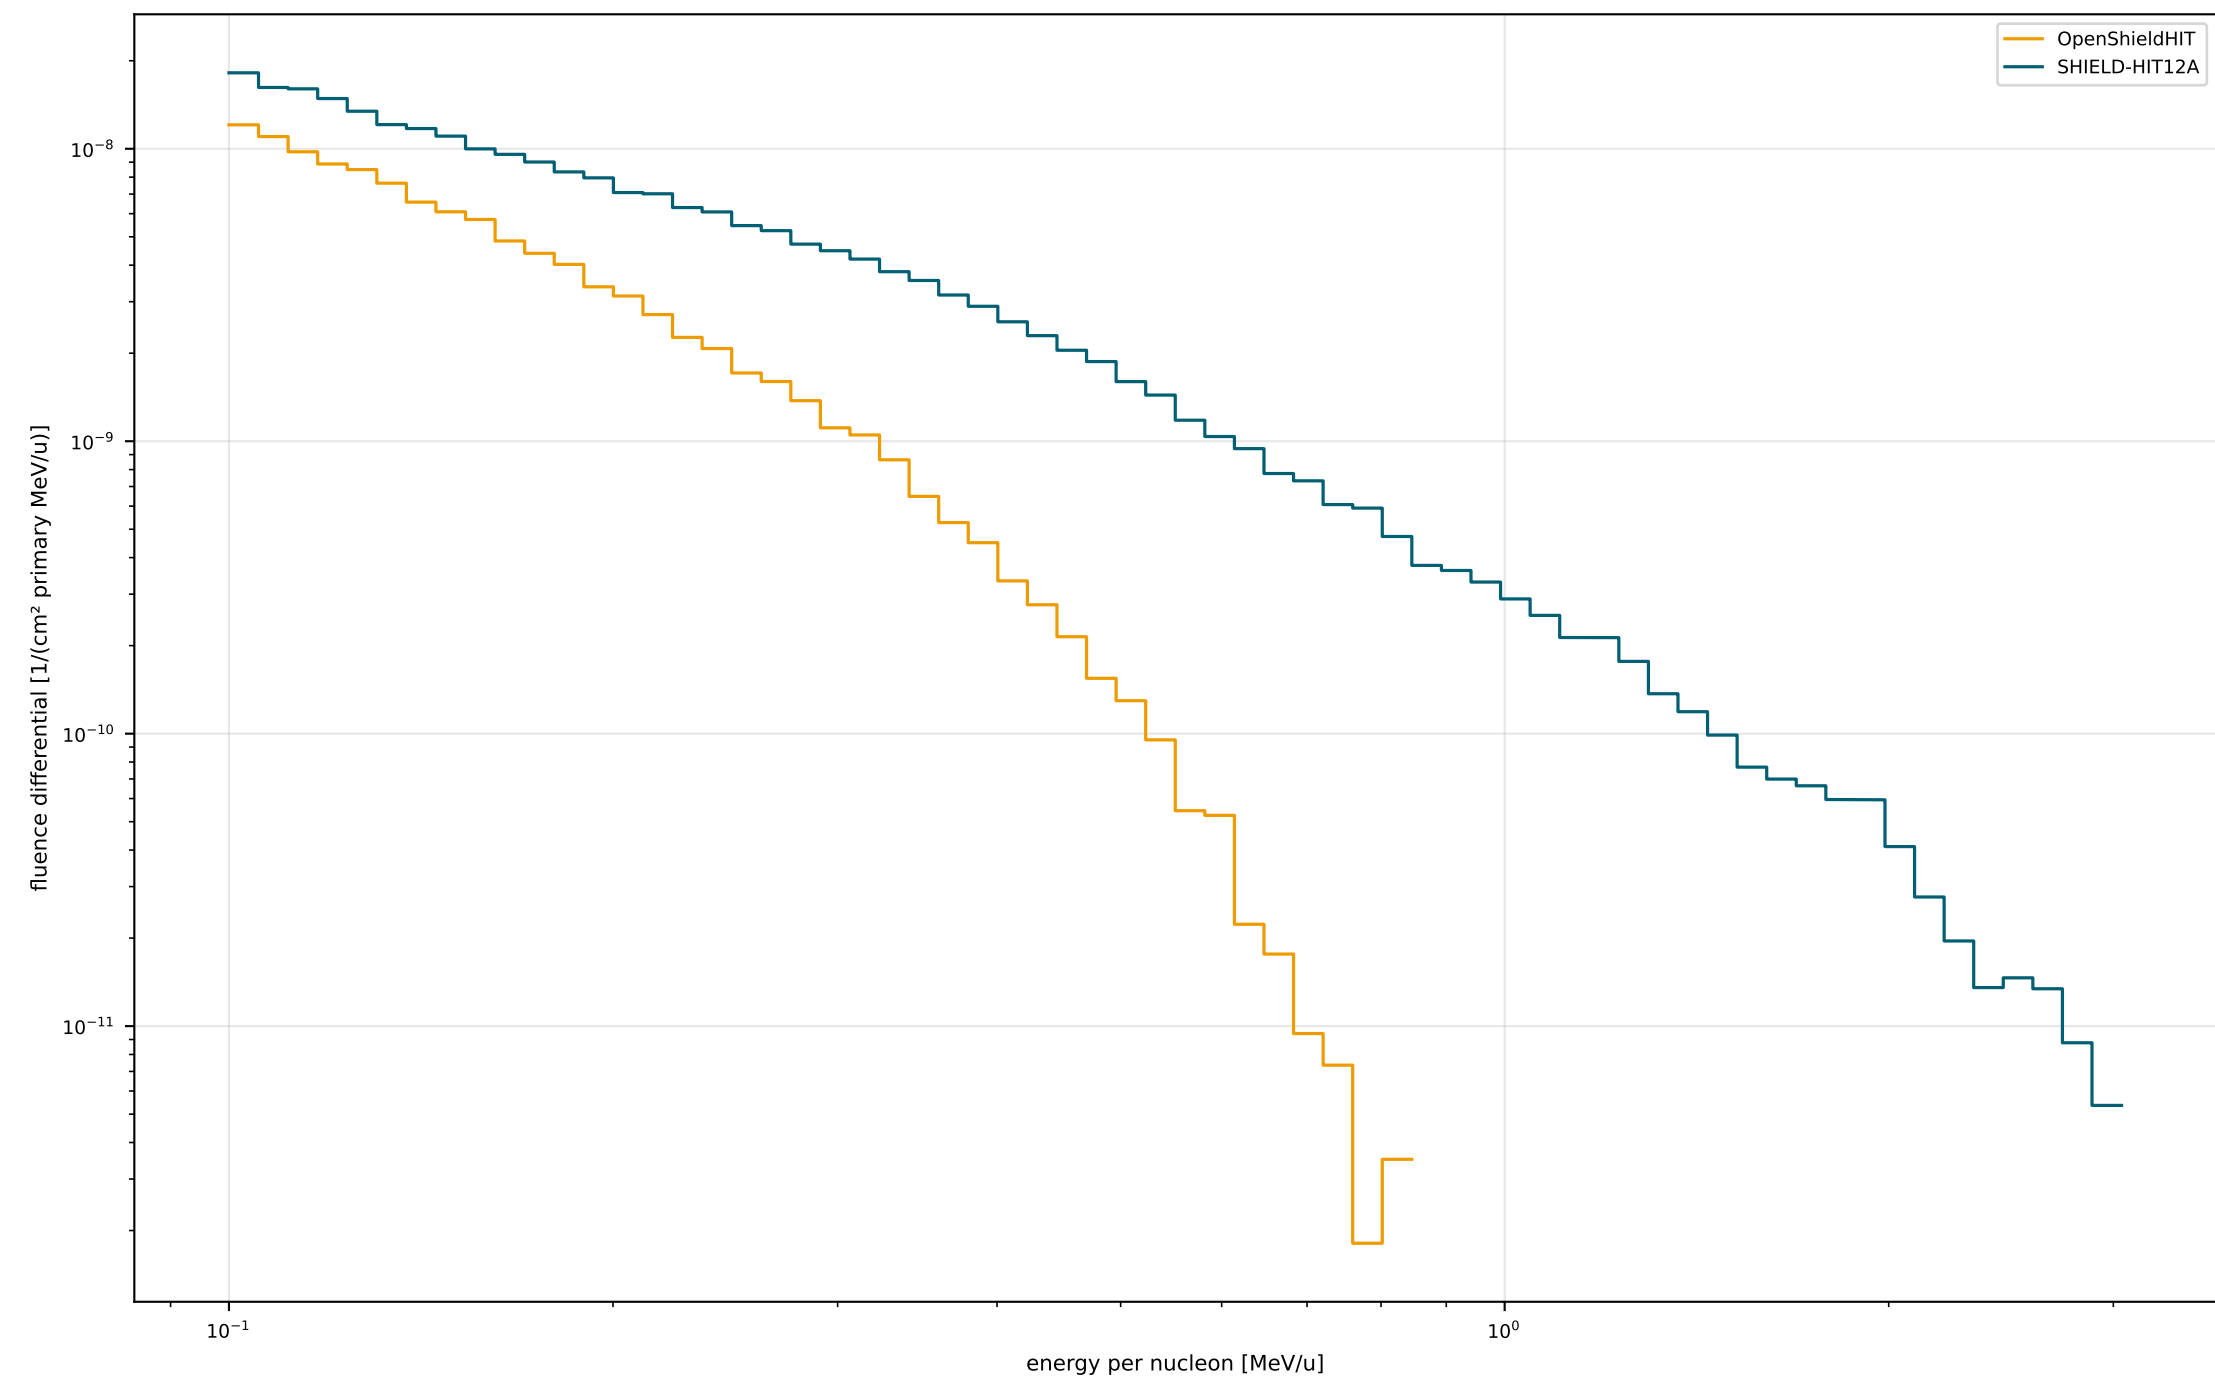

Target spectra — Energy-per-nucleon fluence spectrum (deuterons)

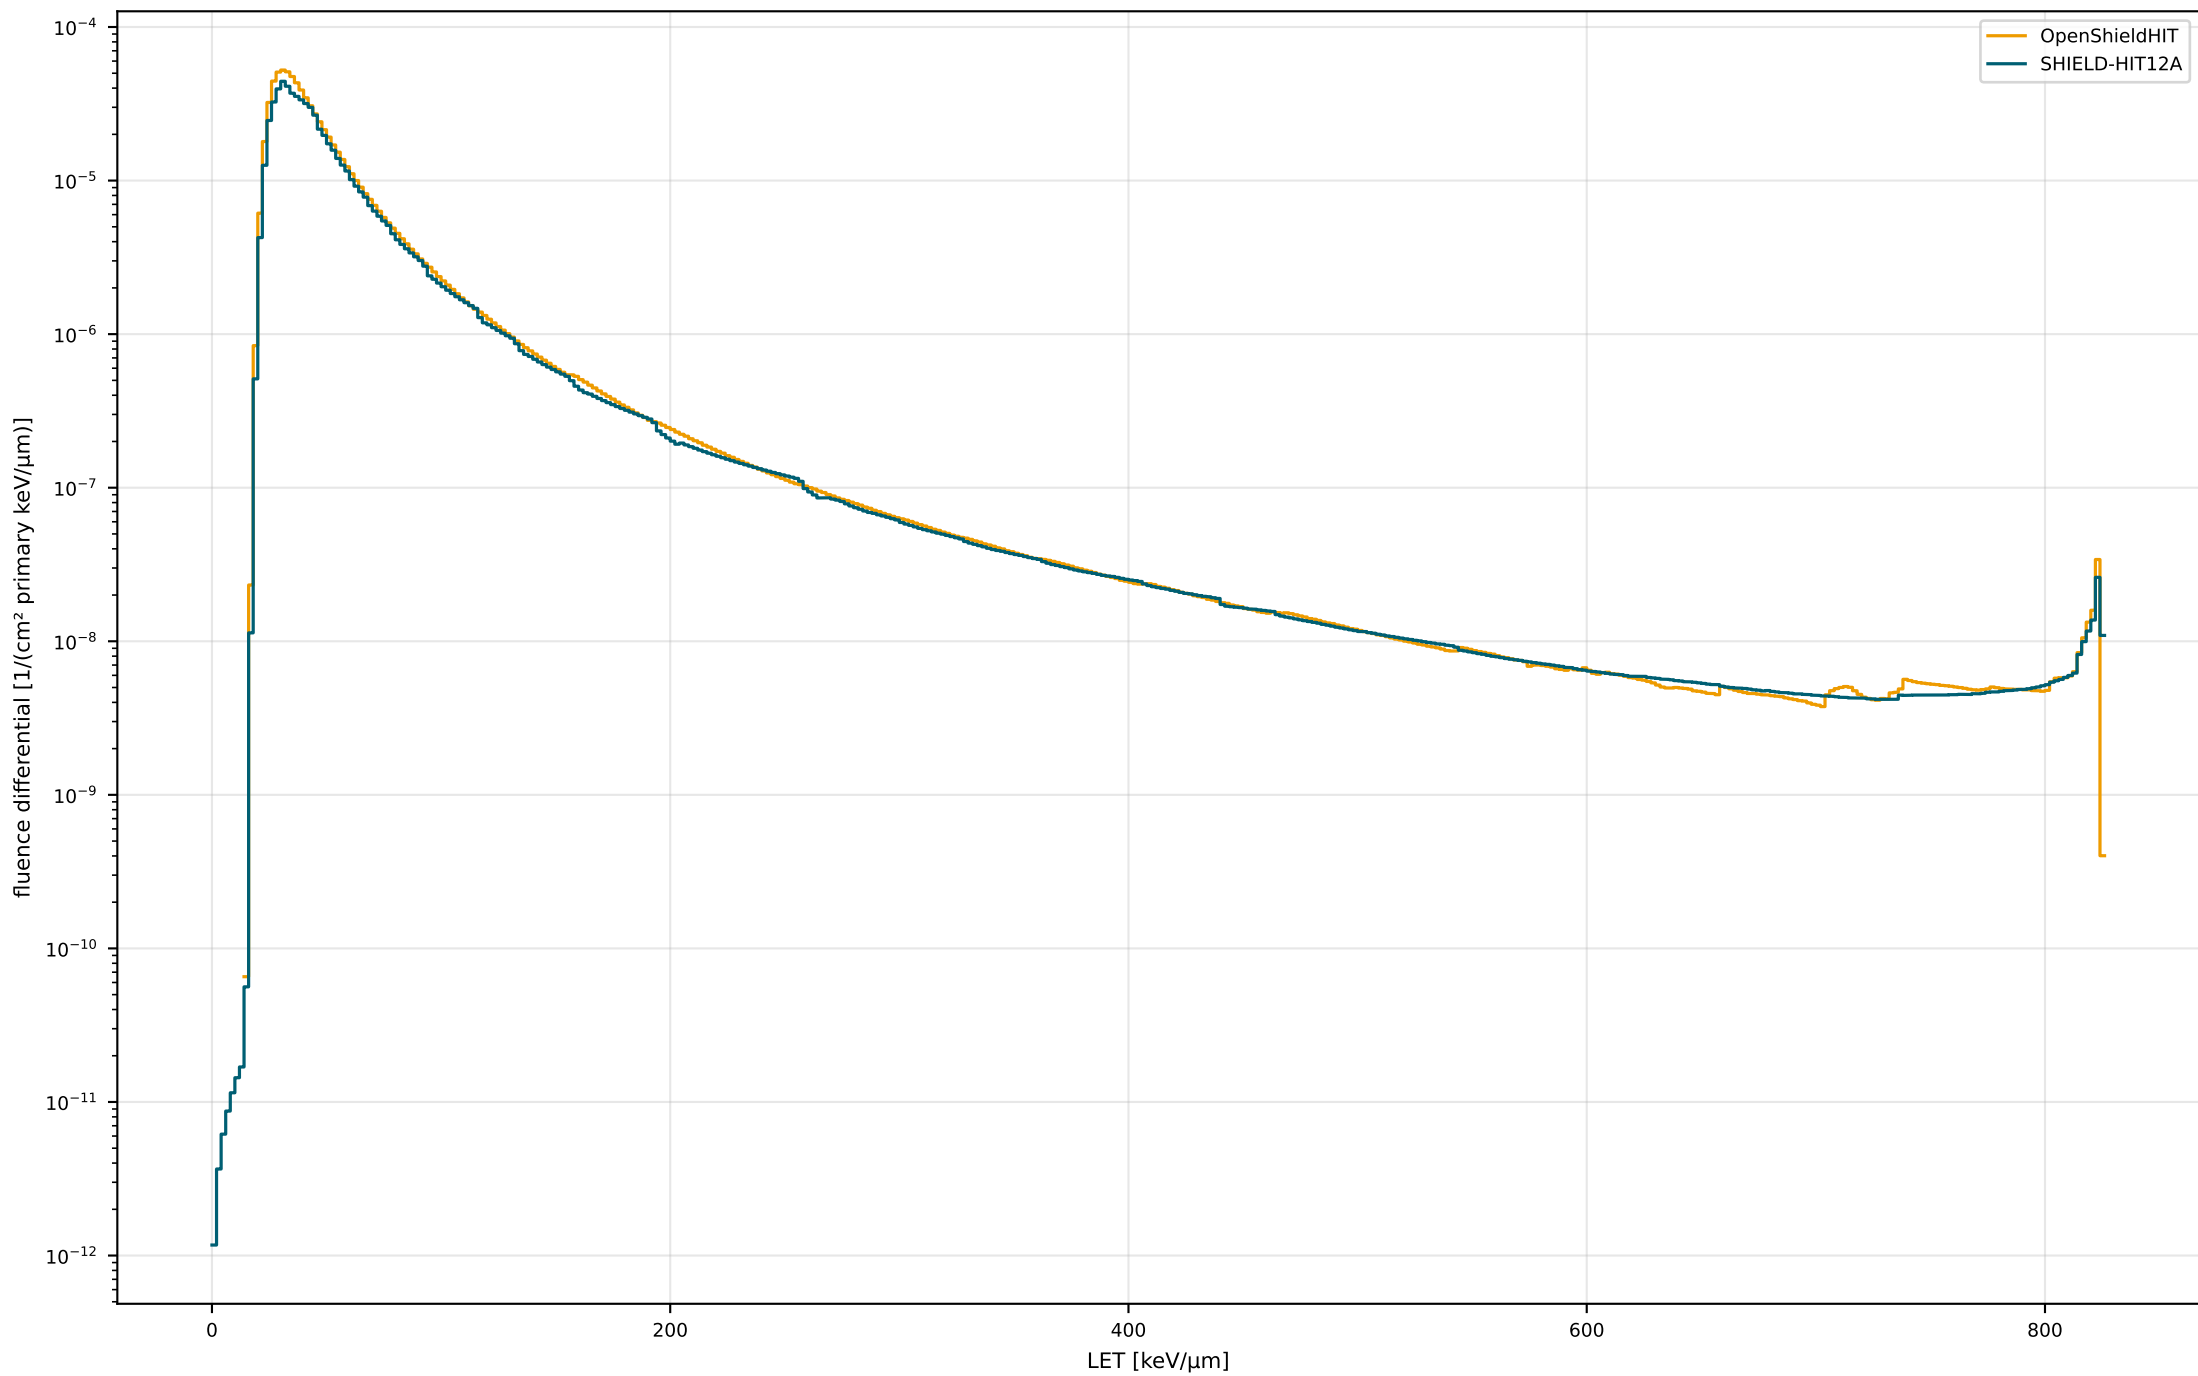

Target spectra — Energy-per-nucleon fluence spectrum (helium-3)

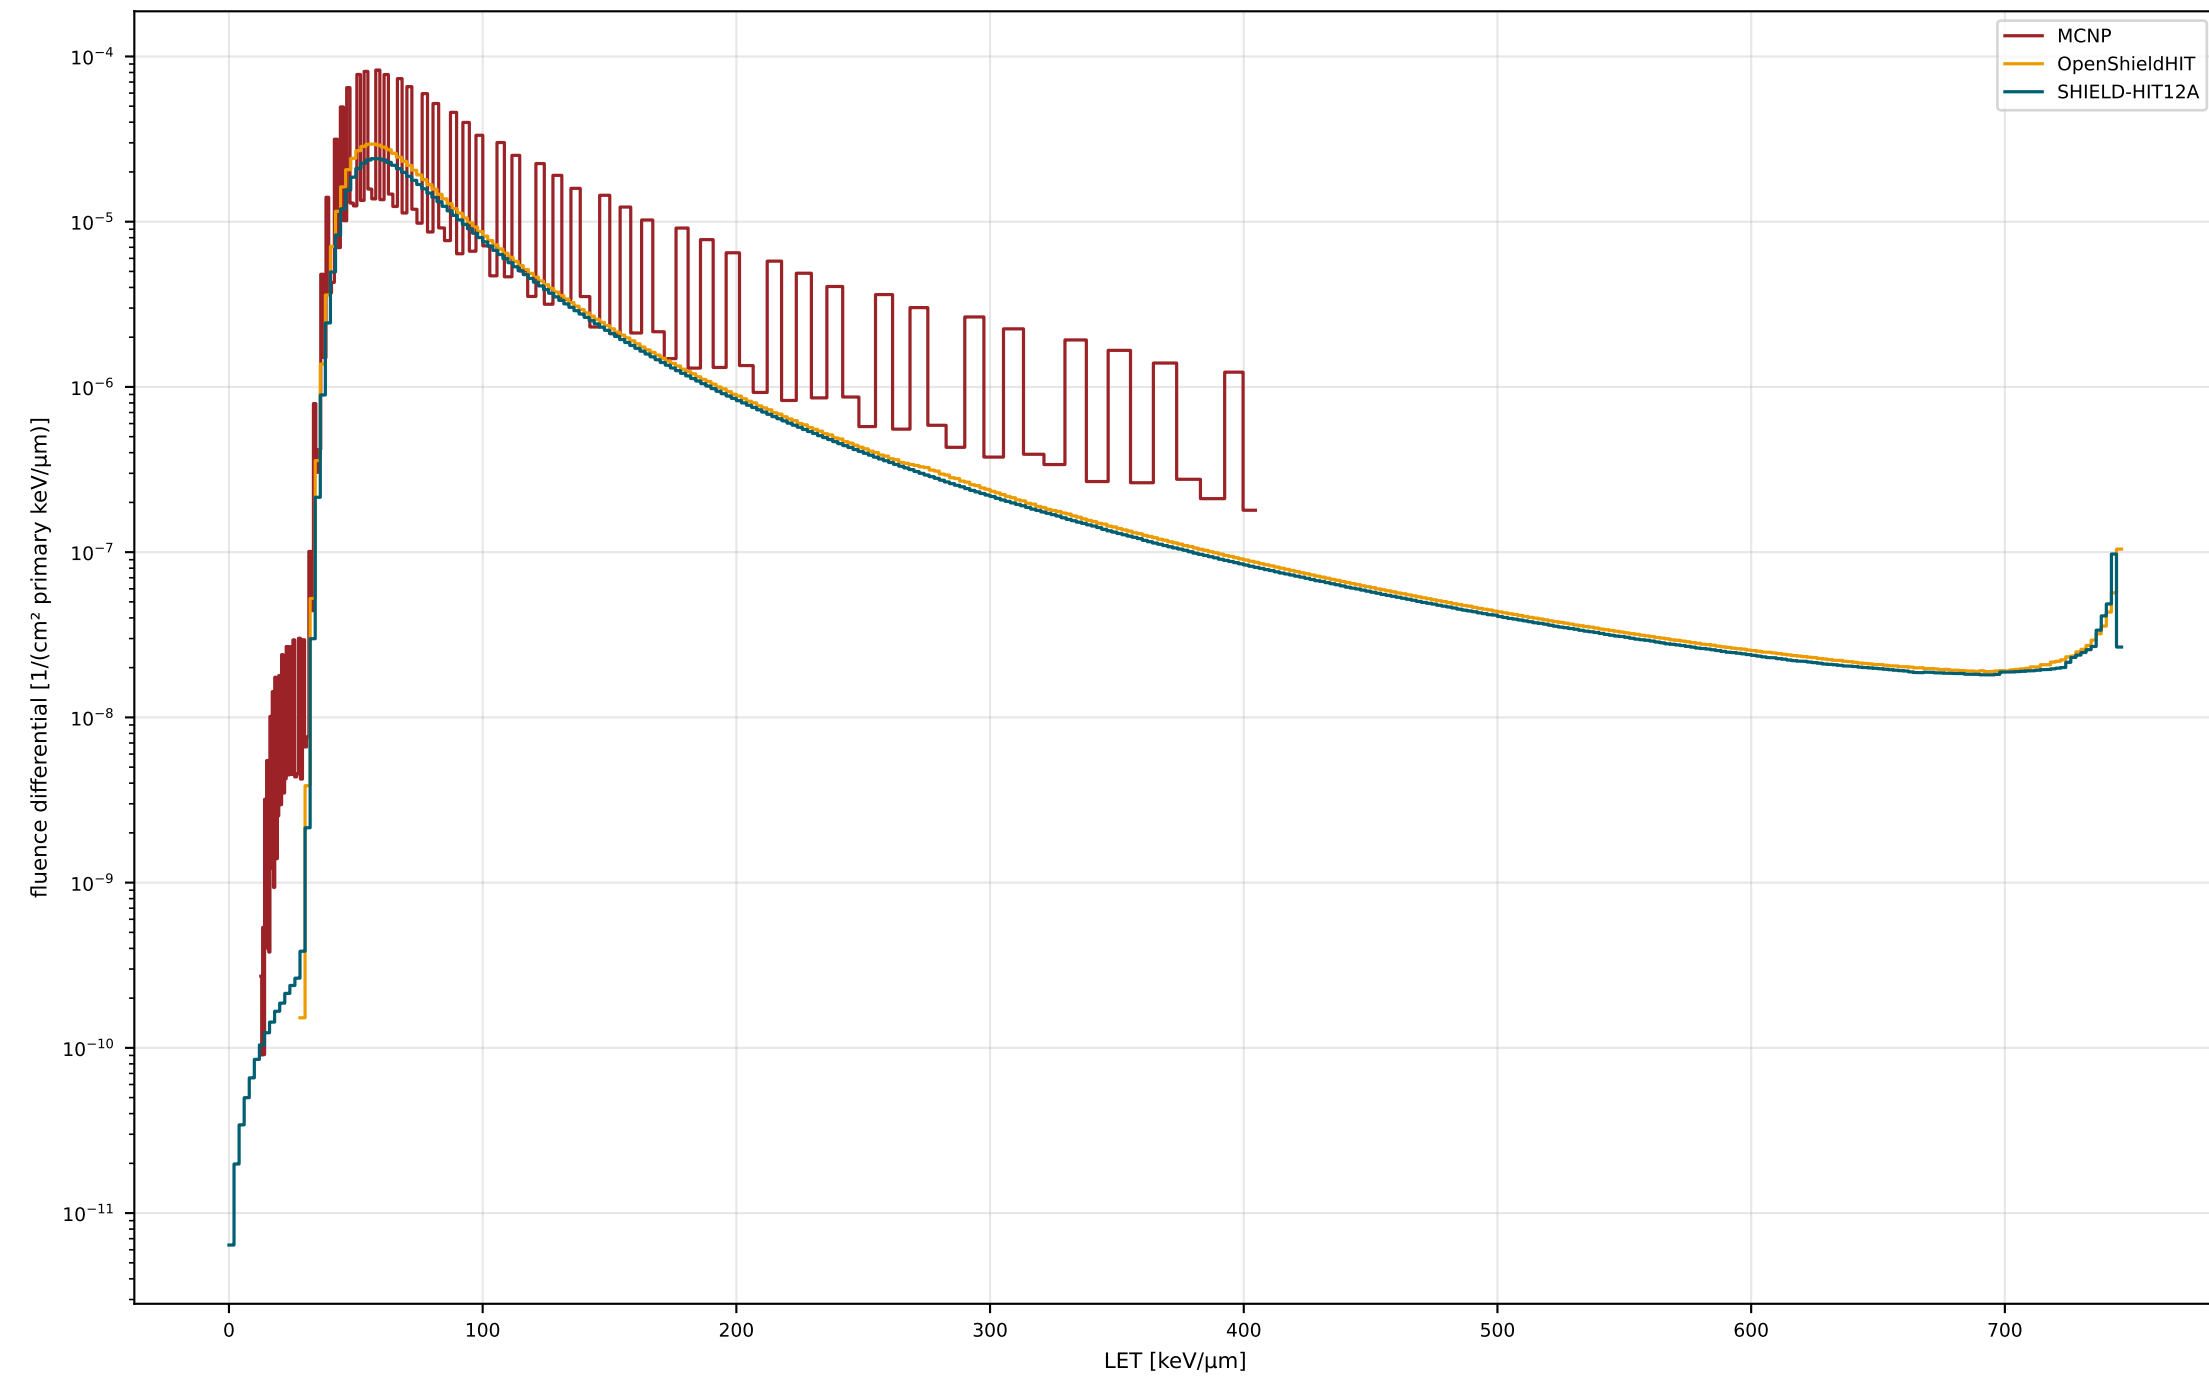

Target spectra — Energy-per-nucleon fluence spectrum (heavy recoils/fragments)

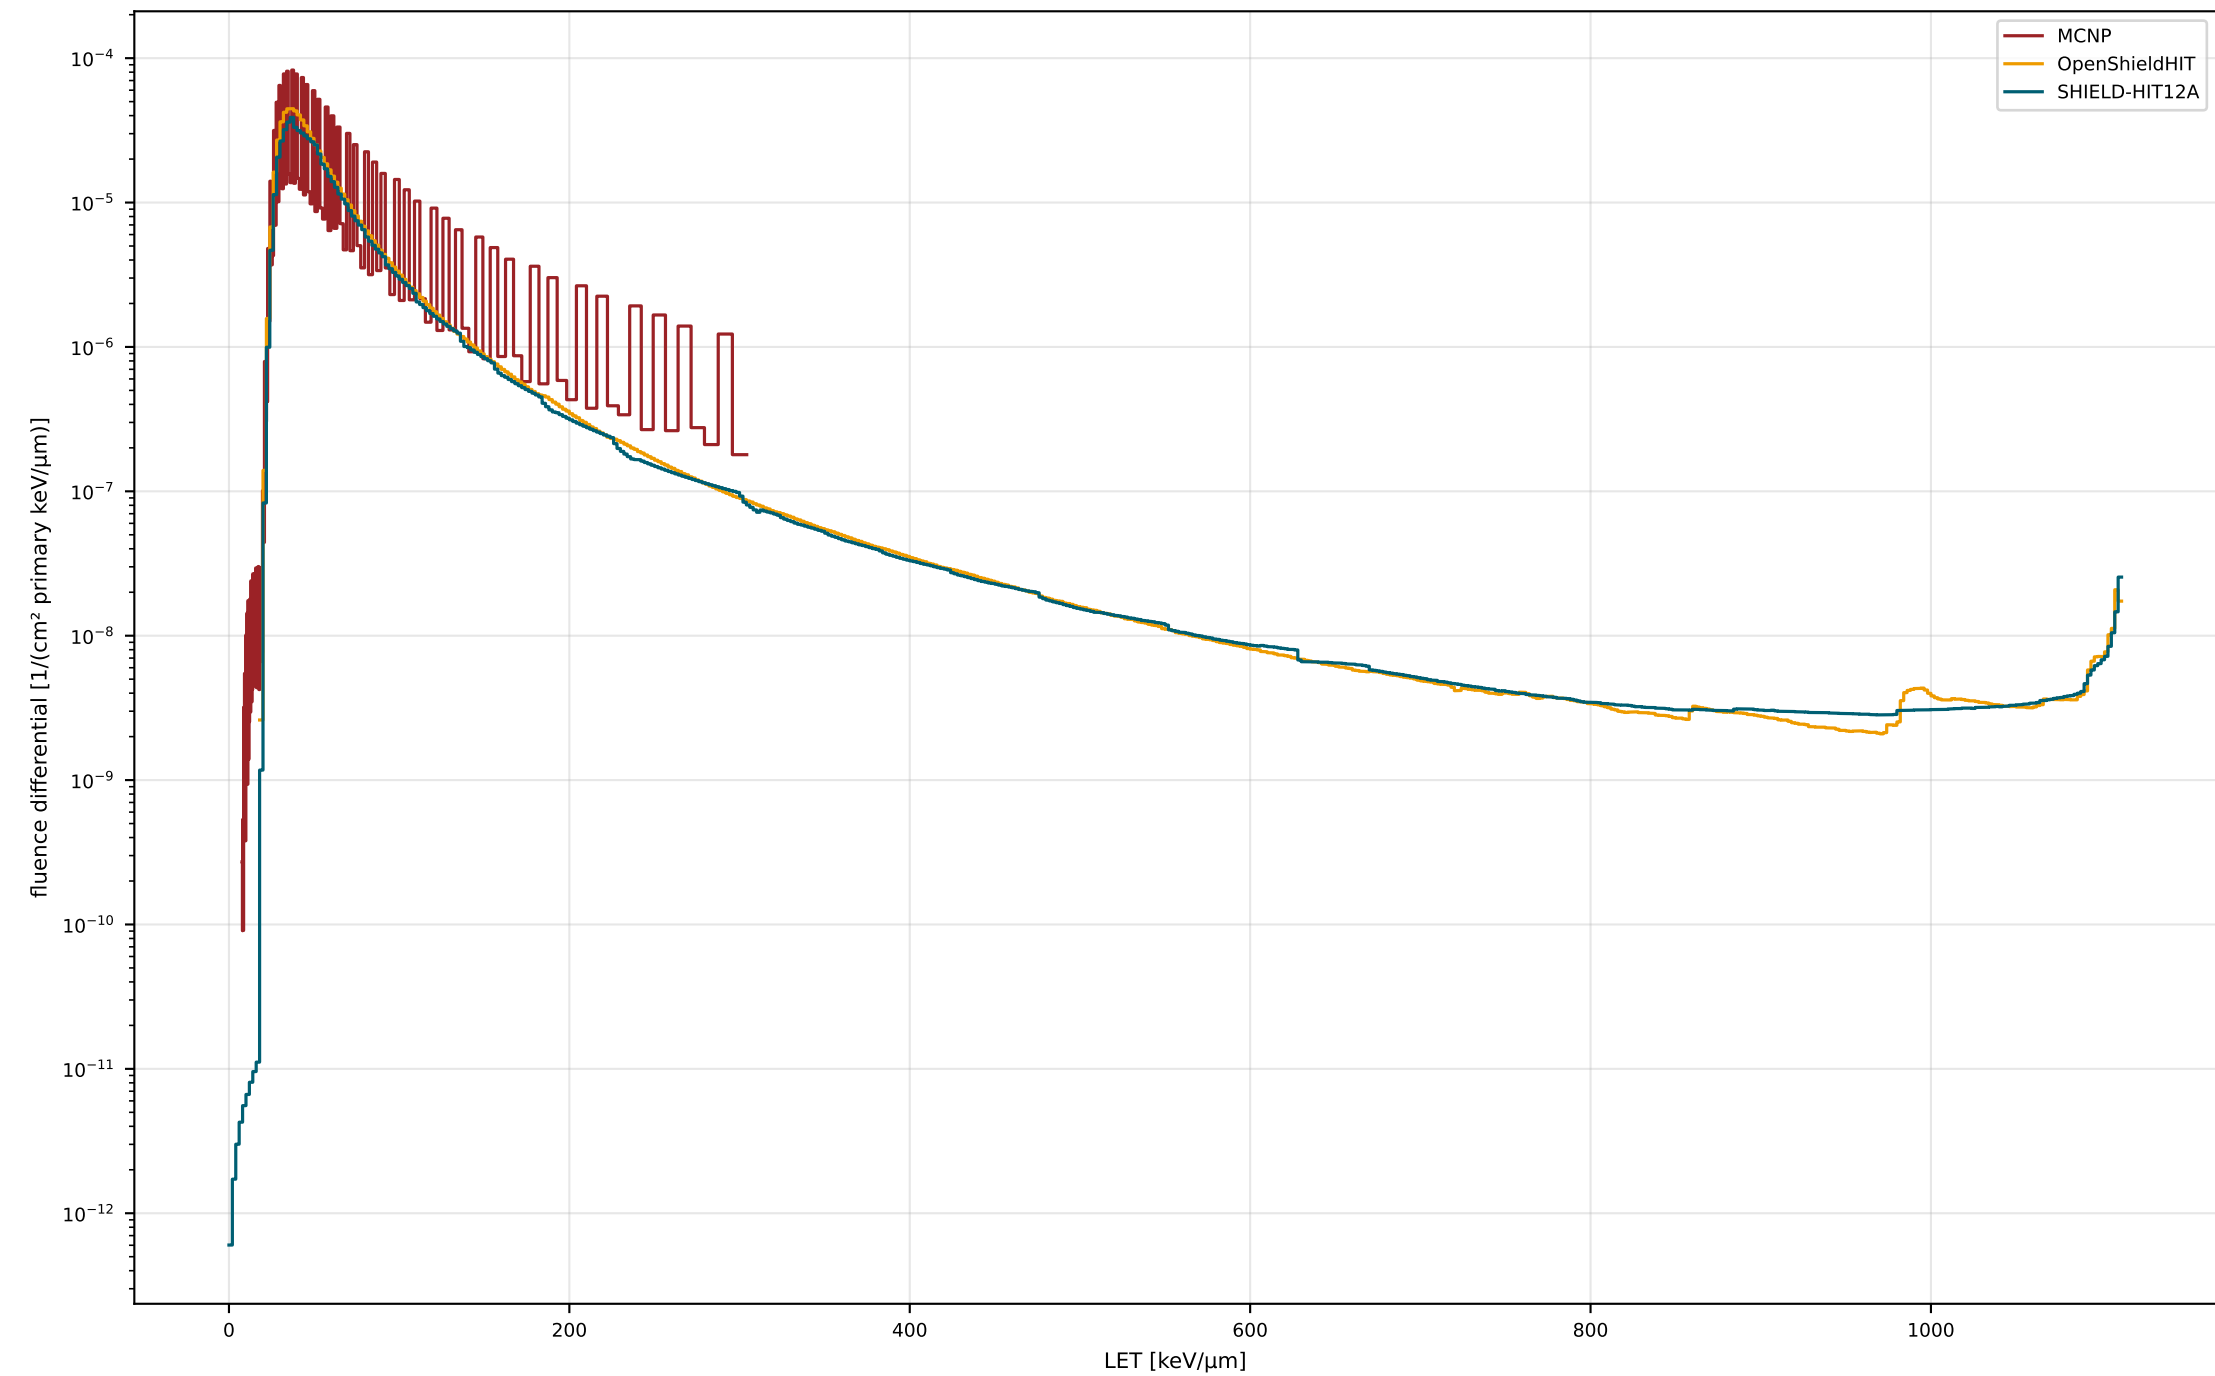

Target spectra — Fluence spectrum vs LET (primary, water stop. pow.)

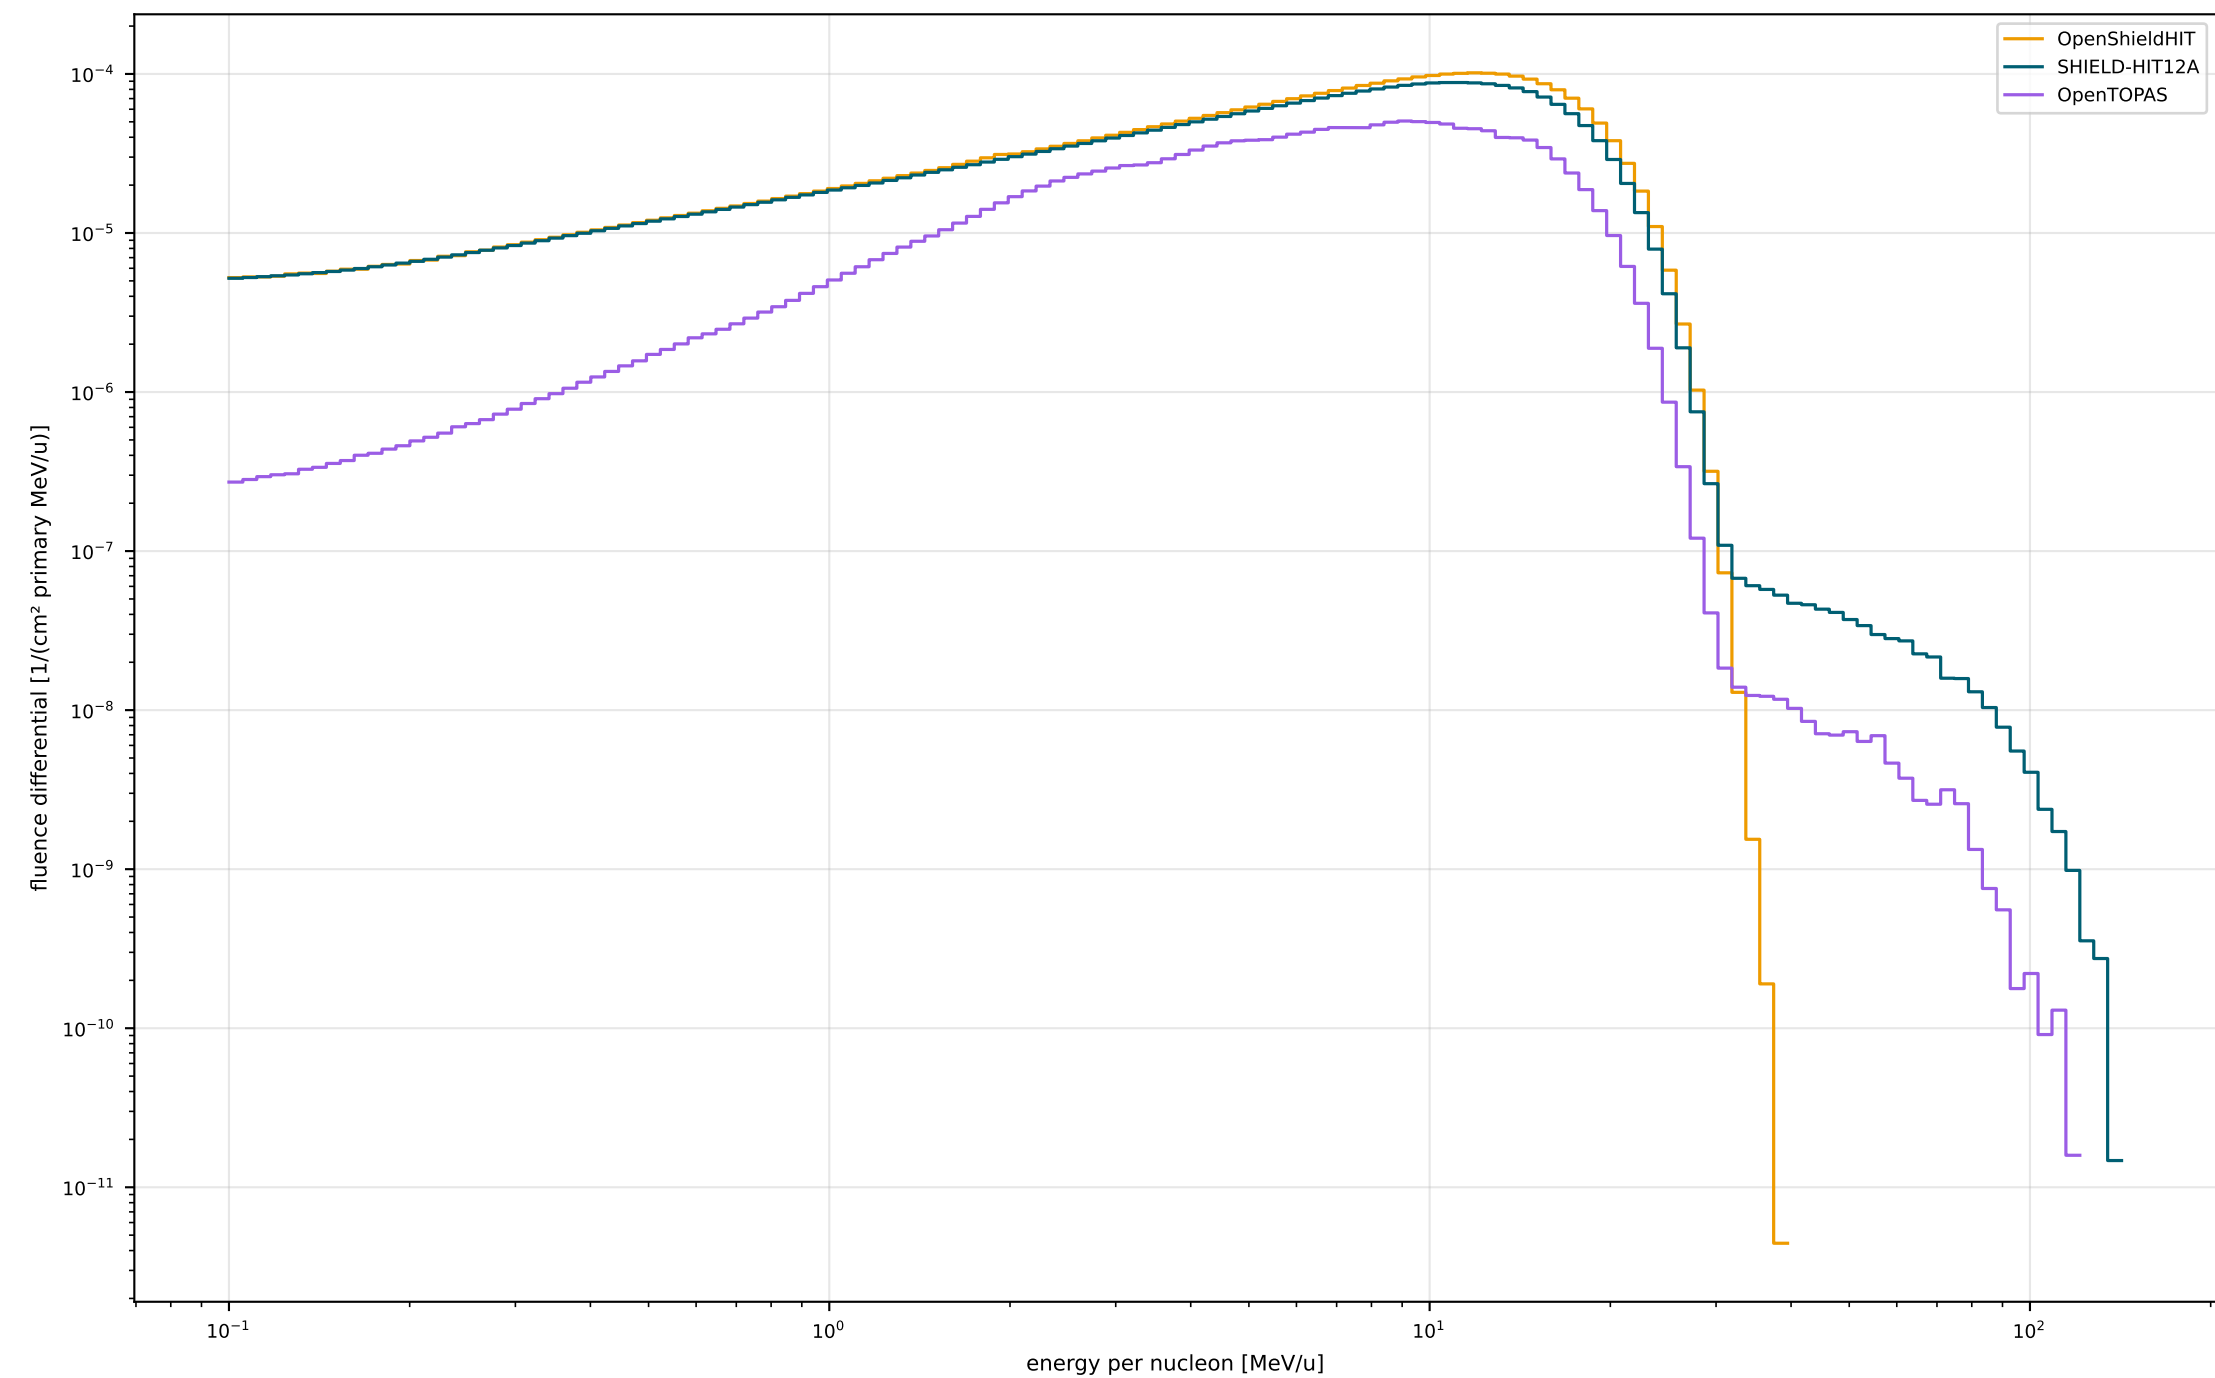

Target spectra — Fluence spectrum vs LET (primary, Si stop. pow.)

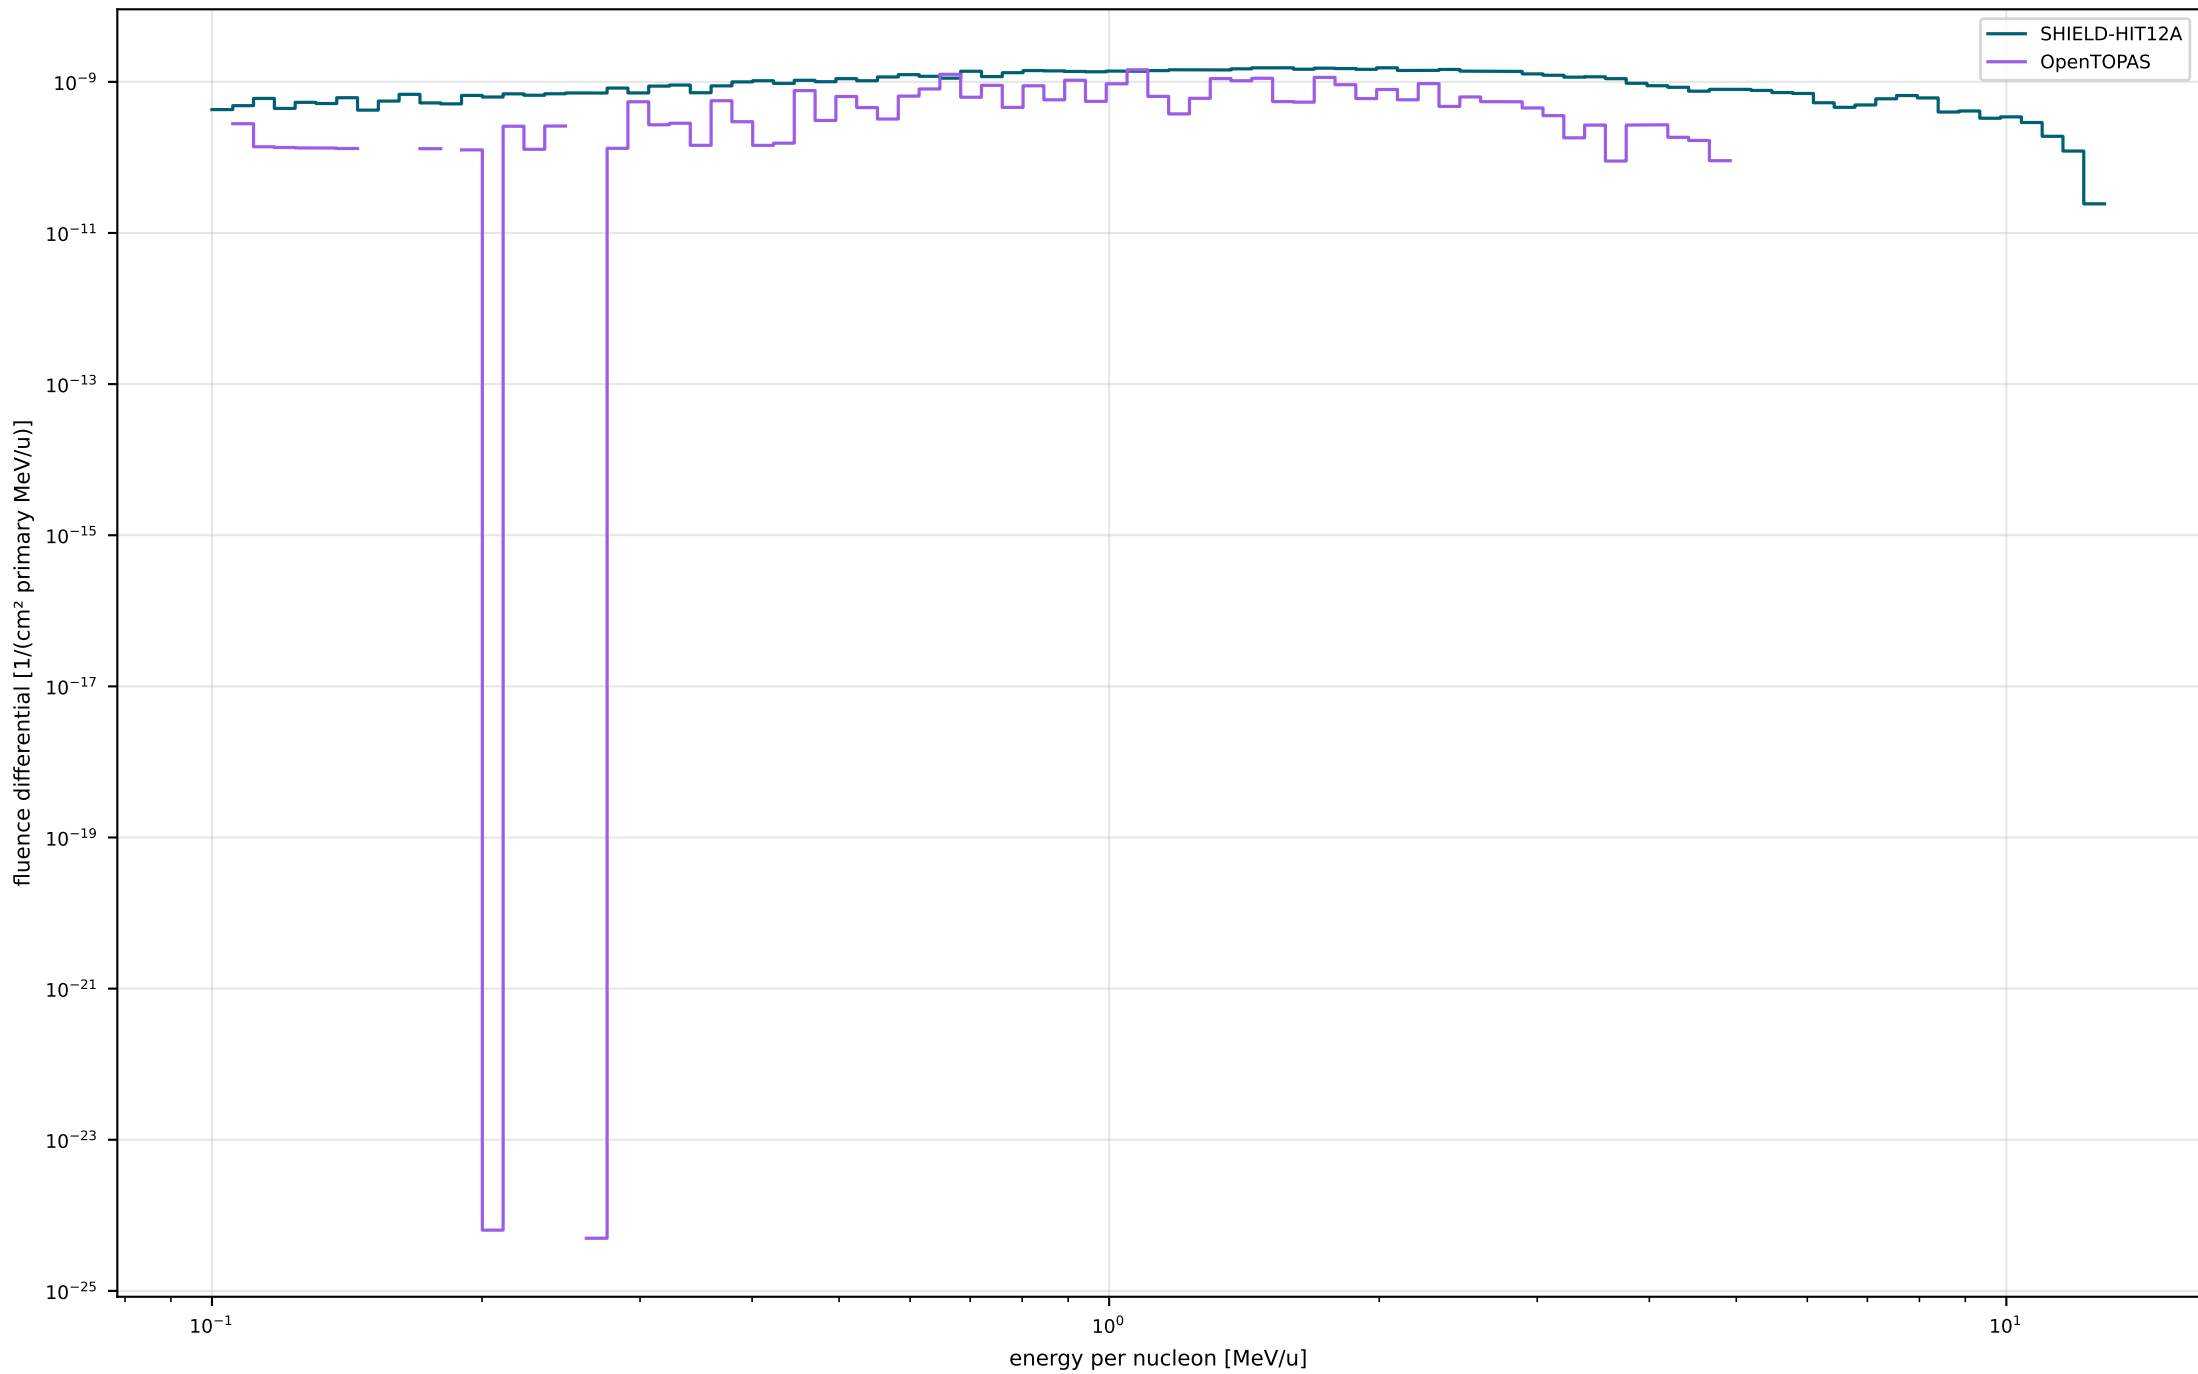

Target spectra — Fluence spectrum vs LET (primary)

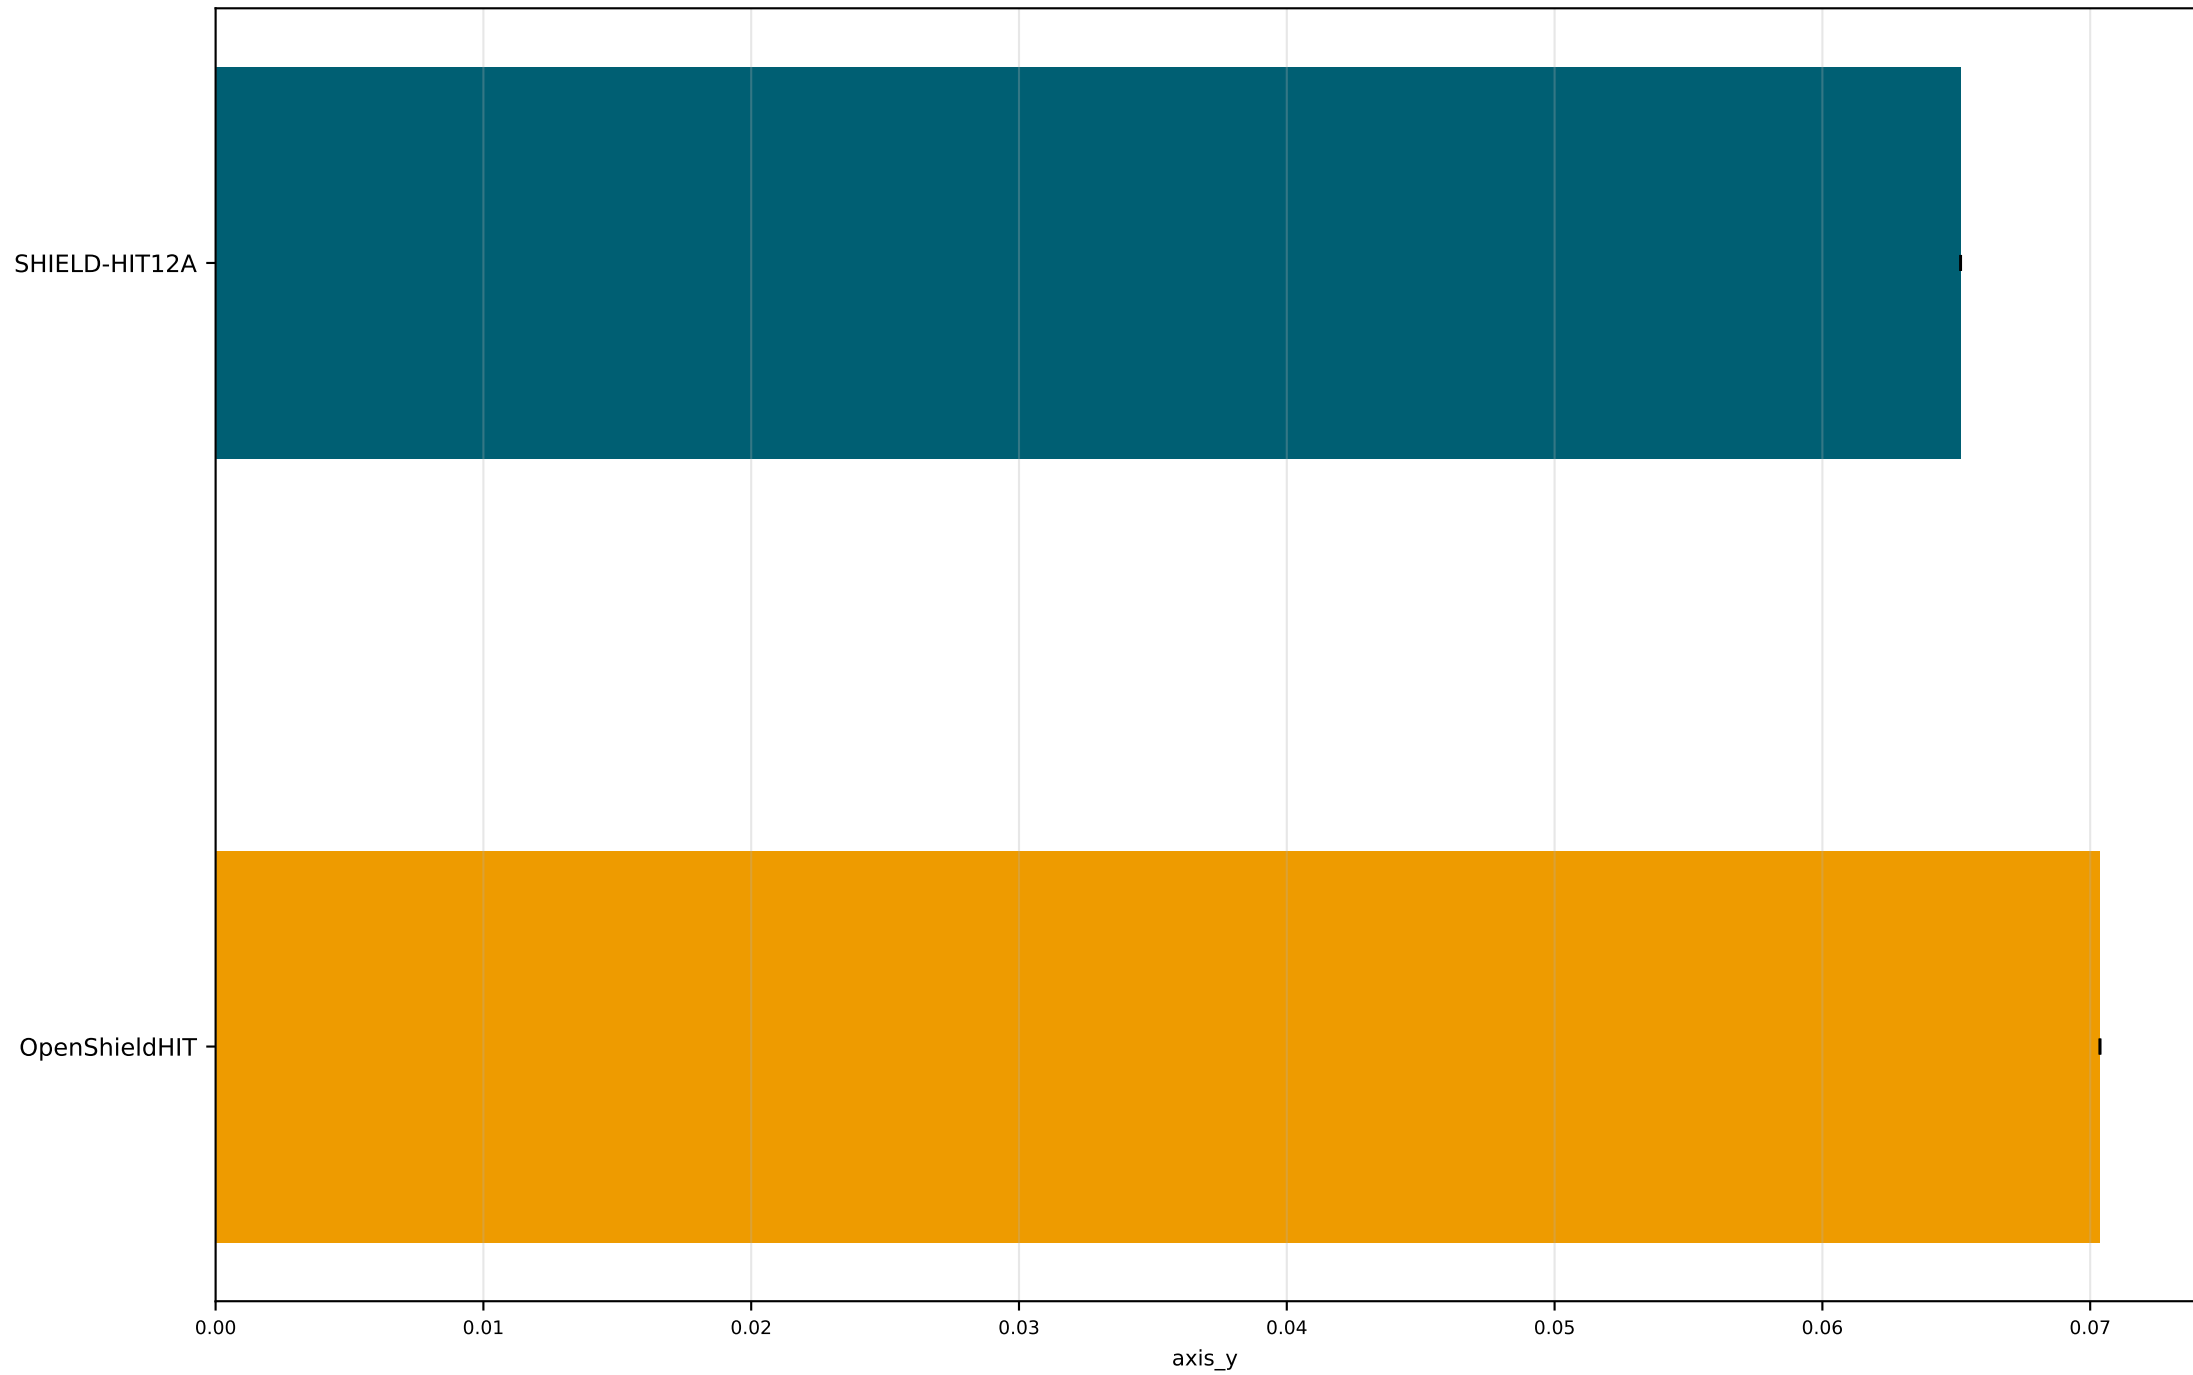

Target spectra — Energy-per-nucleon fluence spectrum (all protons)

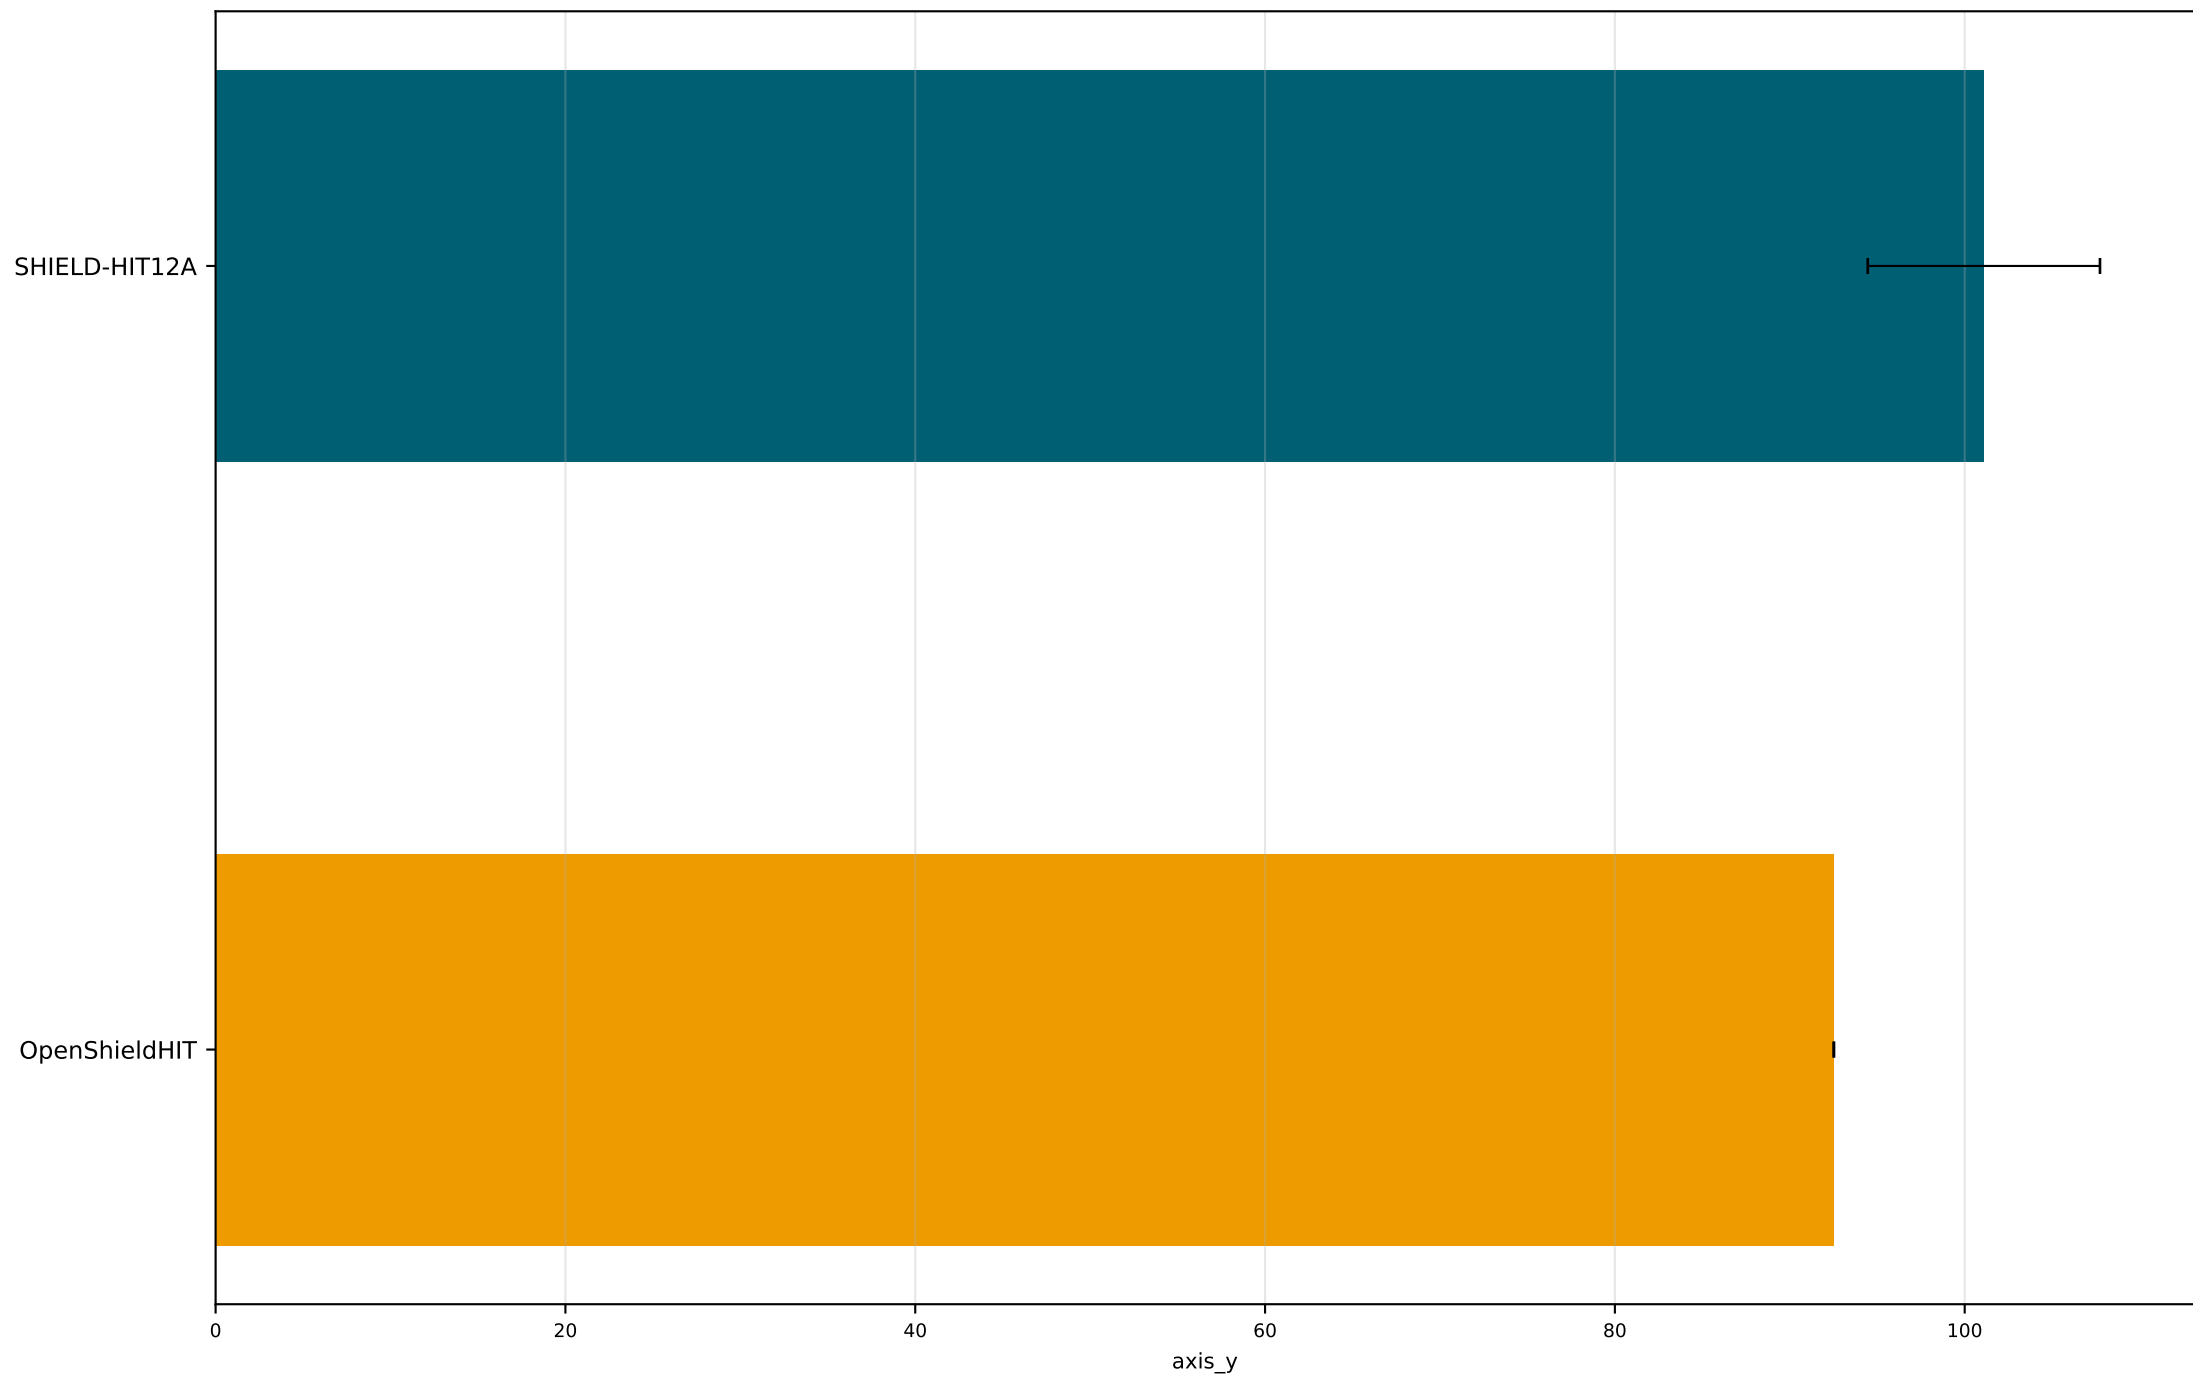

Target spectra — Energy-per-nucleon fluence spectrum (tritons)

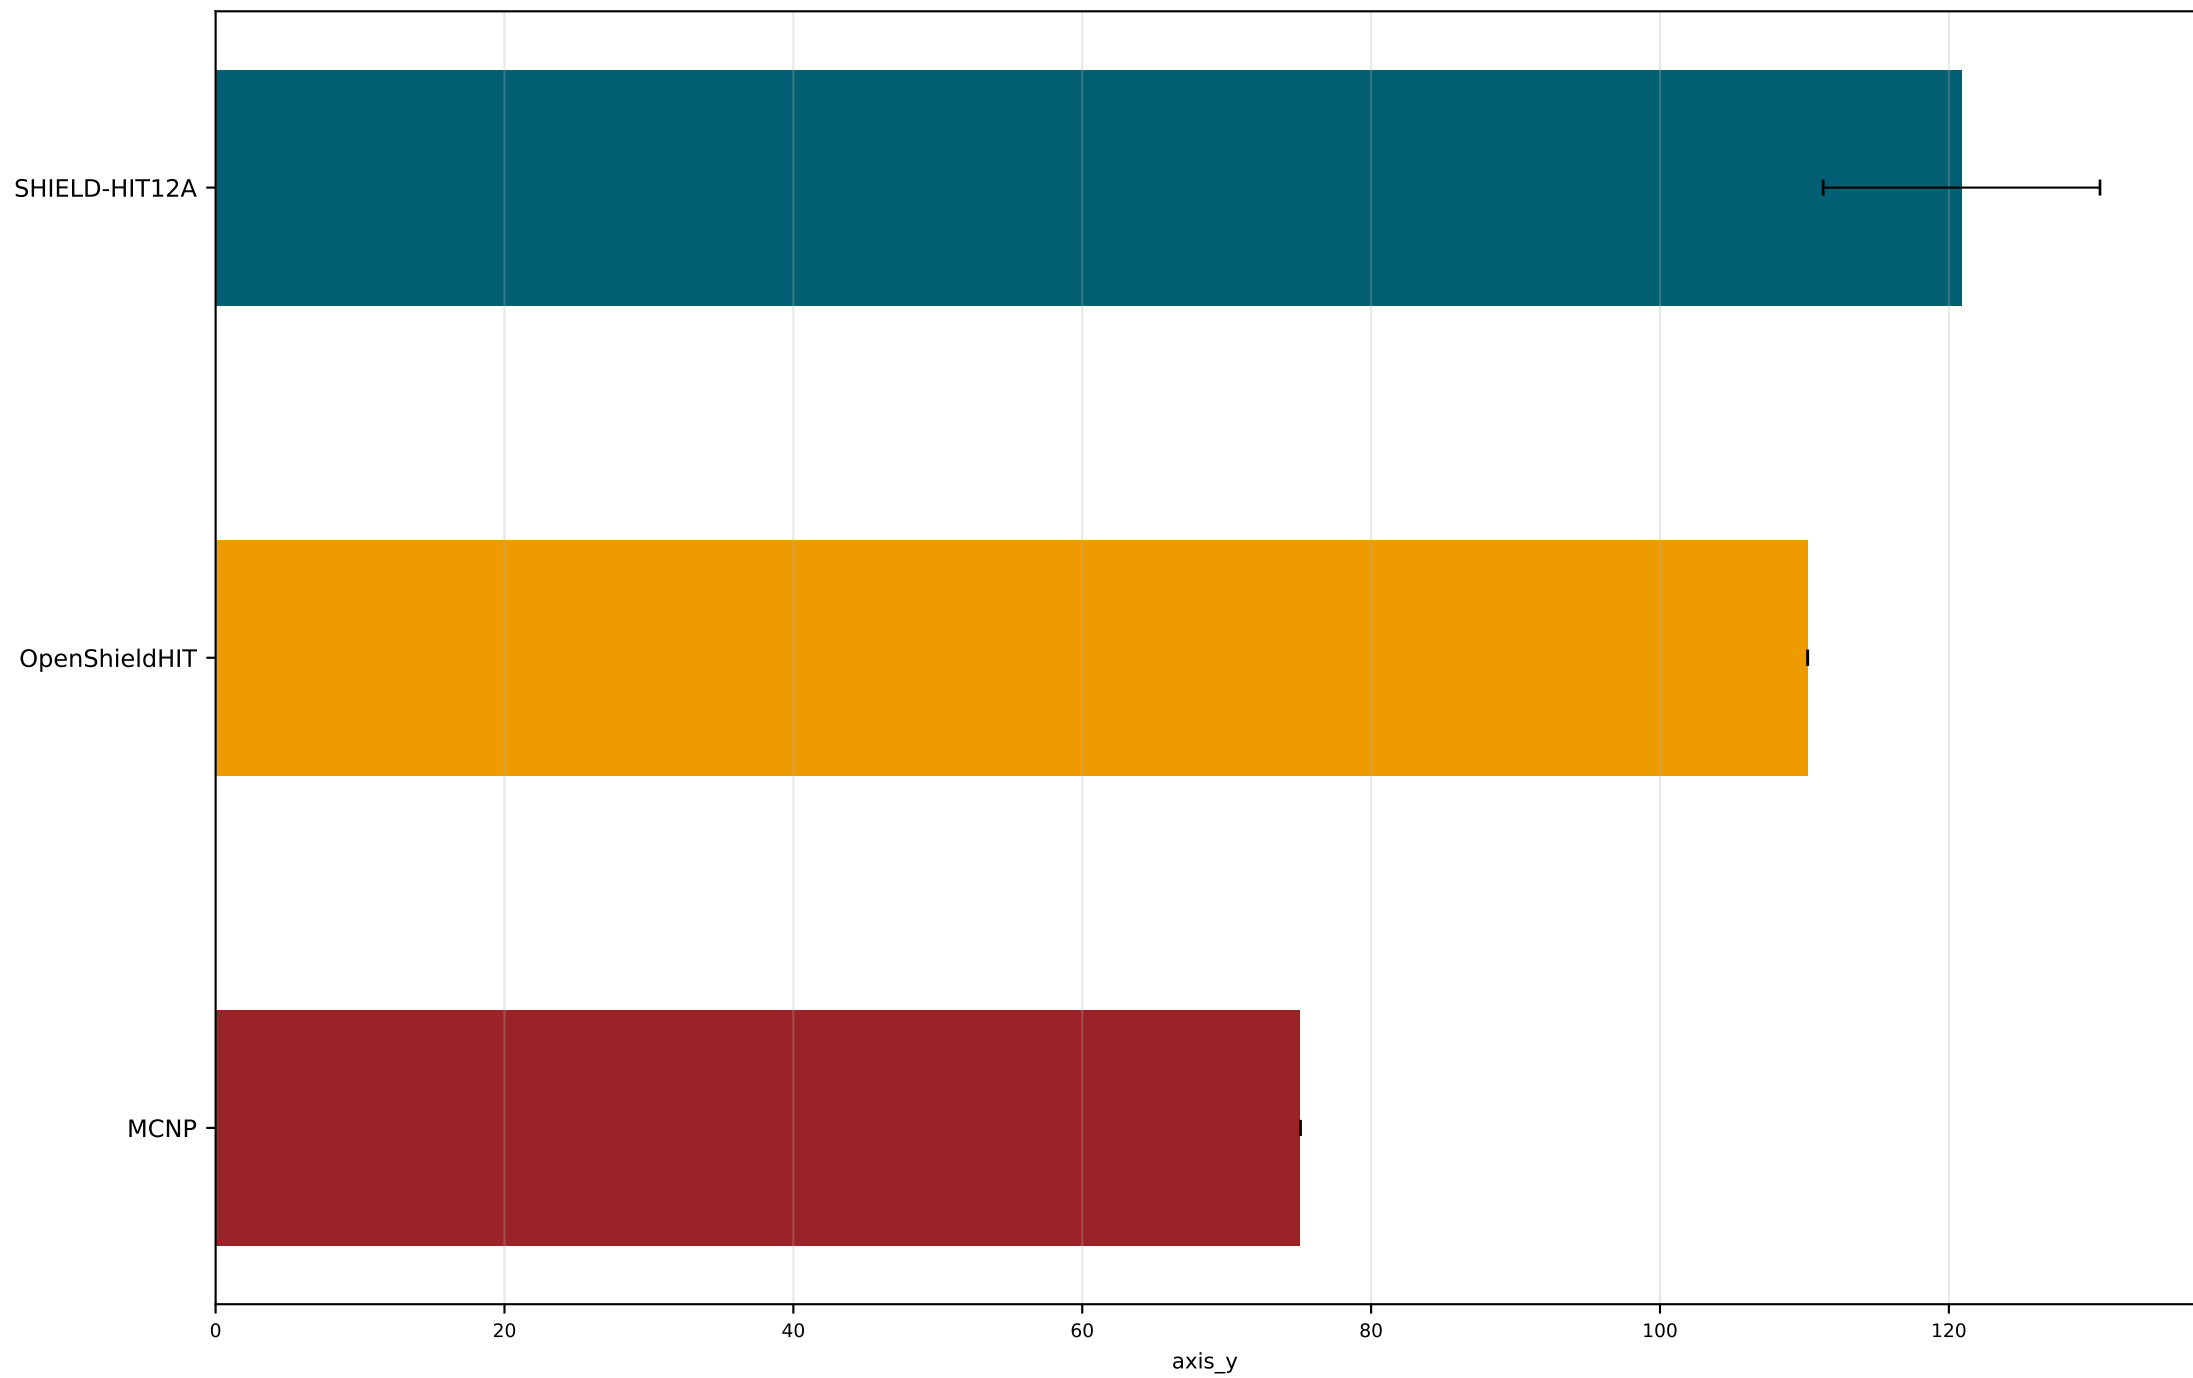

Target volume scalars — Dirty dose-to-water

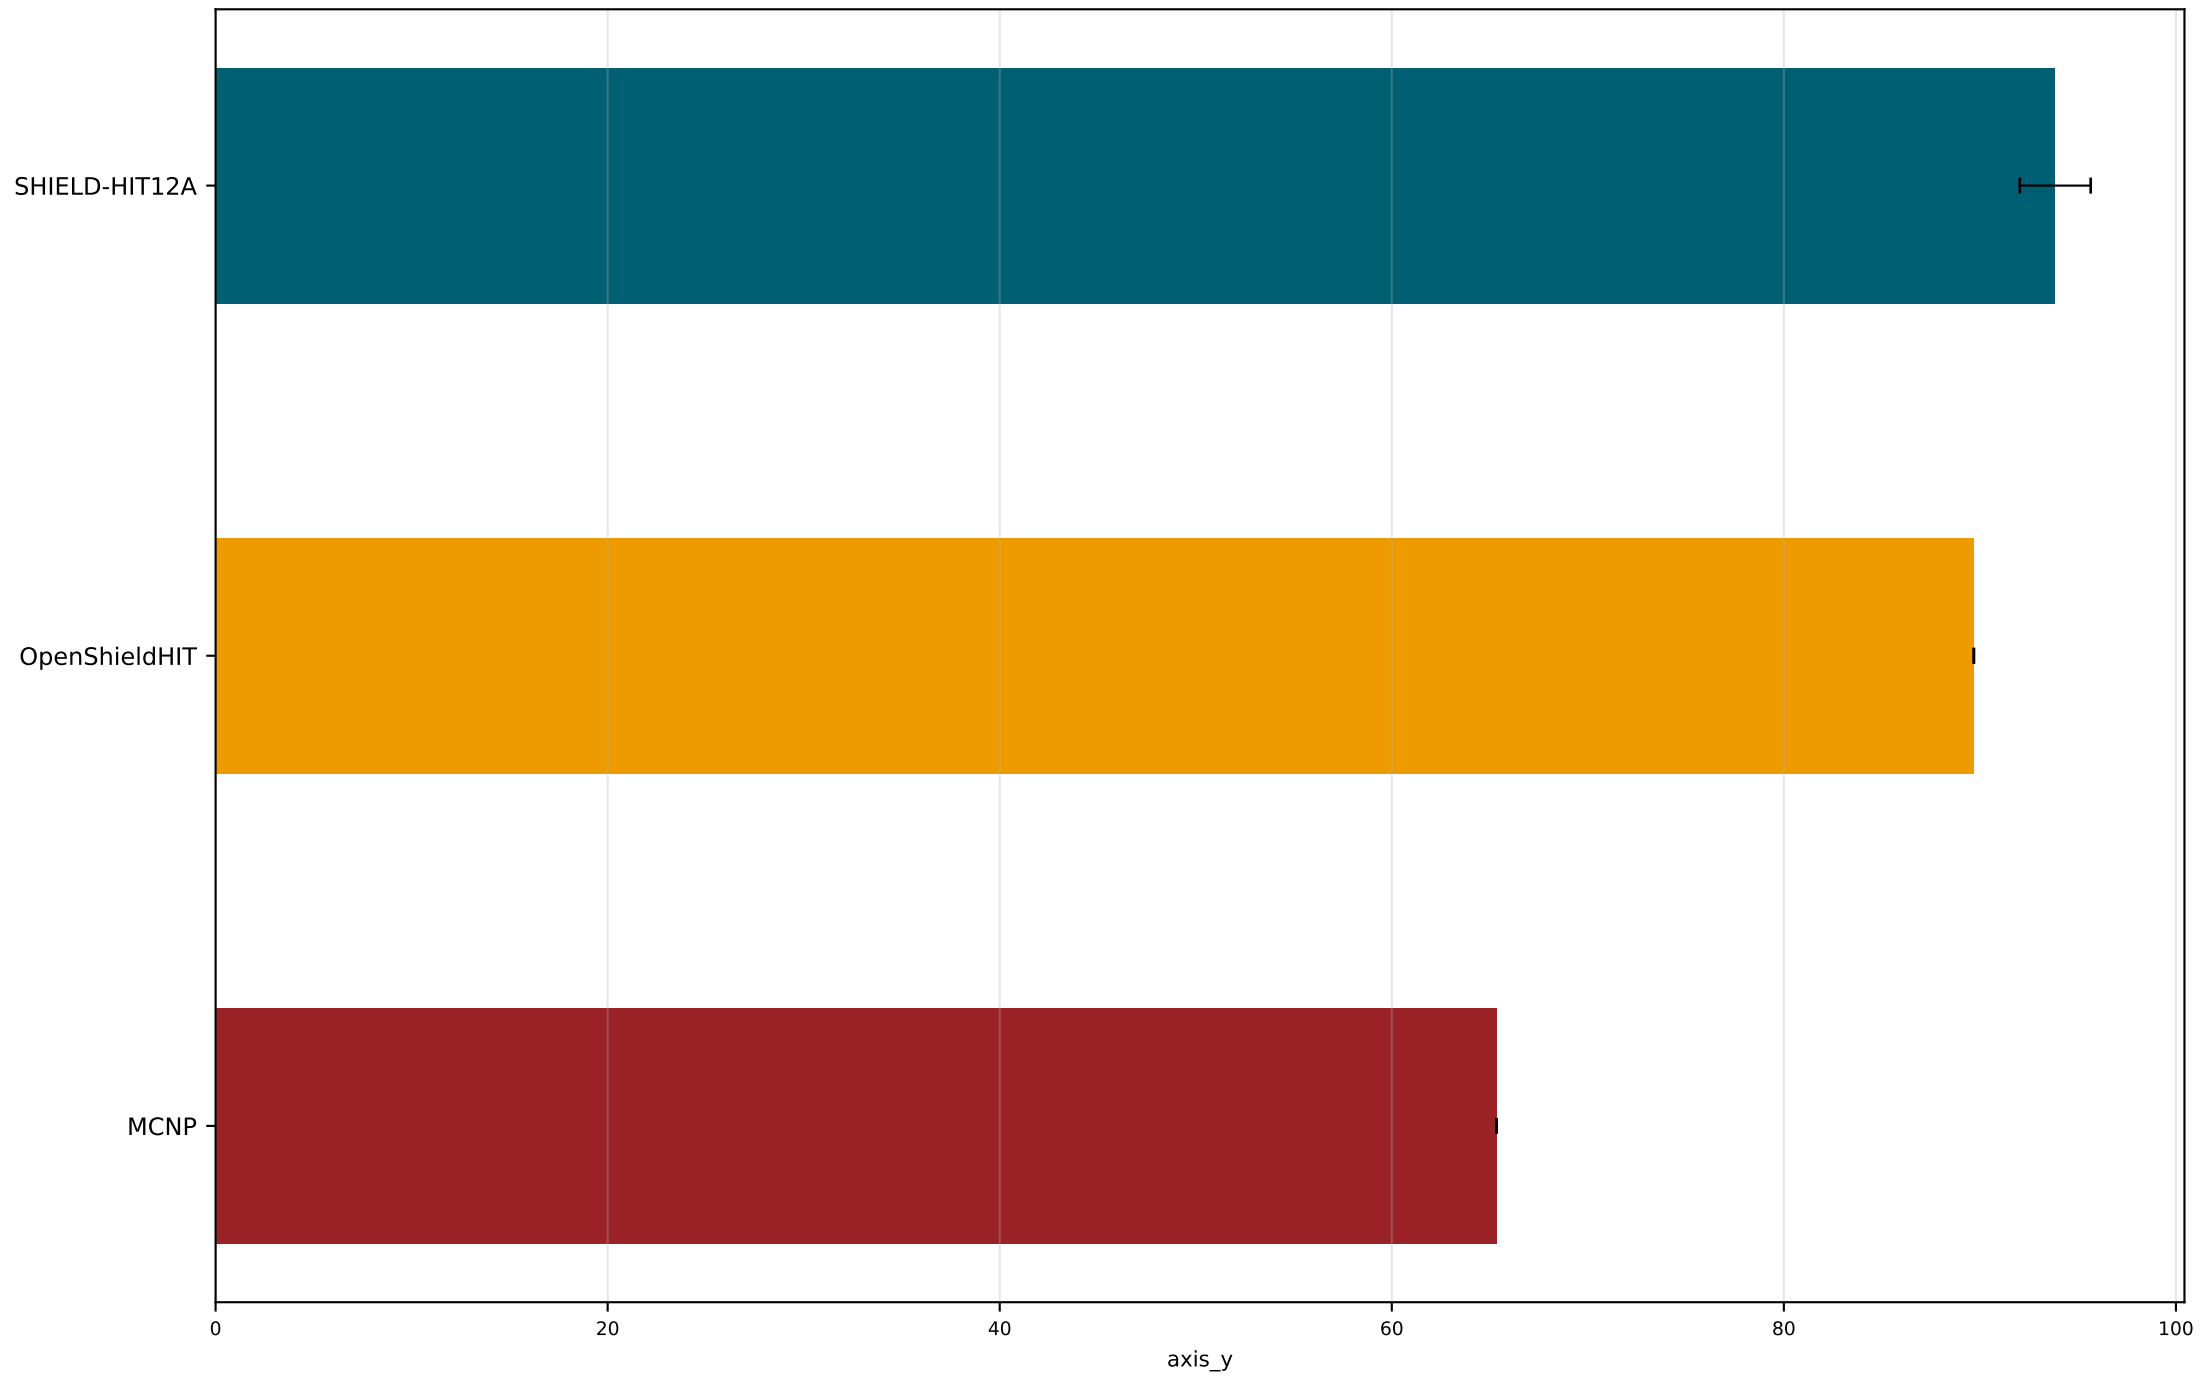

Target volume scalars — D-LET water

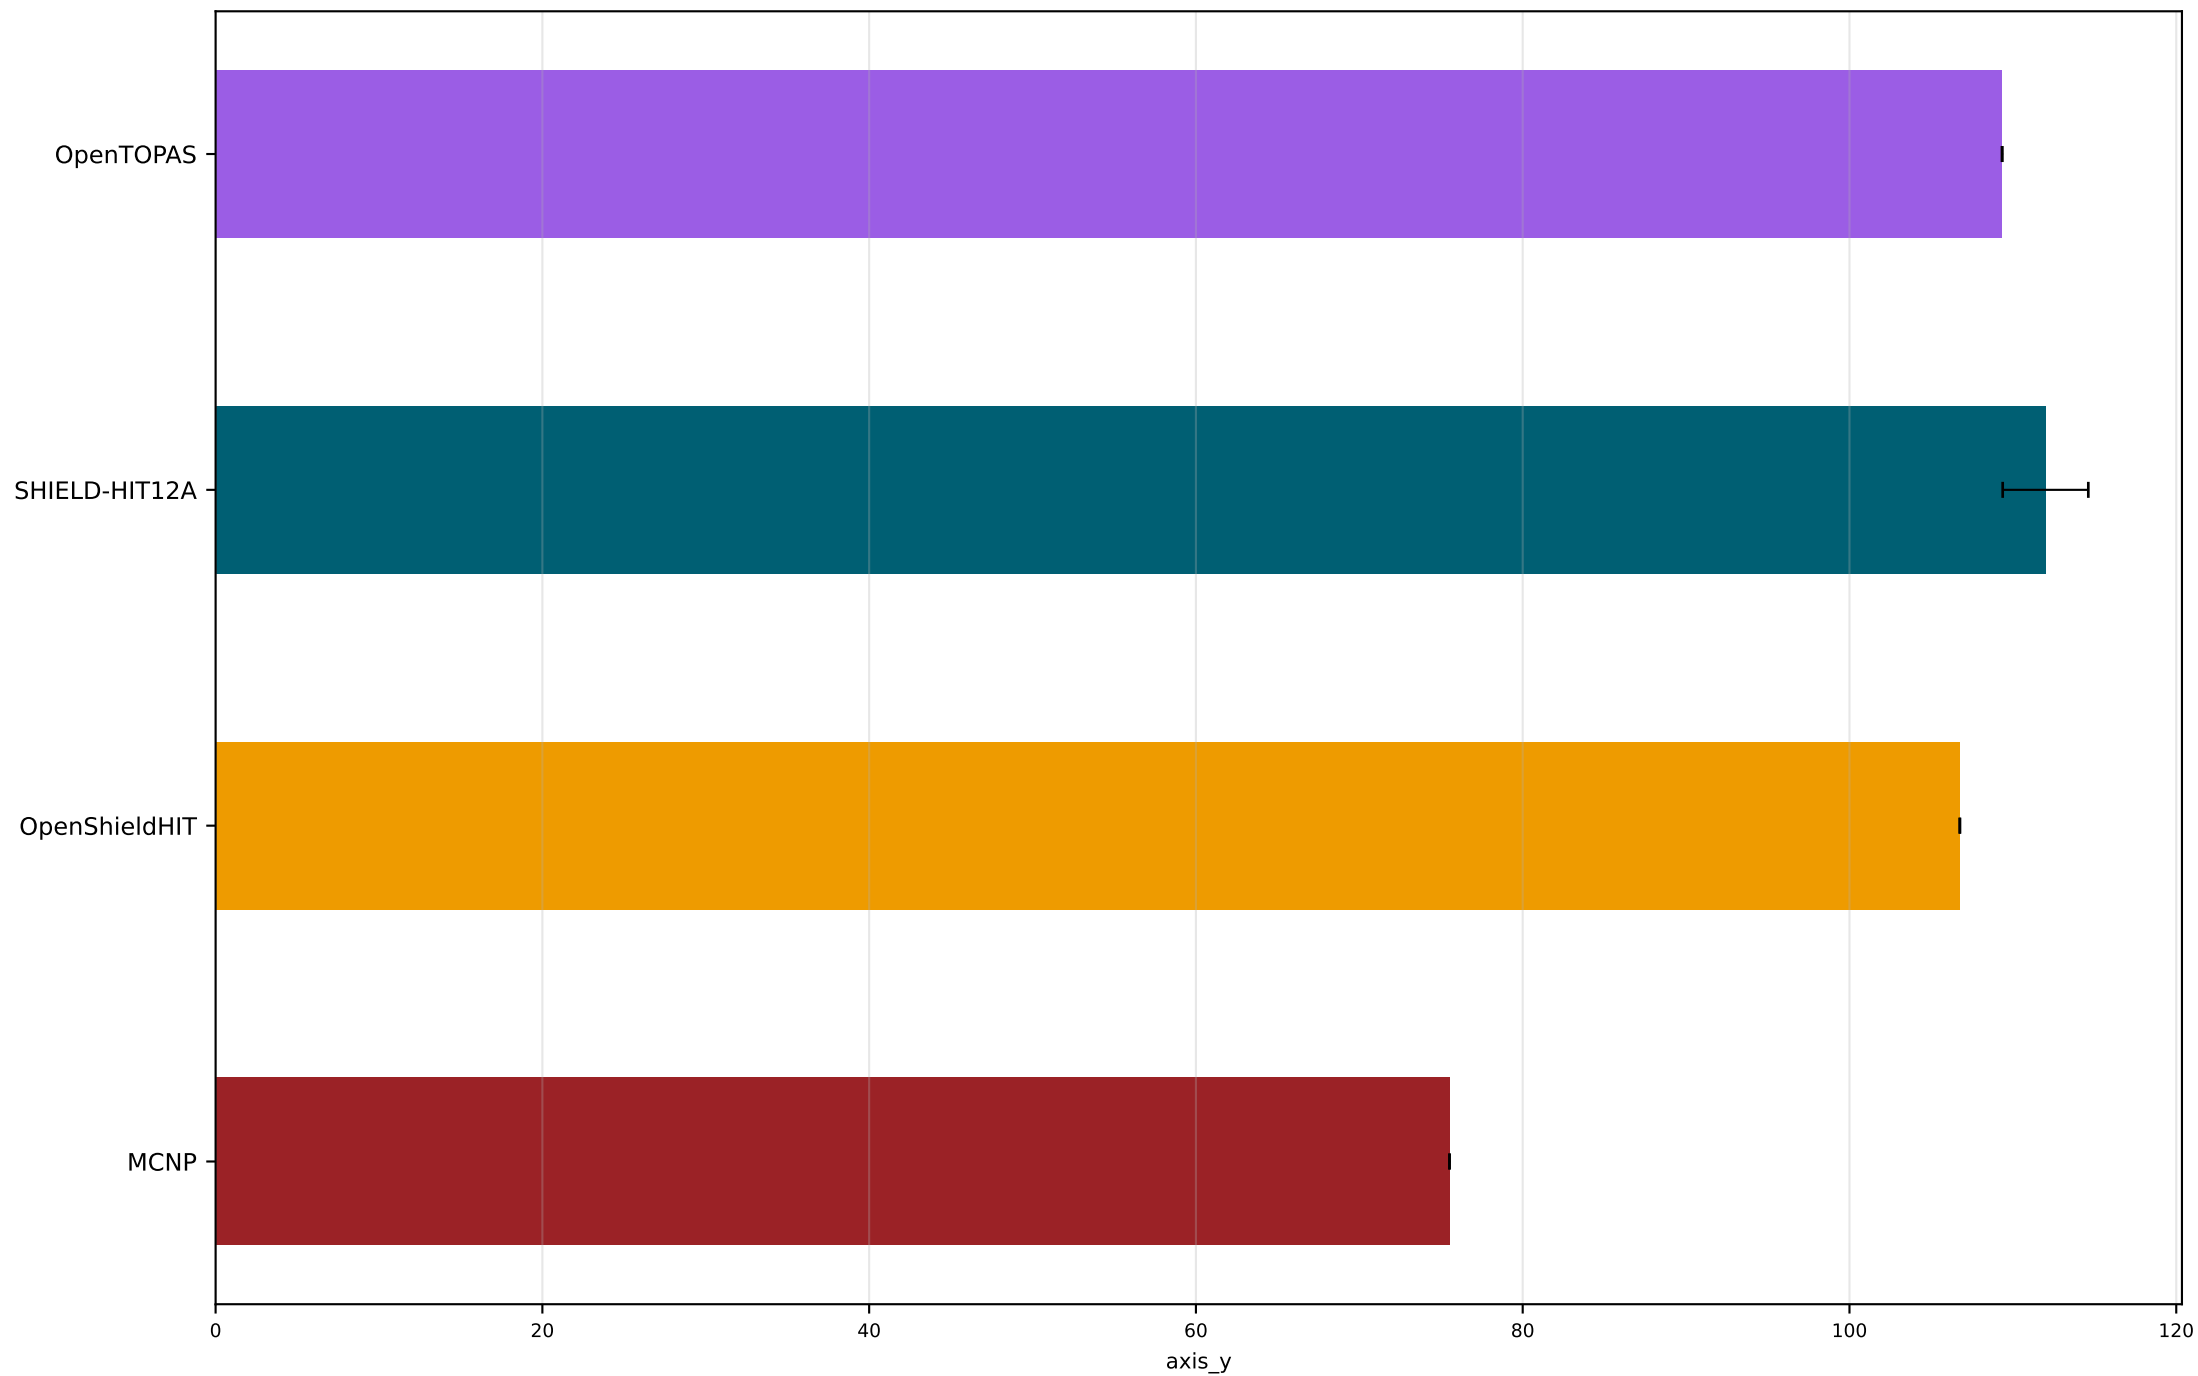

Target volume scalars — D-LET

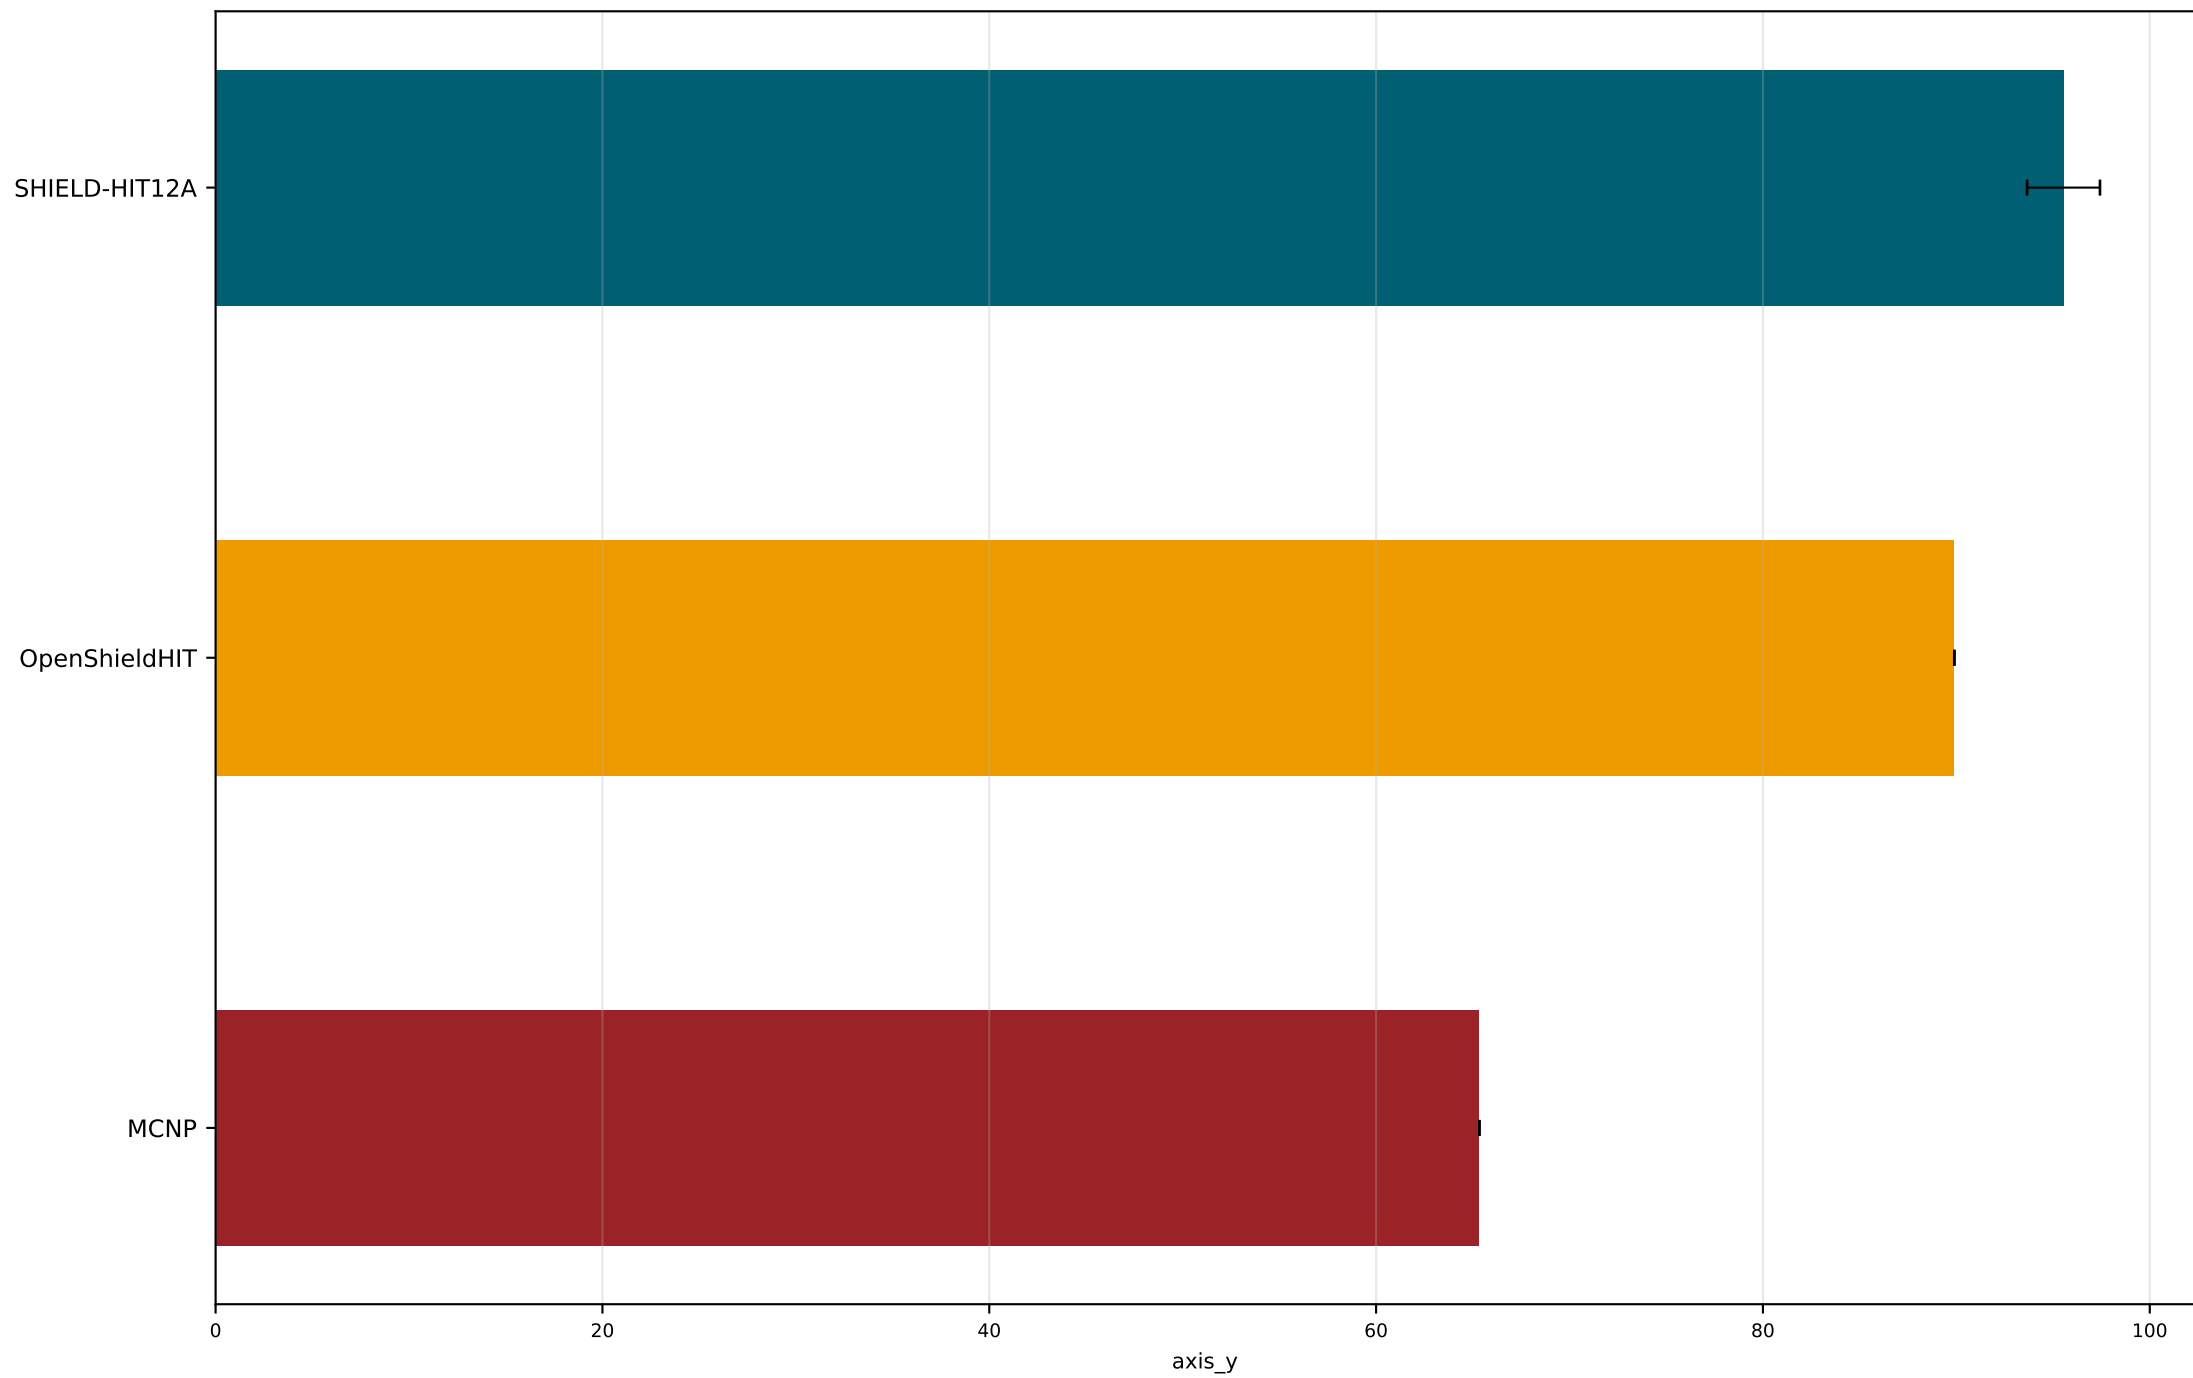

Target volume scalars — D-LET water (primary protons)

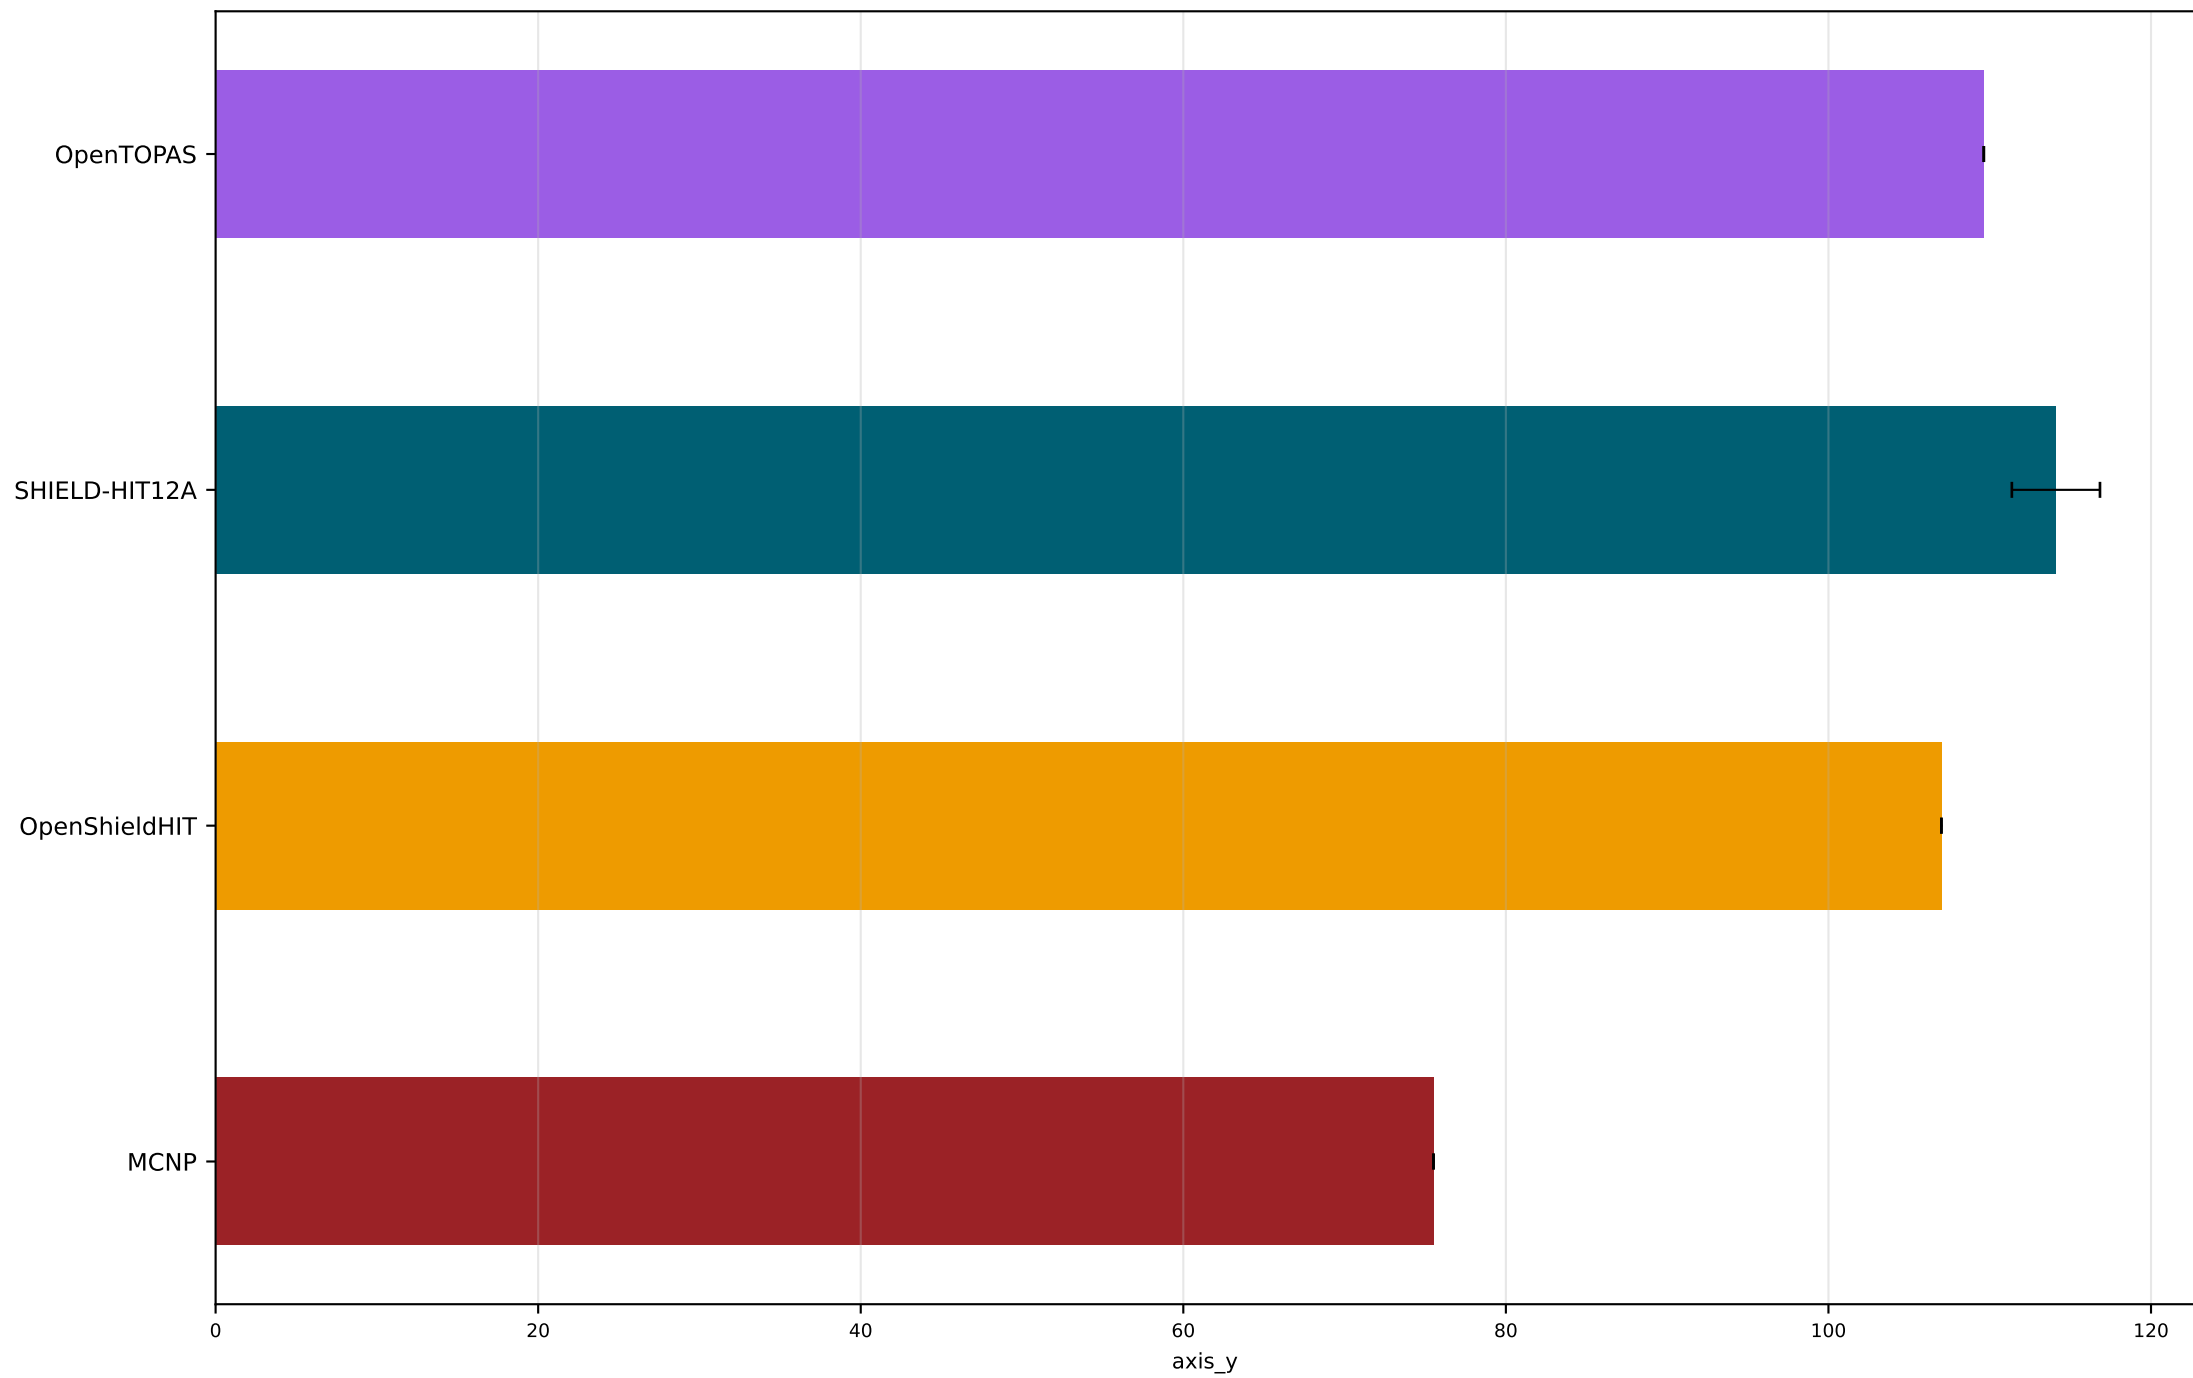

Target volume scalars — D-LET (primary protons)

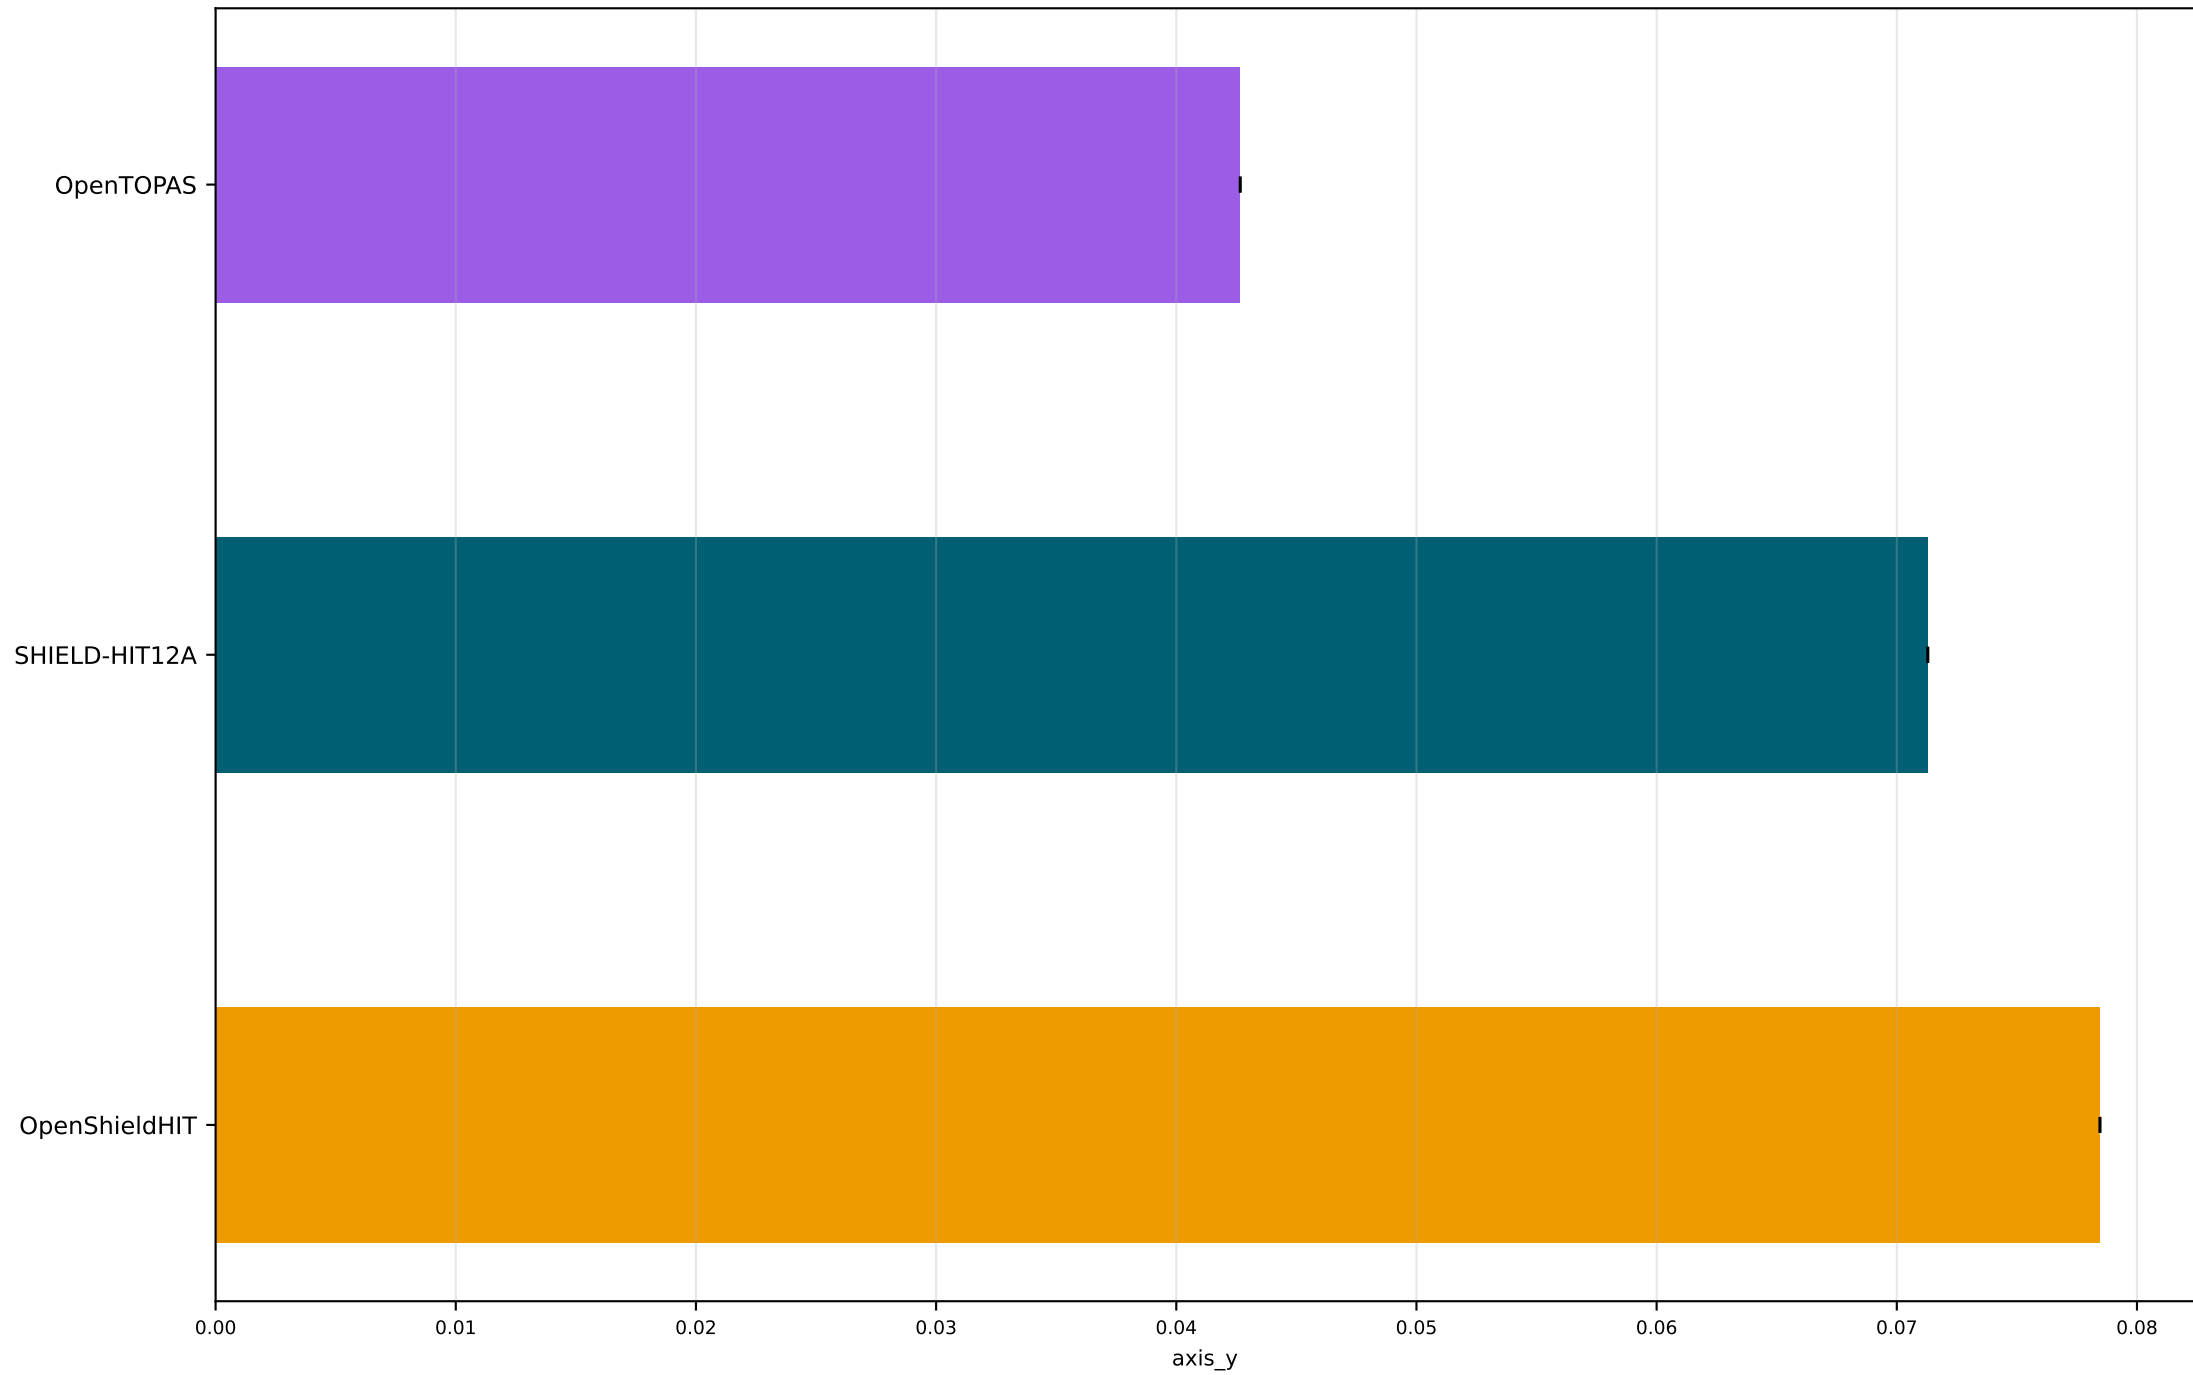

Target volume scalars — D-LET water (protons)

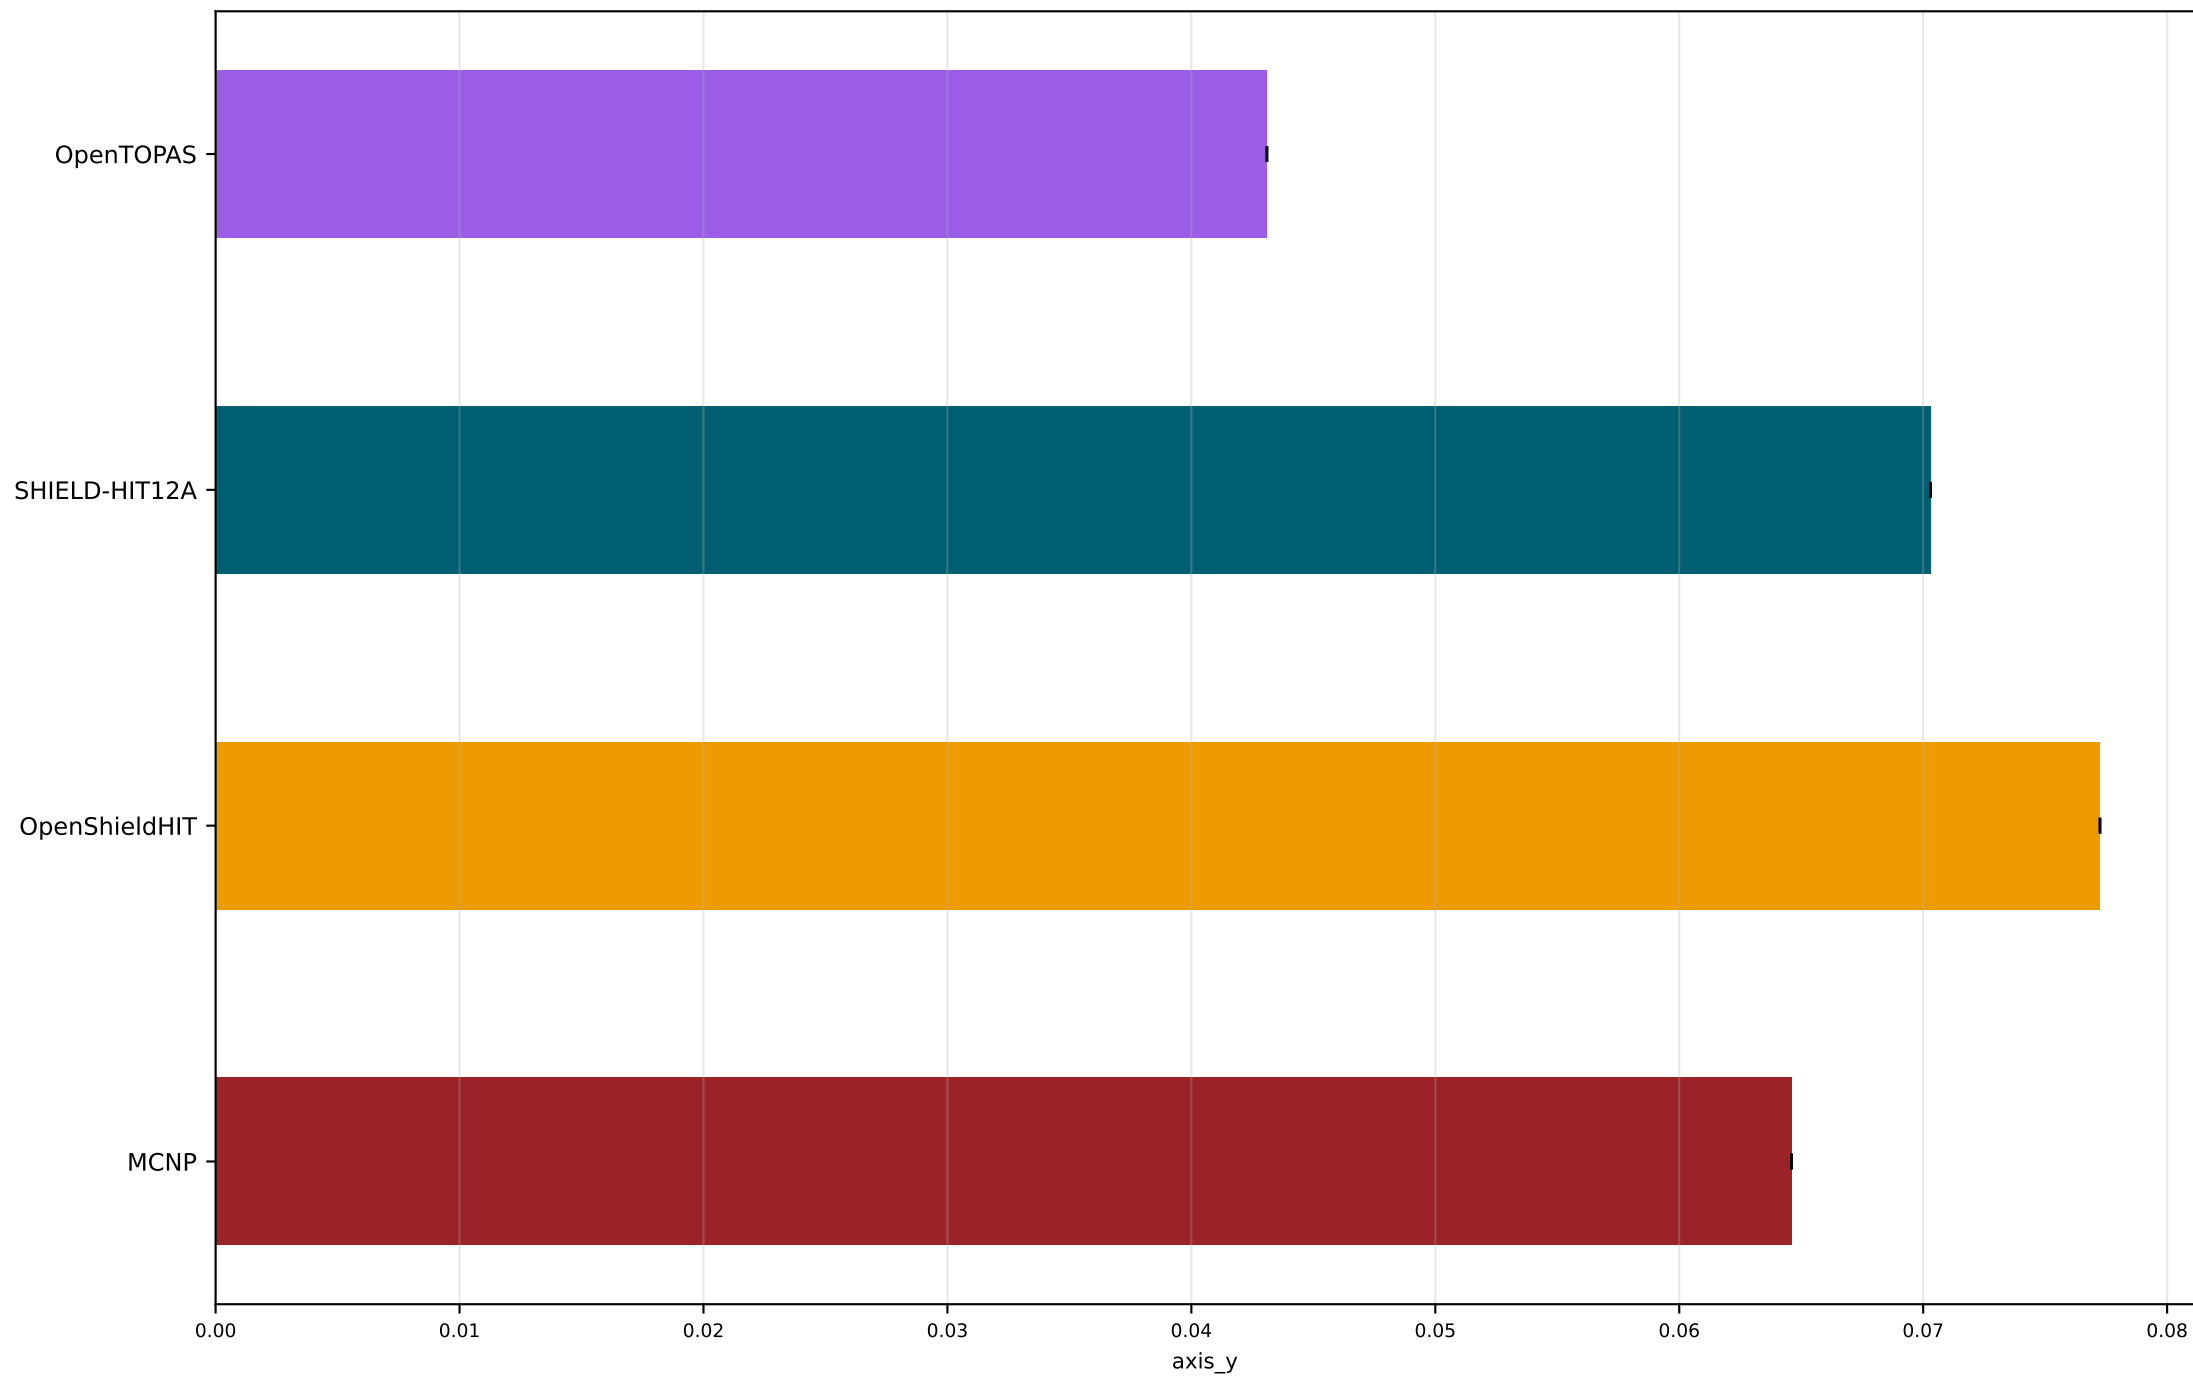

Target volume scalars — D-LET (protons)

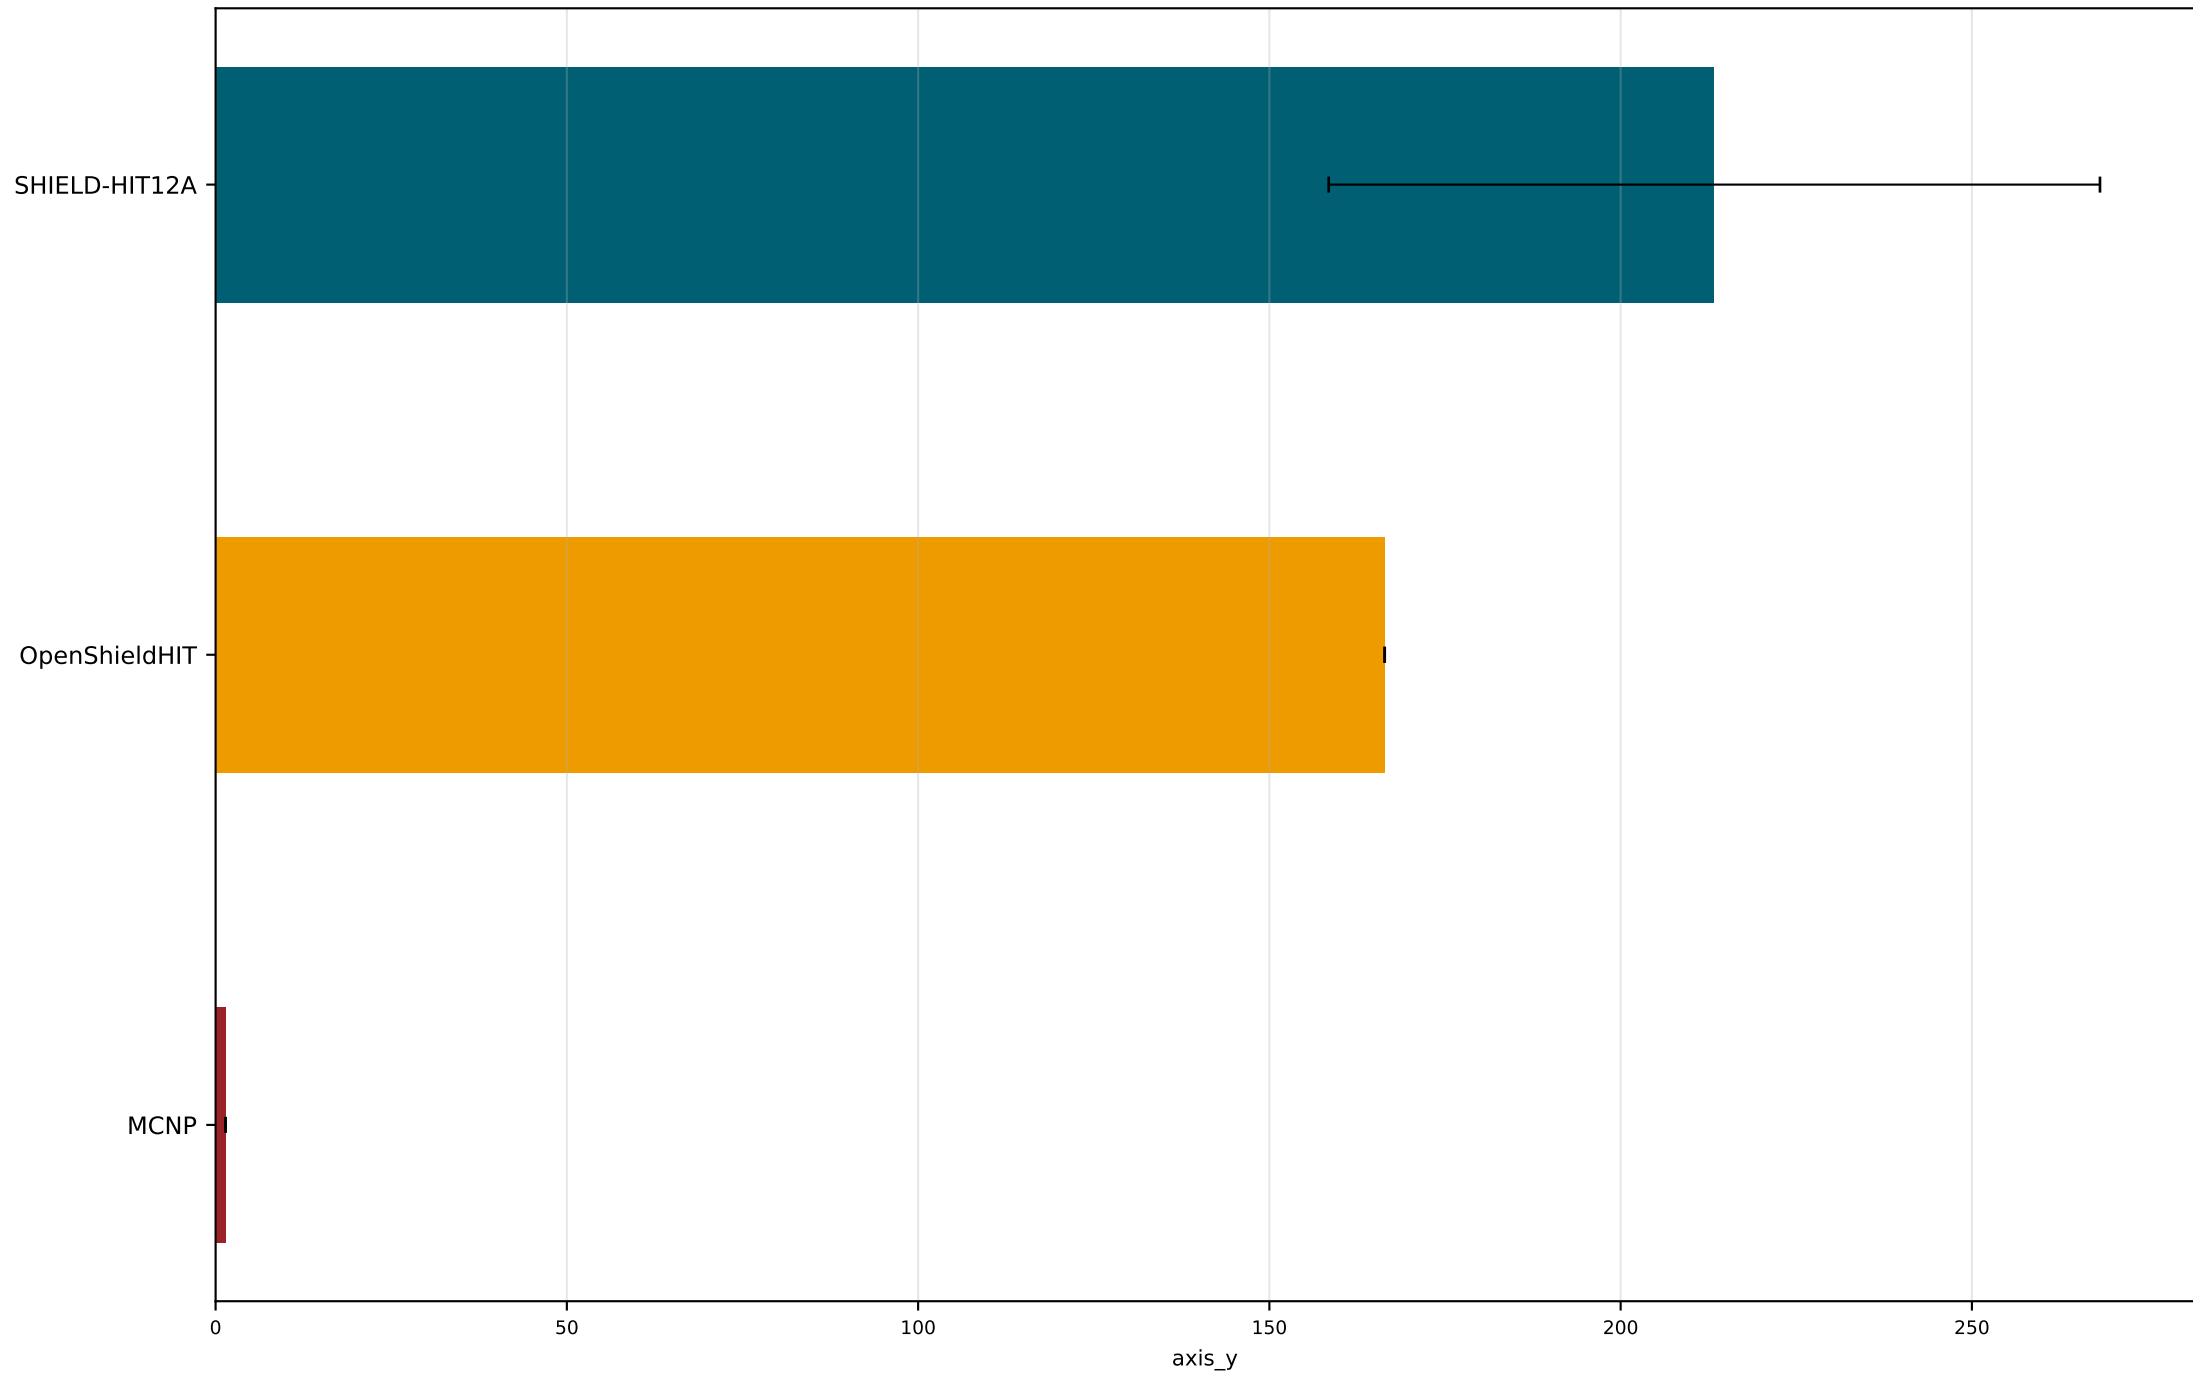

Target volume scalars — Dose-to-water

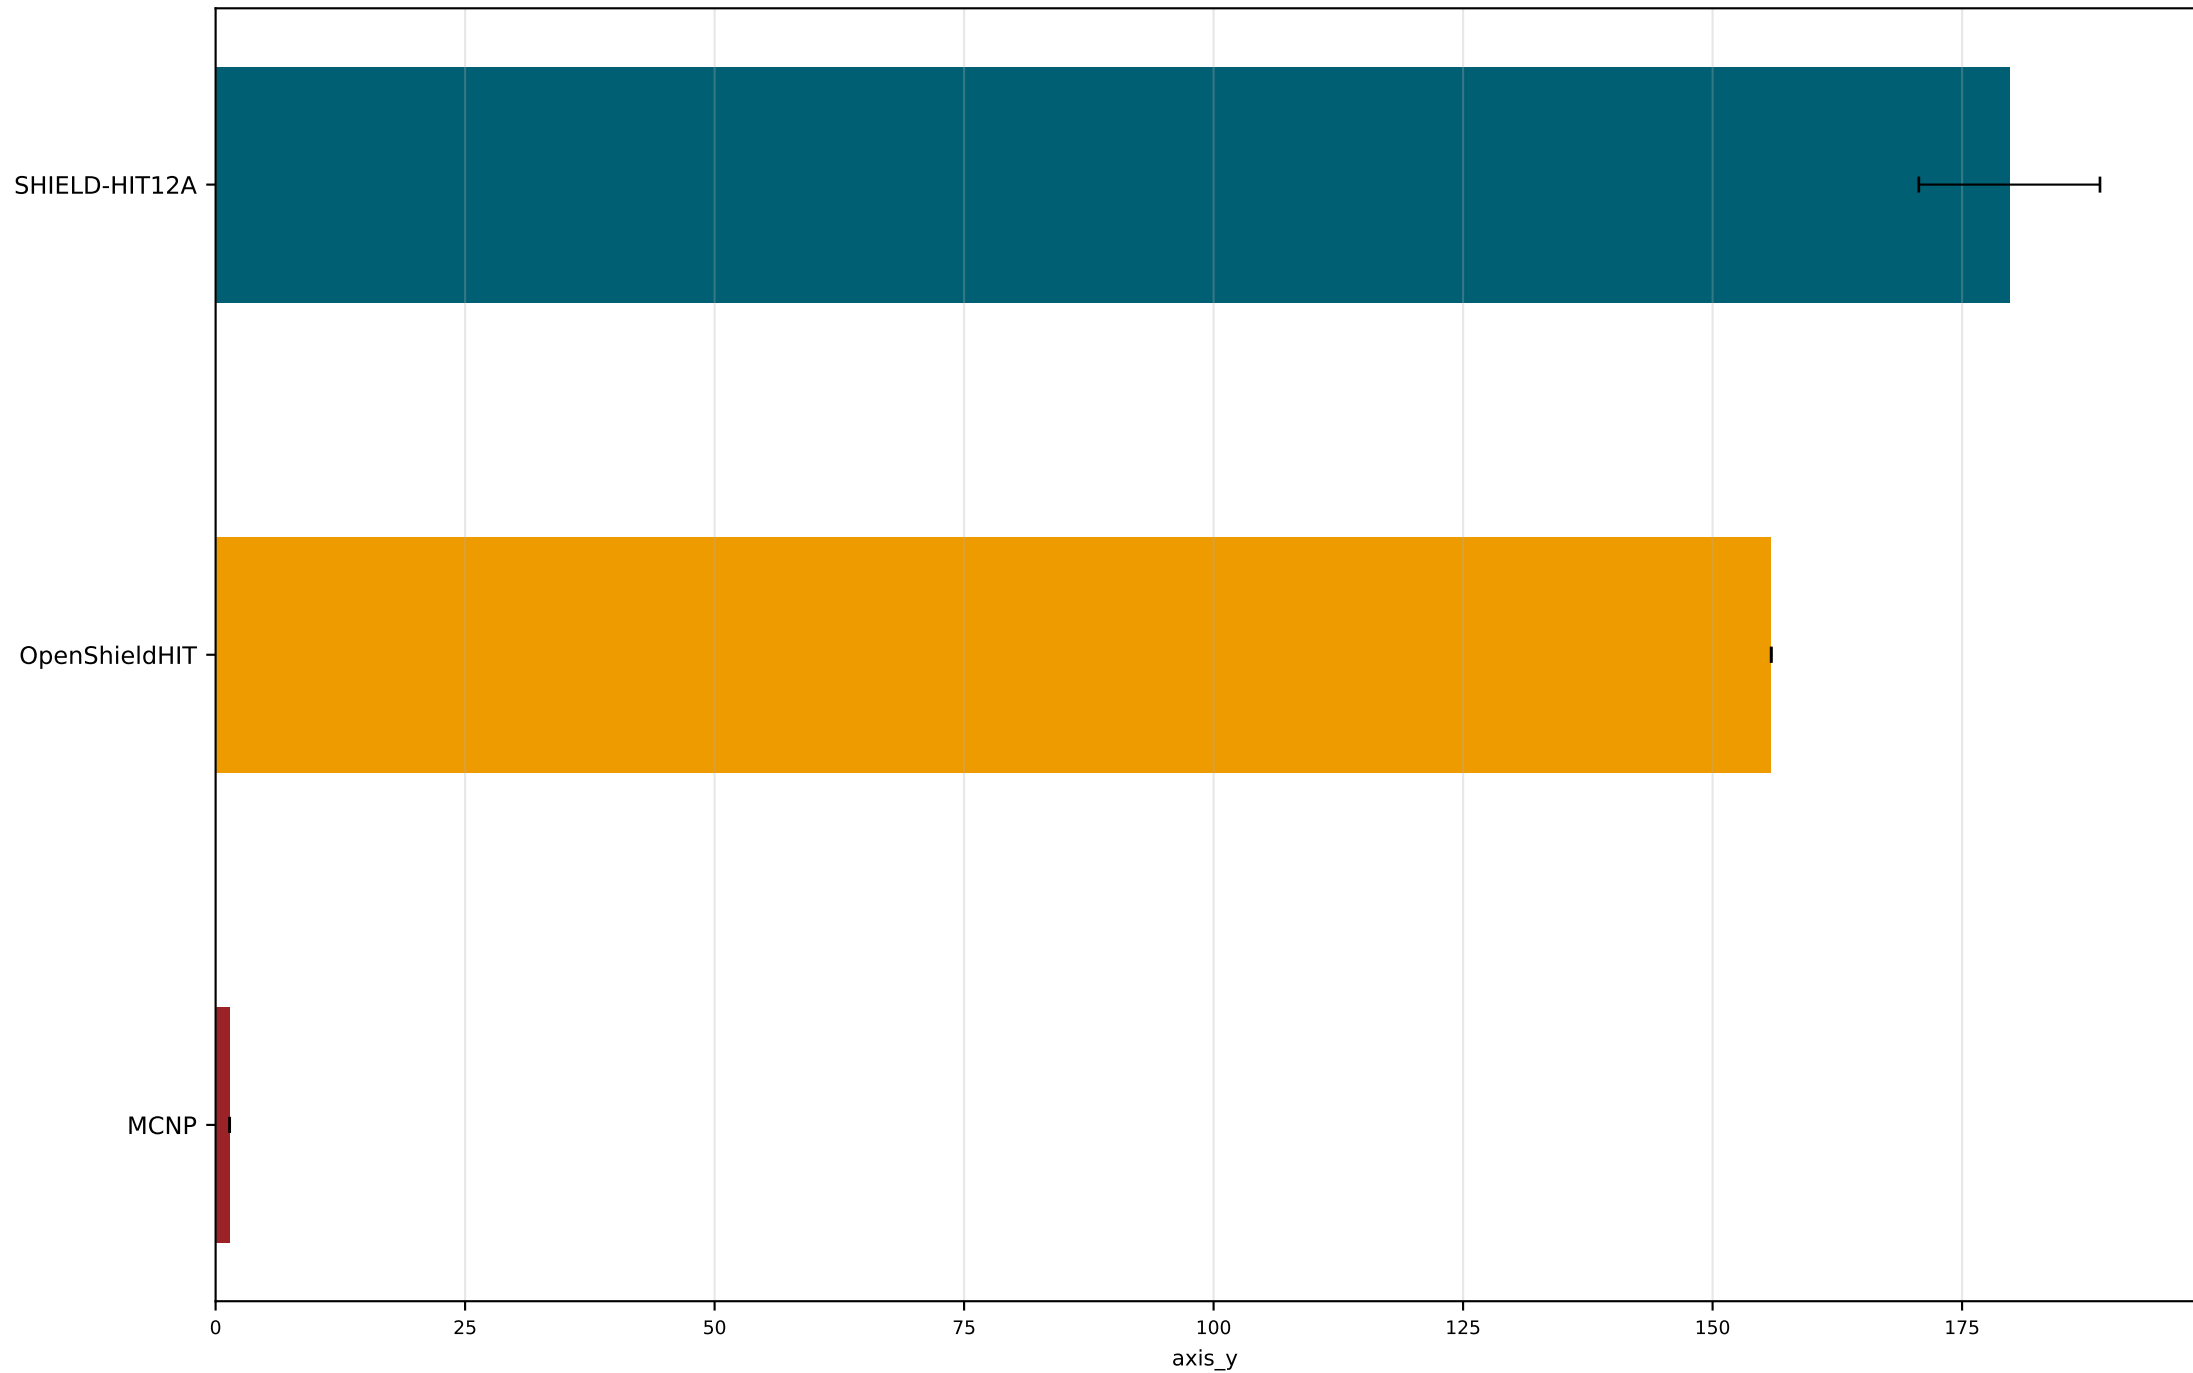

Target volume scalars — Dose

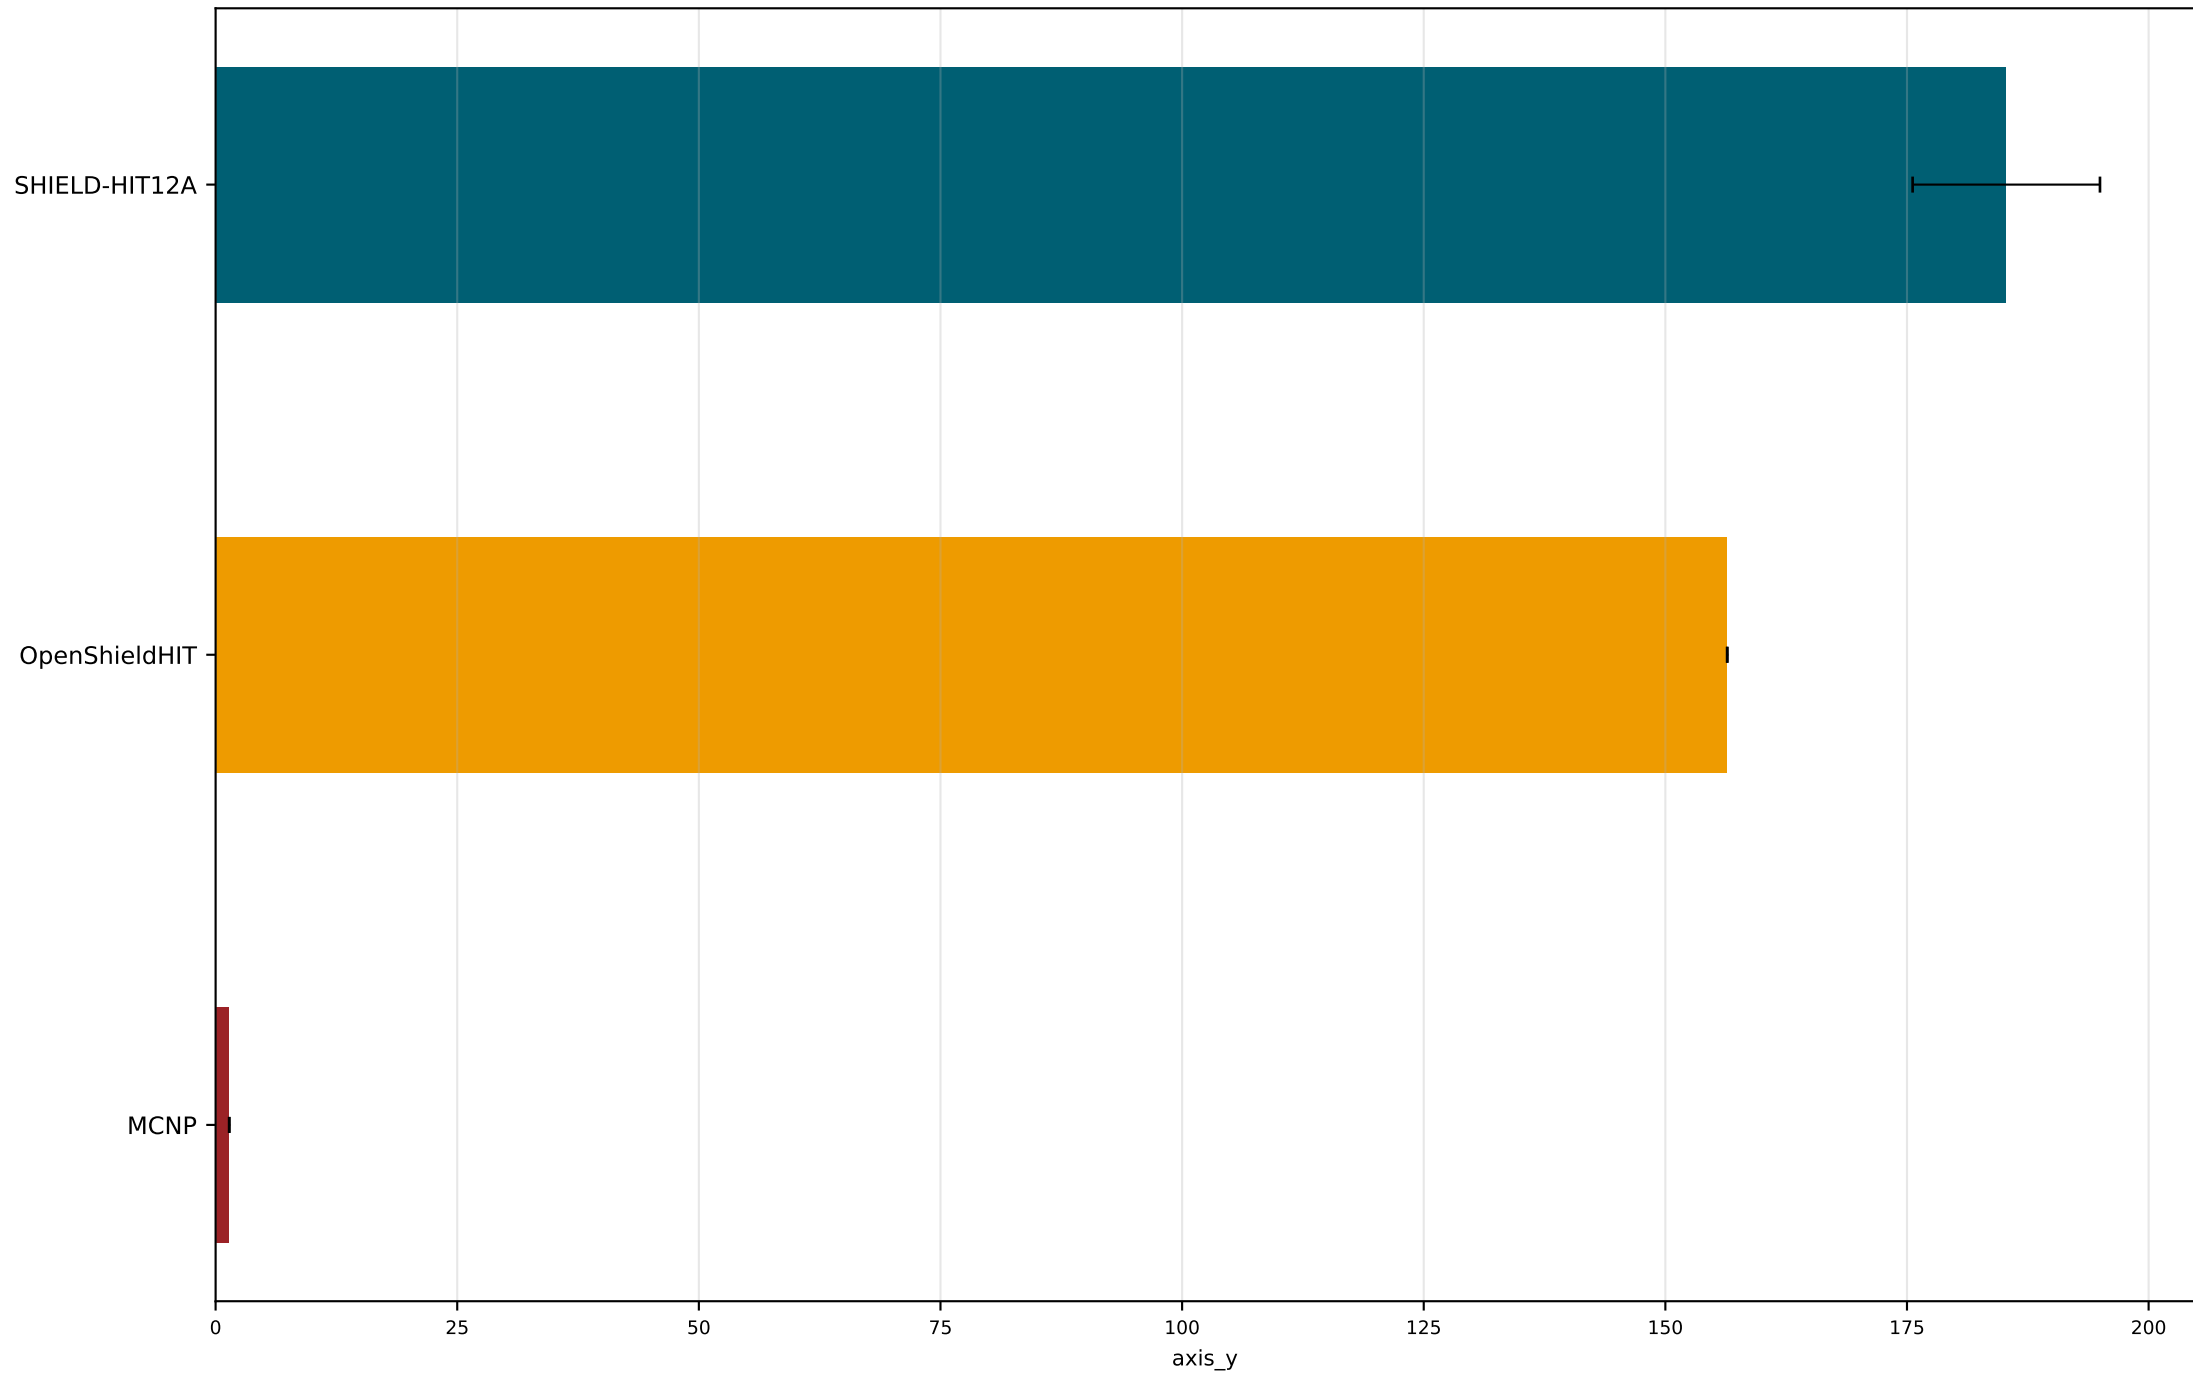

Target volume scalars — D-Qeff

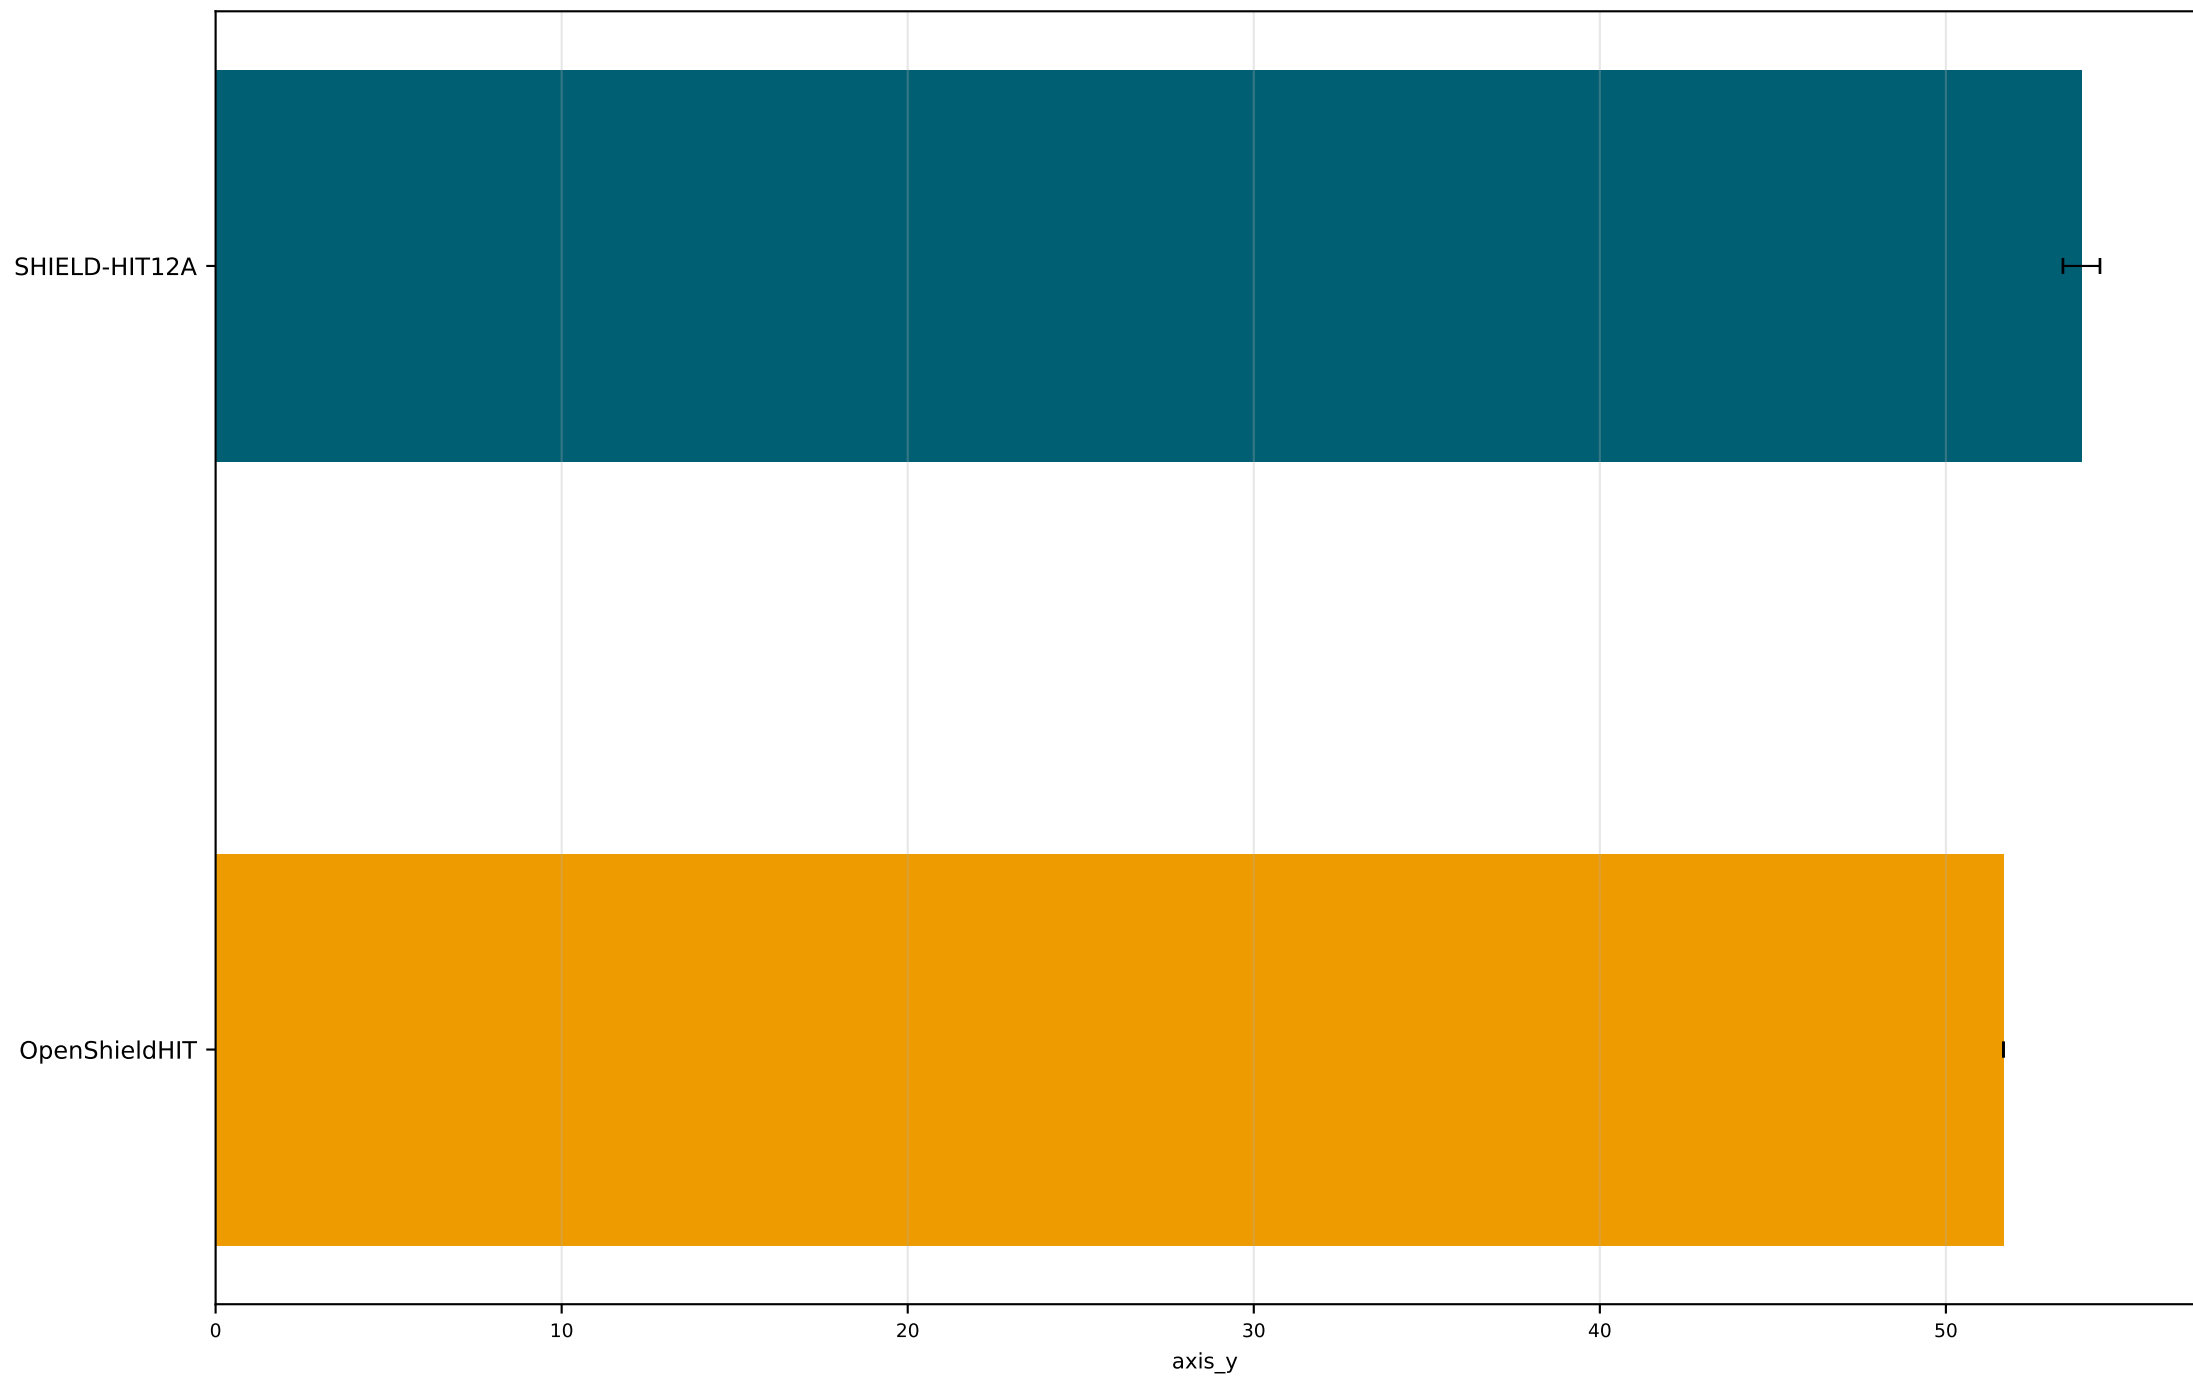

Target volume scalars — D-Qeff (primary protons)

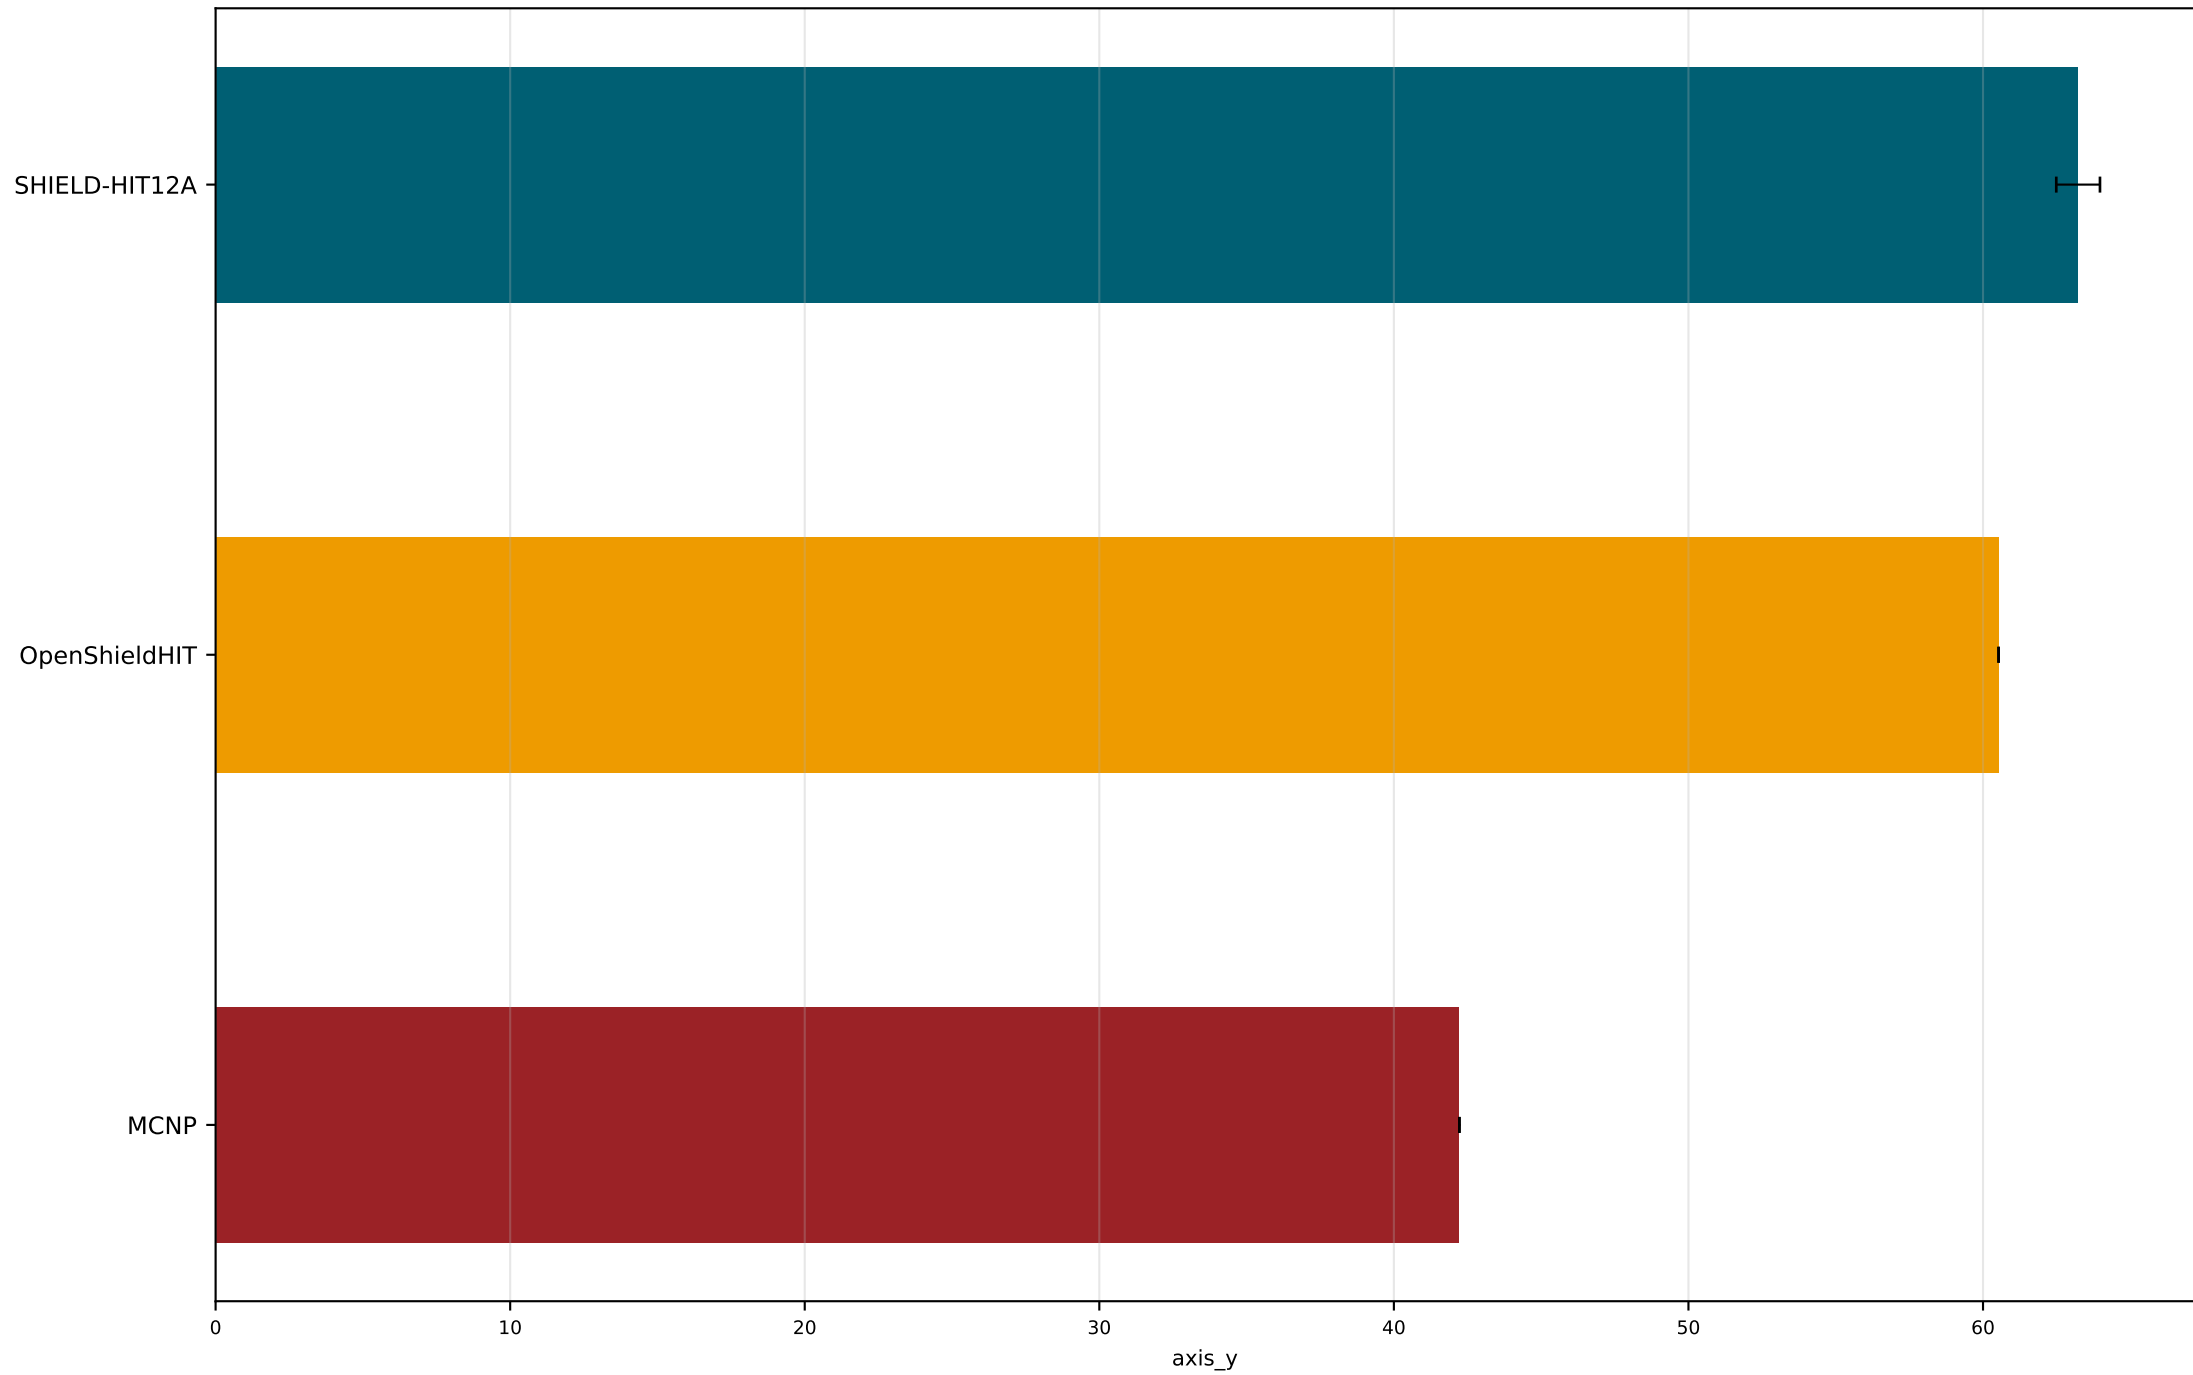

Target volume scalars — D-Qeff (protons)

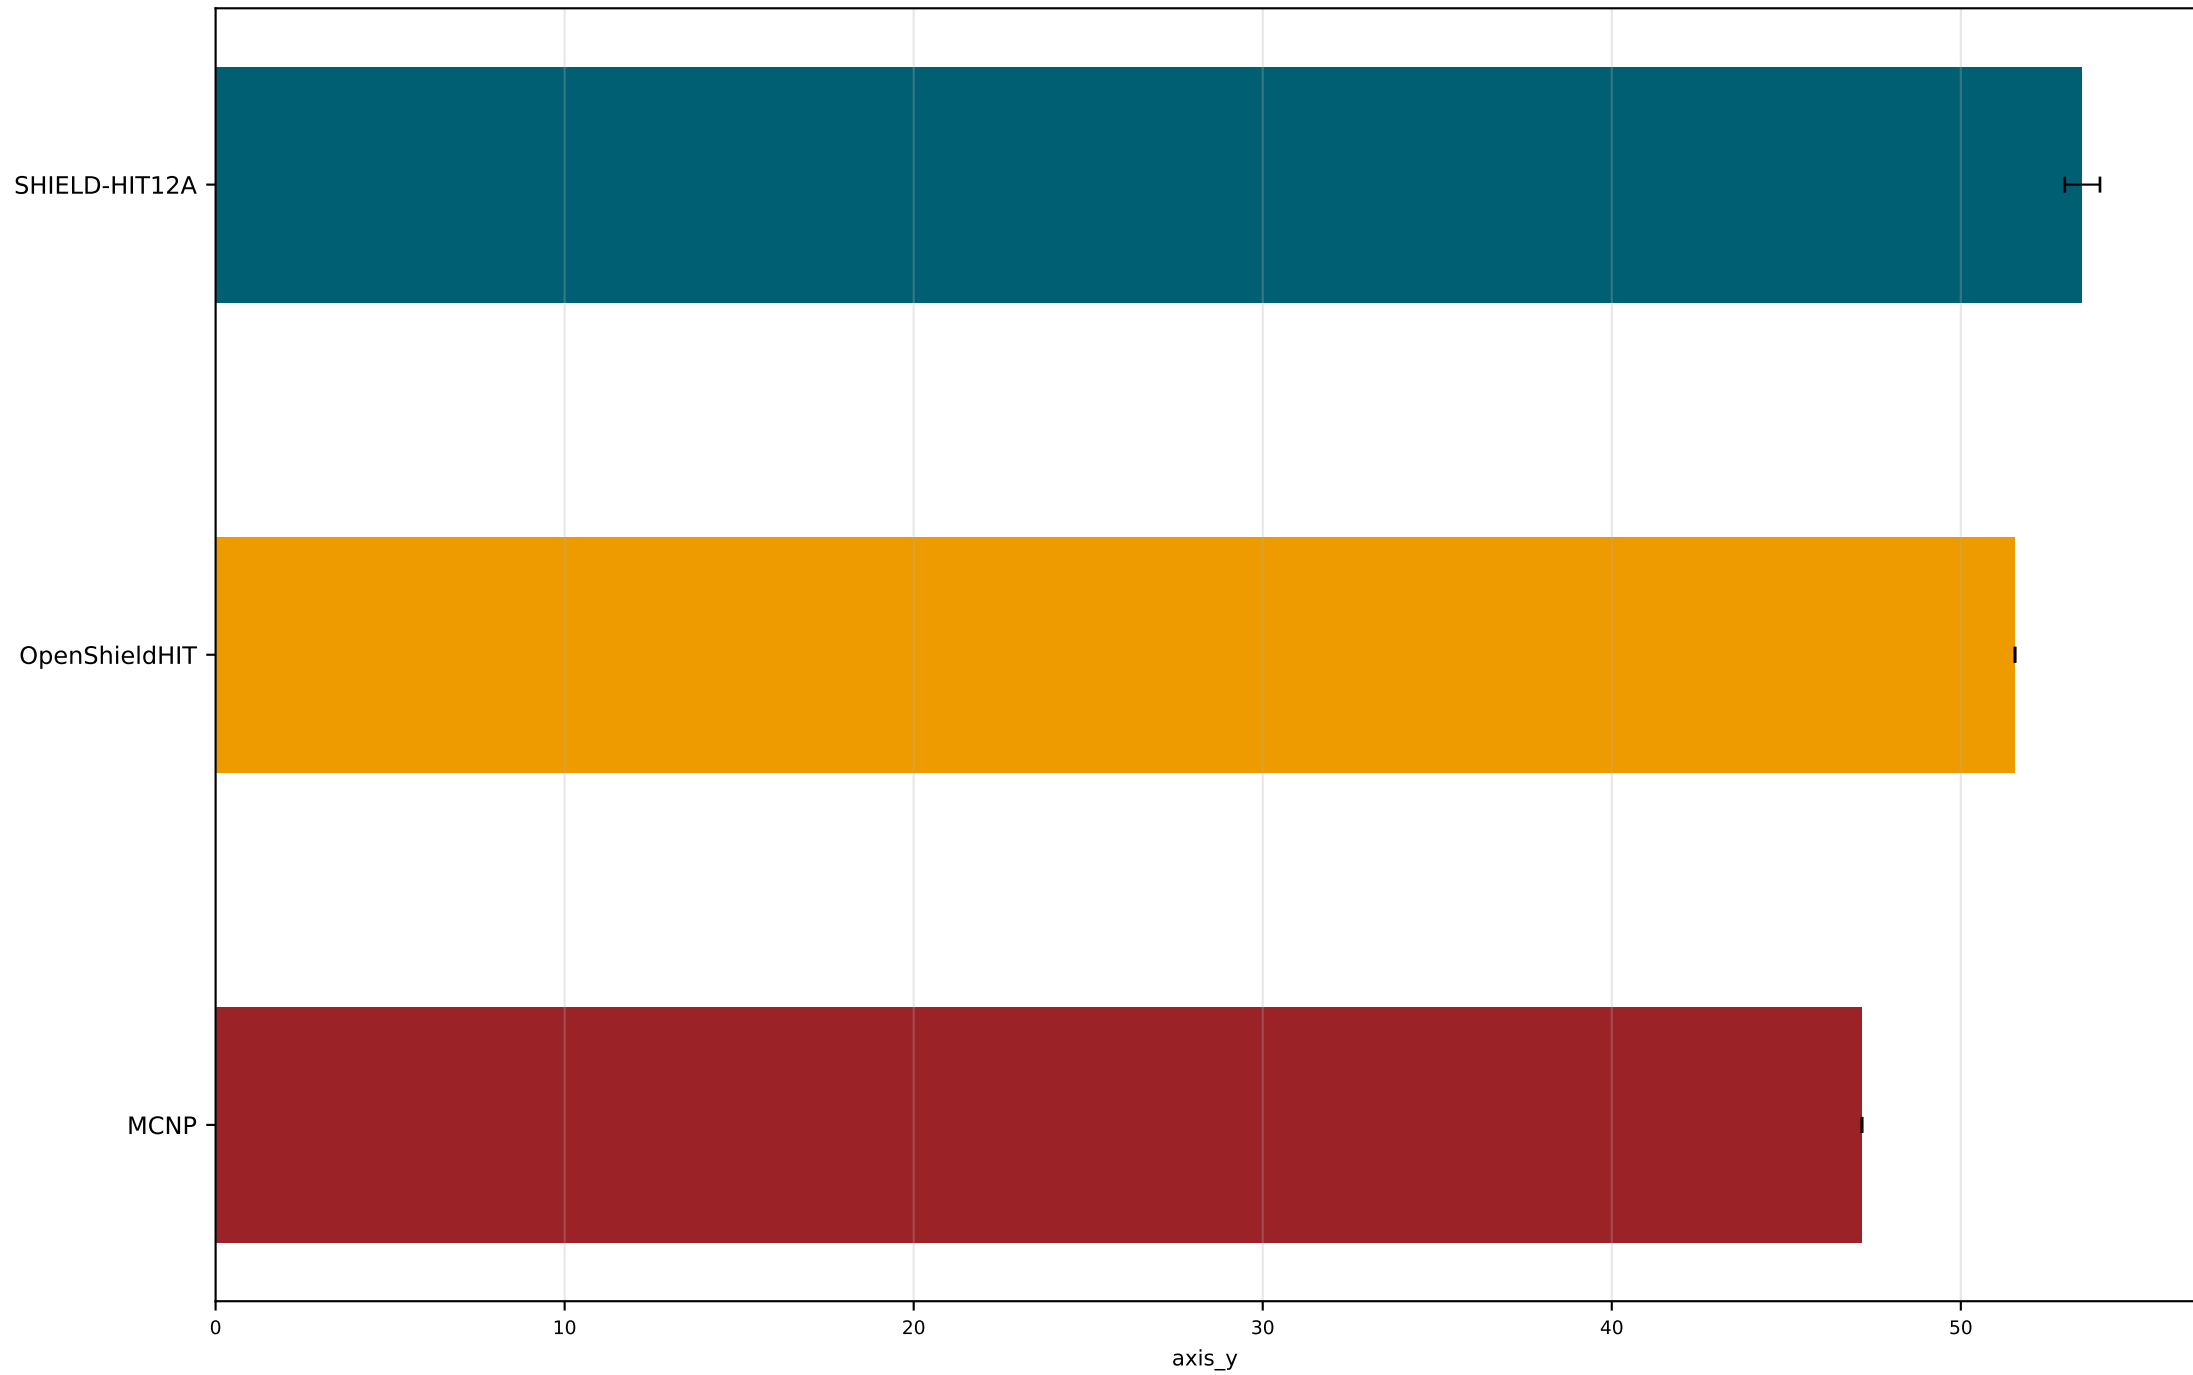

Target volume scalars — T-LET water

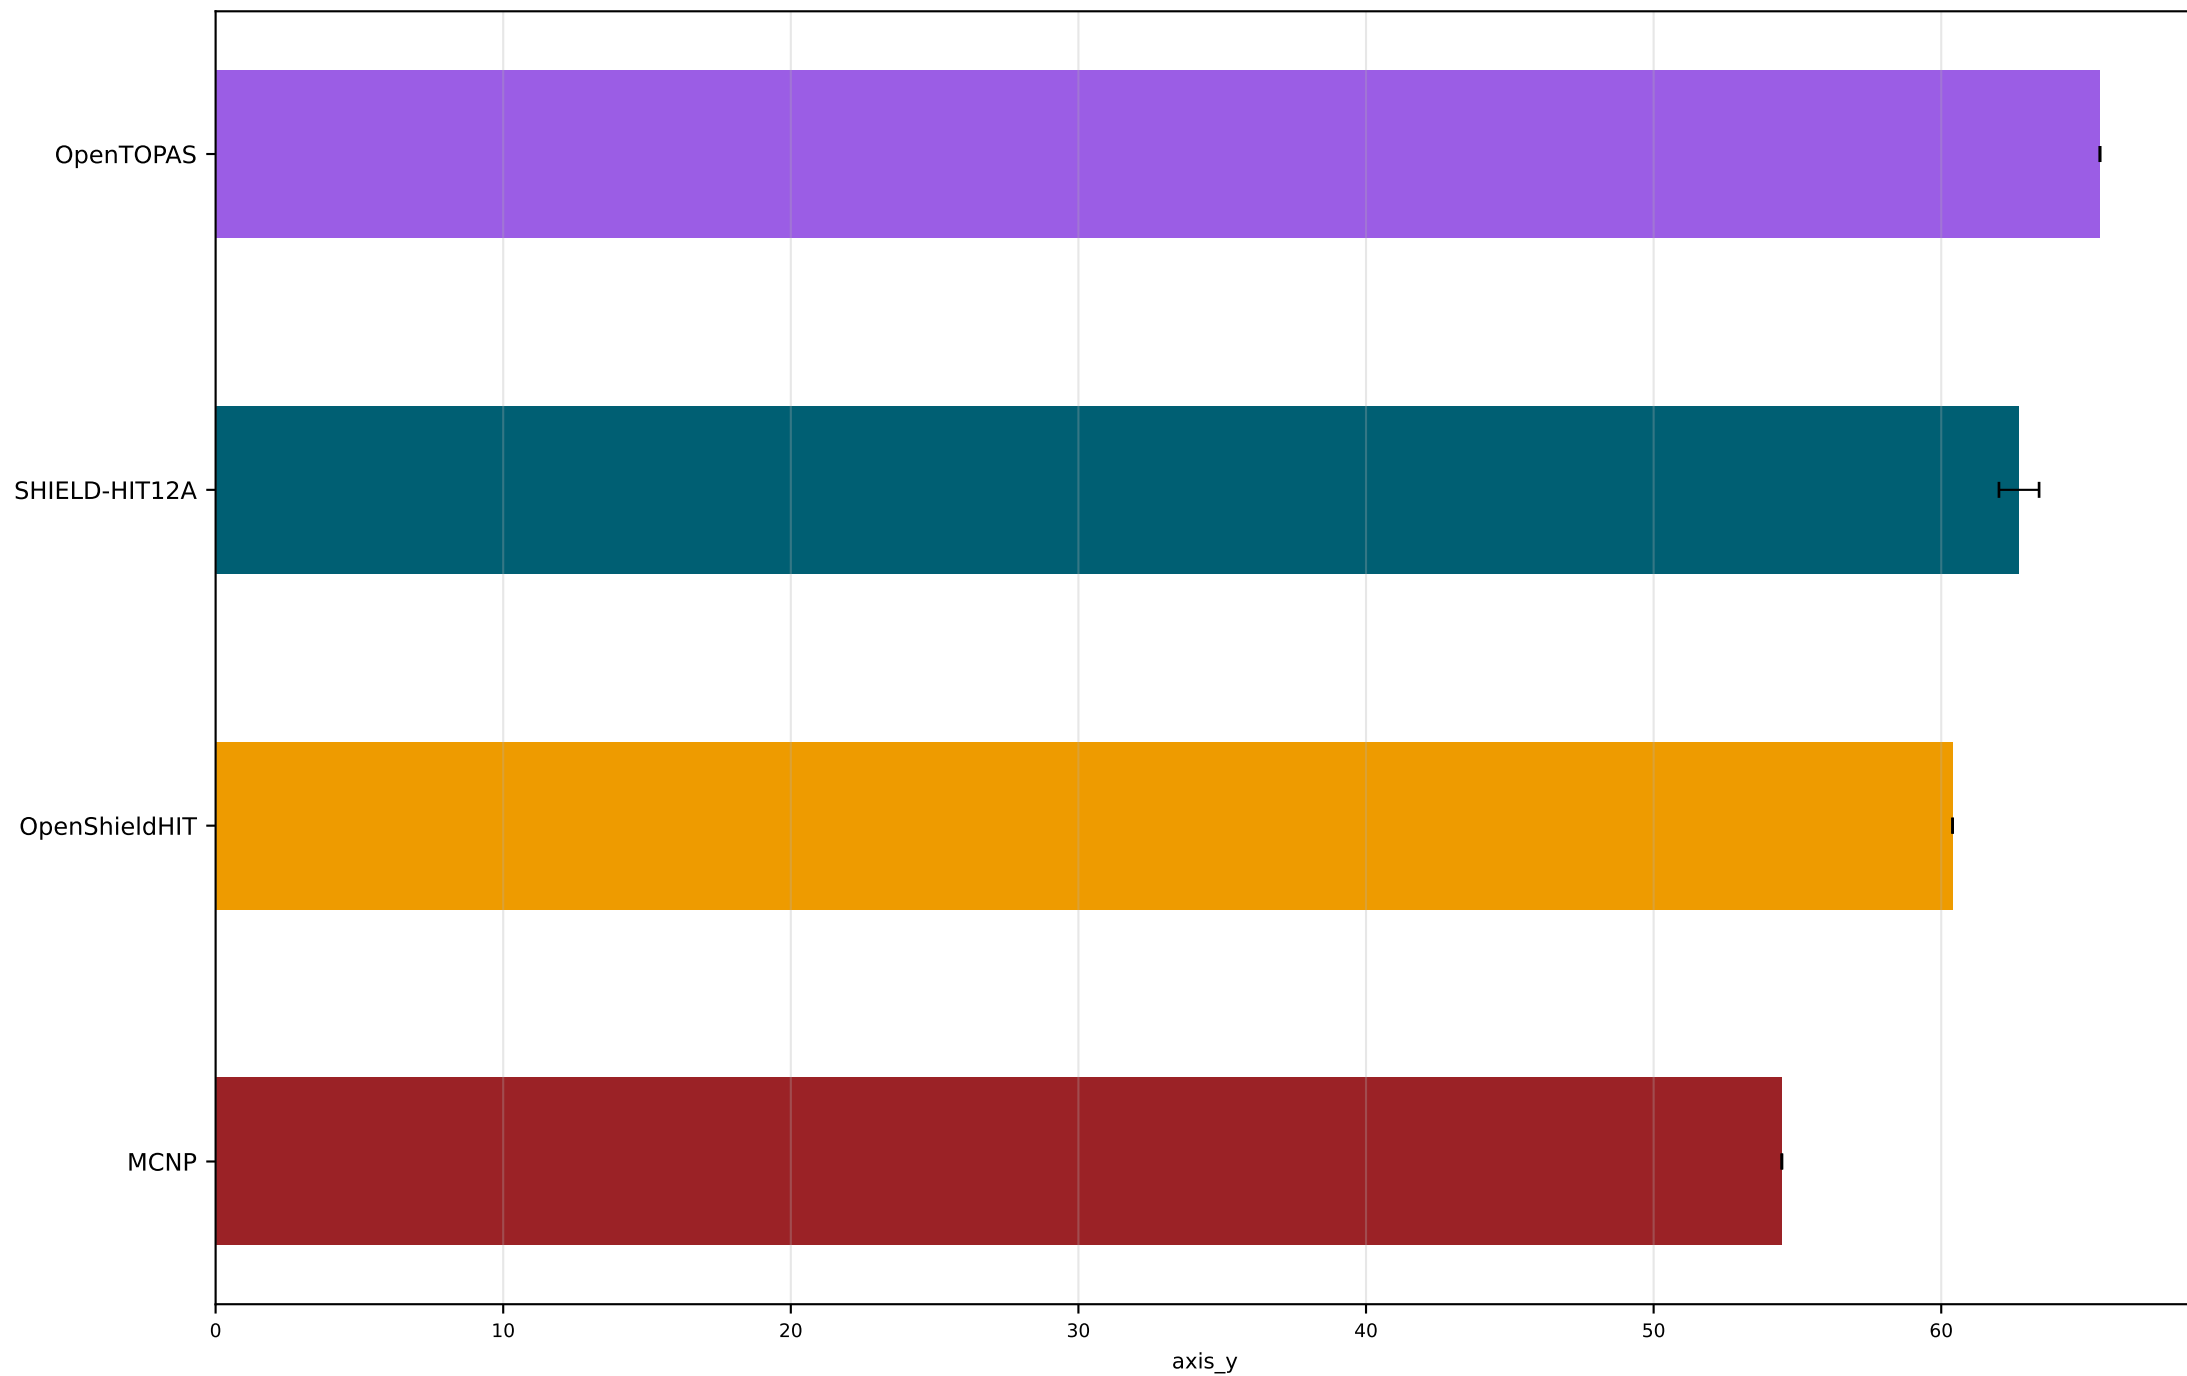

Target volume scalars — T-LET

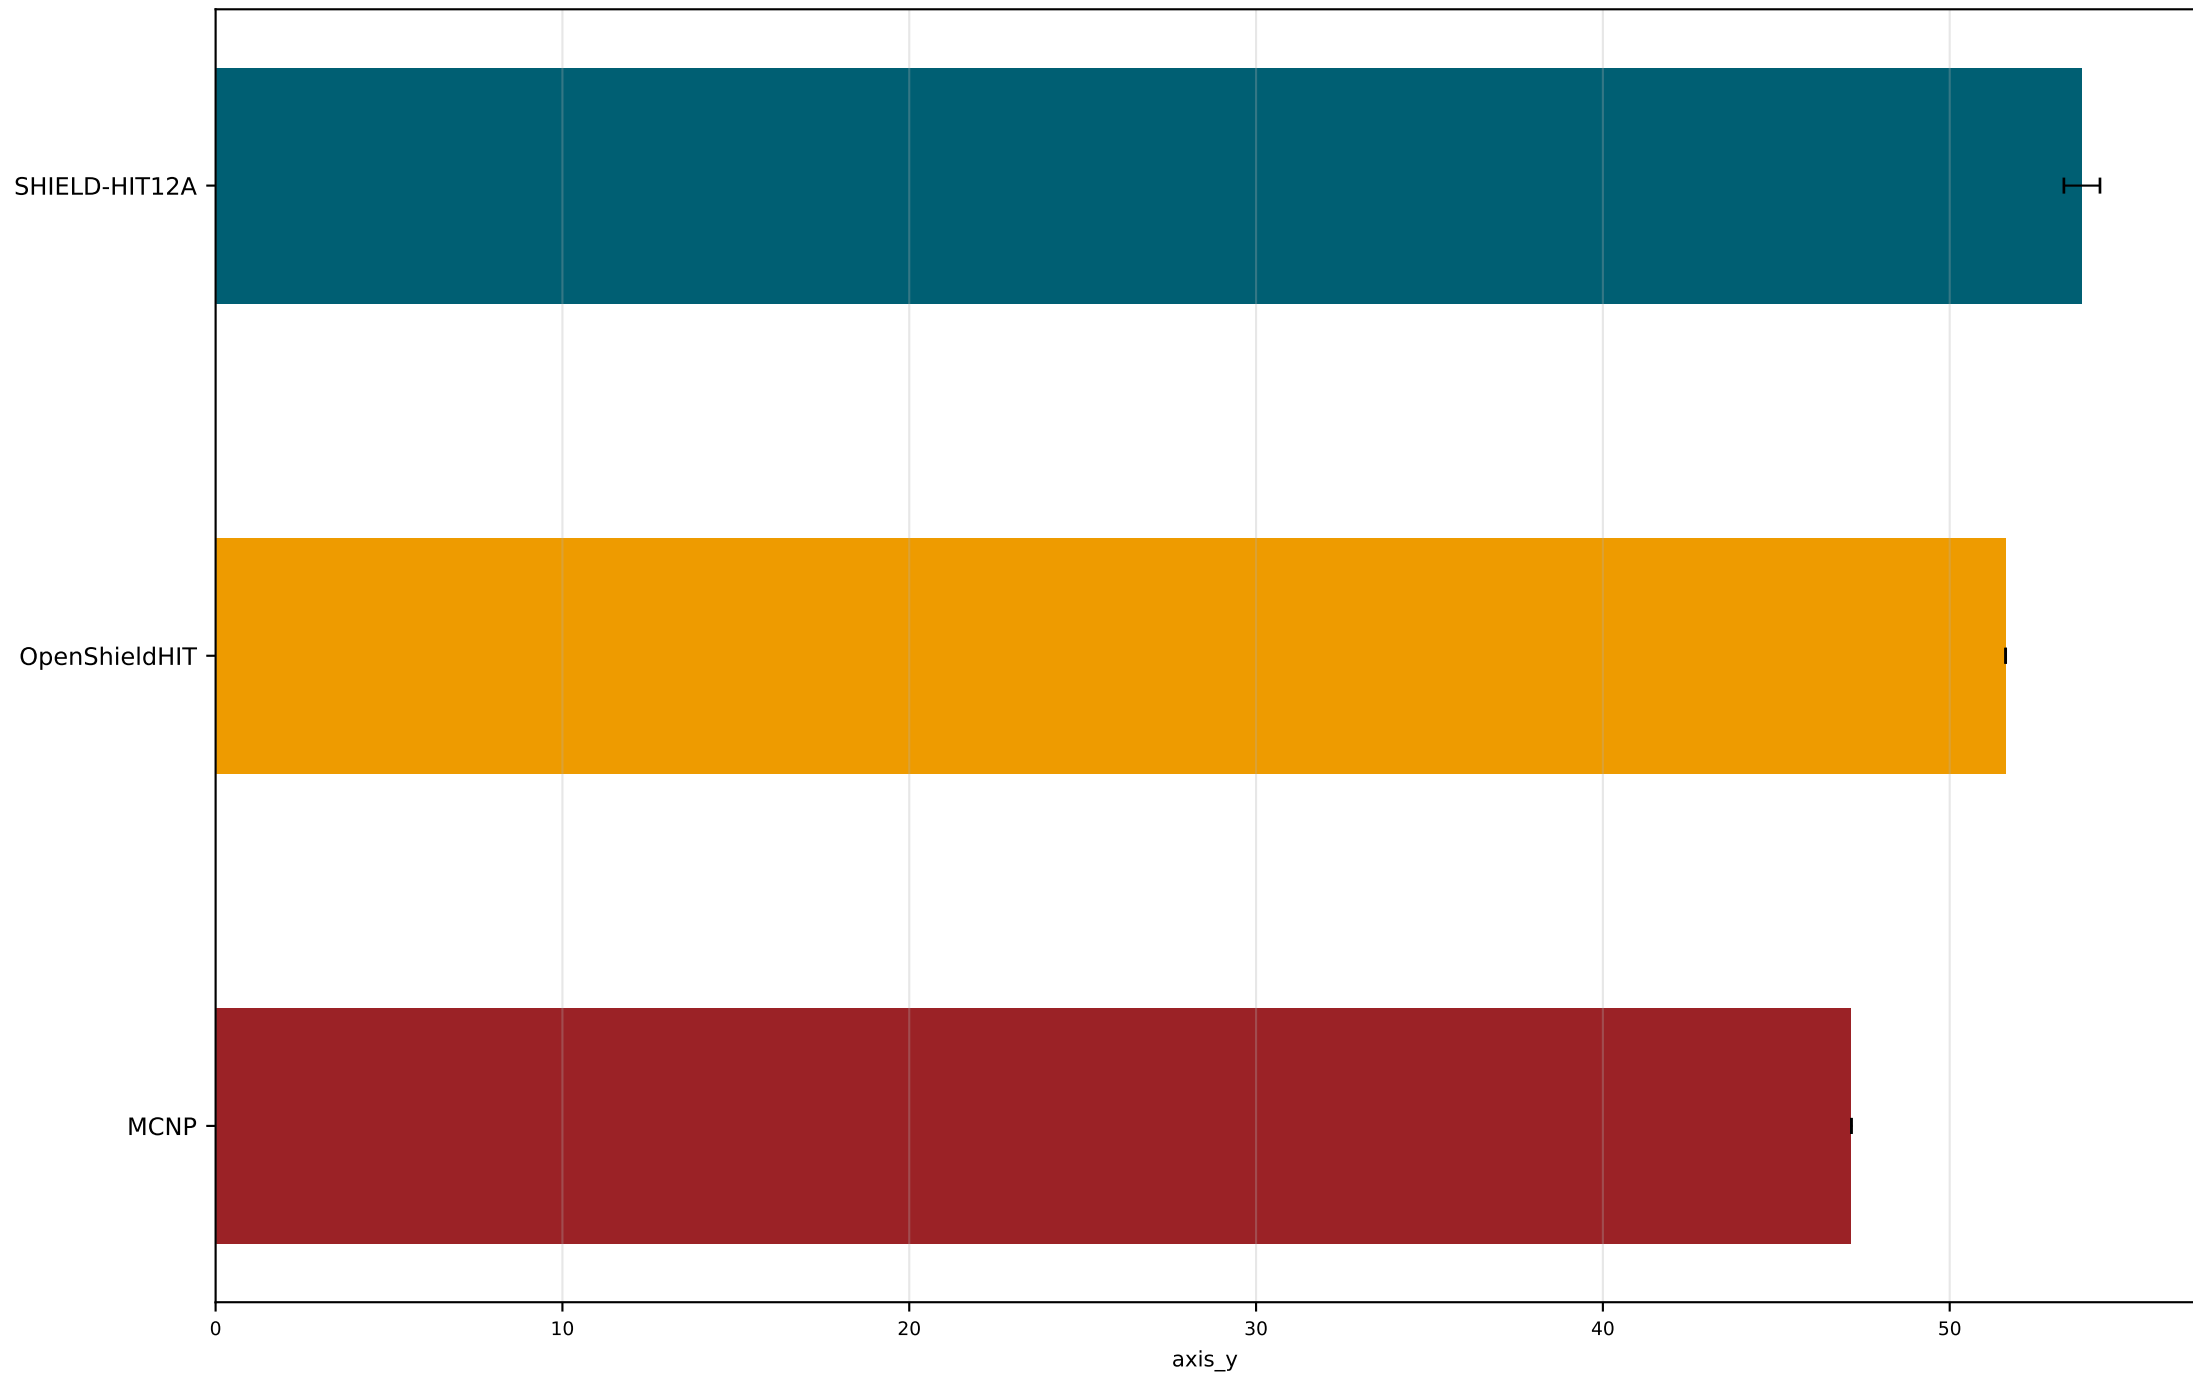

Target volume scalars — T-LET water (primary protons)

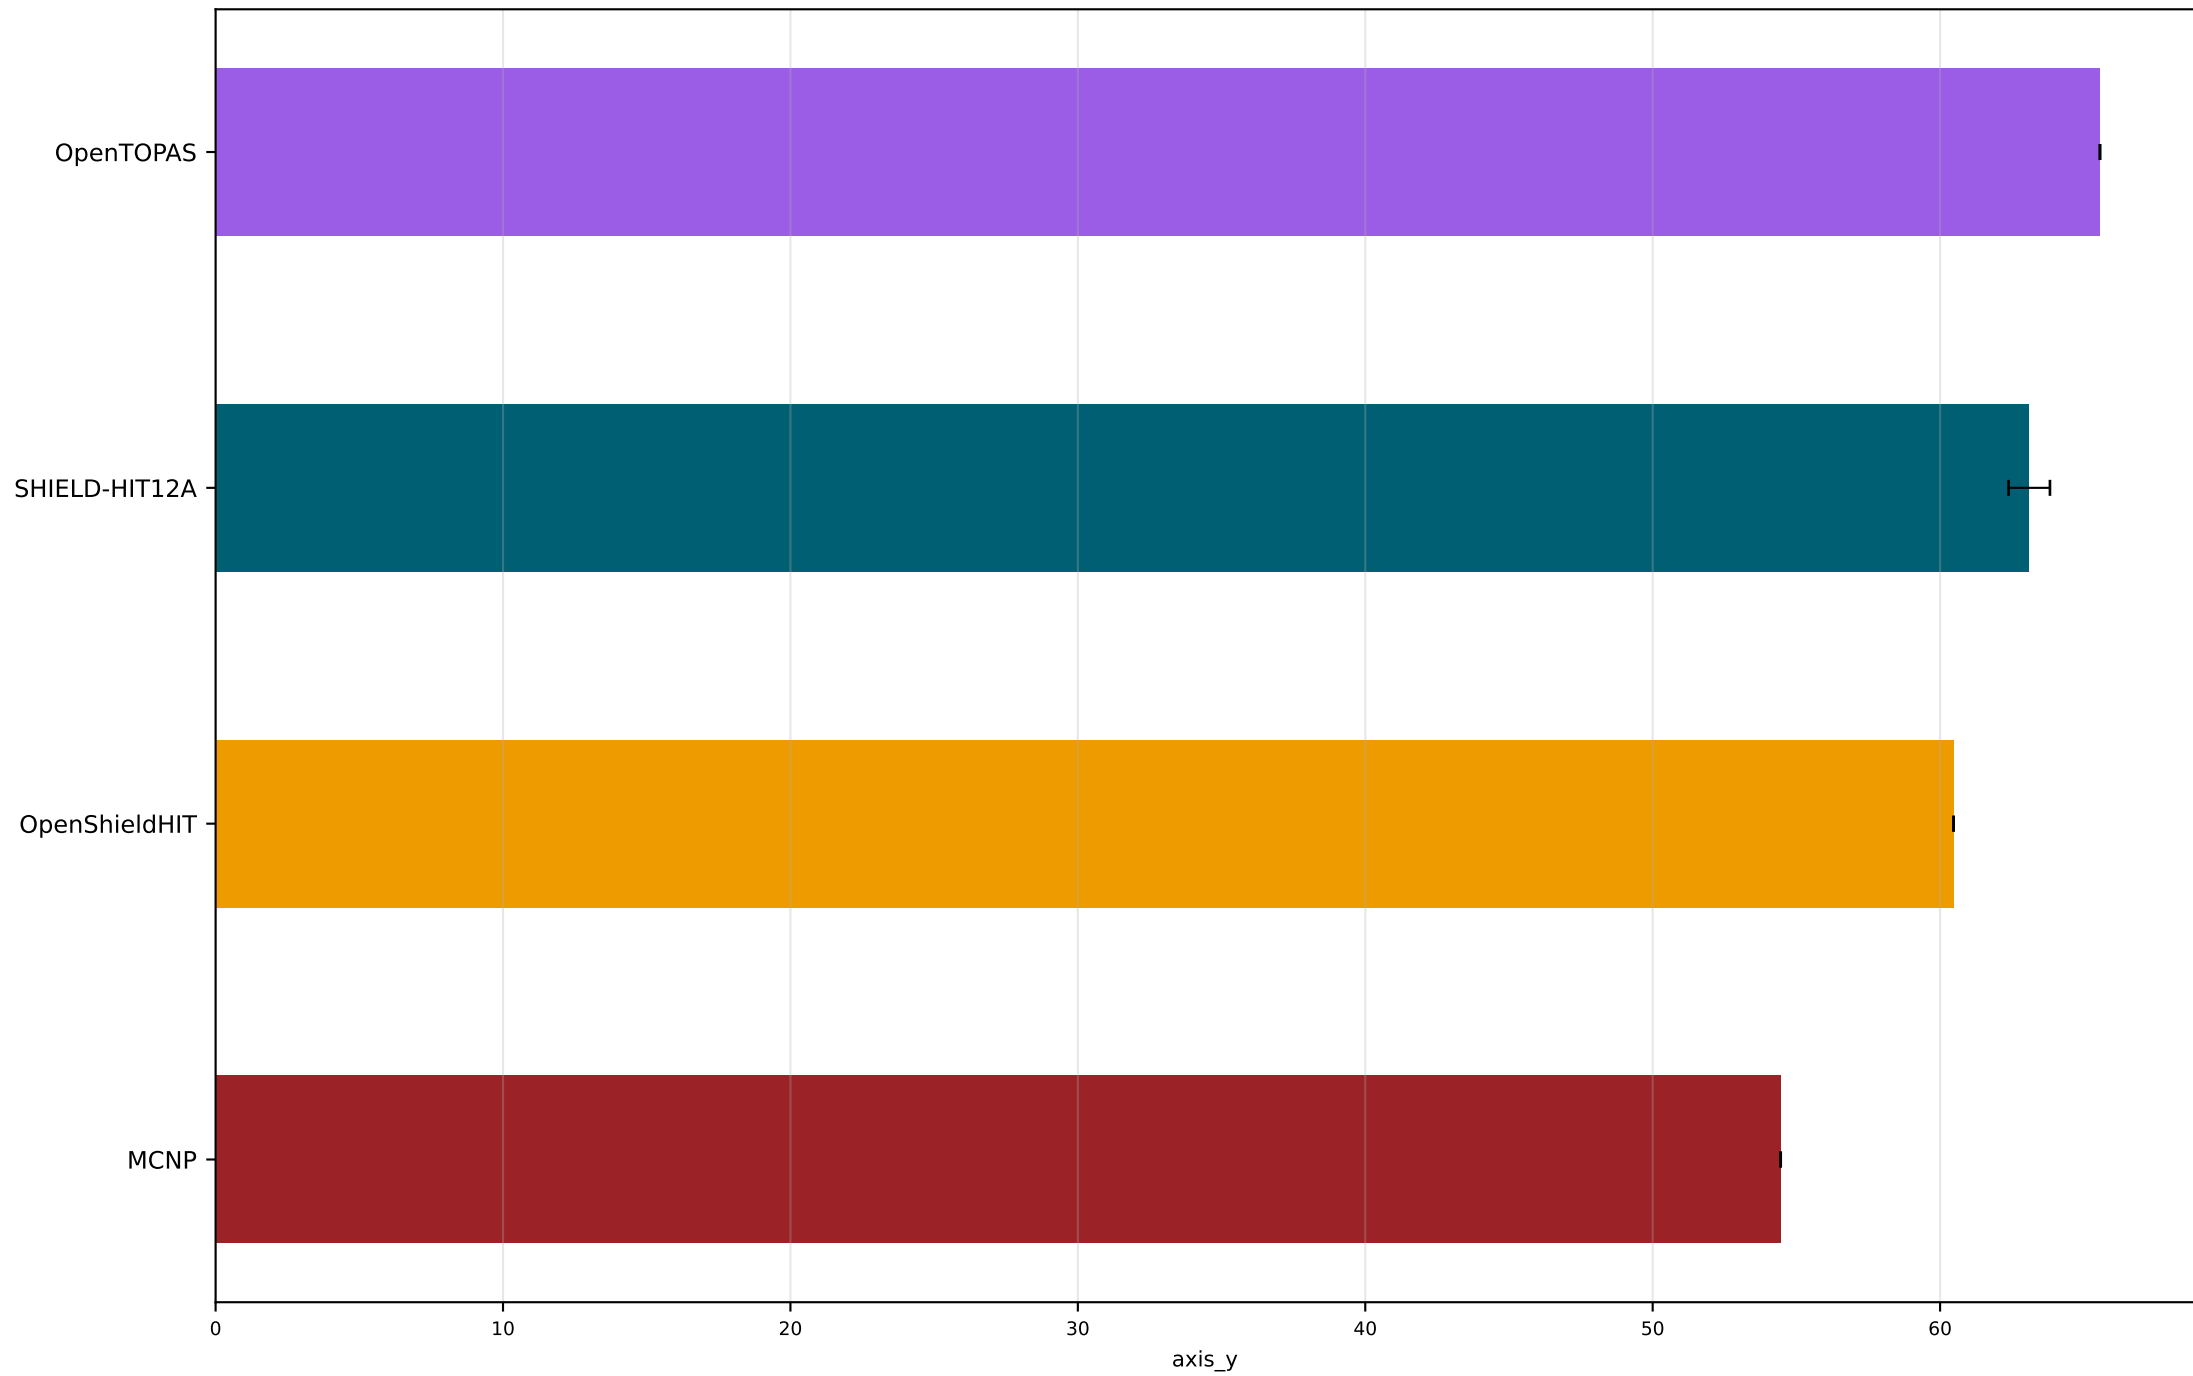

Target volume scalars — T-LET (primary protons)

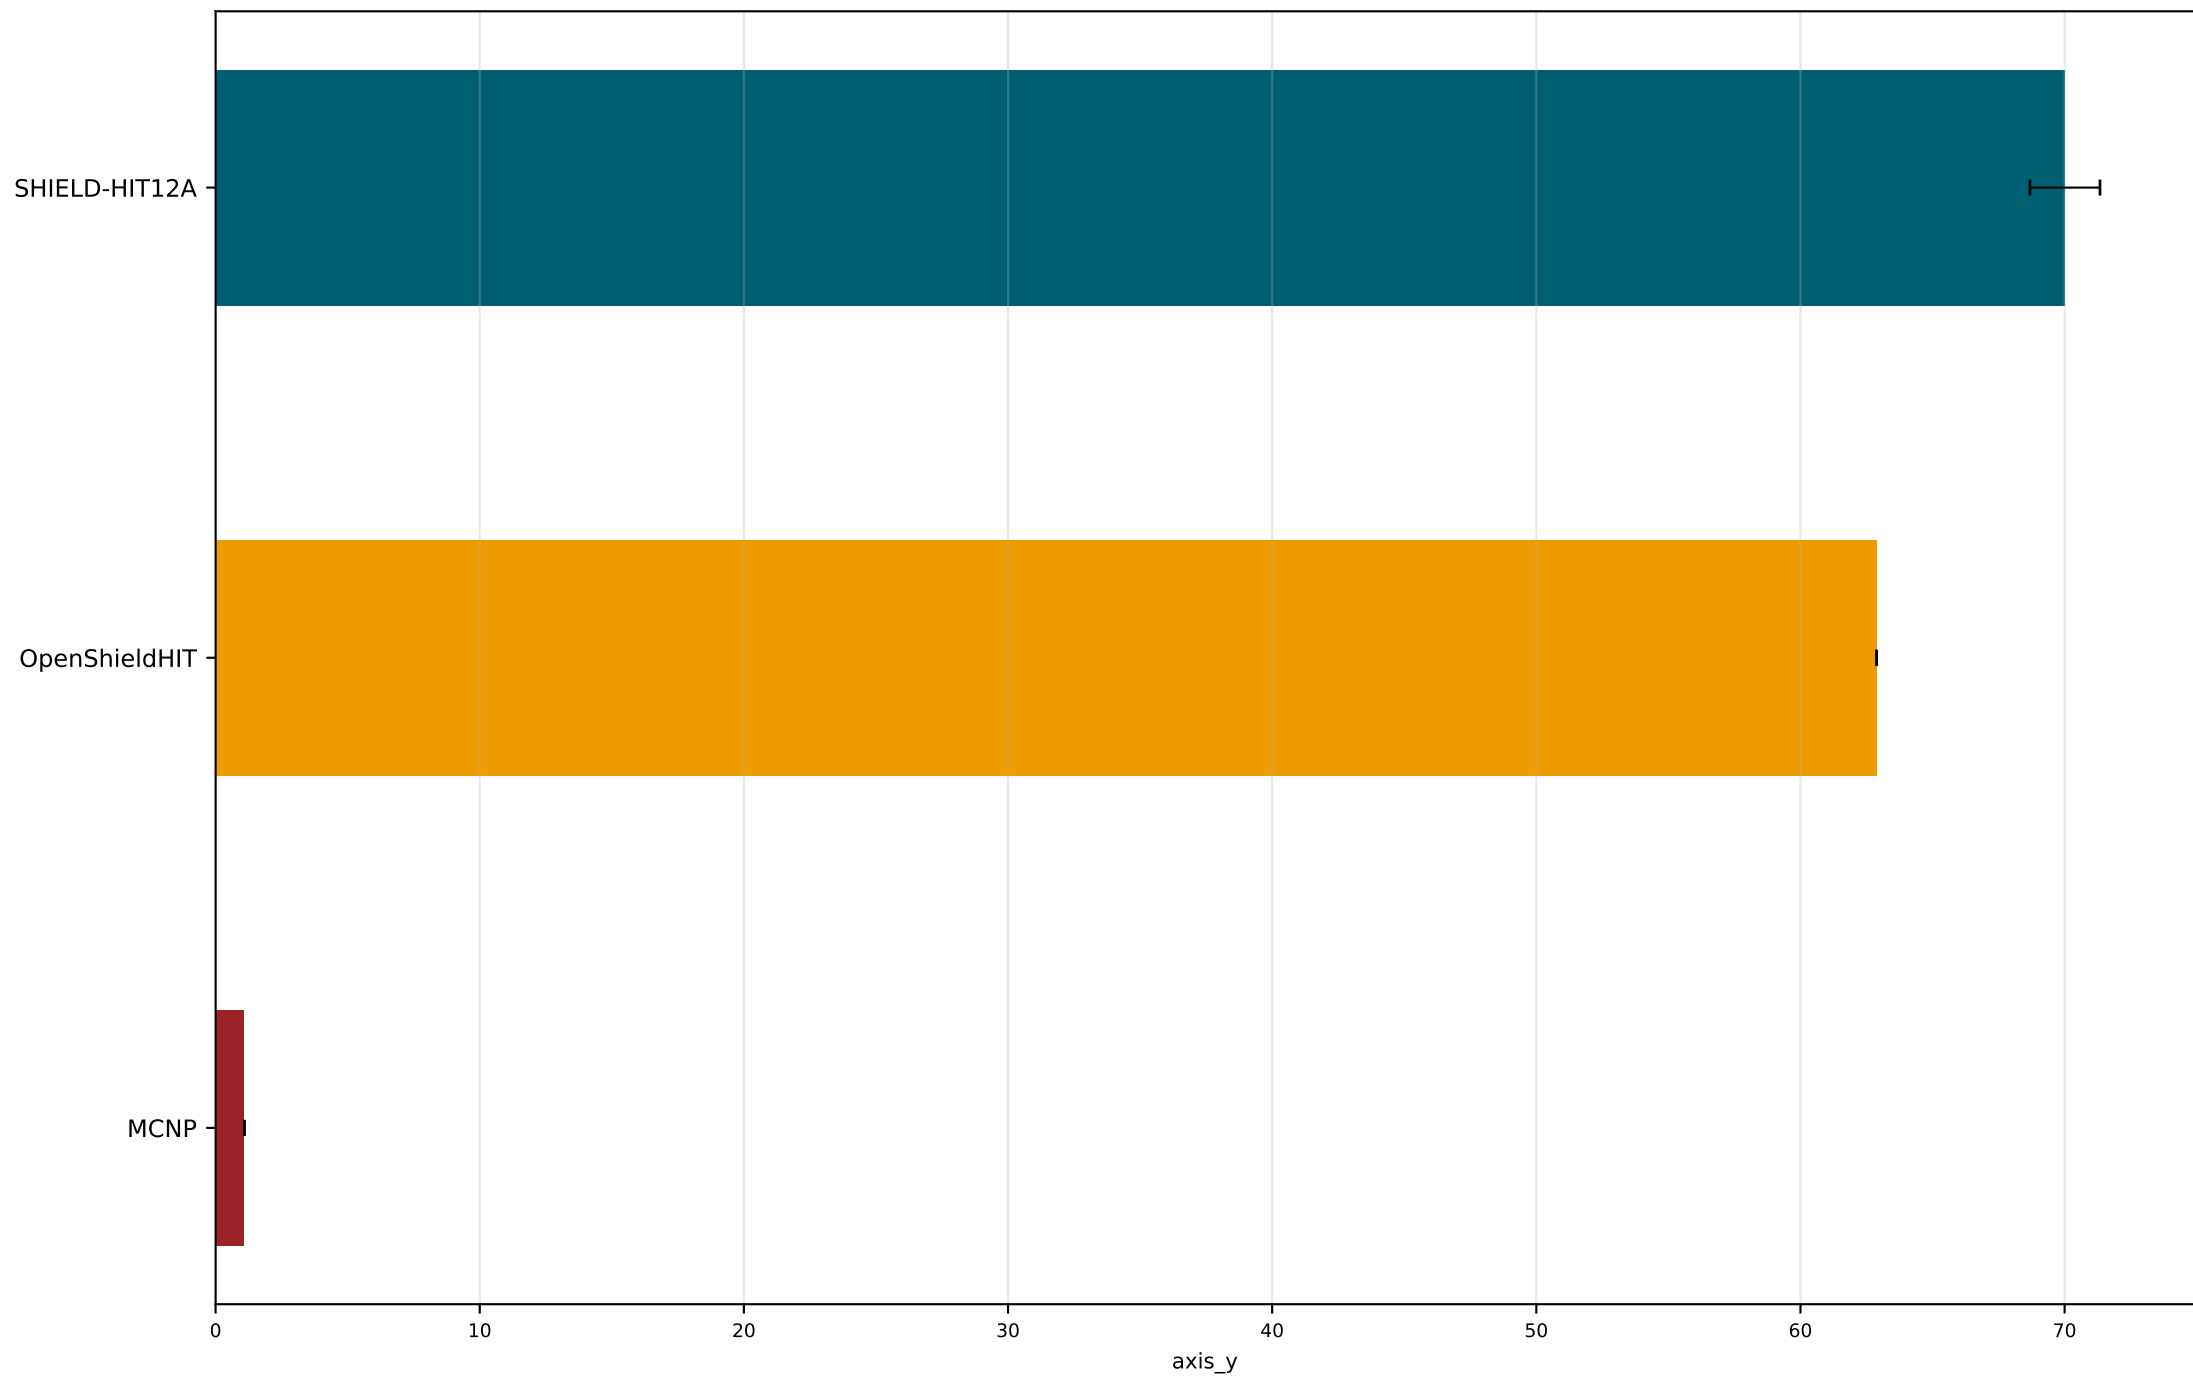

Target volume scalars — T-LET water (protons)

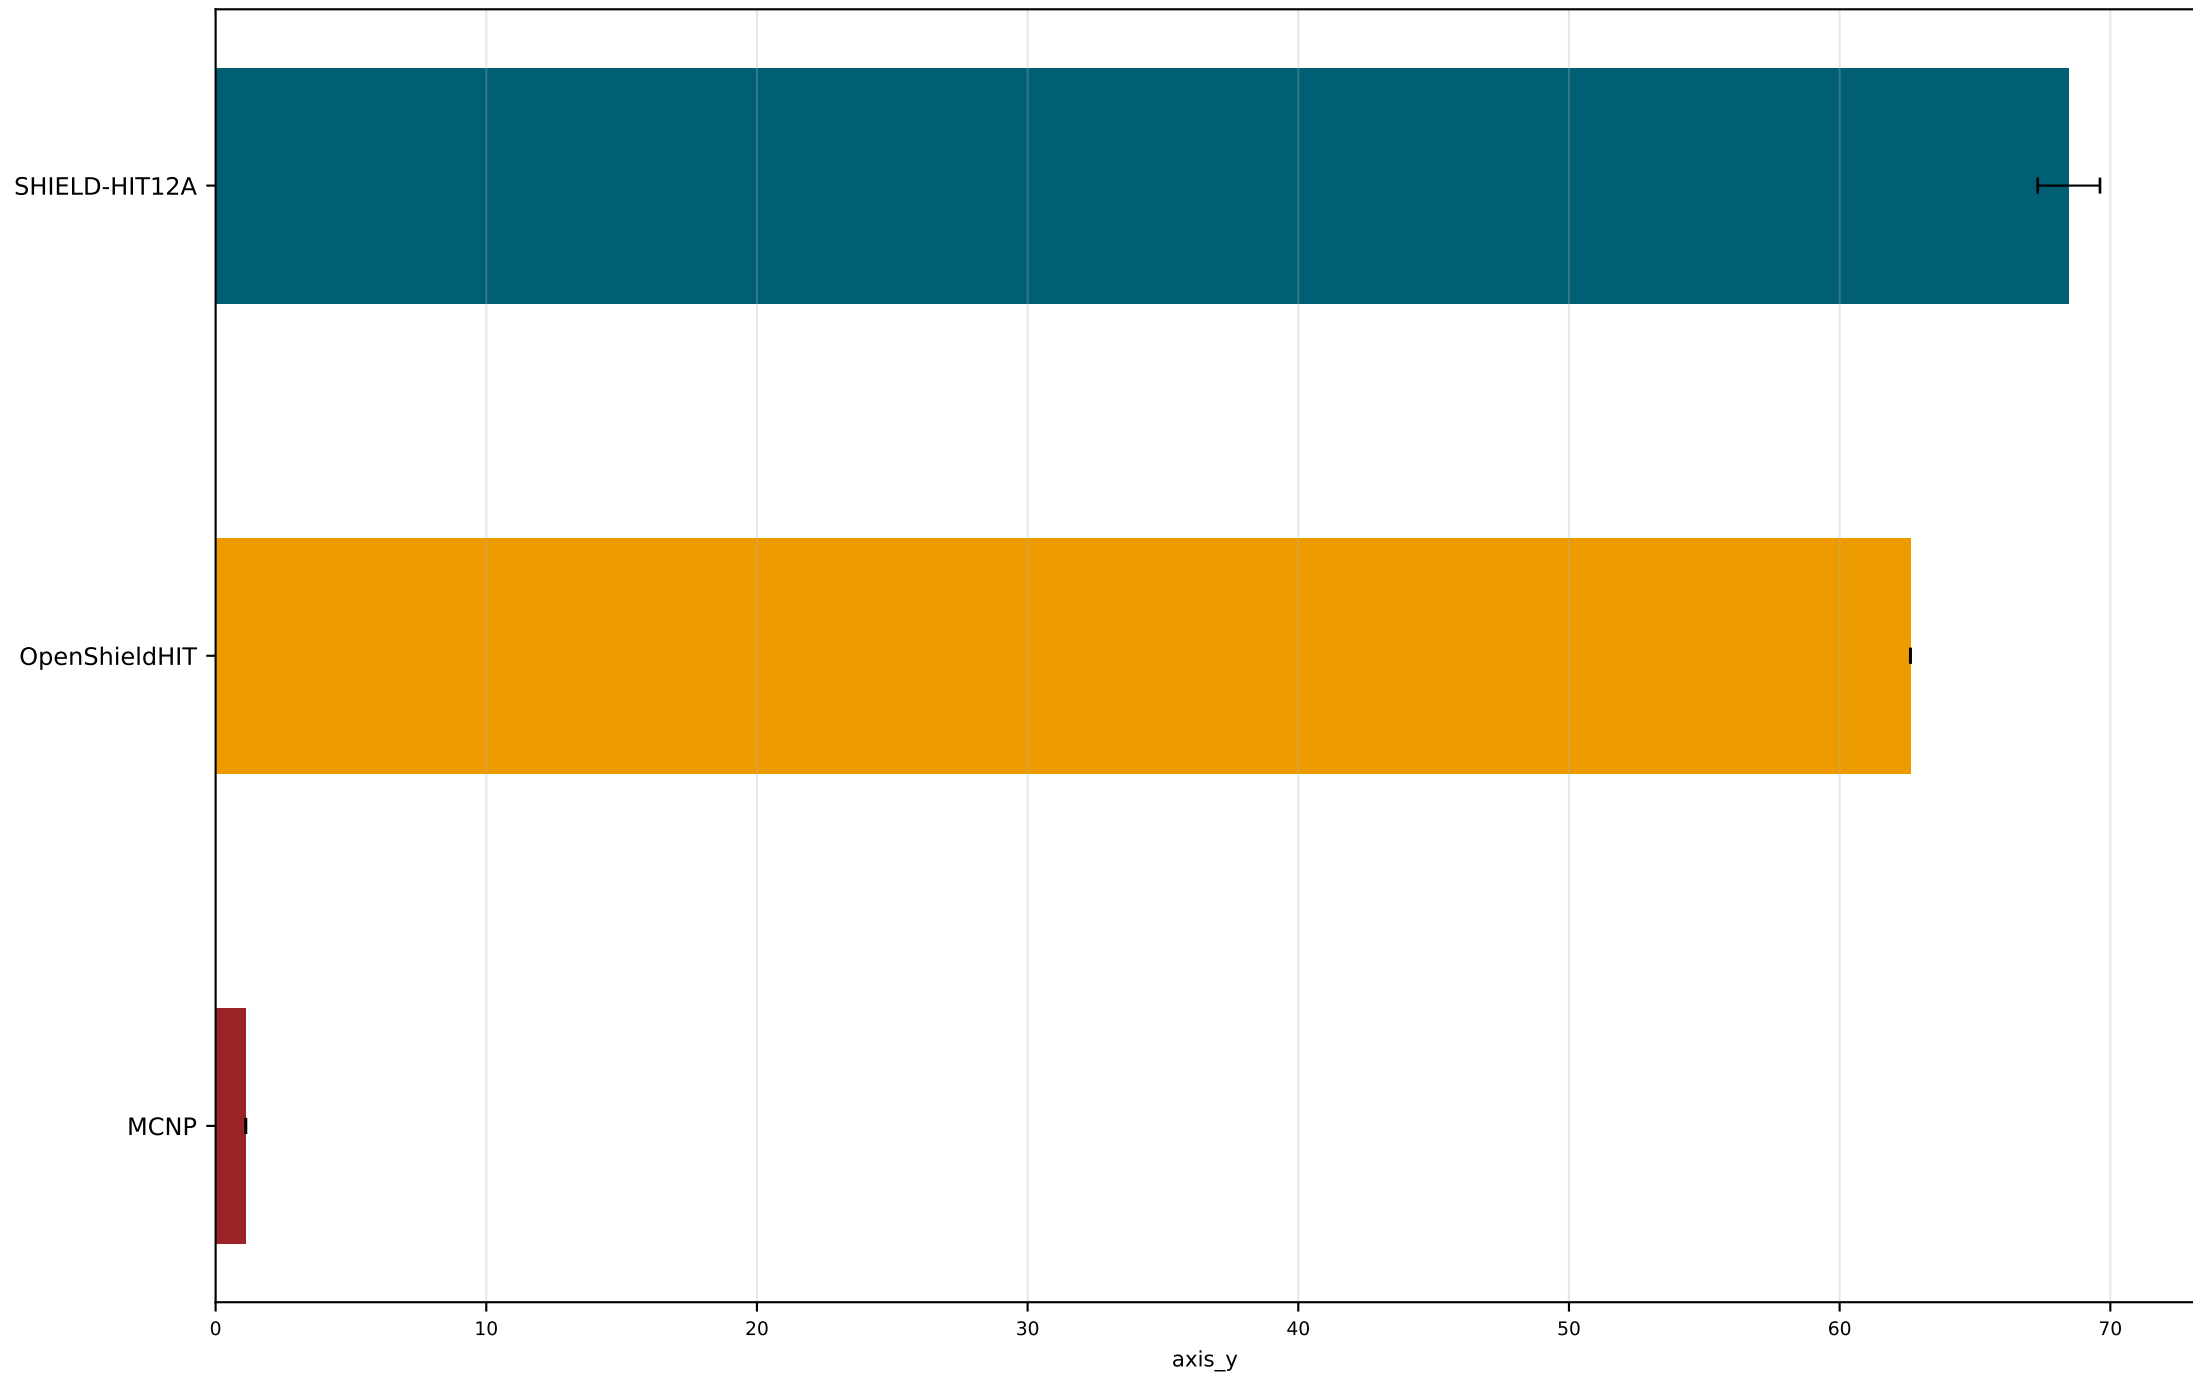

Target volume scalars — T-LET (protons)

Target volume scalars — T-Qeff

Target volume scalars — T-Qeff (primary protons)

Target volume scalars — T-Qeff (protons)
